Fiscal Year 2025-2026

LFIR # 1517

The goal of this project is to mitigate flooding and deficiencies of the roadways and drainage infrastructures in the project area. This project intends to increase the capacity of the existing stormwater infrastructure and the nearby pump station (Lake Belmar Pump Station), optimizing its operation, and impact the water quantity and quality in the C-7 watershed basin in Miami-Dade County.

b. What activities and services will be provided to meet the intended purpose of these funds?

Mitigate flooding and deficiencies of the roadways and drainage infrastructures in the project area.

c. What direct services will be provided to citizens by the appropriation project?

Flood protection services.

d. Who is the target population served by this project? How many individuals are expected to be served?

This project will serve the general public, providing better stormwater drainage that can improve the lives of thousands of residents.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Mitigate flooding by improving the stormwater drainage infrastructure. Measured by decrease in number of flood complaints, and decrease in the standing water depth during heavy rain fall.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Failure to meet deliverables will result in nonpayment.

14. Is this project related to mitigation, response, or recovery from a natural disaster?

a. If Yes, what phase best describes the project?
