Florida Senate - 1998

(NP)

By Senator Latvala

19-1392-98 1 Senate Memorial No. ____ 2 A memorial to the President and the United States Senate, urging that the Kyoto Protocol 3 4 be amended to ensure the equitable treatment of 5 developing countries and developed countries 6 regarding greenhouse gas emissions. 7 WHEREAS, the United States is a signatory to the 1992 8 9 United Nations Framework Convention on Global Climate Change, 10 and 11 WHEREAS, a proposed protocol to expand the scope of the 12 Framework Convention on Global Climate Change was negotiated in December 1997 in Kyoto, Japan, potentially requiring the 13 United States to reduce emissions of greenhouse gases by 7 14 percent from 1990 levels during the period 2008 to 2012, with 15 potentially larger emissions reductions thereafter, and 16 17 WHEREAS, the Kyoto Protocol would require other major industrial nations to reduce emissions from 1990 levels by 6 18 19 percent to 8 percent during the period 2008 to 2012, with 20 potentially larger emissions reductions thereafter, and 21 WHEREAS, President William J. Clinton pledged on 22 October 22, 1997, that "the United States will not assume binding obligations in Kyoto unless key developing nations 23 meaningfully participate in this effort", and 24 25 WHEREAS, on July 25, 1997, the United States Senate 26 adopted Senate Resolution No. 98 by a vote of 95-0, expressing 27 the sense of the Senate that "the United States should not be 28 a signatory to any protocol to, or other agreement regarding the Framework Convention on Climate Change . . . which would 29 30 require the advice and consent of the Senate to ratification, 31 and which would mandate new commitments to mitigate greenhouse 1

1 gas emissions for the Developed Country Parties, unless the 2 protocol or other agreement also mandates specific scheduled 3 commitments within the same compliance period to mitigate 4 greenhouse gas emissions for Developing Country Parties," and 5 WHEREAS, developing nations are exempt from greenhouse б gas emissions limitation requirements in the Framework 7 Convention on Global Climate Change, and refused in the Kyoto negotiations to accept any new commitments for greenhouse gas 8 9 emissions limitations through the Kyoto Protocol, and 10 WHEREAS, manmade emissions of greenhouse gases such as 11 carbon dioxide are caused primarily by the combustion of oil, coal, and natural gas fuels by industries, automobiles, homes, 12 13 and other uses of energy, and 14 WHEREAS, the United States relies on carbon-based 15 fossil fuels for more than 90 percent of its total energy 16 supply, and 17 WHEREAS, achieving the emissions reductions proposed by the Kyoto Protocol would require a 38-percent reduction in 18 19 projected United States carbon emissions during the period 20 2008 to 2012, and WHEREAS, developing countries exempt from emissions 21 22 limitations under the Kyoto Protocol are expected to increase their rates of fossil fuel use over the next 2 decades, and to 23 24 surpass the United States and other industrialized countries 25 in total emissions of greenhouse gases, and WHEREAS, studies prepared by the U.S. Government 26 estimate that legally binding requirements for the reduction 27 28 of U.S. greenhouse gases below 1990 emissions levels would 29 result in the loss of more than 900,000 jobs in the United States, sharply increased energy prices, reduced family 30 31 incomes and wages, and severe losses of output in

1 energy-intensive industries such as aluminum, steel, rubber, 2 chemicals, and utilities, and 3 WHEREAS, the failure to provide for commitments by 4 developing countries in the Kyoto Protocol creates an unfair 5 competitive imbalance between industrial and developing б nations, potentially leading to the transfer of jobs and 7 industrial development from the United States to developing 8 countries, and 9 WHEREAS, increased emissions of greenhouse gases by 10 developing countries would offset any environmental benefits 11 associated with emissions reductions achieved by the United States and by other industrial nations, NOW, THEREFORE, 12 13 14 Be It Resolved by the Legislature of the State of Florida: 15 That the President of the United States not sign the 16 17 Kyoto Protocol nor submit it for ratification to the United States Senate until the protocol is amended or otherwise 18 19 revised, consistent with United States Senate Resolution No. 20 98, to include specific scheduled commitments for developing 21 countries to mitigate greenhouse gas emissions within the same compliance period as required for developed countries; 22 BE IT FURTHER RESOLVED that the United States Senate 23 24 reject any proposed protocol or other amendment to the 25 Framework Convention on Global Climate Change which is inconsistent with this memorial, or which does not comply 26 fully with the United States Senate Resolution No. 98. 27 28 BE IT FURTHER RESOLVED that copies of this memorial be 29 dispatched to the President of the United States, to the 30 President of the United States Senate, to the Speaker of the 31
