LFIR # 1220

Cleanup and mitigation of hurricane damaged pilot station. Construction of new resilient Pilot Station which upon completion will allow the Tampa Bay Pilot Association to provide a statutorily mandated modern, resilient pilotage operation to the ports and citizens of the Tampa Bay region. Ensuring expedited return to business after hurricane events to facilitate inbound vessel transits to replenish regional motor and aviation fuel supply. b. What activities and services will be provided to meet the intended purpose of these funds? Reliable pilotage service for all vessels calling within the Ports of Tampa Bay. c. What direct services will be provided to citizens by the appropriation project? Supply of motor and aviation fuels. Supply of materials, good and fresh produce to the region. Timely, reliable pilotage services. d. Who is the target population served by this project? How many individuals are expected to be served? Target population are the citizens of west central Florida, over 9 million residents as well as the tourist population. Vessel owners and operators. Port Authorities within Tampa Bay. e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured? The benefit will be a dependable, sustained pilotage operation for decades to come, able to quickly return to business after storm events or other natural disasters. Reliable pilotage service for vessel owners and operators that provides efficient, timely transits from sea to berth which translates into significant cost savings for those customers. Port-wide economic benefits that make ports within Tampa Bay more competitive. f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract? We are regulated under FS 310 and required by statute to provide a modern, reliable pilotage operation. Failure to meet the statutory requirement and any penalty thereof would be determined by the Department of Business and Professional Regulation. 14. Is this project related to mitigation, response, or recovery from a natural disaster? Yes a. If Yes, what phase best describes the project? Mitigation (reducing or eliminating potential loss of life or property) Response (addressing the immediate and short-term effects of a natural disaster) $\mathbf{\nabla}$ Recovery (assisting communities return to normal operations, including rebuilding damaged infastructure) b. Name of the natural disaster (or Executive Order # for events not under a federal declaration): Hurricane Helene and Hurricane Milton 15. Has the entity applied for or received federal assistance for this project? ☐ Yes, Applied ☐ Yes, Received ☑ No
