**I. SUMMARY:**

This bill provides a sales and use tax exemption for any facility, device, fixture, equipment, or machinery used primarily for the control or abatement of pollution or contaminants in manufacturing, processing, compounding, or producing for sale items of tangible personal property at a fixed location, or any structure, machinery, or equipment installed in the reconstruction or replacement of such facility, device, fixture, equipment, or machinery. To qualify, such facility, device, fixture, equipment, or machinery is required to meet the permitted conditions of the Department of Environmental Protection (DEP). The total estimated fiscal impact upon General Revenue is (\$13.5) million for FY 1998-99 and (\$15.2) million for FY 1999-2000. There will be an insignificant impact on the Solid Waste Management Trust Fund. The estimated fiscal impact upon local governments is (\$2.2) million for FY 1998-99 and (\$2.4) million for FY 1999-2000. The total estimated fiscal impact for this bill is (\$15.7) million for FY 1998-99 and (\$17.6) million for FY 1999-2000.

This bill does not require counties or municipalities to spend funds or take an action requiring the expenditures of funds.

B. REDUCTION OF REVENUE RAISING AUTHORITY:

Although the bill will reduce the authority of municipalities and counties to raise revenues due to the reduction in the amount of the Local Option Sales Tax, the impact is expected to be insignificant and the bill is therefore exempt from the provisions of Article VII, Section 18(b), Florida Constitution.

C. REDUCTION OF STATE TAX SHARED WITH COUNTIES AND MUNICIPALITIES:

While the bill will reduce the amount of the Local Government Half Cent Sales Tax shared with municipalities and counties, it does not reduce the percentage of a state tax shared with municipalities and counties. Therefore, Article VII, Section 18(b), Florida Constitution does not apply.

V. COMMENTS:

None.

VI. AMENDMENTS OR COMMITTEE SUBSTITUTE CHANGES:

On February 4, 1998, the Committee on Environmental Protection adopted committee substitute to HB 3229. One amendment, with an amendment to the amendment, was adopted which removed the language that included processes and pollution prevention equipment as eligible for the sales tax exemption. The amendment also removed the requirement that the DEP certify all processes, facilities, equipment, and machinery to the Department of Revenue in order to be exempt. The amendment does require that in order to qualify all equipment, devices, machinery, and facilities must meet permitted conditions of the DEP. This amendment was anticipated to reduce the bill's estimated recurring negative fiscal impact.

On March 5, 1998, the Committee on Finance and Taxation adopted a committee substitute to CS/HB 3229. An amendment was adopted that added a sales and use tax exemption for equipment, machinery, or materials required by permit or law that are purchased for the monitoring, prevention, abatement, or control of pollution or contaminants at solid waste management facilities.
