

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2025-2026

LFIR # 1744

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

This project aims to reduce areas of standing water following significant rainfall by installing underground stormwater infrastructure. Both streets are frequently overwhelmed by water runoff from the northern ends of town. Reconstruction of up to 12 residential driveways are included in the scope, repairing damage from standing water, and addressing issues such as damaged culverts. An existing sump pump serving as a lift station on Meadow Lane is often overwhelmed during heavy rainfall, which would benefit from the installation of underdrains.

5. State Agency to receive requested funds

State Agency contacted?

6. Amount of the Nonrecurring Request for Fiscal Year 2025-2026

Type of Funding	Amount
Operating	10,000
Fixed Capital Outlay	540,000
Total State Funds Requested	550,000

7. Total Project Cost for Fiscal Year 2025-2026 (including matching funds available for this project)

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	550,000	73%
Matching Funds		
Federal	0	0%
State (excluding the amount of this request)	0	0%
Local	200,000	27%
Other	0	0%
Total Project Costs for Fiscal Year 2025-2026	750,000	100%

8. Has this project previously received state funding?

If yes, provide the most recent instance:

Fiscal Year (YYYY-YY)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		

9. Is future-year funding likely to be requested?

a. If yes, indicate nonrecurring amount per year.

b. Describe the source of funding that can be used in lieu of state funding.

Complete questions 10 and 11 for Fixed Capital Outlay Projects

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2025-2026

LFIR # 1744

10. Status of Construction

a. What is the current phase of the project?

- Planning
 Design
 Construction
 N/A

b. Is the project "shovel ready" (i.e permitted)? No

c. What is the estimated start date of construction? 08/01/2025

d. What is the estimated completion date of construction? 09/30/2026

e. What funding stream will be used for ongoing operations and maintenance of the project?

Revenue generated from property tax.

11. List the owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

City of San Antonio: Owners of Palm Street and Meadow Lane

12. Details on how the requested state funds will be expended

Spending Category	Description	Amount
Administrative Costs:		
Executive Director/Project Head Salary and Benefits		0
Other Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study	Administrative costs will be incurred by legal counsel for drafting of contacts awarded to potential bidders for work on the project. Additional assistance will be required for documentation such as warranties and bonds on construction.	10,000
Operational Costs		
Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Fixed Capital Construction/Major Renovation:		
Construction/Renovation/Land/Planning Engineering	An engineering consultant will be retained to review proposed grading and construction plans for drainage structures. The consultant will assist with preparing necessary bid documents with reference to the scope of work. On site inspections throughout the construction process will also be required. Primary expenses at this phase will be incurred from construction performed by contractors of the drainage structures and surface restoration.	540,000
Total State Funds Requested (must equal total from question #6)		550,000

13. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2025-2026

LFIR # 1744

Existing drainage structures that have become less efficient over time due to weather, vegetative growth, construction, and normal wear and tear will be rehabilitated to minimize pooling water in residential areas. Optimized drainage structures will allow for more consistent drainage into designated areas, and will allow for more efficient maintenance by city staff in the future. Integrity of structures such as roads, sidewalks, and residential driveways will be prolonged.

b. What activities and services will be provided to meet the intended purpose of these funds?

Throughout the construction process, and upon completion, San Antonio Public Works Department will continue with regular maintenance of the rehabilitated structures to ensure the structures remain operation and maintained to mitigate damage.

c. What direct services will be provided to citizens by the appropriation project?

Citizens will benefit from enhanced stormwater structures. Residents in the target areas will see reduced risk of damage to personal property due to standing water. During times of heavy rain, decreased stormwater will collect on public roadways and reduce travel limitations.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population is the general population of San Antonio residents, not restricted to those residing in the target areas due to the availability of public roadways.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Expected benefits will include ease of future maintenance of swales and culverts and other structures, along with decreased need for large scale rehabilitation projects or repairs to roads or other structures as a result of standing stormwater. Measurement of outcomes can be determined by comparing annual maintenance costs in the target area over time. Additional verification of successful drainage flows may be able to be verified through studies performed by the city's retained engineering consultant, with additional data available in the form of engineered plans and topographical maps of the area.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Failure to meet deliverables as outlined in agreements between the city and other parties associated with the project will lead to penalties such as withholding of payments. Anticipated deadlines would be agreed upon prior to commencement of work on a project to ensure compliance, along with requirements to submit proof of progress throughout construction.

14. Is this project related to mitigation, response, or recovery from a natural disaster?

a. If Yes, what phase best describes the project?

- Mitigation (reducing or eliminating potential loss of life or property)
- Response (addressing the immediate and short-term effects of a natural disaster)
- Recovery (assisting communities return to normal operations, including rebuilding damaged infrastructure)

b. Name of the natural disaster (or Executive Order # for events not under a federal declaration):

Hurricane Milton

15. Has the entity applied for or received federal assistance for this project?

- Yes, Applied
- Yes, Received
- No

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2025-2026

LFIR # 1744

No, but intends to apply

a. If yes, provide the FEMA project worksheet ID#:

b. Provide the total project cost listed on the FEMA project worksheet:

16. Has the entity applied for or received state assistance for this project (other than this request)?

Yes, Applied

Yes, Received

No

No, but intends to apply

a. If yes, specify the program and state agency (ex. Local Government Emergency Bridge Loan, Department of Commerce):

Please complete questions 17 through 21 for Water Projects only.

17. Have you been awarded or applied for alternative state funding for this project?

Water Quality Improvement Grant Program

Resilient Florida Grant Program

Wastewater Revolving Loan

Drinking Water Revolving Loan

Small Community Wastewater Treatment Grant

Other (please specify, ex. Alternative Water Supply Grants)

N/A

18. What is the population economic status?

Financially Disadvantaged Community (ch. 62-552, F.A.C)

Financially Disadvantaged Municipality (ch. 62-552, F.A.C)

Rural Area of Economic Concern

Rural Area of Opportunity (s. 288.0656, Florida Statutes)

N/A

Fiscal Year 2025-2026

LFIR # 1744

19. What is the status of construction?

planning

20. What percentage of the construction has been completed?

0

21. What is the estimated completion date of construction?

09/30/2026

22. Requester Contact Information

a. First Name Marissa **Last Name** Morales

b. Organization City of San Antonio

c. E-mail Address cityclerk@sanantonioflorida.org

d. Phone Number (352)588-2127 **Ext.**

23. Recipient Contact Information

a. Organization City of San Antonio

b. Municipality and County Pasco

c. Organization Type

- For Profit Entity
- Non Profit 501(c)(3)
- Non Profit 501(c)(4)
- Local Entity
- University or College
- Other (please specify)

d. First Name Marissa **Last Name** Morales

e. E-mail Address cityclerk@sanantonioflorida.org

f. Phone Number (352)588-2127 **Ext.**

24. Lobbyist Contact Information

a. Name John "Mike" Moore

b. Firm Name The Southern Group

c. E-mail Address Moore@thesouthernngroup.com

d. Phone Number (850)671-4401

The information provided will be posted to the Florida Senate website for public viewing if sponsored by a Senator.
