13 or state university from entering into any contract with any
14 person or entity for the provision of services regulated under
15 this part, and notwithstanding any other statutory provision,
16 such county or municipal governments may enter into contracts.

17 Section 6. Subsection (4) of section 489.115, Florida
18 Statutes, 1998 Supplement, is amended to read:

19 489.115 Certification and registration; endorsement;
20 reciprocity; renewals; continuing education.--

21 (4)(a) Each certificateholder or registrant who

23 renew the certificate or registration every 2 years. The
24 department shall mail each certificateholder and registrant an
25 application for renewal.

26 (b)1. Each certificateholder or registrant shall
27 provide proof, in a form established by rule of the board,
28 that the certificateholder or registrant has completed at
29 least 14 classroom hours of at least 50 minutes each of
30 continuing education courses during each biennium since the
31 issuance or renewal of the certificate or registration. The

1 board shall establish by rule that a portion of the required
 2 14 hours must deal with the subject of workers' compensation,
 3 business practices, and workplace safety. The board shall by
 4 rule establish criteria for the approval of continuing
 5 education courses and providers, including requirements
 6 relating to the content of courses and standards for approval
 7 of providers, and may by rule establish criteria for accepting
 8 alternative nonclassroom continuing education on an
 9 hour-for-hour basis. The board shall prescribe by rule the
 10 continuing education, if any, which is required during the
 11 first biennium of initial licensure. A person who has been
 12 licensed for less than an entire biennium must not be required
 13 to complete the full 14 hours of continuing education.

14 2. In addition, the board may approve specialized
 15 continuing education courses on compliance with the wind
 16 resistance provisions for one and two family dwellings
 17 contained in the State Minimum Building Codes and any
 18 alternate methodologies for providing such wind resistance
 19 which have been approved for use by the Florida Board of
 20 Building ~~Commission~~ Codes and Standards. Division I
 21 certificateholders or registrants who demonstrate proficiency
 22 upon completion of such specialized courses may certify plans
 23 and specifications for one and two family dwellings to be in
 24 compliance with the code or alternate methodologies, as
 25 appropriate, except for dwellings located in floodways or
 26 coastal hazard areas as defined in ss. 60.3D and E of the
 27 National Flood Insurance Program.

28 3. Each certificateholder or registrant shall provide
 29 to the board proof of completion of the core curriculum
 30 courses, or passing the equivalency test of the Building Code
 31 Training Program established under s. 553.841, specific to the

1 licensing category sought, within 2 years after commencement
2 of the program or of initial certification or registration,
3 whichever is later. Classroom hours spent taking core
4 curriculum courses shall count toward the number required for
5 renewal of certificates or registration. A certificateholder
6 or registrant who passes the equivalency test in lieu of
7 taking the core curriculum courses shall receive full credit
8 for core curriculum course hours.

9 (c) The certificateholder or registrant shall
10 complete, sign, and forward the renewal application to the
11 department, together with the appropriate fee. Upon receipt of
12 the application and fee, the department shall renew the
13 certificate or registration.

14 Section 7. Section 497.255, Florida Statutes, 1998
15 Supplement, is amended to read:

16 497.255 Standards for construction and significant
17 alteration or renovation of mausoleums and columbaria.--

18 (1) All newly constructed and significantly altered or
19 renovated mausoleums and columbaria must, in addition to
20 complying with applicable building codes, conform to the
21 standards adopted under this section.

22 (2) The board shall adopt, by no later than July 1,
23 1999, rules establishing minimum standards for all newly
24 constructed and significantly altered or renovated mausoleums
25 and columbaria; however, in the case of significant
26 alterations or renovations to existing structures, the rules
27 shall apply only, when physically feasible, to the newly
28 altered or renovated portion of such structures, except as
29 specified in subsection (4). In developing and promulgating
30 said rules, the board may define different classes of
31 structures or construction standards, and may provide for

