13. Program Performance

Planning Engineering

Construction/Renovation/Land/

a. What specific purpose or goal will be achieved by the funds requested?

Total State Funds Requested (must equal total from question #6)

Florida's courts are drowning. The case surge following HB 837 (2023) hit like a tidal wave—filings up 232%, trial timelines stretching past two years, clerks and judges scrambling to keep up. Learned Hand delivers a comprehensive, Al-powered judicial operating system designed to help Florida's courts process high caseloads efficiently, consistently, and at scale.

b. What activities and services will be provided to meet the intended purpose of these funds?

LFIR # 2861

Working in conjunction with the judiciary, we will provide new software and AI-enabled tools that help to maintain the integrity of judicial output while sustainably address the new pace and fervor of judicial work. Tools include: The AI Law Clerk- a tool that surfaces key facts fast., helps find the right precedent, generates first drafts of written content for judges to edit, and flags contradictions, errors, and inconsistencies. Additional Case Management features pull filings and precedent with real intelligence, not keyword guesswork, give judges a clean, structured view of what matters, lock down permissions, keep workflows secure, and let courts move cases forward without friction.

c. What direct services will be provided to citizens by the appropriation project?

Citizens will see their cases resolved with rapidly increased efficiency- they'll experience fair and speedy decisions on their legal complaints, instead of spending years and countless expense in legal limbo.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population is all citizens impacted by the surge of filings and backlogs across Florida's judiciary- between more than 481,000 individuals in backlogged immigration courts, and another 1 million backlogged cases (primarily civil) impacting other areas of Florida's judiciary.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Judges will spend less time managing cases, and more time deciding them. We will measure success by several key metrics such as the change in average time-to-decision per case, and the total caseload processing increases.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

If contract deliverables are not met, funding will not be provided by the agency. We will set deliverables on a schedulewe shouldn't get paid unless we meet mutually specified deliverables timelines.

a. If Yes, what phase best describes the project? Mitigation (reducing or eliminating potential loss of life or property) Response (addressing the immediate and short-term effects of a natural disaster) Recovery (assisting communities return to normal operations, including rebuilding damaged infastructure) Name of the natural disaster (or Executive Order # for events not under a federal declaration): 15. Has the entity applied for or received federal assistance for this project? Yes, Applied Yes, Received No No, but intends to apply a. If yes, provide the FEMA project worksheet ID#: b. Provide the total project cost listed on the FEMA project worksheet:	4. Is 1	this project related to mitigation, response, or recovery from a natural disaster? No
Response (addressing the immediate and short-term effects of a natural disaster) Recovery (assisting communities return to normal operations, including rebuilding damaged infastructure) b.
