Motorists, pedestrians, and bicyclists who travel the area will benefit from safer road conditions and improved traffic flow.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population includes residents of North and South Miami-Dade County who use the road regularly.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The expected outcome of this project is to improve transportation conditions for all pedestrians, bicyclists, and motorists traveling through SW 92 Avenue by providing safer and more favorable transportation conditions. This outcome will be measured by documenting the decrease of accidents on SW 92 Avenue from US 1 to SW 164 Street, quantifying the amount of people utilizing roadways, paths/sidewalks, and bike lanes, and recording the number of traffic complaints received by Village Hall.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?
