The bill changes the name of the system, permits the board to institute eminent domain proceedings, provides for filling vacancies in the office of director, increases the amount of compensation that directors may receive annually from \$5,000 to \$10,000 and allows for an annual increase. The bill also allows the board to adopt a policy that permits board members to participate in the system's insurance program for health system employees, revises provisions relating to the issuance of general obligation bonds by the health system, adds physician and other health care services to the list of services for which the system is entitled to impose a lien.

No fiscal impacts are anticipated for either fiscal year 2000-01 or 2001-02 according to the Economic Impact Statement.

See Part V, AMENDMENTS OR COMMITTEE SUBSTITUTE CHANGES section, for the effect of the amendments adopted by the Committee on Community Affairs. The first amendment corrects an erroneous departmental reference; the second amendment clarifies the charges for which the hospital may impose a lien.

B. PRESENT SITUATION:

Chapter 63-1552, Laws of Florida, granted Lee County the authority to establish a public hospital and nursing home. The Legislature expanded Lee County's authority pursuant to chapter 87-438, Laws of Florida, to enable the county to establish and maintain other hospitals, satellite hospitals, clinics, or other facilities devoted to the provision of health care services within Lee County.

Codification

Codification is the process of bringing up-to-date a special act. Special acts are not codified, and after the Legislature passes the initial enabling act, special acts continuously amend or alter previously enacted special acts. To ascertain the current status of any special act, it is necessary to research all amendments or changes made to the act since its inception or original passage by the Legislature. Codification of special district charters is important because it allows readers to go to one special act to determine the current charter of a district, instead of two, ten, twenty, or sometimes more special acts.

Codification of special districts' charters was authorized by the 1997 Legislature when it amended chapter 189, Florida Statutes, to provide for codification either by December 1, 2001, or when any act relating to such district is introduced to the Legislature, whichever occurs first. In addition, section 189.429, Florida Statutes, requires that no changes be made to a district's charter as it existed on October 1, 1997, in the codifying legislation and that all prior Legislative acts relating to the district be repealed.

The 1998 Legislature further amended section 189.429, Florida Statutes, by: (1) extending the deadline to codify to December 1, 2004; (2) allowing for the adoption of the codification schedule provided for in an October 3, 1997 memorandum issued by the Chair of the Committee on Community Affairs; (3) removing the prohibition of substantive amendments in a district's codification bill; and (4) removing the requirement that a codified charter must be submitted prior to the introduction of any act relating to the charter or prior to the scheduled deadline.

In 1999, there were two unsuccessful codifications. Mid-Bay Bridge Authority's codification bill passed the Legislature, but was vetoed by the Governor. The Authority was scheduled to codify its charter in 1999. The South Walton Fire District's codification bill died on the House Calendar on April 30, 1999. The District is scheduled to codify its charter in 2004.

According to the Schedule of Submittals of Special Districts' Charters and information relating to charters previously codified, there are 94 special districts that should have been codified during the 1999 session but were not. There are 56 special districts that are scheduled for codification during the 2000 Legislative Session.

Status Statement Language

Section 189.404(5), Florida Statutes, provides that after October 1, 1997, the charter of any newly-created special district shall contain, and as practical, the charter of a preexisting special district shall be amended to contain, a reference to the status of the special district as dependent or independent. When necessary, the status statement shall be amended to conform with the department's determination or declaratory statement regarding the status of the district.

C. EFFECT OF PROPOSED CHANGES:

The bill codifies all prior special acts relating to the Lee County public health care system into a single act and repeals all prior special acts relating to this system.

This bill is primarily a restatement of existing chapter law.

The bill provides that the public health system in Lee County will be known as the Lee Memorial Health System and will be governed by the Lee Memorial Health System Board of Directors.

The bill provides that should it be necessary to acquire land for health system purposes under the authority of this act through eminent domain, such proceedings will be instituted by the public health system board and be carried out as provided by general law.

This bill also provides that any vacancy in the office of director on the Lee Memorial Health System Board of Directors will be filled as provided by law.

It increases the amount of compensation that directors may receive annually from \$5,000 to \$10,000 and allows for an annual increase in this limit equal to the annual increase in the Consumer Price Index. The system board is allowed to adopt a policy that permits board members to participate in the Lee Memorial Health System's insurance program for health system employees.

The bill permits the board to issue revenue bonds to provide funds as the board deems necessary. The bonds will be issued pursuant to the constitution and laws of Florida, and the principal and interest on the bonds will be paid from the revenues of the Lee Memorial Health System.

The bill revises provisions relating to the issuance of general obligation bonds by the health system. These bonds may be issued if approved by a majority of votes cast at an election of qualified electors residing in Lee County. The bonds may be issued in coupon or non-coupon form. Bonds may be issued with the voters' approval without regard toward the amount of bonds outstanding. The board may determine by resolution the interest rate to be paid upon the bonds and the maturity term of the bonds. The principal and interest on these bonds will be paid for by an ad valorem tax levied, assessed, and collected in the same manner as other county ad valorem taxes are levied, assessed, and collected.

This bill adds physician and other health care services to the list of services for which Lee Memorial Health Systems is entitled to impose a lien.
