and insert: part 68. A company certified under chapter 364 is not subject to any local ordinance that requires a permit for work performed by its employees related to low voltage electrical work, including related technical codes and regulations. The exemption in this paragraph shall apply only if such work is requested by the company's customer, is required in order to complete phone service, is incidental to provision of telecommunication service as required by chapter 364, and is not the subject of a competitive bid. The definition of "employee" established in subsection (1) applies to this exemption and does not include subcontractors.
