30 amendment to the code shall be in full force and effect
31 throughout the unincorporated area of such county until

1 otherwise notified by the Florida Building Commission pursuant
2 to s. 553.73 or the State Fire Marshal pursuant to s.
3 633.0215. Nothing herein contained shall be construed to
4 prevent the board of county commissioners from ~~amending or~~
5 repealing such amendment to the building code or the fire code
6 at any regular meeting of such board.

7 (2) The board of county commissioners of each of the
8 several counties may provide a schedule of reasonable
9 inspection fees in order to defer the costs of inspection and
10 enforcement of the provisions of this act, and of the Florida
11 ~~any Building Code and the Florida Fire Prevention Code adopted~~
12 ~~pursuant to the terms of this act.~~

13 (3) The board of county commissioners of each of the
14 several counties may employ a building inspector and such
15 other personnel as it deems necessary to carry out the
16 provisions of this act and may pay reasonable salaries for
17 such services.

18 (4) After adoption of the Florida Building Code by the
19 Florida Building Commission or the Florida Fire Prevention
20 Code by the State Fire Marshal, or amendment of the building
21 code or the fire code as herein provided, it shall be unlawful
22 for any person, firm, or corporation to construct, erect,
23 alter, repair, secure, or demolish any building within the
24 territory embraced by the terms of this act, without first
25 obtaining a permit therefor from the appropriate board of
26 county commissioners, or from such persons as may by
27 resolution be directed to issue such permits, upon the payment
28 of such reasonable fees as shall be set forth in the schedule
29 of fees adopted by the board; the board is hereby empowered to
30 revoke any such permit upon a determination by the board that
31 the construction, erection, alteration, repair, securing, or

1 demolition of the building for which the permit was issued is
2 in violation of or not in conformity with the building code or
3 the fire code.

4 (5) Any person, firm, or corporation ~~that~~ which
5 violates any of the provisions of this section or of the
6 Florida ~~any duly adopted county~~ Building Code or the Florida
7 Fire Prevention Code is guilty of a misdemeanor of the second
8 degree, punishable as provided in s. 775.082 or s. 775.083.

9 Section 4. Effective July 1, 2001, section 161.0415,
10 Florida Statutes, is amended to read:

11 161.0415 Citation of rule.--In addition to any other
12 provisions within this chapter or any rules promulgated
13 hereunder, the permitting agency shall, when requesting
14 information for a permit application pursuant to this chapter
15 or such rules promulgated hereunder, cite a specific rule or
16 provision of the Florida Building Code. If a request for
17 information cannot be accompanied by a rule citation, failure
18 to provide such information cannot be grounds to deny a
19 permit.

20 Section 5. Effective July 1, 2001, paragraph (b) of
21 subsection (2) of section 161.052, Florida Statutes, is
22 amended, and subsection (12) is added to said section, to
23 read:

24 161.052 Coastal construction and excavation;
25 regulation.--

26 (2) A waiver or variance of the setback requirements
27 may be authorized by the department in the following
28 circumstances:

29 (b) If in the immediate contiguous or adjacent area a
30 number of existing structures have established a reasonably
31 continuous and uniform construction line closer to the line of

1 mean high water than the foregoing, and if said existing
 2 structures have not been unduly affected by erosion, a
 3 proposed structure may be permitted along such line on written
 4 authorization from the department if such proposed structure
 5 complies with the Florida Building Code and the rules of ~~is~~
 6 ~~also approved by~~ the department. However, the department shall
 7 not contravene setback requirements established by a county or
 8 municipality which are equal to, or more strict than, those
 9 setback requirements provided herein.

10 (12) In accordance with ss. 553.73 and 553.79, and
 11 upon the effective date of the Florida Building Code, the
 12 provisions of this section which pertain to and govern the
 13 design, construction, erection, alteration, modification,
 14 repair, and demolition of public and private buildings,
 15 structures, and facilities shall be incorporated into the
 16 Florida Building Code. The Florida Building Commission shall
 17 have the authority to adopt rules pursuant to ss. 120.54 and
 18 120.536 in order to implement those provisions. This
 19 subsection does not limit or abrogate the right and authority
 20 of the department to require permits or to adopt and enforce
 21 environmental standards, including but not limited to,
 22 standards for ensuring the protection of the beach-dune
 23 system, proposed or existing structures, adjacent properties,
 24 marine turtles, native salt-resistant vegetation, endangered
 25 plant communities, and the preservation of public beach
 26 access.

