24 Be It Enacted by the Legislature of the State of Florida:

25
26 Section 1. Section 455.557, Florida Statutes, 1998
27 Supplement, is amended to read:

28 455.557 Standardized credentialing for health care
29 practitioners.--

30 (1) INTENT.--The Legislature recognizes that an
31 efficient and effective health care practitioner credentialing

1 program helps to ensure access to quality health care and also
 2 recognizes that health care practitioner credentialing
 3 activities have increased significantly as a result of health
 4 care reform and recent changes in health care delivery and
 5 reimbursement systems. Moreover, the resulting duplication of
 6 health care practitioner credentialing activities is
 7 unnecessarily costly and cumbersome for both the practitioner
 8 and the entity granting practice privileges. Therefore, it is
 9 the intent of this section that a ~~mandatory~~ credentials
 10 collection verification program be established which provides
 11 that, once a health care practitioner's core credentials data
 12 are collected, ~~validated, maintained, and stored,~~ they need
 13 not be collected again, except for corrections, updates, and
 14 modifications thereto. Participation ~~Mandatory credentialing~~
 15 under this section shall initially include those individuals
 16 licensed under chapter 458, chapter 459, chapter 460, or
 17 chapter 461. However, the department shall, with the approval
 18 of the applicable board, include other professions under the
