Fiscal Year 2025-2026

LFIR # 3077

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

Baker Senior Center Naples provides the only Dementia Respite Support Program in Collier and southern Lee counties for seniors who have a medical diagnosis of Alzheimer's disease and/or related dementias (ADRD) residing at home. The program is recognized as evidence-based, innovative, and most importantly, providing the highest standard of care to clients with dementia. The program provides socialization and wellness with a holistic approach to everyday living and challenges using activities that focus on connection when primary verbal communication and interaction abilities are altered.

Activities are designed to enhance communication skills, improve mood, help access long term memory, and increase socialization. The 4-hour groups include focus, concentration, and memory activities, such as "icebreakers," to help participants enhance social skills and assist in recall and language skills. Music therapy is provided by a credentialed music therapist for the last 30 minutes.

c. What direct services will be provided to citizens by the appropriation project?

Language skills, memory techniques, relaxation techniques, socialization, and building self-esteem are concentrated on during each group's activities with the focus on what strengths the participants possess. Participants are offered an opportunity for socialization and cognitive stimulation in a non-judgmental, friendly environment. Participants are encouraged to participate in activities that engage verbally and also utilize gross motor skills depending on their comfort level or ability. Caregivers are provided 4 hours of respite, case management, education, and support.

d. Who is the target population served by this project? How many individuals are expected to be served?

The targeted population are seniors age 60 and older with a medical diagnosis of Alzheimer's disease or related dementias (ADRD), which is 14.1% of Collier County. In 2017, 22,000 cases of ADRD were counted in Collier County. Of those 22,000, 13% live alone. Each year, this increases by an estimated 20%. Our community's limited existing resources are overwhelmed by demand. Thirty-six percent (36%) of Collier and southern Lee counties' populations are over age 60. Of those, 8% are 85 or older. It is currently estimated that 50% of adults over 85 will be diagnosed with ADRD. We expect to serve 175 individuals with ADRD in the coming year.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The Dementia Respite Support Program provides tools, support, and coping skills to assist these individuals and their families. Clients who attend the program may achieve the following goals and outcomes: be less agitated, more engaged in their surroundings, experience fewer incidents of "sundowning," particularly on the days when clients have music therapy, and caregivers report that the program has had a positive impact on both the client and caregiver's lives. The Memory and Problem Behavior Checklist is used for the clinical and empirical assessment measuring outcomes. For this population, outcomes are measured in relationship to a limited time period, such as during and after the program and extending into the evening.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

This program is funded on a monthly basis for services that are reported in the Florida Department of Elderly Affairs. If the agency failed to meet the deliverables, then the agency would not be able to submit for payment of services.

14. Is this project related to mitigation, response, or recovery from a natural disaster? No

a. If Yes, what phase best describes the project?

- Mitigation (reducing or eliminating potential loss of life or property)
- Response (addressing the immediate and short-term effects of a natural disaster)
- Recovery (assisting communities return to normal operations, including rebuilding damaged infrastructure)

b. Name of the natural disaster (or Executive Order # for events not under a federal declaration):
