I. SUMMARY:

This bill authorizes the Bayshore Fire Protection & Rescue Service District (District) to establish and maintain emergency medical services and acquire and maintain rescue, medical and other emergency equipment.

This bill also amends the date the District Board of Commissioners (Board) elects its officers, allowing for the annual election to be in January rather than November.

This bill increases the maximum ad valorem tax millage that may be levied by the District from \$2.50 to \$3.00 per \$1,000.00 of net taxable assessed valuation, upon voter approval.

If approved, the tax millage increase will result in an estimated \$93,290.00 annually.

II. SUBSTANTIVE ANALYSIS:

A. PRESENT SITUATION:

The Bayshore Fire Protection & Rescue Service District (District) was created by chapter 76-414, Laws of Florida, as an independent special district. The District has the authority to tax certain incorporated lands in Lee County. The District Board of Commissioners (Board), consists of five elected commissioners. The Board is granted the right, power, and authority to levy ad valorem taxes to provide funds to meet the purposes of the district.

When the District was established in 1976, it was granted the authority to levy ad valorem taxes up to \$1.0 per \$1,000 of net taxable assessed value. Chapter 80-519, Laws of Florida, increased the maximum amount of ad valorem taxes that the District could levy to \$1.50. Chapters 84-465 and 87-421, Laws of Florida, again amended the taxing section to substantially increase the millage to \$2.50. Specifically, subsection 5(2) provides that, following public hearings on the proposed budget, the tax rate shall be fixed by a Resolution of the Board. They levy shall not exceed \$2.50 per \$1,000 of net taxable assessed valuation. Chapter 95-45, Laws of Florida, sought to increase the maximum amount of ad valorem taxes to \$3.0 per \$1,000 of net taxable assessed income. This increase was not approved by the qualified electors of the District in a referendum.

The District Administrator comments that the District serves a community of 4,800 residents within a 30 square mile area. Approximately 698 calls are responded to annually, with an average response time of five minutes. The District employs nine persons (utilizing predominantly volunteer personnel). Three engines, one tanker, one brush truck, one tactical support vehicle and three staff vehicles are owned and maintained by the District.

The District would like to provide EMT services, including the ability to perform advanced life support services (ALS). The implementation of this plan requires intensive training of advanced life support system personnel, as well as an increase in salaries for trained personnel. A portion of the cost of new equipment needed to provide ALS may be funded by grants from the county.

Currently the Board of Commissioners for the District is elected in November. According to the current status of the law, the officers must also be chosen by the Board in November. Because the Board Members do not take office until the January following the election, the law requires that the new officers are elected by the members of the outgoing board.

According to the District Administrator, the District's current practice allows the newly elected Board to choose its members by postponing the officers' elections until January.

Currently, the law requires that the District's annual report and accounting of funds be filed with the Clerk of the Circuit Court of Lee County no later than November 1 each year.

The District Administrator asserts that the annual November 1 deadline on filing the annual report and accounting of funds is too restrictive. There has been difficulty

meeting this deadline because the District's annual audit is often not completed until mid-December and is not presented to the Board until January.

B. EFFECT OF PROPOSED CHANGES:

This bill authorizes the Bayshore Fire Protection & Rescue Service District to establish and maintain emergency medical services, including ALS, and acquire and maintain rescue, medical and other emergency equipment pursuant to general law.

This bill also amends the annual date for the election of the officers of the District Board of Commissioners.

This bill amends current law to increase the maximum ad valorem tax millage that may be imposed by the District from 2.5 to 3.0 mils.

This bill also deletes the current requirement that the annual report and accounting of the District's funds be submitted by November 1 each year, thus meeting the requirements of section 189.418, Florida Statutes.

E. SECTION-BY-SECTION ANALYSIS:

Section 1 -- authorizes the Bayshore Fire Protection and Rescue Service District to establish and maintain emergency medical services and acquire and maintain rescue, medical, and other emergency equipment pursuant to general law.

Section 2 -- amends Section 4 of chapter 76-414, Laws of Florida, to change the annual date of the election of officers of the Board of Commissioners.

Section 3 -- amends Section 5 of chapter 76-414, Laws of Florida, as amended, to increase the maximum ad valorem tax that the District may levy to \$3.00 per \$1,000.00 of net taxable assessed valuation.

Section 4 -- provides for a referendum of all qualified electors within the District to be called by the Board of Commissioners of the District and to be held in conjunction with the next primary or general election, in accordance with current election law. The amendments to Section 3 of this bill will take effect only upon its approval by a majority vote of the qualified district electors.

Section 5 -- amends Section 11(4) to delete the November 1 deadline for the annual filing of the Districts annual report of its actions and accounting of its funds.

Section 6 -- provides that this act shall take effect upon becoming law.

IV. COMMENTS:

This will be the third increase in the millage revenues that the Legislature has authorized for this District since its creation 20 years ago.

The District Administrator commented that this increase in the millage cap is being sought to provide a cushion between the current assessed millage of 2.5 and the new millage cap of 3.0. The Board of the District feels that the cushion is needed to ensure its ability to meet its financial needs and in order to continue to provide quality service to the community. The millage cap increase will also be used to offset some of the costs of increased salaries and training for those who will provide EMT services, including advanced life support services.

This bill is expected to generate an additional revenue of \$93,290.00 for the 1998-1999 fiscal year. The cost of adding this issue to the next general or primary election is estimated at \$1,500.00.

This would be the first change to the timing of the election of Board officers since the District was created. The District Administrator asserts that this change will bring the law in line with the current practice of the Board of Commissioners.

This bill would also amend, for the first time, the requirement of filing the District's annual report and accounting of its funds. The District Administrator comments that this change will bring the law in line with requirements of section 189.418, Florida Statutes, as well as with the current practice of the Board of Commissioners.

V. AMENDMENTS OR COMMITTEE SUBSTITUTE CHANGES:

One technical amendment passed the House Committee on Community Affairs that corrects the reference to chapter 189, Laws of Florida by changing it to chapter 189, Florida Statutes.
