9   Be It Enacted by the Legislature of the State of Florida:

10

11           Section 1. It is the intent of the Legislature that  
12 the implementing and administering provisions of this act  
13 apply to the General Appropriations Act for fiscal year  
14 1999-2000.

15           Section 2. In order to implement Specific  
16 Appropriations 345 through 356C of the 1999-2000 General  
17 Appropriations Act, and notwithstanding section 394.908,  
18 Florida Statutes, all funds in excess of Fiscal Year 1998-1999  
19 appropriations are to be allocated based on equity except  
20 those programs and funds specifically identified in clarifying  
21 language in the General Appropriations Act. No district shall  
22 receive an allocation of recurring funds that is less than its  
23 initial approved operating budget plus any distributions of  
24 lump sums for the state Fiscal Year 1998-1999.

25           Section 3. In order to implement Specific  
26 Appropriation 268 of the 1999-2000 General Appropriations Act,  
27 subsection (3) of section 409.9115, Florida Statutes, 1998  
28 Supplement, is amended to read:

29           409.9115 Disproportionate share program for mental  
30 health hospitals.--The Agency for Health Care Administration  
31 shall design and implement a system of making mental health

1 disproportionate share payments to hospitals that qualify for  
2 disproportionate share payments under s. 409.911. This system  
3 of payments shall conform with federal requirements and shall  
4 distribute funds in each fiscal year for which an  
5 appropriation is made by making quarterly Medicaid payments.  
6 Notwithstanding s. 409.915, counties are exempt from  
7 contributing toward the cost of this special reimbursement for  
8 patients.

9 (3) For the 1999-2000 ~~1998-1999~~ fiscal year only, the  
10 Agency for Health Care Administration shall make payments for  
11 the Medicaid disproportionate share program for mental health  
12 hospitals on a monthly basis. If the amounts appropriated for  
13 the Medicaid disproportionate share program for mental health  
14 hospitals are increased or decreased during the fiscal year  
15 pursuant to the requirements of chapter 216, the required  
16 adjustment shall be prorated over the remaining payment  
17 periods. This subsection is repealed on July 1, 2000 ~~1999~~.

18 Section 4. During the 1999-2000 fiscal year, the  
19 Agency for Health Care Administration shall use the 1992-1993  
20 disproportionate share formula, the 1989 audited financial  
21 data, and the Medicaid per diem rate as of January 1, 1992,  
22 for those hospitals that qualify for the hospital  
23 disproportionate share program funded in Specific  
24 Appropriation 243 of the 1999-2000 General Appropriations Act.  
25 This section is repealed on July 1, 2000.

26 Section 5. In order to implement Specific  
27 Appropriation 236 of the 1999-2000 General Appropriations Act,  
28 subsection (6) of section 409.9116, Florida Statutes, 1998  
29 Supplement, is amended to read:

30 409.9116 Disproportionate share/financial assistance  
31 program for rural hospitals.--In addition to the payments made

1 under s. 409.911, the Agency for Health Care Administration  
2 shall administer a federally matched disproportionate share  
3 program and a state-funded financial assistance program for  
4 statutory rural hospitals. The agency shall make  
5 disproportionate share payments to statutory rural hospitals  
6 that qualify for such payments and financial assistance  
7 payments to statutory rural hospitals that do not qualify for  
8 disproportionate share payments. The disproportionate share  
9 program payments shall be limited by and conform with federal  
10 requirements. In fiscal year 1993-1994, available funds shall  
11 be distributed in one payment, as soon as practicable after  
12 the effective date of this act. In subsequent fiscal years,  
13 funds shall be distributed quarterly in each fiscal year for  
14 which an appropriation is made. Notwithstanding the provisions  
15 of s. 409.915, counties are exempt from contributing toward  
16 the cost of this special reimbursement for hospitals serving a  
17 disproportionate share of low-income patients.