1 different rules to apply to each of said classes, if the
2 designation of classes and the application of different rules
3 is in the public interest and is supported by findings by the
4 board based on evidence of industry practices, economic and
5 physical feasibility, location, or intended uses; provided,
6 that the rules shall provide minimum standards applicable to
7 all construction. For example, and without limiting the
8 generality of the foregoing, the board may determine that a
9 small single-story ground level mausoleum does not require the
10 same level of construction standards that a large multistory
11 mausoleum might require; or that a mausoleum located in a
12 low-lying area subject to frequent flooding or hurricane
13 threats might require different standards than one located on
14 high ground in an area not subject to frequent severe weather
15 threats. The board shall develop the rules in cooperation
16 with, and with technical assistance from, the Florida Board of
17 Building Commission Codes and Standards of the Department of
18 Community Affairs, to ensure that the rules are in the proper
19 form and content to be included as part of the State Minimum
20 Building Codes under part VII of chapter 553. If the Florida
21 Board of Building Commission Codes and Standards advises that
22 some of the standards proposed by the board are not
23 appropriate for inclusion in such building codes, the board
24 may choose to include those standards in a distinct chapter of
25 its rules entitled "Non-Building-Code Standards for
26 Mausoleums" or "Additional Standards for Mausoleums," or other
27 terminology to that effect. If the board elects to divide the
28 standards into two or more chapters, all such rules shall be
29 binding on licensees and others subject to the jurisdiction of
30 the board, but only the chapter containing provisions
31 appropriate for building codes shall be transmitted to the

1 Florida Board of Building Commission Codes and Standards

2 pursuant to subsection (3). Such rules may be in the form of
3 standards for design and construction; methods, materials, and
4 specifications for construction; or other mechanisms. Such
5 rules shall encompass, at a minimum, the following standards:

6 (a) No structure may be built or significantly altered
7 for use for interment, entombment, or inurnment purposes
8 unless constructed of such material and workmanship as will
9 ensure its durability and permanence, as well as the safety,
10 convenience, comfort, and health of the community in which it
11 is located, as dictated and determined at the time by modern
12 mausoleum construction and engineering science.

13 (b) Such structure must be so arranged that the
14 exterior of any vault, niche, or crypt may be readily examined
15 at any time by any person authorized by law to do so.

16 (c) Such structure must contain adequate provision for
17 drainage and ventilation.

18 (d) Such structure must be of fire-resistant
19 construction. Notwithstanding the requirements of s. 553.895
20 and chapter 633, any mausoleum or columbarium constructed of
21 noncombustible materials, as defined in the Standard Building
22 Code, shall not require a sprinkler system.

23 (e) Such structure must be resistant to hurricane and
24 other storm damage to the highest degree provided under
25 applicable building codes for buildings of that class.

26 (f) Suitable provisions must be made for securely and
27 permanently sealing each crypt with durable materials after
28 the interment or entombment of human remains, so that no
29 effluvia or odors may escape therefrom except as provided by
30 design and sanitary engineering standards. Panels for
31 permanent seals must be solid and constructed of materials of

1 sufficient weight, permanence, density, imperviousness, and
 2 strength as to ensure their durability and continued
 3 functioning. Permanent crypt sealing panels must be securely
 4 installed and set in with high quality fire-resistant,
 5 resilient, and durable materials after the interment or
 6 entombment of human remains. The outer or exposed covering of
 7 each crypt must be of a durable, permanent, fire-resistant
 8 material; however, plastic, fiberglass, and wood are not
 9 acceptable materials for such outer or exposed coverings.

10 (g) Interior and exterior fastenings for hangers,
 11 clips, doors, and other objects must be of copper, copper-base
 12 alloy, aluminum, or stainless steel of adequate gauges, or
 13 other materials established by rule which provide equivalent
 14 or better strength and durability, and must be properly
 15 installed.

16 (3) The board shall transmit the rules as adopted
 17 under subsection (2), hereinafter referred to as the
 18 "mausoleum standards," to the Florida Board of Building
 19 Commission Codes and Standards, which shall initiate
 20 rulemaking under chapter 120 to consider such mausoleum
 21 standards. If such mausoleum standards are not deemed
 22 acceptable, they shall be returned by the Florida Board of
 23 Building Commission Codes and Standards to the board with
 24 details of changes needed to make them acceptable. If such
 25 mausoleum standards are acceptable, the Florida Board of
 26 Building Commission Codes and Standards shall adopt a rule
 27 designating the mausoleum standards as an approved revision to
 28 the State Minimum Building Codes under part VII of chapter
 29 553. When so designated by the Florida Board of Building
 30 Commission Codes and Standards, such mausoleum standards
 31 shall become a required element of the State Minimum Building

