Local Funding Initiative Request

Fiscal Year 2025-2026

LFIR # 2153

1. Project Title
2. Senate Sponsor
3. Date of Request

4. Project/Program Description

The Kellogg Research Building was built over a half century ago and originally housed the Department of Psychology. With the long-since completed Psychology Center, located next to the College of Medicine, the University proposes a major remodeling of the Kellogg Research Building for new occupancy. The current level of research funding achieved by the University is due, in large part, to the condition of the University's physical plant and the levels of service necessary to maintain it. If research funding is projected to increase, then the capacity and capability of the services necessary to support it must likewise be increased. Increases in operational performance, which can be achieved through improvements such as a major remodeling of an important academic building like the Kellogg Research Building make a building that is more efficient to operate.

Fiscal Year 2025-2026

LFIR # 2153

Specifically, the renovation would improve research facilities so that faculty and students can better engage cutting-edge technology in their research and will enhance learning environment where students' overall learning experience and engagement would improve. The building currently has zero windows for one which is detrimental to quality of life in the building.

b. What activities and services will be provided to meet the intended purpose of these funds?

University officials will use funds to complete projects on the lengthy list of necessary structural and mechanical updates required.

c. What direct services will be provided to citizens by the appropriation project?

Renovating the Kellogg Research Building will greatly improve the quality of space for students. Specifically, the renovation would improve research facilities so that faculty and students can better engage cutting-edge technology in their research; enhanced learning environment where students' overall learning experience and engagement would improve.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population is FSU's 45,000 member student body.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Improved learning environment for students could be measured through student satisfaction surveys and increased retention rates for the College of Criminology. In addition, we estimate that a better research facility will improve research output measures including research expenditures in this discipline and grants awarded.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Revert state appropriation and withhold future funding for this project.
