The project will involve installation of new water mains to ensure improved water service and reliability. The funds will also support ongoing engineering services during the construction phase.

c. What direct services will be provided to citizens by the appropriation project?

The project will provide citizens with improved water pressure, enhanced service reliability, increased water quality, and reduced risks of water main failures or service disruptions.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population includes residents, businesses, and visitors in the central corridor, located one mile south of Fort Lauderdale Hollywood airport and adjacent to the Federal Highway/US-1 corridor. An estimated 4,000 individuals will be impacted through improved water services.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The expected outcomes include reduced service disruptions, improved water quality, and increased capacity for future development. These will be measured through system performance data (e.g., reduced repair incidents) and unhindered development in the Arts and Entertainment District.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Grant suspension - temporarily halt funding until compliance issues are resolved
 Corrective action plans - require submittal of detailed plan to address shortcomings before grant can continue
 Training mandates - require staff to attend training programs on grant compliance
