LFIR # 3455

The project will involve construction and infrastructure improvements to enhance the walkways, crosswalks, street ends, and lighting. It will integrate pedestrian-friendly designs with connectivity improvements between the park, the Beachwalk, and surrounding areas, making the area more accessible and safer.

c. What direct services will be provided to citizens by the appropriation project?

The project will provide increased public access and connectivity, making it easier and safer for pedestrians and cyclists to navigate the area. The improvements will reduce congestion, enhance pedestrian safety, and support a more vibrant and welcoming environment for both residents and visitors.

d. Who is the target population served by this project? How many individuals are expected to be served?

The project will serve residents of Miami Beach, local businesses, and visitors/tourists. The enhanced walkways and pedestrian areas will benefit a diverse group of people, including homeowners, renters, business owners, workers, and tourists. The project is expected to serve both residents and visitors who frequent the area.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Improve pedestrian and bicycle safety through enhanced walkways, lighting, and traffic flow management. Increase tourism and economic activity by making the area more attractive and accessible, drawing more visitors to Pier Park and nearby businesses. Enhance urban connectivity and cultural engagement by creating a seamless connection between the Beachwalk, Pier Park, and surrounding neighborhoods. Beautify the streetscape with upgraded infrastructure, making the area more inviting and aesthetically pleasing.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Termination of funds.
