#### 13. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

□ No

### The Florida Senate Local Funding Initiative Request Fiscal Year 2025-2026

**LFIR # 1873** 

The specific goal is to provide direct emergency financial relief and mental health support to children & their families battling pediatric cancer, as the financial and emotional impact is insurmountable as often times one parent must quit their job in order to become a full-time caregiver

b. What activities and services will be provided to meet the intended purpose of these funds?

Runway to Hope works very closely with the pediatric oncology departments in our Central Florida region as well as with our patient family networks to help spread the word of our services when a child is newly diagnosed in our community. Our database of families is extensive as we continue to create a thread of support. Our programming includes direct financial support in addition to mental health care, survivor programming, and bereavement support for our children & families.

c. What direct services will be provided to citizens by the appropriation project?

Central Florida families in active treatment for their pediatric cancer will receive financial assistance, in addition to our family programming services including mental health services, survivor programming, and bereavement support to provide connection and unity to those within our Central Florida pediatric cancer community.

d. Who is the target population served by this project? How many individuals are expected to be served?

Countless lives are touched when a child is diagnosed with pediatric cancer including their immediate and extended family members. Our goal is supporting several groups within the pediatric cancer community, including patients, parents, siblings, as well as those who have been affected by the death of a pediatric cancer patient and those who are considered survivors. An estimated 800 individuals are expected to be served.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Provide resources for gaps in support for our families who are battling pediatric cancer including preventing eviction, car repossessions, keeping utilities on, putting groceries on the table, providing transportation to get to and from treatment, as well as supporting families through the toughest time in their lives when their beloved child passes away so they can lay their soul to rest. The outcome is that no family should battle pediatric cancer alone and this will be measured by the individuals who are served and impacted through one of our programming initiatives.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

to	r failing to meet deliverables or performance measures provided for in the contract?
V	Vithout a perce3ntage of funding until deliverables and/or performance measures are met.
14. Is	this project related to mitigation, response, or recovery from a natural disaster? No
