### **World War II Veterans**

The United States involvement in World War II started December 7, 1941. Many young men who were in high school between 1937 and 1946, enlisted or were drafted into the armed forces before finishing high school. Upon returning home after the war, many veterans did not return to school due to family obligations, their age at the time of the discharge, or extenuating circumstances.

Presently, the United States World War II veteran population is about 5,940,000. The Florida World War II veteran population, as of July 1, 1999, was 501,000.
