I. SUMMARY:

The Florida Prepaid Postsecondary Education Expense Program, Board, and Trust Fund is renamed to the Florida Prepaid College Program, Board, and Trust Fund.

Current statute is reorganized, obsolete language is deleted, and technical revisions and conforming provisions are included.

The Board is authorized to provide prepaid contracts that cover local fees at community colleges and state universities.

Need-based student financial aid calculations are changed from calculating contract benefits as a student resource to counting contract benefits as a family resource.

The name of the Prepaid College Program is protected from unlawful representation.

Florida Prepaid Program contracts are exempt from the probate claims of creditors.

The fiscal impact of this bill is indeterminate at this time.

II. SUBSTANTIVE RESEARCH:

A. PRESENT SITUATION:

**Florida Prepaid Postsecondary Education Expense Program**

The Florida Prepaid Postsecondary Education Expense Program was established by the Florida Legislature in 1987 to provide a medium through which the cost of state postsecondary education may be paid in advance and fixed at a guaranteed level for the duration of undergraduate enrollment (s. 240.551, F.S.). The Prepaid Program covers the basic tuition cost (matriculation fee) of a Florida public university or community college, as well as the building fee, capital improvement fee, and financial aid fee. Local fees, such as health, activity and service, and athletic fees, are not included in the program. The contract may be paid in a lump-sum plan, a five-year installment plan, or a monthly payment plan.

**Name Change**

Due to the lengthy title "The Florida Prepaid Postsecondary Education Expense Program" and common usage of the term "Florida Prepaid Program", the Florida Prepaid Postsecondary Education Expense Board has requested that the title be shortened.

**Financial Aid Calculation**

Current state law is silent regarding the calculation of the Florida Prepaid Program for purposes state need-based financial aid. Current practice is to calculate student need based on the federal financial aid formula which calculates the cost of attendance (COA) minus expected family contribution (EFC). Expected family contribution takes into account family assets, income, etc. After student need is calculated, the amount of prepayment is deducted from the student need on a dollar for dollar basis. An example of this calculation is:

Federal determination of EFC assets of \$30,000 = EFC \$2,000

COA	10,000
EFC	- <u>2,000</u>
Need	8,000
Prepay	- <u>2,000</u>
Need	\$6,000

**Protection of Florida Prepaid Postsecondary Education Expense Program**

Section 240.551(5)(l), specifies that any materials produced for the purpose of marketing the program should be approved by the board before they are distributed.

**Fees**

The Prepaid Program covers the basic tuition cost (matriculation fee) of a Florida public university or community college, as well as the building fee, capital improvement fee,

and financial aid fee, s. 240.551(7)(a)(b), F.S. Local fees, such as health, activity and service, and athletic fees, are not included in the program.

### **Exemptions from Creditors**

Section 240.551(11), exempts moneys paid into or out of the fund by or on behalf of a purchaser or qualified beneficiary of a prepaid contract from all claims of creditors of the purchaser or the beneficiary.

## **B. EFFECT OF PROPOSED CHANGES:**

### **Name Change**

All references to the "Florida Prepaid Postsecondary Education Expense Program, Board, and Trust Fund" are deleted and replaced with the terms "Florida Prepaid College Program, Board, and Trust Fund" throughout the bill.

This change is consistent with common parlance and should lessen confusion surrounding the name of the program.

### **Technical Changes**

Obsolete language that establishes the procedure for the initial appointments of board members in s. 240.551(5) is removed.

Obsolete language in s. 240.551(11) that authorizes the Board to consult with the Department of Legal Affairs in the initial development of payment contracts is removed.

The current statute is reorganized, therefore, the bill contains numerous pages of underlined and stricken texts. Additionally, titles are inserted, and paragraphs are enumerated.

### **Financial Aid Calculation**

Section 240.551(17), F.S., would change the calculation of student need by factoring the amount of the prepayment into the expected family contribution rather than subtracting it, dollar for dollar, from student need. An example of this calculation is:

Federal determination of EFC assets of \$30,000 + prepay \$2,000 = EFC \$2,200

COA	10,000
EFC	<u>- 2,200</u>
Need	\$7,800

Students could be eligible for more financial aid due to the change in calculation.

An additional effect of this provision is that postsecondary institutions will be required to calculate aid differently depending upon the source of the funds. This could potentially increase administrative costs at the institutions.

### **Protection of the Florida Prepaid College Program**

Section 240.551(22), F.S., creates a new section that prohibits any person from using the phrase "Prepaid College," "Prepaid College Program," "Florida Prepaid College Program," "State Prepaid College Program," or any similar phrase in the title or name of any enterprise, product or service without the written authorization of the Florida Prepaid College Board.

The effect of this provision strengthens the protection of the Prepaid name.

### **Fees**

Sections 240.551(9)(a)2., and 240.551(9)(b)2., F.S., authorizes the Board to provide prepayment contracts that include additional fees. These fees are delineated in s. 240.35, F.S., for community colleges and 240.235, F.S., for state universities.

### **Exemption from Creditors**

Section 732.402(2)(c), F.S., is amended to include the Florida Prepaid College Program contracts as property exempt from the probate claims of creditors.

This change expands the protection of Florida Prepaid contracts from creditors.
