Section 2. Paragraph (a) of subsection (11) of section 403.0872, Florida Statutes, is amended to read:

403.0872 Operation permits for major sources of air pollution; annual operation license fee. -- Provided that program approval pursuant to 42 U.S.C. s. 7661a has been received from the United States Environmental Protection Agency, beginning January 2, 1995, each major source of air pollution, including electrical power plants certified under s. 403.511, must obtain from the department an operation permit for a major source of air pollution under this section, which is the only department operation permit for a major source of air pollution required for such source. Operation permits for major sources of air pollution, except general permits issued pursuant to s. 403.814, must be issued in accordance with the following procedures and in accordance with chapter 120; however, to the extent that chapter 120 is inconsistent with the provisions of this section, the procedures contained in this section prevail:

(11) Commencing in 1993, each major source of air pollution permitted to operate in this state must pay between January 15 and March 1 of each year, upon written notice from the department, an annual operation license fee in an amount determined by department rule. The annual operation license fee shall be terminated immediately in the event the United 31 | States Environmental Protection Agency imposes annual fees

solely to implement and administer the major source air-operation permit program in Florida under 40 C.F.R. s. 70.10(d).

- (a) The annual fee must be assessed based upon the source's previous year's emissions and must be calculated by multiplying the applicable annual operation license fee factor times the tons of each regulated air pollutant (except carbon monoxide) allowed to be emitted per hour by specific condition of the source's most recent construction or operation permit, times the annual hours of operation allowed by permit condition; provided, however, that:
- 1. For 1993 and 1994, the license fee factor is \$10. For 1995, the license fee factor is \$25. In succeeding years, The license fee factor is \$25 or another amount determined by department rule which ensures that the revenue provided by each year's operation license fees is sufficient to cover all reasonable direct and indirect costs of the major stationary source air-operation permit program established by this section. The license fee factor may be increased beyond \$25 only if the secretary of the department affirmatively finds that a shortage of revenue for support of the major stationary source air-operation permit program will occur in the absence of a fee factor adjustment. The annual license fee factor may never exceed \$35. The department shall retain a nationally recognized accounting firm to conduct a study to determine the reasonable revenue requirements necessary to support the development and administration of the major source air-operation permit program as prescribed in paragraph (b). The results of that determination must be considered in assessing whether a \$25-per-ton fee factor is sufficient to adequately fund the major source air-operation permit program.

The results of the study must be presented to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Public Service Commission, including the Public Counsel's Office, by no later than October 31, <del>1994.</del>

- 2. For any source that operates for fewer hours during the calendar year than allowed under its permit, the annual fee calculation must be based upon actual hours of operation rather than allowable hours if the owner or operator of the source documents the source's actual hours of operation for the calendar year. For any source that has an emissions limit that is dependent upon the type of fuel burned, the annual fee calculation must be based on the emissions limit applicable during actual hours of operation.
- 3. For any source whose allowable emission limitation is specified by permit per units of material input or heat input or product output, the applicable input or production amount may be used to calculate the allowable emissions if the owner or operator of the source documents the actual input or production amount. If the input or production amount is not documented, the maximum allowable input or production amount specified in the permit must be used to calculate the allowable emissions.
- For any new source that does not receive its first operation permit until after the beginning of a calendar year, the annual fee for the year must be reduced pro rata to reflect the period during which the source was not allowed to operate.
- For any source that emits less of any regulated air pollutant than allowed by permit condition, the annual fee 31 calculation for such pollutant must be based upon actual

emissions rather than allowable emissions if the owner or operator documents the source's actual emissions by means of data from a department-approved certified continuous emissions monitor or from an emissions monitoring method which has been approved by the United States Environmental Protection Agency under the regulations implementing 42 U.S.C. ss. 7651 et seq., or from a method approved by the department for purposes of this section.

- The amount of each regulated air pollutant in excess of 4,000 tons per year allowed to be emitted by any source, or group of sources belonging to the same Major Group as described in the Standard Industrial Classification Manual, 1987, may not be included in the calculation of the fee. Any source, or group of sources, which does not emit any regulated air pollutant in excess of 4,000 tons per year, is allowed a one-time credit not to exceed 25 percent of the first annual licensing fee for the prorated portion of existing air-operation permit application fees remaining upon commencement of the annual licensing fees.
- 7. If the department has not received the fee by February 15 of the calendar year, the permittee must be sent a written warning of the consequences for failing to pay the fee by March 1. If the fee is not postmarked by March 1 of the calendar year, commencing with calendar year 1997, the department shall impose, in addition to the fee, a penalty of 50 percent of the amount of the fee, plus interest on such amount computed in accordance with s. 220.807. The department may not impose such penalty or interest on any amount underpaid, provided that the permittee has timely remitted payment of at least 90 percent of the amount determined to be 31 due and remits full payment within 60 days after receipt of

notice of the amount underpaid. The department may waive the collection of underpayment and shall not be required to refund overpayment of the fee, if the amount due is less than 1 percent of the fee, up to \$50. The department may revoke any major air pollution source operation permit if it finds that the permitholder has failed to timely pay any required annual operation license fee, penalty, or interest.

