Local Funding Initiative Request

Fiscal Year 2025-2026

LFIR # 2589

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

Design and construct drainage system on NE 104 Street from NE 12 Avenue to NE 16 Avenue to prevent standing water and water intrusion so water may drain properly during rainfall events and high tide events. This project has been redeveloped as updating the outfall drainage is no longer a viable solution and in place of the original project, injections wells must be added.

c. What direct services will be provided to citizens by the appropriation project?

Both pedestrians and vehicular traffic would be able to better traverse the area without having to travel through floodwaters to get to their home. Additionally, some of the homes on this street are experiencing septic system failures due to the excessive moisture in the soil.

d. Who is the target population served by this project? How many individuals are expected to be served?

The residents that live on 104th Street in addition to the general public that drive on the roadway.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The anticipated outcome of this project is to eliminate standing water on residential properties and streets, significantly reducing the risk of water intrusion into homes. By improving drainage, this initiative will also help mitigate prolonged soil saturation during heavy rains, which has been compromising septic systems and leading to failures.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Loss of funding.
