403.0872 Operation permits for major sources of air 1 2 pollution; annual operation license fee.--Provided that 3 program approval pursuant to 42 U.S.C. s. 7661a has been received from the United States Environmental Protection 4 Agency, beginning January 2, 1995, each major source of air 5 pollution, including electrical power plants certified under 6 7 s. 403.511, must obtain from the department an operation 8 permit for a major source of air pollution under this section, 9 which is the only department operation permit for a major source of air pollution required for such source. Operation 10 11 permits for major sources of air pollution, except general 12 permits issued pursuant to s. 403.814, must be issued in 13 accordance with the following procedures and in accordance 14 with chapter 120; however, to the extent that chapter 120 is inconsistent with the provisions of this section, the 15 16 procedures contained in this section prevail:

(11) Commencing in 1993, Each major source of air 17 pollution permitted to operate in this state must pay between 18 19 January 15 and March 1 of each year, upon written notice from 20 the department, an annual operation license fee in an amount determined by department rule. The annual operation license 21 22 fee shall be terminated immediately in the event the United States Environmental Protection Agency imposes annual fees 23 solely to implement and administer the major source 24 25 air-operation permit program in Florida under 40 C.F.R. s. 26 70.10(d).

(a) The annual fee must be assessed based upon the source's previous year's emissions and must be calculated by multiplying the applicable annual operation license fee factor times the tons of each regulated air pollutant (except carbon monoxide) allowed to be emitted per hour by specific condition

23

HB 1053

of the source's most recent construction or operation permit,
 times the annual hours of operation allowed by permit
 condition; provided, however, that:

4 1. For 1993 and 1994, the license fee factor is \$10. 5 For 1995, the license fee factor is \$25. In succeeding years, The license fee factor is \$25 or another amount determined by 6 7 department rule which ensures that the revenue provided by 8 each year's operation license fees is sufficient to cover all reasonable direct and indirect costs of the major stationary 9 source air-operation permit program established by this 10 section. The license fee factor may be increased beyond \$25 11 only if the secretary of the department affirmatively finds 12 13 that a shortage of revenue for support of the major stationary 14 source air-operation permit program will occur in the absence of a fee factor adjustment. The annual license fee factor may 15 16 never exceed \$35. The department shall retain a nationally recognized accounting firm to conduct a study to determine the 17 18 reasonable revenue requirements necessary to support the development and administration of the major source 19 20 air-operation permit program as prescribed in paragraph (b). The results of that determination must be considered in 21 22 assessing whether a \$25-per-ton fee factor is sufficient to adequately fund the major source air-operation permit program. 23 The results of the study must be presented to the Governor, 24 the President of the Senate, the Speaker of the House of 25 26 Representatives, and the Public Service Commission, including 27 the Public Counsel's Office, by no later than October 31, 28 1994.29 2. For any source that operates for fewer hours during the calendar year than allowed under its permit, the annual 30

31 fee calculation must be based upon actual hours of operation

24

1 rather than allowable hours if the owner or operator of the 2 source documents the source's actual hours of operation for 3 the calendar year. For any source that has an emissions limit 4 that is dependent upon the type of fuel burned, the annual fee 5 calculation must be based on the emissions limit applicable 6 during actual hours of operation.

7 For any source whose allowable emission limitation 3. 8 is specified by permit per units of material input or heat 9 input or product output, the applicable input or production amount may be used to calculate the allowable emissions if the 10 11 owner or operator of the source documents the actual input or 12 production amount. If the input or production amount is not 13 documented, the maximum allowable input or production amount 14 specified in the permit must be used to calculate the 15 allowable emissions.

4. For any new source that does not receive its first
operation permit until after the beginning of a calendar year,
the annual fee for the year must be reduced pro rata to
reflect the period during which the source was not allowed to
operate.

