**HOUSE OF REPRESENTATIVES  
COMMITTEE ON  
HEALTH CARE LICENSING & REGULATION  
ANALYSIS**

**BILL #:** HB 1991

**RELATING TO:** Trauma Services

**SPONSOR(S):** Representatives Casey and Fasano

**TIED BILL(S):**

**ORIGINATING COMMITTEE(S)/COMMITTEE(S) OF REFERENCE:**

- (1) HEALTH CARE LICENSING & REGULATION
  - (2) GOVERNMENTAL RULES & REGULATIONS
  - (3) HEALTH & HUMAN SERVICES APPROPRIATIONS
  - (4)
  - (5)
- 

**I. SUMMARY:**

Part II, chapter 395, F.S., regulates trauma centers in Florida and provides for the establishment of a state trauma system plan by the Department of Health.

The bill revises definitions relating to the provision of trauma services. It also revises the minimum components for local and regional trauma services system plans, and the state trauma system plan. The bill provides for an inclusive statewide trauma system.

This bill revises the requirements for trauma transport protocols and provides for certain uniform protocols. It revises the requirements relating to the trauma scoring system and the rules related to this system.

It provides that medical directors of emergency medical services providers are responsible for trauma victims during interfacility trauma transfer.

The bill authorizes the Department of Health to adopt and enforce rules necessary to implement this act.

The bill has no fiscal impact on state government.

The act takes effect October 1, 2000.

II. SUBSTANTIVE ANALYSIS:

A. DOES THE BILL SUPPORT THE FOLLOWING PRINCIPLES:

- |                                   |                              |  |   |
|-----------------------------------|------------------------------|--|---|
| 1. <u>Less Government</u>         | Yes <input type="checkbox"/> | No <input checked="" type="checkbox"/> | N/A <input type="checkbox"/>            |
| 2. <u>Lower Taxes</u>             | Yes <input type="checkbox"/> | No <input type="checkbox"/>            | N/A <input checked="" type="checkbox"/> |
| 3. <u>Individual Freedom</u>      | Yes <input type="checkbox"/> | No <input type="checkbox"/>            | N/A <input checked="" type="checkbox"/> |
| 4. <u>Personal Responsibility</u> | Yes <input type="checkbox"/> | No <input type="checkbox"/>            | N/A <input checked="" type="checkbox"/> |
| 5. <u>Family Empowerment</u>      | Yes <input type="checkbox"/> | No <input type="checkbox"/>            | N/A <input checked="" type="checkbox"/> |

For any principle that received a "no" above, please explain:

The bill grants the Department of Health authority to promulgate additional rules regarding trauma services systems.

B. PRESENT SITUATION:

Part II, chapter 395, F.S., regulates trauma centers in Florida. There are three types of trauma centers in Florida. Level I trauma centers provide both trauma and pediatric trauma services. They also maintain research and education programs for the enhancement of trauma care. Level II trauma centers are not required to provide pediatric trauma care. The third type of trauma center in Florida is a pediatric trauma center, which provides pediatric trauma care. There are 20 approved trauma centers in Florida. Trauma centers treat individuals who have incurred a single or multisystem injury due to blunt or penetrating means or burns and who require immediate medical intervention or treatment.

The Department of Health is required pursuant to part II, chapter 395, F.S., to establish a state trauma system plan. The plan divides the state into trauma regions, which serve as the basis for the development of department-approved local or regional trauma plans. The plan also outlines procedures for establishing protocols for transporting victims to the appropriate trauma center. The plan is intended to help ensure that all Floridians have access to trauma care services.

In the recent past, events have occurred which have caused public concern with the ability of Floridians to access trauma care. In 1998, the Legislature commissioned the Department of Health to conduct a study to determine what improvements could be made to Florida's trauma care systems to make this type of care more accessible to all Floridians.

In 1999, the Department of Health submitted a report to the Legislature, entitled *Timely Access to Trauma Care*. That report indicated that Florida "lacks a statewide inclusive coordinated trauma system." The report found that "Florida's trauma system is fragmented, preventing patients who require trauma care from receiving timely access to trauma centers." It also identified lack of funding and lack of enforcement authority over all aspects of the trauma system as two contributing factors to the current status of Florida's trauma system. The department made several recommendations about how to address these concerns.