18 (6) For the 1999-2000 ~~1998-1999~~ fiscal year only, the  
19 Agency for Health Care Administration shall use the following  
20 formula for distribution of the funds in Specific  
21 Appropriation 236 ~~240~~ of the 1999-2000 ~~1998-1999~~ General  
22 Appropriations Act for the disproportionate share/financial  
23 assistance program for rural hospitals.

24 (a) The agency shall first determine a preliminary  
25 payment amount for each rural hospital by allocating all  
26 available state funds using the following formula:

27

28 
$$\text{PDAER} = (\text{TAERH} \times \text{TARH}) / \text{STAERH}$$

29

30 Where:

31

1 PDAER = preliminary distribution amount for each rural  
2 hospital.

3 TAERH = total amount earned by each rural hospital.

4 TARH = total amount appropriated or distributed under  
5 this section.

6 STAERH = sum of total amount earned by each rural  
7 hospital.

8 (b) Federal matching funds for the disproportionate  
9 share program shall then be calculated for those hospitals  
10 that qualify for disproportionate share in paragraph (a).

11 (c) The state-funds-only payment amount is then  
12 calculated for each hospital using the formula:

13  
14 
$$\text{SFOER} = \text{Maximum value of (1) SFOL} - \text{PDAER or (2) 0}$$

15

16 Where:

17 SFOER = state-funds-only payment amount for each rural  
18 hospital.

19 SFOL = state-funds-only payment level, which is set at  
20 4 percent of TARH.

21 (d) The adjusted total amount allocated to the rural  
22 disproportionate share program shall then be calculated using  
23 the following formula:

24

25 
$$\text{ATARH} = (\text{TARH} - \text{SSFOER})$$

26

27 Where:

28 ATARH = adjusted total amount appropriated or  
29 distributed under this section.

30 SSFOER = sum of the state-funds-only payment amount  
31 calculated under paragraph (c) for all rural hospitals.

1 (e) The determination of the amount of rural  
2 disproportionate share hospital funds is calculated by the  
3 following formula:

$$4 \quad \text{TDAERH} = [(\text{TAERH} \times \text{ATARH}) / \text{STAERH}]$$

6  
7 Where:

8 TDAERH = total distribution amount for each rural  
9 hospital.

10 (f) Federal matching funds for the disproportionate  
11 share program shall then be calculated for those hospitals  
12 that qualify for disproportionate share in paragraph (e).

13 (g) State-funds-only payment amounts calculated under  
14 paragraph (c) are then added to the results of paragraph (f)  
15 to determine the total distribution amount for each rural  
16 hospital.

17 (h) This subsection is repealed on July 1, 2000 ~~1999~~.

18 Section 6. In order to implement Specific  
19 Appropriations 292 through 425 and 445 through 540 of the  
20 1999-2000 General Appropriations Act, paragraph (c) of  
21 subsection (15) of section 216.181, Florida Statutes, 1998  
22 Supplement, is amended to read:

23 216.181 Approved budgets for operations and fixed  
24 capital outlay.--

25 (15)

29 and the Department of Health in Specific Appropriations 445  
30 ~~466~~ through 540 ~~555~~ of the 1999-2000 ~~1998-1999~~ General  
31 Appropriations Act may be advanced, unless specifically

1 prohibited in such General Appropriations Act, for those  
2 contracted services that were approved for advancement by the  
3 Comptroller in fiscal year 1993-1994, including those services  
4 contracted on a fixed-price or unit cost basis. This  
5 paragraph is repealed on July 1, 2000 ~~1999~~.

6 Section 7. In order to implement Specific  
7 Appropriation 243 of the 1999-2000 General Appropriations Act,  
8 and for the 1999-2000 fiscal year only, the Agency for Health  
9 Care Administration shall include health maintenance  
10 organization recipients in the county billing for inpatient  
11 hospital stays for the purpose of shared costs with counties  
12 in accordance with the Florida Statutes. This section is  
13 repealed on July 1, 2000.