27 Section 6. Effective July 1, 2001, subsection (22) is
 28 added to section 161.053, Florida Statutes, to read:

29 161.053 Coastal construction and excavation;
 30 regulation on county basis.--

1 (22) In accordance with ss. 553.73 and 553.79, and
2 upon the effective date of the Florida Building Code, the
3 provisions of this section which pertain to and govern the
4 design, construction, erection, alteration, modification,
5 repair, and demolition of public and private buildings,
6 structures, and facilities shall be incorporated into the
7 Florida Building Code. The Florida Building Commission shall
8 have the authority to adopt rules pursuant to ss. 120.54 and
9 120.536 in order to implement those provisions. This
10 subsection does not limit or abrogate the right and authority
11 of the department to require permits or to adopt and enforce
12 environmental standards, including but not limited to,
13 standards for ensuring the protection of the beach-dune
14 system, proposed or existing structures, adjacent properties,
15 marine turtles, native salt-resistant vegetation, endangered
16 plant communities, and the preservation of public beach
17 access.

18 Section 7. Effective July 1, 2001, section 161.05301,
19 Florida Statutes, is amended to read:

20 161.05301 Beach erosion control project staffing;
21 ~~coastal construction building codes review.--~~

22 (1) There are hereby appropriated to the Department of
23 Environmental Protection six positions and \$449,918 for fiscal
24 year 1998-1999 from the Ecosystem Management and Restoration
25 Trust Fund from revenues provided by this act pursuant to s.
26 201.15(11). These positions and funding are provided to
27 assist local project sponsors, and shall be used to facilitate
28 and promote enhanced beach erosion control project
29 administration. Such staffing resources shall be directed
30 toward more efficient contract development and oversight,
31 promoting cost-sharing strategies and regional coordination or

1 projects among local governments, providing assistance to
2 local governments to ensure timely permit review, and
3 improving billing review and disbursement processes.

4 (2) Upon the effective date of the Florida Building
5 Code, when the reviews authorized by s. 161.053 are conducted
6 by local government,~~Upon implementation of the Governor's~~
7 ~~Building Codes Study Commission recommendations pertaining to~~
8 ~~coastal construction, and the adoption of those~~
9 ~~recommendations by local governments, the department shall~~
10 ~~delegate the coastal construction building codes review~~
11 ~~pursuant to s. 161.053 to those local governments.~~current
12 department positions supporting the coastal construction
13 building codes review shall be directed to support
14 implementation of the subject beach management plan.

15 Section 8. Effective July 1, 2001, section 161.55,
16 Florida Statutes, is amended to read:

17 161.55 Requirements for activities or construction
18 within the coastal building zone.--The following requirements
19 shall apply beginning March 1, 1986, to construction within
20 the coastal building zone and shall be minimum standards for
21 construction in this area:

22 ~~(1) STRUCTURAL REQUIREMENTS; MAJOR STRUCTURES.--~~

23 ~~(a) Major structures shall conform to the state~~
24 ~~minimum building code in effect in the jurisdiction.~~

25 ~~(b) Mobile homes shall conform to the Federal Mobile~~
26 ~~Home Construction and Safety Standards or the Uniform~~
27 ~~Standards Code ANSI book A-119.1, pursuant to s. 320.823, and~~
28 ~~to the requirements of paragraph (c).~~

29 ~~(c) Major structures shall be designed, constructed,~~
30 ~~and located in compliance with National Flood Insurance~~
31 ~~Program regulations as found in 44 C.F.R. Parts 59 and 60 or~~

1 ~~the local flood damage prevention ordinance, whichever is more~~
 2 ~~restrictive.~~

3 ~~(d) Major structures, except those conforming to the~~
 4 ~~standards of paragraph (b), shall, at a minimum be designed~~
 5 ~~and constructed in accordance with s. 1205 of the 1986~~
 6 ~~revisions to the 1985 Standard Building Code using a fastest~~
 7 ~~mile-wind velocity of 110 miles per hour except for the~~
 8 ~~Florida Keys which shall use a fastest mile-wind velocity of~~
 9 ~~115 miles per hour. This does not preclude use of a locally~~
 10 ~~adopted building code which is more restrictive.~~

