Fixed Capital Construction/Majo	r Renovation:				
Construction/Renovation/Land/ Planning Engineering	Phase 2 of construction of a 2-lane road connecting the southern Pasco Research employment hub with the northern employment center.	9,000,000			
Total State Funds Requested (m	ust equal total from question #6)	9,000,000			

13. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

Phase 2 of a two-lane roadway to connect the southern Pasco Research employment hub, a school and the northern employment center.

b. What activities and services will be provided to meet the intended purpose of these funds?

The funds will be used for designing and building a new roadway. This initiative will improve transportation, making it easier for residents and visitors in the Tampa Bay Region to reach healthcare facilities, schools, and recreational areas.

c. What direct services will be provided to citizens by the appropriation project?

☐ Yes, Applied

The Florida Senate Local Funding Initiative Request Fiscal Year 2025-2026

LFIR # 3284

The requested funding will support the construction of a two-lane road with a bridge, connecting Pasco County Research Park to a school and major roads, Sunlake Blvd and Ridge Road. This project will boost local economic growth, improve

d. Who is the target population served by this project? How many individuals are expected to be served? General population; Estimated to serve >800 people. e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured? The project is expected to improve transportation by enhancing transportation access to key employment centers and school hubs. Success will be measured through reduced travel times, lightening of traffic congestion, and increased accessibility and engagement with employment centers, schools, and the Pasco Research Park. The project is also expected to create specific immediate job opportunities for contractors, engineers, environmental sector workers, and consultants, it will also increase job opportunities for contractors, suppliers, service providers, and other professionals that will positively support the local economy. f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract? Reversion of funds. 14. Is this project related to mitigation, response, or recovery from a natural disaster? No a. If Yes, what phase best describes the project? Mitigation (reducing or eliminating potential loss of life or property) Response (addressing the immediate and short-term effects of a natural disaster) Recovery (assisting communities return to normal operations, including rebuilding damaged infastructure) b. Name of the natural disaster (or Executive Order # for events not under a federal declaration): 15. Has the entity applied for or received federal assistance for this project? Yes, Applied Yes, Applied Pes, Applied Pes, Provide the total project cost listed on the FEMA project worksheet:		afety with modern infrastructure, and enhance community development by reducing congestion and providing efficient avel routes for businesses and residents.
e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured? The project is expected to improve transportation by enhancing transportation access to key employment centers and school hubs. Success will be measured through reduced travel times, lightening of traffic congestion, and increased accessibility and engagement with employment centers, schools, and the Pasco Research Park. The project is also expected to create specific immediate job opportunities for contractors, suppliers, service providers, and other professionals that will positively support the local economy. f.
