## Local Funding Initiative Request

### Fiscal Year 2025-2026

LFIR # 1105

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

Funds would be utilized to renovate and remodel 23,540 GSF of classrooms and labs, as well as add approximately 1,800 SF on Santa Fe College's NW Campus to better serve the college's academic programs by modernizing teaching spaces and adding hands-on technology in multidisciplinary art and fabrication labs. The current plan would rededicate existing spaces for foundational credit earning courses, provide students with a cutting edge academic experience, and allow for significant enrollment growth through improved space utilization. The creation of a flexible and modern teaching and training center will allow the Santa Fe to meet industry needs and build capacity for future program development.

a. What specific purpose or goal will be achieved by the funds requested?

# The Florida Senate

## Local Funding Initiative Request

### Fiscal Year 2025-2026

**LFIR # 1105**

(1) Expand instructional areas to create contemporary, collaborative teaching spaces for academic programs; (2) Enhance existing space to grow teaching and learning opportunities by combining student work with individual and small group spaces that integrate cross-disciplinary exposure and collaboration; (3) Modernize equipment and technology to ensure students have access to the latest tools and software essential to develop 21st century innovation skills for contemporary art practices, including a state of the art Fabrication Space.

**b. What activities and services will be provided to meet the intended purpose of these funds?**

Offer classes and workshops in various disciplines, fostering skill development that is transferable to subjects such as math, science, and language. Collaboration between faculty and students, enriching the learning experience and fostering community engagement. Creating exhibitions will engage the community and contribute locally, and outreach initiatives will provide resources to under served populations and K-12 schools in the area.

**c. What direct services will be provided to citizens by the appropriation project?**

Access to expanded learning opportunities through larger and better-equipped education spaces, leading to improved skill development and creative output; enhanced opportunities for students to gain educational exposure and valuable real-world experience in showcasing their work; access to modern technology and equipment to prepare students for the digital age; increased cultural enrichment opportunities for students and guests; and workforce development through exposure to state of the art technologies that bolster job placement and events that provide for business networking.

**d. Who is the target population served by this project? How many individuals are expected to be served?**

The project will serve approximately 2,500 students on an annual basis. Additionally, all Santa Fe students will have access to the fabrication lab, and the general public will benefit from cultural events hosted at the space.

**e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**

This project would facilitate skill building and workforce development. It will increase student enrollment and provide a high-tech platform for collaboration with campus and community partners. Santa Fe anticipates improved student achievement due to increased access to state-of-the-art facilities, leading to higher graduation rates and post-graduation success, and greater community engagement. These outcomes will be measured by tracking enrollment and student success during coursework and after graduation, local economic impact studies, and the documentation of projects, exhibitions, events, workshops and partnerships.

**f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?**

Failure to meet deliverables would result in a return of funding to the state.

**14. Is this project related to mitigation, response, or recovery from a natural disaster?**

**a. If Yes, what phase best describes the project?**

- Mitigation (reducing or eliminating potential loss of life or property)
- Response (addressing the immediate and short-term effects of a natural disaster)
- Recovery (assisting communities return to normal operations, including rebuilding damaged infrastructure)

**b. Name of the natural disaster (or Executive Order # for events not under a federal declaration):**

**15. Has the entity applied for or received federal assistance for this project?**

- Yes, Applied
- Yes, Received