- During the years 1993 through 1999, inclusive, no fee shall be required to be paid under this section with respect to emissions from any unit which is an affected unit under 42 U.S.C. s. 7651c.
- 9. Notwithstanding the computational provisions of this subsection, the annual operation license fee for any source subject to this section shall not be less than \$250, except that the annual operation license fee for sources permitted solely through general permits issued under s. 403.814 shall not exceed \$50 per year.
- 10. Notwithstanding the provisions of s. 403.087(6)(a)4.a., authorizing air pollution construction permit fees, the department may not require such fees for changes or additions to a major source of air pollution permitted pursuant to this section, unless the activity triggers permitting requirements under Title I, Part C or Part D, of the federal Clean Air Act, 42 U.S.C. ss. 7470-7514a. Costs to issue and administer such permits shall be considered direct and indirect costs of the major stationary source air-operation permit program under s. 403.0873. The department shall, however, require fees pursuant to the provisions of s. 403.087(6)(a)4.a. for the construction of a new major source of air pollution that will be subject to the permitting 31 requirements of this section once constructed and for

activities triggering permitting requirements under Title I, 2 Part C or Part D, of the federal Clean Air Act, 42 U.S.C. ss. 3 7470-7514a. 4 5 Reviser's note. -- Amended to delete language 6 that has served its purpose. 7 8 Section 3. Section 403.08851, Florida Statutes, is 9 amended to read: 10 403.08851 Implementation.--The provisions of this act 11 shall be implemented upon approval by the United States Environmental Protection Agency of the National Pollutant 12 13 Discharge Elimination System program of the state. No state 14 permit shall be issued pursuant to the provisions of this act 15 before July 1, 1994. 16 Reviser's note. -- Amended to delete obsolete 17 18 language relating to issuance of state permits 19 prior to July 1, 1994. 20 Section 4. Paragraph (b) of subsection (17) of section 21 22 403.703, Florida Statutes, is amended to read: 403.703 Definitions.--As used in this act, unless the 23 context clearly indicates otherwise, the term: 24 (17) "Construction and demolition debris" means 25 26 discarded materials generally considered to be not 27 water-soluble and nonhazardous in nature, including, but not 28 limited to, steel, glass, brick, concrete, asphalt roofing material, pipe, gypsum wallboard, and lumber, from the 29 construction or destruction of a structure as part of a 30

31 construction or demolition project or from the renovation of a

structure, and including rocks, soils, tree remains, trees, and other vegetative matter that normally results from land clearing or land development operations for a construction project, including such debris from construction of structures at a site remote from the construction or demolition project site. Mixing of construction and demolition debris with other types of solid waste will cause it to be classified as other than construction and demolition debris. The term also includes:

(b) Effective January 1, 1997, except as provided in s. 403.707(12)(j) 403.707(13)(j), unpainted, nontreated wood scraps from facilities manufacturing materials used for construction of structures or their components and unpainted, nontreated wood pallets provided the wood scraps and pallets are separated from other solid waste where generated and the generator of such wood scraps or pallets implements reasonable practices of the generating industry to minimize the commingling of wood scraps or pallets with other solid waste; and

Section 5. Paragraph (f) of subsection (3) of section 403.705, Florida Statutes, is amended to read:

403.705 State solid waste management program.--

30 (3) The state solid waste management program shall include, at a minimum:

Planning guidelines and technical assistance to counties and municipalities to develop and implement programs for alternative disposal or processing or recycling of the solid wastes prohibited from disposal in landfills under s.  $403.708(13)\frac{403.708(15)}{100}$  and for special wastes.