1 Codes under s. 553.73(2) and shall be transmitted to each
2 local enforcement agency, as defined in s. 553.71(5). Such
3 local enforcement agency shall consider and inspect for
4 compliance with such mausoleum standards as if they were part
5 of the local building code, but shall have no continuing duty
6 to inspect after final approval of the construction pursuant
7 to the local building code. Any further amendments to the
8 mausoleum standards shall be accomplished by the same
9 procedure. Such designated mausoleum standards, as from time
10 to time amended, shall be a part of the State Minimum Building
11 Codes under s. 553.73 until the adoption and effective date of
12 a new statewide uniform minimum building code, which may
13 supersede the mausoleum standards as provided by the law
14 enacting the new statewide uniform minimum building code.

15 (4) In addition to the rules adopted under subsection
16 (2), the board shall adopt rules providing that following all
17 interments, inurnments, and entombments in mausoleums and
18 columbaria occurring after the effective date of such rules,
19 whether newly constructed or existing, suitable provision must
20 be made, when physically feasible, for sealing each crypt in
21 accordance with standards promulgated pursuant to paragraph
22 (2)(f).

23 (5) For purposes of this section, "significant
24 alteration or renovation" means any addition, renovation, or
25 repair which results in the creation of new crypt or niche
26 spaces.

27 Section 8. Subsection (1) of section 553.06, Florida
28 Statutes, 1998 Supplement, is amended to read:

29 553.06 State Plumbing Code.--

30 (1) The Florida Building Commission shall, in
31 accordance with the provisions of chapter 120 and ss.

1 553.70-553.895, adopt the Standard Plumbing Code, 1994
 2 edition, as adopted at the October 1993 annual meeting of the
 3 Southern Building Code Congress International, as the State
 4 Plumbing Code which shall be the minimum requirements
 5 statewide for all installations, repairs, and alterations to
 6 plumbing. The commission ~~board~~ may, in accordance with the
 7 requirements of chapter 120, adopt all or parts of updated or
 8 revised editions of the State Plumbing Code to keep abreast of
 9 latest technological advances in plumbing and installation
 10 techniques. Local governments which have adopted the South
 11 Florida, One and Two Family Dwelling or EPCOT Plumbing Codes
 12 may continue their use provided the requirements contained
 13 therein meet or exceed the requirements of the State Plumbing
 14 Code. Provided, however, nothing in this section shall alter
 15 or diminish the authority of the Department of Business and
 16 Professional Regulation to conduct plan reviews, issue
 17 variances, and adopt rules regarding sanitary facilities in
 18 public lodging and public food service establishments pursuant
 19 to chapter 509, providing that such actions do not conflict
 20 with the requirements for public restrooms in s. 553.141.

21 Section 9. Section 62 of chapter 98-287, Laws of
 22 Florida, is amended to read:

23 Section 62. (1) Before the 2000 Regular Session of
 24 the Legislature, the Florida Building Commission shall submit
 25 to the Legislature, for review and approval or rejection, the
 26 Florida Building Code adopted by rule by the commission. If
 27 the proposed rule adopting the Florida Building Code has been
 28 challenged pursuant to s. 120.56(2), the Legislature may
 29 address the subject of the challenge. The commission ~~and~~ shall
 30 also prepare and submit to the Legislature a list of
 31 recommendations of revisions to the Florida Statutes

1 necessitated by adoption of the Florida Building Code ~~if the~~
2 ~~Legislature approves the Florida Building Code.~~

3 (2) Effective January 1, 2001, or upon the resolution
4 of an administrative challenge to the rule adopting the
5 Florida Building Code, pursuant to s. 120.56(2) approval of
6 ~~the Florida Building Code by the Legislature~~, all existing
7 local technical amendments to any building code adopted by any
8 local government are repealed. Each local government may
9 readopt such amendments pursuant to s. 553.73, Florida
10 Statutes, provided such amendments comply with applicable
11 provisions of the Florida Building Code.

