Local Funding Initiative Request

Fiscal Year 2025-2026

LFIR # 1792

1. **Project Title**

2. **Senate Sponsor**

3. **Date of Request**

4. **Project/Program Description**

The Town of Cutler Bay ("Town") is requesting \$1,000,000 for Capital Improvements to improve the stormwater management system and treat runoff pollutants in the Lakes by the Bay Community. The funding request is to implement the Town's Lakes by the Bay shovel-ready project which aims to install 8,905 linear feet of new drainage systems, including exfiltration trenches, to improve water quality in the project area. Drainage improvements mitigate flooding leading to collector roadways, public transportation, and evacuation routes on SW 216 Street and Old Cutler Road.

13. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The project aims to improve water quality and mitigate flooding in a hazard area. The existing drainage infrastructure in the Sub-Basins do not treat or discharge adequate runoff to meet the desired performance criteria adopted in the Town's Stormwater Master Plan.

b. What activities and services will be provided to meet the intended purpose of these funds?

Based on the Capital Improvement recommendations listed in the Town's Adopted Stormwater Master Plan, existing catch basins will be modified or reconstructed as required to provide sediment traps (sumps) and pollution retardant baffles to protect the French drains and weir structures shall be installed prior to each outfall to restrict the discharge of pollutants to the community lake.

c. What direct services will be provided to citizens by the appropriation project?

The proposed project reduces the flood risk for the residents of Cutler Bay and protects the Town's evacuation routes. Since incorporation, the Town has adopted higher regulatory standards and, currently, adheres to the base flood elevation standard, plus 1ft. above. Due to the efforts of the Public Works Department, the Town is currently rated by FEMA as a Community Rating System 3 which provides flood insurance policy holders in the Town with a 35% discount on their premiums.

d. Who is the target population served by this project? How many individuals are expected to be served?

The Town of Cutler Bay's population is 43,958 (Census 2022), this project supports the entire community.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Cutler Bay is bordered on the West by Biscayne Bay National Park and the Biscayne Bay Wetlands. In our efforts to protect the Bay, the Town has implemented a series of best management practices related to stormwater treatment. The Town consistently educates the community about water pollution due to stormwater runoff and regularly maintains the Town's streets and drainage systems. All Capital Improvement Projects include improved treatment trains that will ultimately reduce pollutant loads to Biscayne Bay by 89% or greater.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

The Town will not be reimbursed for project activities that do not meet the deliverables or performance measures.

14. Is this project related to mitigation, response, or recovery from a natural disaster?

a. If Yes, what phase best describes the project?

- Mitigation (reducing or eliminating potential loss of life or property)
