## Local Funding Initiative Request

### Fiscal Year 2025-2026

LFIR # 1012

1. **Project Title**
2. **Senate Sponsor**
3. **Date of Request**

**4. Project/Program Description**

A statewide Preschool Emergency Alert Response Learning System, PEARLS, will provide training, options, and information on current and optional notification to protect Florida's youngest and most vulnerable children. A K-12 public school could be on lock-down due to life-threatening criminal activity such as an active shooter, while a preschool close by remains unaware of the imminent threat. Florida's early education centers are an integral part of our state's educational & economic structure - developing young minds while providing young children a safe environment so parents can work to care for their families and improve their futures. Investing in the security of these young children and their educators is critical based on the current escalation of violence in schools. PEARLS has been successfully providing direct training to our early educators since its inception in 2018, supporting them in their mission to be prepared to protect these vulnerable children in an emergency.

## Local Funding Initiative Request

### Fiscal Year 2025-2026

**LFIR # 1012**

PEARLS provides training for preschool environments to mitigate risk and save lives in emergency situations such as active shooter events. Optional implementation of a local notification system to alert preschools of imminent danger, as is currently done with K-12 schools, closing the existing training and notification gap, keeping ALL of Florida's children safe. It is essential to share how locations can use their environments and Proactive Planning to provide the safest environment possible.

**b. What activities and services will be provided to meet the intended purpose of these funds?**

The essential training will be provided through two methods, both in person training with early childhood educators in their workplace and live on-line trainings for those who cannot attend in person. Participants are provided with resources to assist as they analyze and improve their planning for emergencies. PEARLS will also utilize a Train the Trainer program an utilize collaborative partnerships to enhance community impact.

**c. What direct services will be provided to citizens by the appropriation project?**

Training on highly relevant topics including planning and preparing for critical incidents and optional notification systems for schools. This training will be provided through both in-person and on-line formats and both English and Spanish to accommodate Florida's citizens.

**d. Who is the target population served by this project? How many individuals are expected to be served?**

Preschool children and staff - approximately 850,000 individuals in the State of Florida.

**e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**

The expected benefit of PEARLS is an increased life-saving awareness of current threatening events and informed choices for action that will mitigate risk and save lives. The program is designed to support preschools and empower them with knowledge and awareness that will prompt them to have a preemptive plan of action which includes multiple options. Planning and preparation make them ready to judiciously implement their plan based on the form of danger present and change the outcome of the event thus enhancing the safety of Florida's youngest children. The program's outcome will be measured by the evaluation forms completed by participants, its successful statewide training and participation in the implementation of notification systems.

**f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?**

Possible return of funds

**14. Is this project related to mitigation, response, or recovery from a natural disaster?**  No

**a. If Yes, what phase best describes the project?**

- Mitigation (reducing or eliminating potential loss of life or property)
- Response (addressing the immediate and short-term effects of a natural disaster)
- Recovery (assisting communities return to normal operations, including rebuilding damaged infrastructure)

**b. Name of the natural disaster (or Executive Order # for events not under a federal declaration):**

**15. Has the entity applied for or received federal assistance for this project?**