**C. EFFECT OF PROPOSED CHANGES:**

The bill establishes a new section of definitions that apply to all of part II, chapter 395, F.S., and creates new definitions for "interfacility trauma transfer" and "trauma transport protocol," which are currently used in substantive language without definition. It revises definitions for "trauma center," "level I trauma center," and "level II trauma center" to clarify usage of the terms found in substantive language.

This bill requires that state level trauma planning address the transportation of trauma victims to improve access to trauma care when this care is not available locally. The bill requires the department to use the statewide trauma system plan as a basis for implementing an inclusive trauma system.

The bill provides that each emergency medical services provider licensed under chapter 401, F.S., will transport victims to hospitals approved as trauma centers, except as provided for in either the trauma transport protocol approved for the provider or the protocol approved for the trauma agency responsible for the geographical area in which the provider operates.

This act allows a trauma agency to develop a uniform trauma transport protocol that is applicable to the licensed emergency medical services provider operating within the agency's geographical area.

Also, it provides that the scoring system through which trauma alert victims are identified must include an adult or pediatric assessment as specified in rule. The Department of Health will establish by rule the minimum criteria related to prehospital trauma transport, trauma center or hospital destination determinations, and interfacility transport. This bill provides that rules pertaining to air transportation of trauma victims will, at a minimum, be consistent with Federal Aviation Administration guidelines, and that emergency medical services providers will be subject to monitoring by the department to ensure compliance with requirements regarding the transport of trauma victims.

The bill provides that the medical director of an emergency medical services provider will have medical responsibility and accountability for all trauma victims during an interfacility transfer. It grants authority to the department to adopt and enforce rules necessary to administer the provisions of this act.

**D. SECTION-BY-SECTION ANALYSIS:**

**Section 1.** Creates s. 395.4001, F.S., to provide definitions for part II, chapter 395, F.S.

**Section 2.** Amends s. 395.401, F.S., to delete definitions transferred to s. 395.4001, F.S., and to revise the minimum components for local and regional trauma systems plans.

**Section 3.** Amends s. 395.4015, F.S., to revise the minimum components for local and regional trauma systems plans.

**Section 4.** Amends s. 395.4025, F.S., to correct a cross-reference.

**Section 5.** Amends s. 395.4045, F.S., to revise requirements relating to trauma transport protocols and to provide for uniform protocols. Revises requirements regarding the trauma scoring system and its related rules. Provides that medical responsibility for trauma victims

**DATE:** March 29, 2000

**PAGE 4**

lies with the director of an emergency medical services provider during interfacility transport. Requires the Department of Health to adopt rules necessary to implement this act.

**Section 6.** Amends s. 395.405, F.S., to revise certain provisions relating to the Department of Health's rulemaking authority regarding this part of chapter 395, F.S.

**Section 7.** Amends s. 395.50(8), F.S., to correct certain cross-references.

**Section 8.** Amends s. 322.0602(4)(a), F.S., to correct a cross-reference.

**Section 9.** Amends s. 440.13(12)(c), F.S., to correct a cross-reference.

**Section 10.** Provides an effective date of October 1, 2000.

### III. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT:

#### A. FISCAL IMPACT ON STATE GOVERNMENT:

1. Revenues:

None.

2. Expenditures:

None.

#### B. FISCAL IMPACT ON LOCAL GOVERNMENTS:

1. Revenues:

None.

2. Expenditures:

None.

#### C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:

None.

#### D. FISCAL COMMENTS:

None.

IV. CONSEQUENCES OF ARTICLE VII, SECTION 18 OF THE FLORIDA CONSTITUTION:

A. APPLICABILITY OF THE MANDATES PROVISION:

This bill does not require counties or municipalities to expend funds or take action requiring the expenditure of funds.

B. REDUCTION OF REVENUE RAISING AUTHORITY:

This bill does not reduce the authority that municipalities or counties have to raise revenues in the aggregate.

C. REDUCTION OF STATE TAX SHARED WITH COUNTIES AND MUNICIPALITIES:

This bill does not reduce the percentage of state tax shared with counties or municipalities.

V. COMMENTS:

A. CONSTITUTIONAL ISSUES:

None.

B. RULE-MAKING AUTHORITY:

The bill grants the Department of Health authority to promulgate additional rules regarding trauma services systems.

C. OTHER COMMENTS:

None.

VI. AMENDMENTS OR COMMITTEE SUBSTITUTE CHANGES:

None.
