## Local Funding Initiative Request

### Fiscal Year 2025-2026

LFIR # 2511

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

The City goal is to collect and share data to support a local and regional solution to the tidal and storm related flooding with strategically placed data collectors. The data collectors will measure tidal rise and stormwater discharge levels accurately with various storm events along various points along the regional LPGA drainage canal system. This data will then be shared with consultants and regional interests to help mitigate associated flood vulnerabilities.

5. State Agency to receive requested funds

State Agency contacted?

6. Amount of the Nonrecurring Request for Fiscal Year 2025-2026

Type of Funding	Amount
Operating	94,500
Fixed Capital Outlay	0
<b>Total State Funds Requested</b>	<b>94,500</b>

7. Total Project Cost for Fiscal Year 2025-2026 (including matching funds available for this project)

<b>Total State Funds Requested (must equal total from question #6)</b>		<b>94,500</b>

**13. Program Performance**

**a. What specific purpose or goal will be achieved by the funds requested?**

The City goal is to collect and share data to support a local and regional solution to the tidal and storm related flooding with strategically placed data collectors. The data collectors will measure tidal rise and stormwater discharge levels accurately with various storm events along various points along the regional LPGA drainage canal system. This data will then be shared with consultants and regional interests to help mitigate associated flood vulnerabilities.

**b. What activities and services will be provided to meet the intended purpose of these funds?**

Data collection devices will be installed along the LPGA Regional drainage and tide rise data will be captured during actual storm events to allow great vulnerability planning and remedial improvements.

### Fiscal Year 2025-2026

LFIR # 2511

**c. What direct services will be provided to citizens by the appropriation project?**

Regional drainage and tidal rise data will be captured during actual storm events to allow great vulnerability planning and remedial improvements.

**d. Who is the target population served by this project? How many individuals are expected to be served?**

All City of Holly Hill residents, residents of the regional drainage basin, and visitors to the area. The City has a population of over 13,000 people, and the regional drainage basin encompasses about 1/4 of Volusia County population.

**e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**

The outcome will be event specific tidal and sea rise data to hone models with real event data to better plan and implement vulnerable asset improvements more cost effectively.

**f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?**

If the City fails to meet deliverables of purchase of equipment for community flood mitigation, a penalty of requiring reimbursement of the appropriated funds should be imposed.

**14. Is this project related to mitigation, response, or recovery from a natural disaster?**

**a. If Yes, what phase best describes the project?**

- Mitigation (reducing or eliminating potential loss of life or property)
- Response (addressing the immediate and short-term effects of a natural disaster)
- Recovery (assisting communities return to normal operations, including rebuilding damaged infrastructure)