11 ~~(e) Foundation design and construction of a major~~
 12 ~~structure shall consider all anticipated loads resulting from~~
 13 ~~a 100-year storm event, including wave, hydrostatic, and~~
 14 ~~hydrodynamic loads acting simultaneously with live and dead~~
 15 ~~loads. Erosion computations for foundation design shall~~
 16 ~~account for all vertical and lateral erosion and~~
 17 ~~scour-producing forces, including localized scour due to the~~
 18 ~~presence of structural components. Foundation design and~~
 19 ~~construction shall provide for adequate bearing capacity~~
 20 ~~taking into consideration the anticipated loss of soil above~~
 21 ~~the design grade as a result of localized scour. The erosion~~
 22 ~~computations required by this paragraph do not apply landward~~
 23 ~~of coastal construction control lines which have been~~
 24 ~~established or updated since June 30, 1980. Upon request, the~~
 25 ~~department may provide information and guidance as to those~~
 26 ~~areas within the coastal building zone where the erosion and~~
 27 ~~scour of a 100-year storm event is applicable.~~

28 (1)(2) REGULATION OF COASTAL STRUCTURAL REQUIREMENTS;
 29 ~~MINOR STRUCTURES.--Minor structures need not meet specific~~
 30 ~~structural requirements provided in subsection (1), except for~~
 31 ~~the requirements of paragraph (c) and except for applicable~~

1 ~~provisions of the state minimum building code in effect in the~~
 2 ~~jurisdiction. Such structures~~ shall be designed to produce the
 3 minimum adverse impact on the beach and the dune system and
 4 adjacent properties and to reduce the potential for water or
 5 wind blown material. Construction of a rigid coastal or shore
 6 protection structure designed primarily to protect a minor
 7 structure shall not be permitted.

8 (2)~~(3)~~ REGULATION OF COASTAL STRUCTURAL REQUIREMENTS;
 9 NONHABITABLE MAJOR STRUCTURES.--Nonhabitable major structures
 10 ~~need not meet specific structural requirements provided in~~
 11 ~~subsection (1), except for the requirements of paragraph (c)~~
 12 ~~and except for applicable provisions of the state minimum~~
 13 ~~building code in effect in the jurisdiction. Such structures~~
 14 shall be designed to produce the minimum adverse impact on the
 15 beach and dune system and shall comply with any applicable
 16 state and local standards not found in this section. All
 17 sewage treatment plants and public water supply systems shall
 18 be flood proofed to prevent infiltration of surface water from
 19 a 100-year storm event. Underground utilities, excluding pad
 20 transformers and vaults, shall be flood proofed to prevent
 21 infiltration of surface water from a 100-year storm event or
 22 shall otherwise be designed so as to function when submerged
 23 by such storm event.

24 (3)~~(4)~~ LOCATION OF CONSTRUCTION.--Construction, except
 25 for elevated walkways, lifeguard support stands, piers, beach
 26 access ramps, gazebos, and coastal or shore protection
 27 structures, shall be located a sufficient distance landward of
 28 the beach to permit natural shoreline fluctuations and to
 29 preserve dune stability.

30 (4)~~(5)~~ APPLICATION TO COASTAL BARRIER ISLANDS.--All
 31 ~~building~~ requirements of this part which are applicable to the

1 coastal building zone shall also apply to coastal barrier
 2 islands. The coastal building zone on coastal barrier islands
 3 shall be the land area from the seasonal high-water line to a
 4 line 5,000 feet landward from the coastal construction control
 5 line established pursuant to s. 161.053, or the entire island,
 6 whichever is less. For coastal barrier islands on which a
 7 coastal construction control line has not been established
 8 pursuant to s. 161.053, the coastal building zone shall be the
 9 land area seaward of the most landward velocity zone (V-zone)
 10 boundary line fronting upon the Gulf of Mexico, Atlantic
 11 Ocean, Florida Bay, or Straits of Florida. All land area in
 12 the Florida Keys located within Monroe County shall be
 13 included in the coastal building zone. The coastal building
 14 zone on any coastal barrier island between Sebastian Inlet and
 15 Fort Pierce Inlet may be reduced in size upon approval of the
 16 Land and Water Adjudicatory Commission, if it determines that
 17 the local government with jurisdiction has provided adequate
 18 protection for the barrier island. In no case, however, shall
 19 the coastal building zone be reduced to an area less than a
 20 line 2,500 feet landward of the coastal construction control
 21 line. ~~In determining whether the local government with~~
 22 ~~jurisdiction has provided adequate protection, the Land and~~
 23 ~~Water Adjudicatory Commission shall determine that the local~~
 24 ~~government has adopted the 1986 Standard Building Code for the~~
 25 ~~entire barrier island.~~ The Land and Water Adjudicatory
 26 Commission shall withdraw its approval for a reduced coastal
 27 building zone if it determines that 6 months after a local
 28 government comprehensive plan is due for submission to the
 29 state land planning agency pursuant to s. 163.3167 the local
 30 government with jurisdiction has not adopted a coastal
 31 management element which is in compliance with s. 163.3178.

