I. SUMMARY:

Article III, section 19(f)(1), of the state constitution requires each state trust fund to be created by a separate bill for that purpose only. Last year the Legislature created the Department of Health. This bill creates the Federal Grants Trust Fund in the new department. The Federal GrantsTrust Fund will be used as the repository for grants and funding from the Federal Government, and to support programs whose activities and revenues are restricted by federal grant or contract.

II. SUBSTANTIVE ANALYSIS:

A. PRESENT SITUATION:

Article III, section 19(f)(1), of the state constitution requires each state trust fund to be created by "a three-fifths vote of the membership of each house of the legislature in a separate bill for that purpose only."

Last year the Legislature created the Department of Health (ch. 96-403, L.O.F.). The new department, which came into official existence on January 1st, is composed of the State Health Office and Children's Medical Services Program of the former Department of Health & Rehabilitative Services (now the Department of Children & Family Services). An existing trust fund may be transferred to a new agency only if it is to be utilized exclusively by the new agency. For example, the County Health Department Trust Fund was transferred to the new department when it was created last year. If the trust fund will continue to be used by the source department (i.e., the Dept. of Children & Families), a new trust fund must be created for the new agency.
