B. PRESENT SITUATION:

The South Florida Conservancy District Act was created in 1919, through Ch. 7975, L.O.F. To date, it has been amended 25 times. None of the earlier acts have been expressly repealed in their entirety.

C. EFFECT OF PROPOSED CHANGES:

This Act provides for a uniform, all-inclusive document relating to the South Florida Conservancy District.

This bill expressly classifies the status of the District as an independent special district.

This bill cites Chs. 189, 197, and 298, F.S., as controlling authority. Ch. 189, F.S., provides direction for the definition, creation, and operation of special districts. Ch. 197, F.S., provides rules relating to tax collections, sales, and liens. Ch. 298, F.S., addresses drainage and water control. In lieu of containing specific language relating to board elections, ad valorem taxation, bond issuance, lien of taxes, etc., this bill refers to the above cited statutes to provide direction and authority.

This bill expressly provides that the charter can only be amended through special act by the Florida Legislature.

Codification is the process of bringing up-to-date a special act. Special acts are not codified and, after the Legislature passes the initial enabling act, special acts continuously amend or alter previously enacted special acts. To ascertain the current status of any special act, it is necessary to research all amendments or changes made to the Act since its inception or original passage by the Legislature. Codification of special district charters is important because it allows readers to go to one special act to determine the current charter of a district, instead of two, ten, twenty, or sometimes more special acts.

Codification of special districts' charters was authorized by the 1997 Legislature when it amended Ch. 189, F. S. The 1997 Legislature amended Ch. 189, F. S., to provide for codification of all special districts' charters either by December 1, 2001, or when any act relating to such district is introduced to the Legislature, whichever occurs first. In addition, s. 189.429, F. S., requires that no changes be made to a district's charter as it exists on

October 1, 1997, in the codifying legislation and that all prior Legislative acts relating to the district be repealed.

The 1998 Legislature further amended s. 189.429, F. S., by (i) extending the deadline to codify to December 1, 2004, (ii) allowing for the adoption of the codification schedule provided for in an October 3, 1997, memorandum issued by the Chair of the Committee on Community Affairs, (iii) removing the prohibition of substantive amendments in a district's codification bill, and (iv) removing the requirement that a codified charter must be submitted prior to the introduction of any act relating to the charter or prior to the scheduled deadline.

In 1998, the Environmental Protection Commission in Hillsborough County unsuccessfully attempted to codify its charter. The District is scheduled to codify in 2002. In 1999, there were two unsuccessful codifications. Mid-Bay Bridge Authority's codification bill passed the

Legislature, but was vetoed by the Governor. The Authority was scheduled to codify its charter in 1999. The South Walton Fire District's codification bill died on the House calendar on April 30, 1999. The District is scheduled to codify its charter in 2004.

According to the Schedule of Submissions of Special District Charters and information relating to charters previously codified, there are 94 special districts that should have been codified during the 1999 Session but which were not. There are 56 special districts that are scheduled for codification during the 2000 Legislative Session.
