11	Senator Cowin moved the following amendment:
12	
13	Senate Amendment (with title amendment)
14	On page 25, between lines 5 and 6,
15	
16	insert:
17	Section 16. Section 229.603, Florida Statutes, is
18	amended to read:
19	229.603 Instructional Technology Grant ProgramThere
20	is created the Instructional Technology Grant Program.
21	(1) SCHOOL TECHNOLOGY PLANS Each school, including
22	schools operating for the purpose of providing education
23	services to youth in juvenile justice commitment and detention
24	facilities, must address proposals for implementing
25	instructional technology in either the school improvement plan
26	or a school technology plan which has been approved by the
27	district school board, pursuant to s. 230.23(16)(a). The
28	technology plan or the portion of the school improvement plan
29	addressing technology must:
30	(a) Address the achievement of technology capability
31	thresholds established by the Department of Education
	6:59 PM 04/27/99 s1504c1c-11j02

according to this section; and

- (b) Address safe access to the school media center outside of the regular school day.
- (2) DISTRICT TECHNOLOGY PLANS.--Each district must submit a district technology plan to the Department of Education that is a strategic, long-range plan that has been developed using information from the technology plans of schools in the district and the technology capability thresholds established by the Department of Education. The plan shall be for a period of at least 3 years but no more than 5 years and the initial district plan shall be submitted to the department by November 1, 2000. A new plan shall be submitted by November 1 in the final year of the prior plan and an update must be submitted by November 1 of each of the interim years for the duration of the plan. The plan shall include the following essential elements:
- (a) A mission statement including, but not limited to, how the district will incorporate technology into the educational program to promote the effective use of technology to implement the state academic standards to improve student performance.
- (b) A background component that includes, but is not limited to:
- 1. Relevant district, economic, geographic, and demographic factors affecting the implementation of technology.
- 2. The planning process used to develop the plan, which must include input from community, business, and industry.
- 30 (c) A needs assessment including, but not limited to, 31 the following goals:

1	1. Identification of technology infrastructure,
2	equipment, assistive technology, programming (educational
3	materials, software, and media), replacement, training, and
4	support needs.
5	2. Short-term goals to be achieved within 1 year and
6	long-term goals to be achieved within 3 to 5 years. Both
7	short-term and long-term goals shall be listed in a ranked
8	priority order and shall be established considering the
9	individual school technology plans and the technology
10	capability thresholds established by the department.
11	(d) A funding plan linked to the technology capability
12	thresholds.
13	(e) A technology acquisition plan that addresses:
14	1. Program development.
15	2. Procurement.
16	3. Achievement of the technology capability
17	thresholds.
18	(f) An access plan that addresses:
19	1. Shared use.
20	2. Equitable access, including appropriate access to
21	external instructional services and programming providers such
22	as public libraries, charter schools, remote teaching sites,
23	home school connections, and online products and services.
24	3. Security.
25	(g) A user support plan.
26	(h) A staff training plan which includes, but is not
27	limited to, provisions for increasing use of technology in the
28	classroom and media center according to the technology
29	capability thresholds.
30	(i) A program evaluation which includes, but is not

31 limited to, a description of how the technology acquired is

being integrated into the school curriculum and affecting student achievement and progress toward meeting the educational goals of the state academic standards.

- (3) TECHNOLOGY CAPABILITY THRESHOLDS.--The Department of Education shall, in consultation with high technology business and industry partners, develop technology capability thresholds that describe levels of reasonable standards of technological capability to be consecutively achieved in a school for the school to effectively utilize instructional technology. The technology capability thresholds shall be designed to ensure that Florida's students have skills that meet the needs of Florida businesses and industry and shall be updated annually. The department shall develop the technology capability thresholds by January 1, 2000. By January 1 each year thereafter, the thresholds must be updated.
- (4)(1) TECHNOLOGY GRANT FUNDING.--Beginning with the 2000-2001 school year, districts shall distribute to schools the funds received for public school technology on the basis of technology issues addressed by the school in the school improvement plan pursuant to s. 230.23(16) or in a school plan for implementing instructional technology submitted to and approved by the district school board. To receive funding, a proposed project must be in a school that has achieved the appropriate technology capability threshold for the proposed project and the proposed project must be consistent with the district's technology plan. Preference for funding shall be given to schools which meet one or more of the following criteria:
- (a) The school has matched the request with other funds and private sector contributions to the maximum extent possible, as determined by the school board.