Section 6. Subsection (1) and paragraphs (a) and (b) of subsection (4) of section 403.706, Florida Statutes, 1998 Supplement, are amended to read:

19 403.706 Local government solid waste 20 responsibilities. --

(1) The governing body of a county has the responsibility and power to provide for the operation of solid waste disposal facilities to meet the needs of all incorporated and unincorporated areas of the county. Unless otherwise approved by an interlocal agreement or special act, municipalities may not operate solid waste disposal facilities unless a municipality demonstrates by a preponderance of the evidence that the use of a county designated facility, when compared to alternatives proposed by the municipality, places a significantly higher and disproportionate financial burden 31 on the citizens of the municipality when compared to the

4 5

6 7

8

financial burden placed on persons residing within the county 1 but outside of the municipality. However, a municipality may construct and operate a resource recovery facility and related onsite solid waste disposal facilities without an interlocal agreement with the county if the municipality can demonstrate by a preponderance of the evidence that the operation of such facility will not significantly impair financial commitments made by the county with respect to solid waste management services and facilities or result in significantly increased solid waste management costs to the remaining persons residing 10 11 within the county but not served by the municipality's facility. This section shall not prevent a municipality from 12 13 continuing to operate or use an existing disposal facility permitted on or prior to October 1, 1988. Any municipality 14 which establishes a solid waste disposal facility under this 15 16 subsection and subsequently abandons such facility shall be responsible for the payment of any capital expansion necessary 17 to accommodate the municipality's solid waste for the 18 19 remaining projected useful life of the county disposal facility. Pursuant to this section and notwithstanding any other provision of this chapter, counties shall have the power 21 22 and authority to adopt ordinances governing the disposal of solid waste generated outside of the county at the county's 23 solid waste disposal facility. In accordance with this 24 section, municipalities are responsible for collecting and 25 26 transporting solid waste from their jurisdictions to a solid 27 waste disposal facility operated by a county or operated under 28 a contract with a county. Counties may charge reasonable fees 29 for the handling and disposal of solid waste at their facilities. The fees charged to municipalities at a solid 30 waste management facility specified by the county shall not be

greater than the fees charged to other users of the facility except as provided in s.  $\underline{403.7049(5)}\underline{403.7049(4)}$ . Solid waste management fees collected on a countywide basis shall be used to fund solid waste management services provided countywide.

(4)(a) A county's solid waste management and recycling programs shall be designed to provide for sufficient reduction of the amount of solid waste generated within the county and the municipalities within its boundaries in order to meet goals for the reduction of municipal solid waste prior to the final disposal or the incineration of such waste at a solid waste disposal facility. The goals shall provide, at a minimum, that the amount of municipal solid waste that would be disposed of within the county and the municipalities within its boundaries is reduced by at least 30 percent by the end of 1994. In determining whether the municipal solid waste reduction goal established by this subsection has been achieved, no more than one-half of the goal may be met with yard trash, white goods, construction and demolition debris, and tires that are removed from the total amount of municipal solid waste. However, if a county that is a special district created by chapter 67-764, Laws of Florida, demonstrates that yard trash, construction and demolition debris, white goods, and waste tires comprise more than 50 percent of the municipal solid waste generated in the county and municipalities within its boundaries, the county may meet the reduction goal established by this subsection by reducing the Class I municipal solid waste generated in the county and municipalities within its boundaries at a rate equal to the average rate Class I municipal solid waste is reduced in the 20 most populous counties, as determined by the department for the previous reporting period. As used in this subsection,

"Class I municipal solid waste" means municipal solid waste other than yard trash, construction and demolition debris, white goods, and waste tires.

- (b) Notwithstanding the limitation on the waste reduction goal in paragraph (a), a county may receive credit for one-half of the goal for waste reduction from one or a combination of the following:
- 1. The use of pelletized paper waste as a supplemental fuel in permitted boilers other than waste-to-energy facilities.
- 2. The use of yard trash, or other clean wood waste or paper waste, in innovative programs including, but not limited to, programs that produce alternative clean-burning fuels such as ethanol or that provide for the conversion of yard trash or other clean wood waste or paper waste to clean-burning fuel for the production of energy for use at facilities other than a waste-to-energy facility as defined in s. 403.7061 403.7895. The provisions of this subparagraph only apply if a county can demonstrate that:
- a. The county has implemented a yard trash mulching or composting program, and
- b. As part of the program, compost and mulch made from yard trash is available to the general public and in use at county-owned or maintained and municipally owned or maintained facilities in the county and state agencies operating in the county as required by this section.