1 (5)(6) PUBLIC ACCESS.--Where the public has
2 established an accessway through private lands to lands
3 seaward of the mean high tide or water line by prescription,
4 prescriptive easement, or any other legal means, development
5 or construction shall not interfere with such right of public
6 access unless a comparable alternative accessway is provided.
7 The developer shall have the right to improve, consolidate, or
8 relocate such public accessways so long as the accessways
9 provided by the developer are:

10 (a) Of substantially similar quality and convenience
11 to the public;

12 (b) Approved by the local government;

13 (c) Approved by the department whenever improvements
14 are involved seaward of the coastal construction control line;
15 and

16 (d) Consistent with the coastal management element of
17 the local comprehensive plan adopted pursuant to s. 163.3178.

18 Section 9. Section 3 of chapter 98-287, Laws of
19 Florida, is amended to read:

20 Section 3. Effective July ~~January~~ 1, 2001, subsection
21 (1) of section 161.56, Florida Statutes, is amended to read:

22 161.56 Establishment of local enforcement.--

23 (1) Each local government which is required to enforce
24 the Florida ~~adopt a~~ Building Code by s. 553.73 and which has a
25 coastal building zone or some portion of a coastal zone within
26 its territorial boundaries shall enforce ~~adopt, not later than~~
27 ~~January 1, 1987, as part of its building code, the~~
28 requirements of the code established in s. 161.55, ~~and such~~
29 ~~requirements shall be enforced by the local enforcement agency~~
30 ~~as defined in s. 553.71.~~

31

1 Section 10. Effective July 1, 2001, section 161.56,
2 Florida Statutes, as amended by section 3 of chapter 98-287,
3 Laws of Florida, is amended to read:

4 161.56 Establishment of local enforcement.--

5 ~~(1) Each local government which is required to enforce~~
6 ~~the Florida Building Code by s. 553.73 and which has a coastal~~
7 ~~building zone or some portion of a coastal zone within its~~
8 ~~territorial boundaries shall enforce the requirements of the~~
9 ~~code established in s. 161.55.~~

10 ~~(2) Each local government shall provide evidence to~~
11 ~~the state land planning agency that it has adopted a building~~
12 ~~code pursuant to this section. Within 90 days after January~~
13 ~~1, 1987, the state land planning agency shall submit to the~~
14 ~~Administration Commission a list of those local governments~~
15 ~~which have not submitted such evidence of adoption. The sole~~
16 ~~issue before the Administration Commission shall be whether or~~
17 ~~not to impose sanctions pursuant to s. 163.3184(8).~~

18 (1)(3) Nothing in ss. 161.52-161.58 shall be construed
19 to limit or abrogate the right and power of the department to
20 require permits or to adopt and enforce standards pursuant to
21 s. 161.041 or s. 161.053 for construction seaward of the
22 coastal construction control line that are as restrictive as,
23 or more restrictive than, the requirements provided in s.
24 161.55 or the rights or powers of local governments to enact
25 and enforce setback requirements or zoning or building codes
26 that are as restrictive as, or more restrictive than, the
27 requirements provided in s. 161.55.

28 (2)(4) To assist local governments in the
29 implementation and enforcement of s. 161.55, the state land
30 planning agency shall develop and maintain a biennial coastal
31 building zone construction training program for the local

1 enforcement agencies specified in subsection (1). The state
2 land planning agency shall provide an initial training program
3 not later than April 1, 1987, and on a recurring biennial
4 basis shall provide a continuing education program beginning
5 July 1, 1989. Registration fees, as determined appropriate by
6 the state land planning agency, may be charged to defray the
7 cost of the program if general revenue funds are not provided
8 for this purpose. ~~No later than December 1, 1986, the state
9 land planning agency shall further develop a deemed-to-comply
10 manual which contains, as determined appropriate by the state
11 land planning agency, methods, materials, connections,
12 applicability, and other associated information for use by the
13 local enforcement agency in complying with subsection (1).~~

