Construction of a safer facility that is complaint with Florida building codes and all NFPA requirements. This facility will feature a hardened shelter for first responders as well as ADA compliant restrooms and a landing site for air transport of medical patients, and space for full-time fire and EMS staff.

c. What direct services will be provided to citizens by the appropriation project?

Fire and EMS services will be located and dispatched from this location on a full-time basis. Additionally, there will be a landing pad for air-transport of medical patients from the site as need arises. Furthermore, the facility will house various community outreach programs that cannot currently be accommodated by the current facility.

d. Who is the target population served by this project? How many individuals are expected to be served?

This facility will serve the entire northern region of Hamilton County, some 5,000 to 7,000 people, in addition to response to incidents along the I-75 corridor.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The presence of a hardened shelter facility for first responders will allow the staging of emergency personnel during weather events for more rapid response after. Facility will also house community outreach programs and house full-time EMS/ Fire staff as well as support air transport of medical patients. Response times will fall and positive health/ property outcomes in the area will increase.