12 Section 10. Subsection (5) of section 553.19, Florida
13 Statutes, 1998 Supplement, is amended to read:

14 553.19 Adoption of electrical and alarm
15 standards.--For the purpose of establishing minimum electrical
16 and alarm standards in this state, the current edition of the
17 following standards are adopted:

18 (5) The rules and regulations of the Agency for Health
19 Care Administration ~~Department of Health~~, entitled "Nursing
20 Homes and Related Facilities Licensure."

21
22 The Florida Building Commission shall update and maintain such
23 electrical standards consistent with the procedures
24 established in s. 553.73.

25 Section 11. Effective January 1, 2001, subsections (4)
26 and (5) and paragraph (a) of subsection (7) of section 553.73,
27 Florida Statutes, 1998 Supplement, as amended by section 40 of
28 chapter 98-287, Laws of Florida, as amended by section 61 of
29 chapter 98-419, Laws of Florida, are amended to read:

30 553.73 Florida Building Code.--

31

1 (4)(a) Local governments shall comply with applicable
2 standards for issuance of mandatory certificates of occupancy,
3 minimum types of inspections, and procedures for plans review
4 and inspections as established by the commission ~~board~~ by
5 rule. Any amendments to standards established by the Florida
6 Building Code pursuant to this paragraph shall be more
7 stringent than such standards and shall be transmitted to the
8 commission within 30 days after enactment. The local
9 government shall make such amendments available to the general
10 public in a usable format. The Department of Insurance is
11 responsible for establishing the standards and procedures
12 required in this paragraph for governmental entities with
13 respect to applying the Florida Fire Prevention Code and the
14 Life Safety Code.

15 (b) Local governments may, subject to the limitations
16 of this section, adopt amendments to the technical provisions
17 of the Florida Building Code which apply solely within the
18 jurisdiction of such government and which provide for more
19 stringent requirements than those specified in the Florida
20 Building Code, not more than once every 6 months, provided:

21 1. The local governing body determines, following a
22 public hearing which has been advertised in a newspaper of
23 general circulation at least 10 days before the hearing, that
24 there is a need to strengthen the requirements of the Florida
25 Building Code. The determination must be based upon a review
26 of local conditions by the local governing body, which review
27 demonstrates that local conditions justify more stringent
28 requirements than those specified in the Florida Building Code
29 for the protection of life and property.

30
31

1 2. Such additional requirements are not discriminatory
2 against materials, products, or construction techniques of
3 demonstrated capabilities.

4 3. Such additional requirements may not introduce a
5 new subject not addressed in the Florida Building Code.

6 4. The enforcing agency shall make readily available,
7 in a usable format, all amendments adopted pursuant to this
8 section.

9 5. Any amendment to the Florida Building Code shall be
10 transmitted within 30 days by the adopting local government to
11 the commission. The commission shall maintain copies of all
12 such amendments in a format that is usable and obtainable by
13 the public.

14 6. Any amendment to the Florida Building Code adopted
15 by a local government pursuant to this paragraph shall be
16 effective only until the adoption by the commission of the new
17 edition of the Florida Building Code every third year. At
18 such time, the commission shall adopt such amendment as part
19 of the Florida Building Code or rescind the amendment. The
20 commission shall immediately notify the respective local
21 government of the rescission of any amendment. After receiving
22 such notice, the respective local government may readopt the
23 rescinded amendment pursuant to the provisions of this
24 paragraph.

25 7. Each county and municipality desiring to make local
26 technical amendments to the Florida Building Code shall by
27 interlocal agreement establish a countywide compliance review
28 board to review any amendment to the Florida Building Code,
29 adopted by a local government within the county pursuant to
30 this paragraph, that is challenged by any substantially
31 affected party for purposes of determining the amendment's

 28 subsection and make nonbinding recommendations related to
 29 compliance of such amendments with this subsection.