25 26

27

28

29 30

- The project is to be implemented in a critically low-performing school in order for that school to achieve the appropriate technology capability threshold.
- (a) Eighty percent of the funds appropriated for this program shall be distributed by the Commissioner of Education to the state's school districts on the basis of proposals submitted for implementing instructional technology. These funds may be used to replicate existing instructional technology programs. At least 10 percent of these funds shall be used for teacher and other related training.
- (b) At least 10 percent of the funds appropriated for this program shall be used to fund research and development and codevelopment of new instructional technologies and their implementation in the classroom.
- (c) Up to 10 percent of the funds appropriated for this program shall be used to fund new or innovative use of instructional technology or use of new instructional technology.
 - (2) GRANT ADMINISTRATION. --
 - (a) Project proposals must include the following:
- 1. An outline of the proposed project activities and project budget.
- 2. A description of how the proposed project will integrate instructional technology with regular classroom teaching.
- 3. A description of how the project incorporates state-of-the-art instructional technology which utilizes advanced integrated learning systems technology and other newly developed systems geared to hands-on learning and to developing higher order thinking skills, including 31 | problem-solving skills, understanding of abstract concepts,

4. Disseminate information regarding successful 31 state-of-the-art systems, including an annual catalog of

including both software and hardware.

and disseminate information regarding developments in the private and public sectors of instructional technology,

Section 18. Paragraph (e) is added to subsection (2)

of section 229.8041, Florida Statutes, to read:

229.8041 Educational computing. --

(g) The department shall assist grant recipients in using state central-purchasing resources to maximize cost advantages and shall, where necessary, provide districts with technical assistance for needs assessment and grant preparation.

(5) REPORTS.--Beginning January 1, 2000 $\frac{1991}{1}$, the commissioner shall make an annual report to the Legislature within 60 days prior to the beginning of the regular legislative session. The report shall include:

- (a) A summary of the status of the Instructional Technology Grant Program, including a description of the technology capability thresholds developed by the department according to this section, and the status of school achievement of the thresholds.
- (b) Recommendations to improve the efficiency and promote the utilization of instructional technology.

Section 17. Section 229.604, Florida Statutes, is created to read:

229.604 Access to technology tools. -- The Department of Education shall develop a plan to provide access for students to technology to support students' educational progress in the community, at work, at school, and at home. The plan shall encourage districts and schools to furnish safe access to school media centers outside of the regular school day, and to consider the construction of entrances which may be accessed from the outer perimeter of the school campus when planning for new construction or remodeling projects.

Bill No. <u>CS for SB 1504</u> Amendment No. ____

1	(2) IMPLEMENTATION OF POLICYThe department is
2	authorized and encouraged to assist school districts,
3	community colleges, and state universities to make appropriate
4	use of computing. Department actions for this purpose may
5	include, but need not be limited to:
6	(e) Conducting evaluations of the status of school and
7	district use of technology to determine if technology
8	capability thresholds, as established by the department, are
9	appropriate and effective.
10	
11	(Redesignate subsequent sections.)
12	
13	
14	========= T I T L E A M E N D M E N T ==========
15	And the title is amended as follows:
16	On page 2, line 6, after the semicolon,
17	
18	insert:
19	amending s. 229.603, F.S.; providing
20	requirements for school technology plans;
21	requiring district technology plans; requiring
22	the Department of Education to develop
23	technology capability thresholds; revising
24	requirements relating to the distribution and
25	use of technology funding; eliminating
26	provisions relating to technology grants and
27	grant administration; revising the content of
28	an annual report; creating s. 229.604, F.S.,
29	relating to access to technology tools;
30	requiring the Department of Education to
31	develop a plan to increase student access to

Bill No. <u>CS for SB 1504</u> Amendment No. ____

technology; amending s. 229.8041, F.S.; revising Department of Education actions regarding educational computing to include conducting evaluations regarding the achievement of technology thresholds;
