HOUSE OF REPRESENTATIVES COMMITTEE ON GOVERNMENTAL OPERATIONS ANALYSIS

BILL #: HB 619

RELATING TO: Sales Tax/Manufactured Asphalt SPONSOR(S): Representative Logan and others

COMPANION BILL(S): SB 1296 (similar)

ORIGINATING COMMITTEE(S)/COMMITTEE(S) OF REFERENCE:

- (1) GOVERNMENTÁL OPERATIONS YEAS 4 NAYS 0
- (2) FINANCE & TAXATION
- (3) TRANSPORTATION & ECONOMIC DEVELOPMENT APPROPRIATIONS (4)
- (5)

I. SUMMARY:

Section 212.06, F.S., deals with sales, storage, and use taxes collectible from "dealers".

Currently, a 6 percent tax is imposed upon the cost of materials that become a component part or ingredient of the finished asphalt and upon the cost of transportation of the components or ingredients.

Additionally, an "indexed tax" is imposed. The indexed tax was originally set at \$.38 per ton by statute. It is adjusted on July 1, of each year according to a formula tied to the Producer Price Index from the U.S. Department of Labor, Bureau of Statistics, and was recently pegged at \$.48 per ton.

It is estimated that 70+ percent of asphalt that is produced "for one's own use" in this state is used for state and local government contracts.

HB 619 exempts manufactured asphalt used in any state or local public works project from the "indexed tax".

The impact of this bill on state government has been estimated to be from approximately \$3.63 million to \$3.95 million in FY 1999-2000. The impact on local governments for the same period has been estimated at approximately \$300,000.

DATE: March 30, 1999

II. SUBSTANTIVE ANALYSIS:

A. PRESENT SITUATION:

In 1988, the Legislature passed revisions to section 212.06, F.S., based on recommendations for a uniform, statewide manufacturer's use tax for asphalt. This section levies a 6 percent tax on the cost of materials that become a component part or ingredient of finished asphalt, and upon the cost of transportation of the components or ingredients.

Additionally, an indexed tax, imposed on all other costs associated with the manufacturing of asphalt, was set at \$.38 per ton for the first year. The indexed tax is adjusted on July 1, of each year in conjunction with a formula tied to the Producer Price Index average of the "materials and components for construction" series calculated and published by the U.S. Department of Labor, Bureau of Statistics. Recently the indexed tax rate was \$.48 per ton.

It is estimated that an overwhelming majority of asphalt is manufactured for "one's own use", and that 70+ percent of that asphalt is used in government contracts.

Proponents believe the imposition of a tax on asphalt used on state and local government public works projects results in an administratively burdensome and expensive waste, since contractors must factor in the cost of the tax into their bids for such projects. Proponents assert that the net result is that the government pays more for a project, then collects the money back in the form of a tax. They believe both contractor and government waste time, as well as the cost of administering the exchange.

B. EFFECT OF PROPOSED CHANGES:

This bill would exempt asphalt from the indexed tax only when used in state and local public works projects.

C. APPLICATION OF PRINCIPLES:

- 1. Less Government:
 - a. Does the bill create, increase or reduce, either directly or indirectly:
 - (1) any authority to make rules or adjudicate disputes?

No.

(2) any new responsibilities, obligations or work for other governmental or private organizations or individuals?

No. In fact, proponents argue that both private organizations and governmental organizations will be relieved of administrative responsibilities, obligations, and work.

(3) any entitlement to a government service or benefit?

No.

b. If an agency or program is eliminated or reduced:

Not applicable.

(1) what responsibilities, costs and powers are passed on to another program, agency, level of government, or private entity?

N/A

DATE: March 30, 1999

PAGE 3

(2) what is the cost of such responsibility at the new level/agency?

N/A

(3) how is the new agency accountable to the people governed?

N/A

2. Lower Taxes:

a. Does the bill increase anyone's taxes?

No.

b. Does the bill require or authorize an increase in any fees?

No.

c. Does the bill reduce total taxes, both rates and revenues?

There would be a reduction in taxes. In principle, this bill would result in a tax/contract fee "wash". Of course, if contractors do not reduce their bids to match the reduction in the tax amount, there would, indeed be a **net** reduction in taxes and revenues, but without the expected benefit of off-setting governmental expenditures.

d. Does the bill reduce total fees, both rates and revenues?

No.

e. Does the bill authorize any fee or tax increase by any local government?

No.

3. Personal Responsibility:

a. Does the bill reduce or eliminate an entitlement to government services or subsidy?

No.

b. Do the beneficiaries of the legislation directly pay any portion of the cost of implementation and operation?

They may, by reducing bid prices on governmental public works projects.

4. Individual Freedom:

a. Does the bill increase the allowable options of individuals or private organizations/associations to conduct their own affairs?

No.

b. Does the bill prohibit, or create new government interference with, any presently lawful activity?

No.

DATE: March 30, 1999

PAGE 4

5. Family Empowerment:

a. If the bill purports to provide services to families or children:

Not applicable.

(1) Who evaluates the family's needs?

N/A

(2) Who makes the decisions?

N/A

(3) Are private alternatives permitted?

N/A

(4) Are families required to participate in a program?

N/A

(5) Are families penalized for not participating in a program?

N/A

b. Does the bill directly affect the legal rights and obligations between family members?

No.

c. If the bill creates or changes a program providing services to families or children, in which of the following does the bill vest control of the program, either through direct participation or appointment authority:

Not applicable.

(1) parents and guardians?

N/A

(2) service providers?

N/A

(3) government employees/agencies?

N/A

D. STATUTE(S) AFFECTED:

Section 212.06(c), F.S.

E. SECTION-BY-SECTION ANALYSIS:

Section 1. eliminates the applicability of the indexed tax imposed on asphalt, to manufactured asphalt used for any state or local government public works project. **Section 2.** provides for an effective date of July 1, 1999.

DATE: March 30, 1999

III. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT:

A. FISCAL IMPACT ON STATE AGENCIES/STATE FUNDS:

1. Non-recurring Effects:

None.

2. Recurring Effects:

The annualized impact on state government is estimated to be between \$3.63, and \$3.95 million. Due to fluctuations in the indexes used to determine the annual tax, the fiscal impact could vary in either direction from those stated in this paragraph.

3. Long Run Effects Other Than Normal Growth:

Unknown.

4. Total Revenues and Expenditures:

Unknown.

B. FISCAL IMPACT ON LOCAL GOVERNMENTS AS A WHOLE:

1. Non-recurring Effects:

None.

2. Recurring Effects:

The annualized impact on local governments is estimated to be from \$300,000 to \$400,000.

3. Long Run Effects Other Than Normal Growth:

Unknown.

C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:

1. Direct Private Sector Costs:

Unknown.

2. Direct Private Sector Benefits:

The superficial benefit would be the net reduction of the indexed tax imposed, however, if contractors reduce their bid prices by the same amount as expected, there would be only the advantages of reduced administrative costs and time.

3. Effects on Competition, Private Enterprise and Employment Markets:

None.

D. FISCAL COMMENTS:

None.
