I. SUMMARY:

The bill increases the compensation of each supervisor of the Plantation Acres Improvement District from \$100 per month to \$300 per month. The bill renders this section of the law gender neutral.

II. SUBSTANTIVE ANALYSIS:

A. PRESENT SITUATION:

**Brief Description**

The Plantation Acres Improvement District is an independent special district located primarily within, the City of Plantation, Broward County, Florida. The District extends between Hiatus Road and Flamingo Road, and between the North New River Canal and N.W. 28th Court. The District covers approximately 2,048 acres of property or approximately 34 square miles. Most of the area is comprised of one acre or larger single family estates, but it also includes some one-half acre and one-third acre developments, multi-family developments, schools, churches, parks, and commercial developments.

**Brief History**

The District was created in 1963, as the Dixie Drainage District under chapter 298, F.S. The purpose of the Dixie Drainage District was to provide the planning and basic facilities for the drainage of the raw acreage and estate type development that was expected to follow. In 1982, the Plantation Acres Improvement District was formed under chapter 82-274, L.O.F. as the successor to the Dixie Drainage District. The migration from a drainage district to an improvement district was deemed necessary due to the complexity and rapid rate of development in the District. As an improvement district, the authority, powers, and duties were expanded.

**Duties and Responsibilities**

At the present time, the duties and responsibilities of the District include complete storm water management through planning, construction, permitting, maintenance and operation. Moreover, development codes, criteria, and guidelines, have been created to cope with the rapid development of the area. The board of supervisors is the governing body of the District. There are five elected board members. The board meets once a month, and each supervisor is entitled to be compensated \$100 per month for his or her services. The supervisors have not had a pay increase since the District was created in 1982.

B. EFFECT OF PROPOSED CHANGES:

The bill amends section 9 of chapter 82-274, L.O.F., as amended, to increase the compensation of each supervisor to the Plantation Acres Improvement District from \$100 per month to \$300 per month. The bill renders this section of the law gender neutral.