14 Section 11. Effective July 1, 2001, section 235.26,
15 Florida Statutes, is amended to read:

16 235.26 State Uniform Building Code for Public
17 Educational Facilities Construction.--

18 (1) UNIFORM BUILDING CODE.--By July 1, 2001, the
19 ~~Commissioner of Education shall adopt~~ a uniform statewide
20 building code for the planning and construction of public
21 educational and ancillary plants by district school boards and
22 community college district boards of trustees shall be adopted
23 by the Florida Building Commission within the Florida Building
24 Code, pursuant to s. 553.73. ~~The code must be entitled the~~
25 ~~State Uniform Building Code for Public Educational Facilities~~
26 ~~Construction.~~Included in this code must be flood plain
27 management criteria in compliance with the rules and
28 regulations in 44 C.F.R. parts 59 and 60, and subsequent
29 revisions thereto which are adopted by the Federal Emergency
30 Management Agency. It is also the responsibility of the

31

1 department to develop, as a part of the uniform building code,
2 standards relating to:

3 (a) Prefabricated facilities or factory-built
4 facilities that are designed to be portable, relocatable,
5 demountable, or reconstructible; are used primarily as
6 classrooms; and do not fall under the provisions of ss.
7 320.822-320.862. Such standards must permit boards to contract
8 with the Department of Community Affairs for factory
9 inspections by certified building code inspectors to certify
10 conformance with applicable law and rules. The standards must
11 comply with the requirements of s. 235.061 for relocatable
12 facilities intended for long-term use as classroom space, and
13 the relocatable facilities shall be designed subject to
14 missile impact criteria of section 423(24)(d)(1) of the
15 Florida Building Code when located in the windborne debris
16 region.

17 (b) The sanitation of educational and ancillary plants
18 and the health of occupants of educational and ancillary
19 plants.

20 (c) The safety of occupants of educational and
21 ancillary plants as provided in s. 235.06, except that the
22 firesafety criteria shall be established by the State Fire
23 Marshal in cooperation with the Florida Building Commission
24 and the department and such firesafety requirements must be
25 incorporated into the Florida Fire Prevention Code.

26 (d) Accessibility for children, notwithstanding the
27 provisions of s. 553.512.

28 (e) The performance of life-cycle cost analyses on
29 alternative architectural and engineering designs to evaluate
30 their energy efficiencies.

31

- 1 1. The life-cycle cost analysis must consist of the
2 sum of:
- 3 a. The reasonably expected fuel costs over the life of
4 the building which are required to maintain illumination,
5 water heating, temperature, humidity, ventilation, and all
6 other energy-consuming equipment in a facility; and
- 7 b. The reasonable costs of probable maintenance,
8 including labor and materials, and operation of the building.
- 9 2. For computation of the life-cycle costs, the
10 department shall develop standards that must include, but need
11 not be limited to:
- 12 a. The orientation and integration of the facility
13 with respect to its physical site.
- 14 b. The amount and type of glass employed in the
15 facility and the directions of exposure.
- 16 c. The effect of insulation incorporated into the
17 facility design and the effect on solar utilization of the
18 properties of external surfaces.
- 19 d. The variable occupancy and operating conditions of
20 the facility and subportions of the facility.
- 21 e. An energy-consumption analysis of the major
22 equipment of the facility's heating, ventilating, and cooling
23 system; lighting system; and hot water system and all other
24 major energy-consuming equipment and systems as appropriate.
- 25 3. Life-cycle cost criteria published by the
26 Department of Education for use in evaluating projects.
- 27 4. Standards for construction materials and systems
28 based on life-cycle costs that consider initial costs,
29 maintenance costs, custodial costs, operating costs, and life
30 expectancy. The standards may include multiple acceptable
31 materials. It is the intent of the Legislature to require

1 district school boards to comply with these standards when
 2 expending funds from the Public Education Capital Outlay and
 3 Debt Service Trust Fund or the School District and Community
 4 College District Capital Outlay and Debt Service Trust Fund
 5 and to prohibit district school boards from expending local
 6 capital outlay revenues for any project that includes
 7 materials or systems that do not comply with these standards,
 8 unless the district school board submits evidence that
 9 alternative materials or systems meet or exceed standards
 10 developed by the department.~~Wherever the words "Uniform~~
 11 ~~Building Code" appear, they mean the "State Uniform Building~~
 12 ~~Code for Public Educational Facilities Construction."~~

