Pres	Present Situation:					
con fou incl	The Key Largo Hammocks State Botanical Site in Key Largo, Florida is a 2,005-acre site comprised of one of the largest contiguous tracts of tropical West Indian hardwood hammocks found in the United States. The park is home to 84 protected species of plants and animals, including wild cotton, mahogany mistletoe, and the American crocodile. There are over 6 miles of trails favored by bird watchers, photographers and students of tropical flora.					
Effe	Effect of Proposed Changes:					
Cou Joh pres	This bill redesignates the Key Largo Hammocks State Botanical Site in Key Largo, Monroe County, Florida as the "Dagney Johnson Key Largo Hammock State Botanical Site." Dagney Johnson has been involved in the Keys community and has worked hard for many years to preserve areas of the Keys. She was a founding member of the Upper Keys Citizens Association and a leading environmental activist in the Keys.