Reviser's note.--Subsection (1) is amended to conform to the redesignation of s. 403.7049(4) as s. 403.7049(5) necessitated by the addition of a new subsection (4) by s. 13, ch. 93-207,

Laws of Florida. Paragraph (4)(a) is amended to delete obsolete language relating to goals established for the reduction of the amount municipal solid waste disposed of within a county and the municipalities within the county by the end of 1994. Paragraph (4)(b) is amended to correct an apparent error and facilitate correct interpretation. reference to s. 403.7061 was originally cited as "section 57 of this act" by s. 15 of C.S. for H.B. 461, 1993, which became ch. 93-207. Section 57 became s. 403.7895. Section 403.7061 was in s. 57 of the bill as it appeared in a House amendment; a section of that amendment was subsequently deleted without updating the reference to conform.

Section 31. Section 409.9116, Florida Statutes, 1998 Supplement, is amended to read:

409.9116 Disproportionate share/financial assistance program for rural hospitals. -- In addition to the payments made under s. 409.911, the Agency for Health Care Administration shall administer a federally matched disproportionate share program and a state-funded financial assistance program for statutory rural hospitals. The agency shall make disproportionate share payments to statutory rural hospitals that qualify for such payments and financial assistance payments to statutory rural hospitals that do not qualify for 31 disproportionate share payments. The disproportionate share

program payments shall be limited by and conform with federal requirements. In fiscal year 1993-1994, available funds shall be distributed in one payment, as soon as practicable after the effective date of this act. In subsequent fiscal years, Funds shall be distributed quarterly in each fiscal year for which an appropriation is made. Notwithstanding the provisions of s. 409.915, counties are exempt from contributing toward the cost of this special reimbursement for hospitals serving a disproportionate share of low-income patients.

(1) The following formula shall be used by the agency to calculate the total amount earned for hospitals that participate in the rural hospital disproportionate share program or the financial assistance program:

TAERH = (CCD + MDD)/TPD

Where:

CCD = total charity care-other, plus charity care-Hill Burton, minus 50 percent of unrestricted tax revenue from local governments, and restricted funds for indigent care, divided by gross revenue per adjusted patient day; however, if CCD is less than zero, then zero shall be used for CCD.

MDD = Medicaid inpatient days plus Medicaid HMO
inpatient days.

TPD = total inpatient days.

TAERH = total amount earned by each rural hospital.

In computing the total amount earned by each rural hospital, the agency must use the most recent actual data reported in accordance with s. 408.061(4)(a).

In determining the payment amount for each rural hospital under this section, the agency shall first allocate all available state funds by the following formula:

## $DAER = (TAERH \times TARH)/STAERH$

Federal matching funds for the disproportionate share program shall then be calculated for those hospitals that qualify for disproportionate share payments under this section.

- (3) The Agency for Health Care Administration may recommend to the Legislature a formula to be used in subsequent fiscal years to distribute funds appropriated for this section that includes charity care, uncompensated care to medically indigent patients, and Medicaid inpatient days.
- (4) In the event that federal matching funds for the rural hospital disproportionate share program are not available, state matching funds appropriated for the program may be utilized for the Rural Hospital Financial Assistance Program and shall be allocated to rural hospitals based on the formulas in subsections (1) and (2).
- (5) In order to receive payments under this section, a hospital must be a rural hospital as defined in s. 395.602 and 31 | must meet the following additional requirements:

- (a) Agree to conform to all agency requirements to
  ensure high quality in the provision of services, including
  criteria adopted by agency rule concerning staffing ratios,
  medical records, standards of care, equipment, space, and such
  other standards and criteria as the agency deems appropriate
  as specified by rule.

  (b) Agree to accept all patients, regardless of
  - (b) Agree to accept all patients, regardless of ability to pay, on a functional space-available basis.
  - (c) Agree to provide backup and referral services to the county public health departments and other low-income providers within the hospital's service area, including the development of written agreements between these organizations and the hospital.
  - (d) For any hospital owned by a county government which is leased to a management company, agree to submit on a quarterly basis a report to the agency, in a format specified by the agency, which provides a specific accounting of how all funds dispersed under this act are spent.
  - (6) For the 1998-1999 fiscal year only, the Agency for Health Care Administration shall use the following formula for distribution of the funds in Specific Appropriation 240 of the 1998-1999 General Appropriations Act for the disproportionate share/financial assistance program for rural hospitals.
  - (a) The agency shall first determine a preliminary payment amount for each rural hospital by allocating all available state funds using the following formula:

PDAER =  $(TAERH \times TARH)/STAERH$ 

Where:

