Fiscal Year 2025-2026

LFIR # 2463

This project represents five critical stormwater capital improvement projects for Fiscal Years 2024-2026 in accordance with the City's Stormwater Management Master Plan. These projects are crucial in managing stormwater runoff while reducing environmental and social impacts. The project's focus is on improving and modernizing stormwater management, reducing flood risks, and protecting significant assets, such as residential structures, roads, and evacuation routes, from potential flood damages.

b. What activities and services will be provided to meet the intended purpose of these funds?

Services include stormwater management which reduces flood risks and protects significant assets such as residential structures, roads, and evacuation routes, from potential flood damages.

c. What direct services will be provided to citizens by the appropriation project?

Stormwater management

d. Who is the target population served by this project? How many individuals are expected to be served?

This will serve the general population. (The majority of funds will benefit no specific group)

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Benefits include: Reduction in waterborne diseases, improvement in local aquatic habitats, reduction in flood-related emergencies, reduced flooding occurrences on major roads, increase in local business revenue due to improved infrastructure, creation of temporary jobs during the construction phase, 26 residential structures are projected to be removed from the 100-year 24-hour storm flood risk list. Approximately 4,164 linear feet of roadway is removed from LOS deficiency, including 249 feet of evacuation route. Peak stage reductions of up to 0.81 ft for 100-year storm and 1.45 feet for 25-year storm. Areas in the vicinity of Foster Road will experience inundation reductions to 15.5 hours, and reduction in surface water pollutant levels. Outcomes will be measured by: Monitoring and using the recently completed Stormwater Master Plan flood mitigation model which measures the reduction in flooding in the city.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

While the City of Hallandale Beach does not anticipate failing to meet any milestones and/or deliverables, it would be anticipated that reimbursement would only be received for deliverables met.

14. Is this project related to mitigation, response, or recovery from a natural disaster?

a. If Yes, what phase best describes the project?
