

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2025-2026

LFIR # 1967

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

Construction of storm water system improvements within City of Sunrise Storm Water Basin 15. Improvements include replacement of four existing culverts Culvery R15-110A (Crossing at Hiatus Road, North of NE 53rd Street, 54" CMP to 72" RCP), Culvert R15-130A (Crossing at NW 102 Ave, North of NW 53rd Street, 36" CMP to 60" RCP), Culvert R15-130B (New North Culvert in Nob Hill Road, 48" RCP), Culvert R15-051A (New South Culvert in Nob Hill Road, 48" RCP). Replacement includes upgrading pipe size, extension of piping, and rerouting of culvert and other associated improvements.

5. State Agency to receive requested funds

State Agency contacted?

6. Amount of the Nonrecurring Request for Fiscal Year 2025-2026

Type of Funding	Amount
Operating	0
Fixed Capital Outlay	750,000
Total State Funds Requested	750,000

7. Total Project Cost for Fiscal Year 2025-2026 (including matching funds available for this project)

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	750,000	36%
Matching Funds		
Federal	0	0%
State (excluding the amount of this request)	0	0%
Local	1,350,000	64%
Other	0	0%
Total Project Costs for Fiscal Year 2025-2026	2,100,000	100%

8. Has this project previously received state funding?

If yes, provide the most recent instance:

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		

9. Is future-year funding likely to be requested?

a. If yes, indicate nonrecurring amount per year.

b. Describe the source of funding that can be used in lieu of state funding.

Local Funding Initiative Request

Fiscal Year 2025-2026

LFIR # 1967

Complete questions 10 and 11 for Fixed Capital Outlay Projects

10. Status of Construction

a. What is the current phase of the project?

- Planning
 Design
 Construction
 N/A

b. Is the project "shovel ready" (i.e permitted)?

Yes

c. What is the estimated start date of construction?

06/28/2025

d. What is the estimated completion date of construction?

09/30/2026

e. What funding stream will be used for ongoing operations and maintenance of the project?

The City of Sunrise owns, operates, and maintains the facilities in their entirety.

11. List the owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

City of Sunrise

12. Details on how the requested state funds will be expended

Spending Category	Description	Amount
Administrative Costs:		
Executive Director/Project Head Salary and Benefits		0
Other Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Operational Costs		
Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Fixed Capital Construction/Major Renovation:		
Construction/Renovation/Land/Planning Engineering	Construction of storm water system improvements within City of Sunrise Storm Water Basin 15. Improvements include replacement of four existing culverts Culvery R15-110A (Crossing at Hiatus Road, North of NE 53rd Street, 54" CMP to 72" RCP), Culvert R15-130A (Crossing at NW 102 Ave, North of NW 53rd Street, 36" CMP to 60" RCP), Culvert R15-130B (New North Culvert in Nob Hill Road, 48" RCP), Culvert R15-051A (New South Culvert in Nob Hill Road, 48" RCP). Replacement includes upgrading pipe size	750,000
Total State Funds Requested (must equal total from question #6)		750,000

13. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2025-2026

LFIR # 1967

The proposed Basin 15 Storm Water Drainage Improvements project if implemented will improve the drainage Level of Service (LOS) within the basin which would include ensuring subdivision streets should not flood in the 3-year/24-hour storm; ensure major roadways should not flood in the 10-year/72-hour storm; and ensure cross-culverts should have sufficient capacity for the 25-year/72-hour Storm.

b. What activities and services will be provided to meet the intended purpose of these funds?

Construction of storm water system improvements within City of Sunrise Storm Water Basin 15. Construction of storm water system improvements within City of Sunrise Storm Water Basin 15. Improvements include replacement of four existing culverts Culvert R15-110A (Crossing at Hiatus Road, North of NE 53rd Street, 54" CMP to 72" RCP), Culvert R15-130A (Crossing at NW 102 Ave, North of NW 53rd Street, 36" CMP to 60" RCP), Culvert R15-130B (New North Culvert in Nob Hill Road, 48" RCP), Culvert R15-051A (New South Culvert in Nob Hill Road, 48" RCP).

c. What direct services will be provided to citizens by the appropriation project?

The stormwater system owned and operated by the City of Sunrise directly serves the residents and businesses within Basin 15 by collecting and disposing of excess stormwater from rain events. Improvements to and expansion of the stormwater system directly improves the level of service citizens receive from this system.

d. Who is the target population served by this project? How many individuals are expected to be served?

Basin 15 drainage area is approximately 500 acres and currently discharges via gravity to the South Florida Water Management District C-42 canal. The proposed improvements will benefit all the residents and business within the basin. The City total acreage is 11600 acres, making basin 15, 4.3% of the total area of the City. As of the 2020 census, the city had a total population of 97,335. This results in the project approximately serving 4,195 individuals.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The proposed Basin 15 Drainage Improvements project if implemented will improve the drainage Level of Service (LOS) within the basin which would include ensuring subdivision streets should not flood in the 3-year/24-hour storm; ensure major roadways should not flood in the 10-year/72-hour storm; and ensure cross-culverts should have sufficient capacity for the 25-year/72-hour Storm.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

This project proposes design and construction of drainage improvements within Basin 15 combined with re-permitting of the basin to maintain compliance with the original SFWMD permit issued in 1981. Re-permitting of the basin has been completed. Failing to meet deliverables will result in noncompliance with the new permit and the inability of new and redeveloped properties within the basin from acquiring approvals from the County to tie into the City's drainage system, limiting development.

14. Is this project related to mitigation, response, or recovery from a natural disaster? No

a. If Yes, what phase best describes the project?

- Mitigation (reducing or eliminating potential loss of life or property)
- Response (addressing the immediate and short-term effects of a natural disaster)
- Recovery (assisting communities return to normal operations, including rebuilding damaged infrastructure)

b. Name of the natural disaster (or Executive Order # for events not under a federal declaration):

15. Has the entity applied for or received federal assistance for this project?

- Yes, Applied

LFIR # 1967

- Yes, Received
- No
- No, but intends to apply

a. If yes, provide the FEMA project worksheet ID#:

b. Provide the total project cost listed on the FEMA project worksheet:

16. Has the entity applied for or received state assistance for this project (other than this request)?

- Yes, Applied
- Yes, Received
- No
- No, but intends to apply

a. If yes, specify the program and state agency (ex. Local Government Emergency Bridge Loan, Department of Commerce):

Please complete questions 17 through 21 for Water Projects only.

17. Have you been awarded or applied for alternative state funding for this project?

- Water Quality Improvement Grant Program
- Resilient Florida Grant Program
- Wastewater Revolving Loan
- Drinking Water Revolving Loan
- Small Community Wastewater Treatment Grant
- Other (please specify, ex. Alternative Water Supply Grants)
- N/A

18. What is the population economic status?

- Financially Disadvantaged Community (ch. 62-552, F.A.C)
- Financially Disadvantaged Municipality (ch. 62-552, F.A.C)
- Rural Area of Economic Concern