1 PDAER = preliminary distribution amount for each rural 2 hospital. 3 TAERH = total amount earned by each rural hospital. 4 TARH = total amount appropriated or distributed under 5 this section. 6 STAERH = sum of total amount earned by each rural 7 hospital. 8 (b) Federal matching funds for the disproportionate 9 share program shall then be calculated for those hospitals 10 that qualify for disproportionate share in paragraph (a). 11 (c) The state-funds-only payment amount is then 12 calculated for each hospital using the formula: 13 14 SFOER = Maximum value of (1) SFOL - PDAER or (2) 0 15 16 Where: 17 SFOER = state-funds-only payment amount for each rural 18 hospital. 19 SFOL = state-funds-only payment level, which is set at 20 4 percent of TARH. 21 (d) The adjusted total amount allocated to the rural 22 disproportionate share program shall then be calculated using 23 the following formula: 24 25 ATARH = (TARH - SSFOER)26 27 Where: 28 ATARH = adjusted total amount appropriated or 29 distributed under this section. 30 SSFOER = sum of the state-funds-only payment amount 31 | calculated under paragraph (c) for all rural hospitals.

(e) The determination of the amount of rural disproportionate share hospital funds is calculated by the following formula:

 $TDAERH = [(TAERH \times ATARH)/STAERH]$ 

 Where:

TDAERH = total distribution amount for each rural hospital.

- (f) Federal matching funds for the disproportionate share program shall then be calculated for those hospitals that qualify for disproportionate share in paragraph (e).
- (g) State-funds-only payment amounts calculated under paragraph (c) are then added to the results of paragraph (f) to determine the total distribution amount for each rural hospital.
  - (h) This subsection is repealed on July 1, 1999.
- defined as statutory rural hospitals, or their successor-in-interest hospital, prior to July 1, 1998. Any additional hospital that is defined as a statutory rural hospital, or its successor-in-interest hospital, on or after July 1, 1998, is not eligible for programs under this section unless additional funds are appropriated each fiscal year specifically to the rural hospital disproportionate share and financial assistance programs in an amount necessary to prevent any hospital, or its successor-in-interest hospital, eligible for the programs prior to July 1, 1998, from incurring a reduction in payments because of the eligibility of an additional hospital to participate in the programs.

Section 32. Subsection (26) of section 409.912, Florida Statutes, 1998 Supplement, is amended to read:

409.912 Cost-effective purchasing of health care. -- The agency shall purchase goods and services for Medicaid recipients in the most cost-effective manner consistent with the delivery of quality medical care. The agency shall maximize the use of prepaid per capita and prepaid aggregate fixed-sum basis services when appropriate and other alternative service delivery and reimbursement methodologies, including competitive bidding pursuant to s. 287.057, designed to facilitate the cost-effective purchase of a case-managed continuum of care. The agency shall also require providers to minimize the exposure of recipients to the need for acute inpatient, custodial, and other institutional care and the inappropriate or unnecessary use of high-cost services.

(26) Beginning July 1, 1996, the agency shall perform choice counseling, enrollments, and disenrollments for Medicaid recipients who are eligible for MediPass or managed care plans. Notwithstanding the prohibition contained in paragraph (18)(f), managed care plans may perform preenrollments of Medicaid recipients under the supervision of the agency or its agents. For the purposes of this section, "preenrollment" means the provision of marketing and educational materials to a Medicaid recipient and assistance in completing the application forms, but shall not include actual enrollment into a managed care plan. An application for enrollment shall not be deemed complete until the agency 31 or its agent verifies that the recipient made an informed,

Section 110. Subsections (2) and (3) of section 497.255, Florida Statutes, 1998 Supplement, are amended to read:

497.255 Standards for construction and significant alteration or renovation of mausoleums and columbaria. --

(2) The board shall adopt, by no later than July 1, 1999, rules establishing minimum standards for all newly constructed and significantly altered or renovated mausoleums and columbaria; however, in the case of significant alterations or renovations to existing structures, the rules shall apply only, when physically feasible, to the newly altered or renovated portion of such structures, except as specified in subsection (4). In developing and promulgating said rules, the board may define different classes of structures or construction standards, and may provide for different rules to apply to each of said classes, if the designation of classes and the application of different rules is in the public interest and is supported by findings by the board based on evidence of industry practices, economic and physical feasibility, location, or intended uses; provided, that the rules shall provide minimum standards applicable to 31 | all construction. For example, and without limiting the