For any source that emits less of any regulated air 21 5. 22 pollutant than allowed by permit condition, the annual fee calculation for such pollutant must be based upon actual 23 24 emissions rather than allowable emissions if the owner or operator documents the source's actual emissions by means of 25 26 data from a department-approved certified continuous emissions 27 monitor or from an emissions monitoring method which has been 28 approved by the United States Environmental Protection Agency 29 under the regulations implementing 42 U.S.C. ss. 7651 et seq., or from a method approved by the department for purposes of 30 this section. 31

25

The amount of each regulated air pollutant in 1 6. 2 excess of 4,000 tons per year allowed to be emitted by any 3 source, or group of sources belonging to the same Major Group 4 as described in the Standard Industrial Classification Manual, 5 1987, may not be included in the calculation of the fee. Any б source, or group of sources, which does not emit any regulated 7 air pollutant in excess of 4,000 tons per year, is allowed a 8 one-time credit not to exceed 25 percent of the first annual licensing fee for the prorated portion of existing 9 air-operation permit application fees remaining upon 10 11 commencement of the annual licensing fees.

12 7. If the department has not received the fee by 13 February 15 of the calendar year, the permittee must be sent a 14 written warning of the consequences for failing to pay the fee by March 1. If the fee is not postmarked by March 1 of the 15 16 calendar year, commencing with calendar year 1997, the department shall impose, in addition to the fee, a penalty of 17 50 percent of the amount of the fee, plus interest on such 18 19 amount computed in accordance with s. 220.807. The department 20 may not impose such penalty or interest on any amount 21 underpaid, provided that the permittee has timely remitted 22 payment of at least 90 percent of the amount determined to be due and remits full payment within 60 days after receipt of 23 notice of the amount underpaid. The department may waive the 24 25 collection of underpayment and shall not be required to refund 26 overpayment of the fee, if the amount due is less than 1 27 percent of the fee, up to \$50. The department may revoke any 28 major air pollution source operation permit if it finds that 29 the permitholder has failed to timely pay any required annual operation license fee, penalty, or interest. 30 31

26

During the years 1993 through 1999, inclusive, no 1 8. 2 fee shall be required to be paid under this section with 3 respect to emissions from any unit which is an affected unit 4 under 42 U.S.C. s. 7651c. 5 9. Notwithstanding the computational provisions of б this subsection, the annual operation license fee for any 7 source subject to this section shall not be less than \$250, 8 except that the annual operation license fee for sources 9 permitted solely through general permits issued under s. 403.814 shall not exceed \$50 per year. 10 11 10. Notwithstanding the provisions of s. 12 403.087(6)(a)4.a., authorizing air pollution construction 13 permit fees, the department may not require such fees for 14 changes or additions to a major source of air pollution permitted pursuant to this section, unless the activity 15 16 triggers permitting requirements under Title I, Part C or Part D, of the federal Clean Air Act, 42 U.S.C. ss. 7470-7514a. 17 Costs to issue and administer such permits shall be considered 18 19 direct and indirect costs of the major stationary source air-operation permit program under s. 403.0873. The department 20 21 shall, however, require fees pursuant to the provisions of s. 22 403.087(6)(a)4.a. for the construction of a new major source of air pollution that will be subject to the permitting 23 requirements of this section once constructed and for 24 activities triggering permitting requirements under Title I, 25 26 Part C or Part D, of the federal Clean Air Act, 42 U.S.C. ss. 27 7470-7514a. 28 (b) Annual operation license fees collected by the 29 department must be sufficient to cover all reasonable direct

30 and indirect costs required to develop and administer the

31 major stationary source air-operation permit program, which

27

HB 1053

shall consist of the following elements to the extent that 1 2 they are reasonably related to the regulation of major 3 stationary air pollution sources, in accordance with United States Environmental Protection Agency regulations and 4 guidelines: 5 6 1. Reviewing and acting upon any application for such 7 a permit. 8 2. Implementing and enforcing the terms and conditions 9 of any such permit, excluding court costs or other costs associated with any enforcement action. 10 11 3. Emissions and ambient monitoring. 12 4. Preparing generally applicable regulations or 13 quidance. 14 5. Modeling, analyses, and demonstrations. 15 6. Preparing inventories and tracking emissions. 16 7. Implementing the Small Business Stationary Source Technical and Environmental Compliance Assistance Program. 17 The study conducted under subparagraph (a)1. and 18 8. Any audits conducted under paragraph (c). 19 20 (c) An audit of the major stationary source 21 air-operation permit program must be conducted 2 years after 22 the United States Environmental Protection Agency has given full approval of the program, or by the end of 1996, whichever 23 comes later, to ascertain whether the annual operation license 24 fees collected by the department are used solely to support 25 26 any reasonable direct and indirect costs as listed in 27 paragraph (b). A program audit must be performed biennially 28 after the first audit. 29 30 Reviser's note. -- Amended to delete language 31 that has served its purpose.

