**I. SUMMARY:**

The Department of Highway Safety and Motor Vehicles (DHS&MV) is prohibited from releasing driver license photographs and digital images except for law enforcement purposes. Notwithstanding this restriction, DHS&MV is authorized to sell copies of photographs, electronically stored photographs, and other driver's license and state identification card information if such information is used solely for the prevention of fraud and is intended to prevent the fraudulent use of credit cards, debit cards, or checks, or fraud in other forms of financial transactions. The use of such photographs, electronically stored photographs, or digitized images is limited to verifying the person's identity and is prohibited from being used for any other purpose.

On November 10, 1998, the DHS&MV agreed to sell Florida license information to Image Data, LLC. Paragraph 7 of the agreement specifies that the agreement automatically terminates if a court order results in DHS&MV being prohibited from providing the information to Image Data, LLC. On February 1, 1999, DHS&MV terminated the agreement with Image Data, LLC, pursuant to paragraph 7. This was the only agreement that DHS&MV has entered to sell Florida license information.

The bill repeals DHS&MV's authority to sell copies of photographs, electronically stored photographs, and other driver's license and state identification card information when such information is used for the prevention of fraud. As a result, DHS&MV would be prohibited from releasing driver license photographs and digital images, except for law enforcement purposes.

**Note: An amendment was adopted by the Committee on Transportation which creates the Task Force on Privacy and Technology within the Executive Office of the Governor. Please see part VI. Amendments or Committee Substitute Changes, on page 6 for details.**

**Note: A substitute amendment to amendment (153377) was adopted by the Transportation and Economic Development Appropriations Committee which creates the Task Force on Privacy and Technology which is composed of 19 members with the Executive Office of the Governor. Please see Part VI. Amendments or Committee Substitute Changes, on page 6 for details.**

II. SUBSTANTIVE ANALYSIS:

A. PRESENT SITUATION:

Section 322.142, F.S., prohibits DHS&MV from releasing driver license photographs and digital images except for law enforcement purposes. Notwithstanding this restriction, the section also authorizes DHS&MV to sell copies of photographs, electronically stored photographs, and other driver's license and state identification card information if such information is used solely for the prevention of fraud and is intended to prevent the fraudulent use of credit cards, debit cards, or checks, or fraud in other forms of financial transactions. The use of such photographs, electronically stored photographs, or digitized images is limited to verifying the person's identity and is prohibited from being used for any other purpose.

On November 10, 1998, the DHS&MV agreed to sell Florida license information to Image Data, LLC. Paragraph 7 of the agreement specifies that the agreement automatically terminates if a court order results in DHS&MV being prohibited from providing the information to Image Data, LLC.

On February 1, 1999, DHS&MV terminated the agreement with Image Data, LLC, pursuant to paragraph 7. This was the only agreement that DHS&MV has entered to sell Florida license information.

B. EFFECT OF PROPOSED CHANGES:

The bill repeals DHS&MV's authority to sell copies of photographs, electronically stored photographs, and other driver's license and state identification card information when such information is used for the prevention of fraud. As a result, DHS&MV would be prohibited from releasing driver license photographs and digital images, except for law enforcement purposes.

VI. AMENDMENTS OR COMMITTEE SUBSTITUTE CHANGES:

On March 11, 1999, the Committee on Transportation adopted one amendment to HB 1015. The amendment creates the Task Force on Privacy and Technology within the Executive Office of the Governor. The task force is directed to study and make recommendations concerning:

- Privacy issues and the advent of the use of technology.
- Technology fraud, including the illegal use of citizen's identity, credit, and other uses.
- Balancing the openness of public records with individual privacy and identities.
- The sale of public records to private individuals and companies.

Some administrative costs are anticipated for the Task Force on Privacy and Technology to perform the study and make recommendations.

On April 16, 1999, the Transportation and Economic Development Appropriations Committee adopted a substitute amendment for amendment (153377). The substitute amendment creates the Task Force on Privacy and Technology which is composed of 19 members within the Executive Office of the Governor. The task force is directed to study and make recommendations concerning:

- Privacy issues and the advent of the use of technology.
- Technology fraud, including the illegal use of citizen's identity, credit, and other uses.
- Balancing the openness of public records with individual privacy and identities.
- The sale of public records to private individuals and companies.

The administrative costs (ie travel, per diem, printing materials, etc) will be supported by the Executive Office of the Governor within its existing resources.
