Amendment No. CHAMBER ACTION Senate House 1 2 3 4 5 6 7 8 9 10 Senator Scott moved the following substitute for amendment 11 12 (820890):13 14 Senate Amendment (with title amendment) On page 6, between lines 12 and 13, 15 16 17 insert: Section 2. Section 408.70, Florida Statutes, is 18 19 amended to read: 20 408.70 Health Alliance for Small Business Community 21 health purchasing; legislative findings and intent.--It is the 22 intent of the Legislature that a nonprofit corporation, to be 23 known as the "Health Alliance for Small Business," be 24 organized for the purpose of pooling groups of individuals 25 employed by small employers and the dependents of such 26 employees into larger groups in order to facilitate the 27 purchase of affordable group health insurance coverage. (1) The Legislature finds that the current health care 28 29 system in this state does not provide access to affordable 30 health care for all persons in this state. Almost one in five 31 persons is without health insurance. For many, entry into the 1 9:33 AM 04/22/99 s1294.bi31.ss

health care system is through a hospital emergency room rather 1 2 than a primary care setting. The availability of preventive 3 and primary care and managed, family-based care is limited. 4 Health insurance underwriting practices have led to the avoidance, rather than to the sharing, of insurance risks, 5 limiting access to coverages for small-sized employer groups 6 7 and high-risk populations. Spiraling premium costs have placed health insurance policies out of the reach of many 8 9 small-sized and medium-sized businesses and their employees. Lack of outcome and cost information has forced individuals 10 and businesses to make critical health care decisions with 11 12 little guidance or leverage. Health care resources have not been allocated efficiently, leading to excess and unevenly 13 14 distributed capacity. These factors have contributed to the high cost of health care. Rural and other medically 15 underserved areas have too few health care resources. 16 17 Comprehensive, first-dollar coverages have allowed individuals to seek care without regard to cost. Provider competition and 18 liability concerns have led to a medical technology arms race. 19 20 Rather than competing on the basis of price and patient 21 outcome, health care providers compete for patients on the basis of service, equipping themselves with the latest and 22 best technologies. Managed-care and group-purchasing 23 24 mechanisms are not widely available to small group purchasers. Health care regulation has placed undue burdens on health care 25 26 insurers and providers, driving up costs, limiting 27 competition, and preventing market-based solutions to cost and 28 quality problems. Health care costs have been increasing at 29 several times the rate of general inflation, eroding employer 30 profits and investments, increasing government revenue 31 requirements, reducing consumer coverages and purchasing 2

power, and limiting public investments in other vital 1 2 governmental services. 3 (2) It is the intent of the Legislature that a 4 structured health care competition model, known as "managed 5 competition, " be implemented throughout the state to improve 6 the efficiency of the health care markets in this state. The 7 managed competition model will promote the pooling of 8 purchaser and consumer buying power; ensure informed 9 cost-conscious consumer choice of managed care plans; reward 10 providers for high-quality, economical care; increase access to care for uninsured persons; and control the rate of 11 12 inflation in health care costs. 13 (3) The Legislature intends that state-chartered, 14 nonprofit private purchasing organizations, to be known as 15 'community health purchasing alliances," be established. The 16 community health purchasing alliances shall be responsible for 17 assisting alliance members in securing the highest quality of 18 health care, based on current standards, at the lowest possible prices. 19 20 Section 3.
