Local Funding Initiative Request

Fiscal Year 2025-2026

LFIR # 1490

1. **Project Title**
2. **Senate Sponsor**
3. **Date of Request**

4. Project/Program Description

The intersection of Maitland Avenue and Horatio Avenue is one of the busiest in Maitland. This intersection is a key to moving traffic through and within the city. The current traffic signal is supported by a cable system. This is the last intersection within the downtown area to have a cable supported system. Cable systems are much less resilient than mast arm signals. All mast arms signals within the city have sustained no damage during storm events. Cable systems have shown failure.

Construction of a mast arm signal will eliminate the need for a police officer to provide traffic control at the intersection when failure occurs. This will allow the officer to remain actively on duty during and after storm events.

d. Who is the target population served by this project? How many individuals are expected to be served?

All 20,000 citizens of Maitland and the business community plus all residents that travel through the city on a daily basis.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Construction of a mast arm signal will eliminate the need for a police officer to provide traffic control at the intersection when failure occurs. This will allow the officer to remain actively on duty during and after storm events.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?
