Improved flow of stormwater through these conveyances will reduce or eliminate flooding issues encountered following Hurricane Milton.

d. Who is the target population served by this project? How many individuals are expected to be served?

The main stormwater conveyances being addressed (Spartman Branch, Mill Creek, Eastside Canal, Westside Canal, and Itchepakasassa Creek) are located across various regions of the city and will improve conditions for thousands of residents citywide.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

By improving the flow of these stormwater conveyances and restoring their capacity, residents and businesses in the nearby areas will see reduced flooding during severe storm events.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Standard penalties are sufficient.