generality of the foregoing, the board may determine that a 1 2 small single-story ground level mausoleum does not require the 3 same level of construction standards that a large multistory mausoleum might require; or that a mausoleum located in a 4 5 low-lying area subject to frequent flooding or hurricane threats might require different standards than one located on 6 7 high ground in an area not subject to frequent severe weather 8 threats. The board shall develop the rules in cooperation 9 with, and with technical assistance from, the Florida Building Commission Board of Building Codes and Standards of the 10 Department of Community Affairs, to ensure that the rules are 11 in the proper form and content to be included as part of the 12 13 State Minimum Building Codes under part VII of chapter 553. If 14 the Florida Building Commission Board of Building Codes and Standards advises that some of the standards proposed by the 15 16 board are not appropriate for inclusion in such building codes, the board may choose to include those standards in a 17 distinct chapter of its rules entitled "Non-Building-Code 18 Standards for Mausoleums" or "Additional Standards for 19 20 Mausoleums," or other terminology to that effect. If the board 21 elects to divide the standards into two or more chapters, all 22 such rules shall be binding on licensees and others subject to the jurisdiction of the board, but only the chapter containing 23 provisions appropriate for building codes shall be transmitted 24 to the Florida Building Commission Board of Building Codes and 25 Standards pursuant to subsection (3). Such rules may be in the 26 27 form of standards for design and construction; methods, 28 materials, and specifications for construction; or other 29 mechanisms. Such rules shall encompass, at a minimum, the following standards: 30

- (a) No structure may be built or significantly altered for use for interment, entombment, or inurnment purposes unless constructed of such material and workmanship as will ensure its durability and permanence, as well as the safety, convenience, comfort, and health of the community in which it is located, as dictated and determined at the time by modern mausoleum construction and engineering science.
- (b) Such structure must be so arranged that the exterior of any vault, niche, or crypt may be readily examined at any time by any person authorized by law to do so.
- (c) Such structure must contain adequate provision for drainage and ventilation.
- (d) Such structure must be of fire-resistant construction. Notwithstanding the requirements of s. 553.895 and chapter 633, any mausoleum or columbarium constructed of noncombustible materials, as defined in the Standard Building Code, shall not require a sprinkler system.
- (e) Such structure must be resistant to hurricane and other storm damage to the highest degree provided under applicable building codes for buildings of that class.
- (f) Suitable provisions must be made for securely and permanently sealing each crypt with durable materials after the interment or entombment of human remains, so that no effluvia or odors may escape therefrom except as provided by design and sanitary engineering standards. Panels for permanent seals must be solid and constructed of materials of sufficient weight, permanence, density, imperviousness, and strength as to ensure their durability and continued functioning. Permanent crypt sealing panels must be securely installed and set in with high quality fire-resistant, 31 resilient, and durable materials after the interment or

entombment of human remains. The outer or exposed covering of each crypt must be of a durable, permanent, fire-resistant material; however, plastic, fiberglass, and wood are not acceptable materials for such outer or exposed coverings.

- Interior and exterior fastenings for hangers, clips, doors, and other objects must be of copper, copper-base alloy, aluminum, or stainless steel of adequate gauges, or other materials established by rule which provide equivalent or better strength and durability, and must be properly installed.
- (3) The board shall transmit the rules as adopted under subsection (2), hereinafter referred to as the "mausoleum standards," to the Florida Building Commission Board of Building Codes and Standards, which shall initiate rulemaking under chapter 120 to consider such mausoleum standards. If such mausoleum standards are not deemed acceptable, they shall be returned by the Florida Building Commission Board of Building Codes and Standards to the board with details of changes needed to make them acceptable. If such mausoleum standards are acceptable, the Florida Building Commission Board of Building Codes and Standards shall adopt a rule designating the mausoleum standards as an approved revision to the State Minimum Building Codes under part VII of chapter 553. When so designated by the Florida Building Commission Board of Building Codes and Standards, such mausoleum standards shall become a required element of the State Minimum Building Codes under s. 553.73(2) and shall be transmitted to each local enforcement agency, as defined in s. 553.71(5). Such local enforcement agency shall consider and inspect for compliance with such mausoleum standards as if 31 they were part of the local building code, but shall have no

continuing duty to inspect after final approval of the construction pursuant to the local building code. Any further amendments to the mausoleum standards shall be accomplished by the same procedure. Such designated mausoleum standards, as from time to time amended, shall be a part of the State Minimum Building Codes under s. 553.73 until the adoption and effective date of a new statewide uniform minimum building code, which may supersede the mausoleum standards as provided by the law enacting the new statewide uniform minimum building code.