9 state or local building and construction code laws to the
10 contrary, locally adopted fire code requirements that were in
11 existence on the effective date of this section shall be
12 deemed local variations of the Florida Fire Prevention Code

16 (4) The State Fire Marshal ~~department~~ shall update, by

5 respect to, zoning requirements or land use requirements.
6 Additionally, a local code enforcement agency may not

15 (7) Any local amendment adopted by a local government
16 must strengthen the requirements of the minimum firesafety

21 (9) The State Fire Marshal shall have the authority to

29 633.025 Minimum firesafety standards.--

30 (1) The Florida Fire Prevention Code and the Life
31 Safety Code adopted by the State Fire Marshal ~~Department of~~

1 ~~Insurance~~, which shall operate in conjunction with the Florida
2 Building Code, shall be deemed adopted by each municipality,
3 county, and special district with firesafety responsibilities.
4 The minimum firesafety codes shall not apply to buildings and
5 structures subject to the uniform firesafety standards under
6 s. 633.022 and buildings and structures subject to the minimum
7 firesafety standards adopted pursuant to s. 394.879.

8 (3) The most current edition of the National Fire
9 Protection Association (NFPA) 101, Life Safety Code, adopted
10 by the State Fire Marshal Department of Insurance, shall be

12 district with firesafety responsibilities as part of the
13 minimum firesafety code.

14 (4) Such codes shall be minimum codes and a
15 municipality, county, or special district with firesafety
16 responsibilities may adopt more stringent firesafety
17 standards, subject to the requirements of this subsection.
18 Such county, municipality, or special district may establish
19 alternative requirements to those requirements which are
20 required under the minimum firesafety standards on a
21 case-by-case basis, in order to meet special situations
22 arising from historic, geographic, or unusual conditions, if
23 the alternative requirements result in a level of protection
24 to life, safety, or property equal to or greater than the
25 applicable minimum firesafety standards. For the purpose of
26 this subsection, the term "historic" means that the building
27 or structure is listed on the National Register of Historic
28 Places of the United States Department of the Interior.

30 following a public hearing which has been advertised in a
31 newspaper of general circulation at least 10 days before the

1 hearing, if there is a need to strengthen the requirements of
2 the minimum firesafety code adopted by such governing body.
3 The determination must be based upon a review of local
4 conditions by the local governing body, which review
5 demonstrates that local conditions justify more stringent
6 requirements than those specified in the minimum firesafety
7 code for the protection of life and property or justify
8 requirements that meet special situations arising from
9 historic, geographic, or unusual conditions.

10 (b) Such additional requirements shall not be
11 discriminatory as to materials, products, or construction
12 techniques of demonstrated capabilities.

13 (c) Paragraphs (a) and (b) apply solely to the local
14 enforcing agency's adoption of requirements more stringent
15 than those specified in the Florida Fire Prevention Code and

18 shall provide a person making application for a building
19 permit, or any state agency or board with construction-related
20 regulation responsibilities, a listing of all such
21 requirements and codes.

22 (d) A local government which adopts amendments to the
23 minimum firesafety code must provide a procedure by which the
24 validity of such amendments may be challenged by any
25 substantially affected party to test the amendment's
26 compliance with the provisions of this section.

27 1. Unless the local government agrees to stay
28 enforcement of the amendment, or other good cause is shown,
29 the challenging party shall be entitled to a hearing on the
30 challenge within 45 days.

31

1 2. For purposes of such challenge, the burden of proof
2 shall be on the challenging party, but the amendment shall not
3 be presumed to be valid or invalid.

4
5 A substantially affected person may appeal, to the State Fire
6 Marshal Department of Insurance, the local government's
7 resolution of the challenge, and the department shall
8 determine if the amendment complies with this section. Actions
9 of the State Fire Marshal department are subject to judicial
10 review pursuant to s. 120.68. The State Fire Marshal
11 department shall consider reports of the Florida Building
12 Commission, pursuant to part VII of chapter 533, when
13 evaluating building code enforcement.

14 (8) Electrically Battery operated single station smoke
15 detectors required ~~shall be considered as an approved~~
16 ~~detection device~~ for residential buildings shall not be
17 required to be interconnected within individual living units
18 in all buildings having direct access to the outside from each
19 living unit and having three stories or less. This subsection
20 shall not apply to any residential building required to have a
21 manual or automatic fire alarm system.

22 (9) The provisions of the Life Safety Code shall not
23 apply to newly constructed one-family and two-family
24 dwellings. However, fire sprinkler protection may be
25 permitted by local government in lieu of other fire
26 protection-related development requirements for in such
27 structures.