Unless otherwise approved by an interlocal agreement or special act, 23 municipalities may not operate solid waste disposal facilities 24 unless a municipality demonstrates by a preponderance of the 25 26 evidence that the use of a county designated facility, when 27 compared to alternatives proposed by the municipality, places 28 a significantly higher and disproportionate financial burden 29 on the citizens of the municipality when compared to the financial burden placed on persons residing within the county 30 31 but outside of the municipality. However, a municipality may

construct and operate a resource recovery facility and related 1 2 onsite solid waste disposal facilities without an interlocal 3 agreement with the county if the municipality can demonstrate by a preponderance of the evidence that the operation of such 4 5 facility will not significantly impair financial commitments made by the county with respect to solid waste management 6 7 services and facilities or result in significantly increased 8 solid waste management costs to the remaining persons residing 9 within the county but not served by the municipality's facility. The disproportionate share 71

1 program payments shall be limited by and conform with federal 2 requirements. In fiscal year 1993-1994, available funds shall 3 be distributed in one payment, as soon as practicable after the effective date of this act. Notwithstanding the provisions 6 7 of s. 409.915, counties are exempt from contributing toward 8 the cost of this special reimbursement for hospitals serving a 9 disproportionate share of low-income patients. 10 (1) The following formula shall be used by the agency 11 to calculate the total amount earned for hospitals that 12 participate in the rural hospital disproportionate share 13 program or the financial assistance program: 14 15 TAERH = (CCD + MDD) / TPD16 17 Where: CCD = total charity care-other, plus charity care-Hill 18 Burton, minus 50 percent of unrestricted tax revenue from 19 20 local governments, and restricted funds for indigent care, 21 divided by gross revenue per adjusted patient day; however, if 22 CCD is less than zero, then zero shall be used for CCD. MDD = Medicaid inpatient days plus Medicaid HMO 23 24 inpatient days. 25 TPD = total inpatient days. 26 TAERH = total amount earned by each rural hospital. 27 28 In computing the total amount earned by each rural hospital, the agency must use the most recent actual data reported in 29 accordance with s. 408.061(4)(a). 30 31

HB 1053

1 In determining the payment amount for each rural (2) 2 hospital under this section, the agency shall first allocate 3 all available state funds by the following formula: 4 5 $DAER = (TAERH \times TARH) / STAERH$ 6 7 Where: 8 DAER = distribution amount for each rural hospital. 9 STAERH = sum of total amount earned by each rural 10 hospital. 11 TAERH = total amount earned by each rural hospital. 12 TARH = total amount appropriated or distributed under 13 this section. 14 15 Federal matching funds for the disproportionate share program shall then be calculated for those hospitals that qualify for 16 disproportionate share payments under this section. 17 (3) The Agency for Health Care Administration may 18 19 recommend to the Legislature a formula to be used in 20 subsequent fiscal years to distribute funds appropriated for this section that includes charity care, uncompensated care to 21 22 medically indigent patients, and Medicaid inpatient days. 23 (4) In the event that federal matching funds for the 24 rural hospital disproportionate share program are not 25 available, state matching funds appropriated for the program 26 may be utilized for the Rural Hospital Financial Assistance 27 Program and shall be allocated to rural hospitals based on the 28 formulas in subsections (1) and (2). 29 (5) In order to receive payments under this section, a hospital must be a rural hospital as defined in s. 395.602 and 30 31 must meet the following additional requirements:

7 (b) Agree to accept all patients, regardless of8 ability to pay, on a functional space-available basis.

9 (c) Agree to provide backup and referral services to 10 the county public health departments and other low-income 11 providers within the hospital's service area, including the 12 development of written agreements between these organizations 13 and the hospital.

(d) For any hospital owned by a county government which is leased to a management company, agree to submit on a quarterly basis a report to the agency, in a format specified by the agency, which provides a specific accounting of how all funds dispersed under this act are spent.

19 (6) For the 1999-2000 fiscal year only, the Agency for 20 Health Care Administration shall use the following formula for 21 distribution of the funds in Specific Appropriation 236 of the 22 1999-2000 General Appropriations Act for the disproportionate 23 share/financial assistance program for rural hospitals. 24 (a) The agency shall first determine a preliminary 25 payment amount for each rural hospital by allocating all
