I. FINAL ACTION STATUS:

PASSED BY THE LEGISLATURE - CHAPTER #98-306, LAWS OF FLORIDA

CS/CS/HB 1793 passed the Legislature and was ordered enrolled on April 21, 1998. This act was approved by the Governor on May 29, 1998.

II. SUMMARY:

This bill amends the *Florida Industrial Development Financing Act* and the *Private School Corporation Law of 1959* to allow the issuance of bonds to help finance the cost of purchase or construction of property used for, or useful in, the operation of any nonprofit private school established pursuant to Florida Statute or the United States Internal Revenue Code.

Nonprofit private preschool, kindergarten, primary and secondary schools will be able to access the federal tax-exempt bond market through Florida industrial development authorities. The structure would be the same as private corporations use in industrial development bond financing, and as nonprofit private higher education borrowers use in educational facilities authorities.

The bill does not authorize use of public funds. The bill specifically precludes the state, a local agency/authority, or any political subdivision of the state, from pledging its faith and credit to support debt issued through industrial development authorities. Individual borrowers are the only source of bond repayment on their individual debt issues.

This bill has no fiscal impact on state revenues.

III. SUBSTANTIVE RESEARCH:

A. PRESENT SITUATION:

Chapter 159, Part II, F.S., contains the *Florida Industrial Development Financing Act*. The purpose of the act is to enhance economic activity in the state by attracting manufacturing development, business enterprise management, and other activities conducive to economic promotion in order to provide a stronger, more balanced, and stable economy in the state, while providing through pollution control and otherwise for the health and safety of the people. The act allows for the issuance of bonds by local governmental bodies for projects deemed to promote this purpose. The types of projects include:

- research and development parks
- agricultural processing or storage facilities
- warehousing or distribution facilities
- headquarters facilities
- tourism facilities
- public lodging or restaurant facilities
- convention or trade show facilities
- urban parking facilities
- trade centers
- health care facilities
- airport or port facilities
- commercial project in an enterprise zones
- motion picture production facilities
- preservation or rehabilitation of a certified historic structures
- educational facilities
- mass commuting facilities
- social service centers

Subsection 159.27(22), F.S., specifically defines an “educational facility” as “. . . a structure suitable for use as a dormitory or other housing facility or a dining facility, that is operated in the public sector and used for or useful in connection with the operation of an institution for higher education . . .”

The act allows local governments, or bonding authorities formed by such governments, to issue bonds to finance the cost of the projects listed above. Pursuant to section 159.31, F.S., bonds issued pursuant to the act are exempt from state taxation.

A number of states allow nonprofit private primary and secondary schools to use issuing authorities to access the tax-exempt market; these states draw no distinction between nonprofit private higher education and primary-secondary schools. Some states where private primary and secondary schools have actually issued debt through local authorities include: Connecticut, Georgia, Illinois, Indiana, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New Mexico, New York, Oklahoma, Pennsylvania, and Tennessee.

Chapter 617, F.S., the *Florida Not For Profit Corporation Act*, describes the Florida law governing the not-for-profit corporations conducting affairs in the state. Corporations may be organized under this act for any lawful purpose or purposes not for pecuniary

profit. The chapter outlines the filing requirements, fees and powers of such corporations.

Chapter 623, F.S., the *Private School Corporation Law of 1959*, allows 25 or more adult Floridians to form a private school corporation. The chapter describes specific steps that must be taken, and delineates that a private school corporation shall be a private corporation for charitable and benevolent purposes. Section 623.09, F.S., provides that such corporations are exempt from taxation as provided by Florida law. Section 623.10, F.S., grants such corporations specific powers and duties, including the ability to purchase real and tangible personal property, and to issue notes of indebtedness. Section 623.13, F.S., delineates that any corporation formed pursuant to chapter 623, F.S., must be administered, supervised, operated, financed, and controlled exclusively by private persons and their funds. Public officials are prohibited from engaging in any such affairs of the corporation.

Nonprofit private preschool, kindergarten, primary and secondary schools will be able to access the federal tax-exempt bond market through Florida industrial development authorities.