14 Section 8. For the 1999-2000 fiscal year only, the  
15 Departments of Children and Family Services, Revenue, Labor  
16 and Employment Security, and Health and the Agency for Health  
17 Care Administration may transfer positions and general revenue  
18 funds as necessary to comply with any provision of the  
19 1999-2000 General Appropriations Act or WAGES Act which  
20 requires or specifically authorizes the transfer of positions  
21 and general revenue funds between these agencies. This section  
22 is repealed on July 1, 2000.

23 Section 9. In order to implement Specific  
24 Appropriation 372 of the 1999-2000 General Appropriations Act,  
25 subsection (1) of section 402.3015, Florida Statutes, is  
26 amended to read:

2 children of low-income families, and to promote financial

16 In the event that the agency finds that it is impossible to  
17 constrain Medicaid transportation expenditures to within the  
18 budgeted amount, it shall notify the Legislature of this and  
19 provide suggestions for statutory revisions necessary to  
20 alleviate future deficits as well as a description of all  
21 action taken under its current authority. This section is

25 Act, section 39.3065, Florida Statutes, 1998 Supplement, is  
26 amended to read:

27           39.3065 Sheriffs of Pasco, Manatee, and Pinellas  
28 Counties to provide child protective investigative services;  
29 procedures; funding.--

30           (1) As described in this section, the Department of  
31 Children and Family Services shall, by the end of fiscal year

1 1999-2000, transfer all responsibility for child protective  
2 investigations for Pinellas County, Manatee County, and Pasco  
3 County to the sheriff of that county in which the child abuse,  
4 neglect, or abandonment is alleged to have occurred. Each  
5 sheriff is responsible for the provision of all child  
6 protective investigations in his or her county. Each  
7 individual who provides these services must complete the  
8 training provided to and required of protective investigators  
9 employed by the Department of Children and Family Services.

10 (2) During fiscal year 1998-1999, the Department of  
11 Children and Family Services and each sheriff's office shall  
12 enter into a contract for the provision of these services.  
13 Funding for the services will be appropriated to the  
14 Department of Children and Family Services, and the department  
15 shall transfer to the respective sheriffs for the duration of  
16 fiscal year 1998-1999, funding for the investigative  
17 responsibilities assumed by the sheriffs, including federal  
18 funds that the provider is eligible for and agrees to earn and  
19 that portion of general revenue funds which is currently  
20 associated with the services that are being furnished under  
21 contract, and including, but not limited to, funding for all  
22 investigative, supervisory, and clerical positions; training;  
23 all associated equipment; furnishings; and other fixed capital  
24 items. The contract must specify whether the department will  
25 continue to perform part or none of the child protective  
26 investigations during the initial year. The sheriffs may  
27 either conduct the investigations themselves or may, in turn,  
28 subcontract with law enforcement officials or with properly  
29 trained employees of private agencies to conduct  
30 investigations related to neglect cases only. If such a  
31 subcontract is awarded, the sheriff must take full

1 responsibility for any safety decision made by the  
2 subcontractor and must immediately respond with law  
3 enforcement staff to any situation that requires removal of a  
4 child due to a condition that poses an immediate threat to the  
5 child's life. The contract must specify whether the services  
6 are to be performed by departmental employees or by persons  
7 determined by the sheriff. During this initial year, the  
8 department is responsible for quality assurance, and the  
9 department retains the responsibility for the performance of  
10 all child protective investigations. The department must  
11 identify any barriers to transferring the entire

8 County must be identified in the annual appropriation made to  
9 the Department of Children and Family Services, which shall  
10 award grants for the full amount identified to the respective  
11 sheriffs' offices. Funds for the child protective  
12 investigations may not be integrated into the sheriffs'  
13 regular budgets. Budgetary data and other data relating to the  
14 performance of child protective investigations must be  
15 maintained separately from all other records of the sheriffs'  
16 offices.
