1 inappropriate or unnecessary use of high-cost services.

2 (37)(a) The agency shall implement a Medicaid  
3 prescribed-drug spending-control program that includes the  
4 following components:

5 1. Medicaid prescribed-drug coverage for brand-name  
6 drugs for adult Medicaid recipients not residing in nursing  
7 homes or other institutions is limited to the dispensing of  
8 four brand-name drugs per month per recipient. Children and  
9 institutionalized adults are exempt from this restriction.  
10 Antiretroviral agents are excluded from this limitation. No  
11 requirements for prior authorization or other restrictions on  
12 medications used to treat mental illnesses such as  
13 schizophrenia, severe depression, or bipolar disorder may be  
14 imposed on Medicaid recipients. Medications that will be  
15 available without restriction for persons with mental  
16 illnesses include atypical antipsychotic medications,  
17 conventional antipsychotic medications, selective serotonin  
18 re-uptake inhibitors, and other medications used for the  
19 treatment of serious mental illnesses. The agency shall also  
20 limit the amount of a prescribed drug dispensed to no more  
21 than a 34-day supply. The agency shall continue to provide  
22 unlimited generic drugs, contraceptive drugs and items, and  
23 diabetic supplies. The agency may authorize exceptions to the  
24 brand-name-drug restriction only when such exceptions are  
25 based on prior consultation provided by the agency or an  
26 agency contractor, but the agency must establish procedures to  
27 ensure that:

28 a. There will be a response to a request for prior  
29 consultation by telephone or other telecommunication device  
30 within 24 hours after receipt of a request for prior  
31 consultation; and

Bill No. HB 2151, 1st Eng.

Amendment No. 1

1           b. A 72-hour supply of the drug prescribed will be  
2 provided in an emergency or when the agency does not provide a  
3 response within 24 hours as required by sub-subparagraph a.

4           2. Reimbursement to pharmacies for Medicaid prescribed  
5 drugs shall be set at the average wholesale price less 13.25  
6 percent.

7           3. The agency shall develop and implement a process  
8 for managing the drug therapies of Medicaid recipients who are  
9 using significant numbers of prescribed drugs each month. The  
10 management process may include, but is not limited to,  
11 comprehensive, physician-directed medical-record reviews,  
12 claims analyses, and case evaluations to determine the medical  
13 necessity and appropriateness of a patient's treatment plan  
14 and drug therapies. The agency may contract with a private  
15 organization to provide drug-program-management services.

16           4. The agency may limit the size of its pharmacy  
17 network based on need, competitive bidding, price  
18 negotiations, credentialing, or similar criteria. The agency  
19 shall give special consideration to rural areas in determining  
20 the size and location of pharmacies included in the Medicaid  
21 pharmacy network. A pharmacy credentialing process may include  
22 criteria such as a pharmacy's full-service status, location,  
23 size, patient educational programs, patient consultation,  
24 disease-management services, and other characteristics. The  
25 agency may impose a moratorium on Medicaid pharmacy enrollment  
26 when it is determined that it has a sufficient number of  
27 Medicaid-participating providers.

28           5. The agency shall develop and implement a program  
29 that requires Medicaid practitioners who prescribe drugs to  
30 use a counterfeit-proof prescription pad for Medicaid  
31 prescriptions. The agency shall require the use of

Bill No. HB 2151, 1st Eng.

Amendment No. 1

1 standardized counterfeit-proof prescription pads by  
2 Medicaid-participating prescribers. The agency may implement  
3 the program in targeted geographic areas or statewide.

4 6. The agency may enter into arrangements that require  
5 manufacturers of generic drugs prescribed to Medicaid  
6 recipients to provide rebates of at least 15.1 percent of the  
7 average manufacturer price for the manufacturer's generic  
8 products. These arrangements shall require that if a  
9 generic-drug manufacturer pays federal rebates for  
10 Medicaid-reimbursed drugs at a level below 15.1 percent, the  
11 manufacturer must provide a supplemental rebate to the state  
12 in an amount necessary to achieve a 15.1-percent rebate level.  
13 If a generic-drug manufacturer raises its price in excess of  
14 the Consumer Price Index (Urban), the excess amount shall be  
15 included in the supplemental rebate to the state.

16 (b) The agency shall implement this subsection to the  
17 extent that funds are appropriated to administer the Medicaid  
18 prescribed-drug spending-control program. The agency may  
19 contract all or any part of this program to private  
20 organizations.

21 (c) The agency shall submit a report to the Governor,  
22 the President of the Senate, and the Speaker of the House of  
23 Representatives by January 15 of each year. The report must  
24 include, but need not be limited to, the progress made in  
25 implementing Medicaid cost-containment measures and their  
26 effect on Medicaid prescribed-drug expenditures.

27 Section 2. There is created a Medicaid Pharmaceutical  
28 and Therapeutics Committee. The committee shall develop and  
29 implement a voluntary Medicaid preferred prescribed drug  
30 designation program. The program shall provide information to  
31 Medicaid providers on medically appropriate and cost efficient