13
 14 It is not a purpose of the Florida ~~Uniform~~ Building Code to
 15 inhibit the use of new materials or innovative techniques; nor
 16 may it specify or prohibit materials by brand names. The code
 17 must be flexible enough to cover all phases of construction so
 18 as to afford reasonable protection for the public safety,
 19 health, and general welfare. The department may secure the
 20 service of other state agencies or such other assistance as it
 21 finds desirable in recommending to the Florida Building
 22 Commission revisions to ~~revising~~ the code.

23 (2) CONFORMITY TO FLORIDA BUILDING CODE AND FLORIDA
 24 FIRE PREVENTION STANDARDS REQUIRED FOR APPROVAL.--

25 ~~(1) UNIFORM BUILDING CODE.--~~

26 (a) Except as otherwise provided in paragraph (b), all
 27 public educational and ancillary plants constructed by a
 28 district school board or a community college district board of
 29 trustees must conform to the Florida ~~State Uniform~~ Building
 30 Code and the Florida Fire Prevention Code ~~for Public~~
 31 ~~Educational Facilities Construction~~, and such plants are

1 exempt from all other state building codes; ~~county, district,~~
 2 municipal, or other local amendments to the Florida Building
 3 Code and local amendments to the Florida Fire Prevention Code;
 4 ~~building codes, interpretations,~~ building permits, and
 5 assessments of fees for building permits, except as provided
 6 in s. 553.80; ~~ordinances;~~ road closures; and impact fees or
 7 service availability fees. Any inspection by local or state
 8 government must be based on the Florida Uniform Building Code
 9 and the Florida Fire Prevention Code ~~as prescribed by rule~~.
 10 Each board shall provide for periodic inspection of the
 11 proposed educational plant during each phase of construction
 12 to determine compliance with the state requirements for
 13 educational facilities ~~Uniform Building Code~~.

14 (b) A district school board or community college
 15 district board of trustees may conform with the Florida
 16 Building Code and the Florida Fire Prevention Code ~~local~~
 17 ~~building codes~~ and the administration of such codes when
 18 constructing ancillary plants that are not attached to
 19 educational facilities, if those plants conform to the space
 20 size requirements established in the codes ~~Uniform Building~~
 21 ~~code~~.

22 ~~(c)(2) CONFORMITY TO UNIFORM BUILDING CODE STANDARDS~~
 23 ~~REQUIRED FOR APPROVAL.~~ A district school board or community
 24 college district board of trustees may not approve any plans
 25 for the construction, renovation, remodeling, or demolition of
 26 any educational or ancillary plants unless these plans conform
 27 to the requirements of the Florida Uniform Building Code and
 28 the Florida Fire Prevention Code. Each district school board
 29 and community college district board of trustees may adopt
 30 policies for delegating to the superintendent or community
 31 college president authority for submitting documents to the

1 department and for awarding contracts subsequent to and
2 consistent with board approval of the scope, timeframes,
3 funding source, and budget of a survey-recommended project. It
4 ~~is also the responsibility of the department to develop, as a~~
5 ~~part of the Uniform Building Code, standards relating to:~~

6 ~~(a) Prefabricated facilities, factory-built~~
7 ~~facilities, or site-built facilities that are designed to be~~
8 ~~portable, relocatable, demountable, or reconstructible; are~~
9 ~~used primarily as classrooms; and do not fall under the~~
10 ~~provisions of ss. 320.822-320.862. Such standards must permit~~
11 ~~boards to contract with the Department of Community Affairs~~
12 ~~for factory inspections by certified Uniform Building Code~~
13 ~~inspectors to certify conformance with law and with rules of~~
14 ~~the Commissioner of Education. The standards must comply with~~
15 ~~the requirements of s. 235.061 for relocatable facilities~~
16 ~~intended for long-term use as classroom space.~~

17 ~~(b) The sanitation of educational and ancillary plants~~
18 ~~and the health of occupants of educational and ancillary~~
19 ~~plants.~~

20 ~~(c) The safety of occupants of educational and~~
21 ~~ancillary plants as provided in s. 235.06.~~

22 ~~(d) The physically handicapped.~~

23 ~~(e) Accessibility for children, notwithstanding the~~
24 ~~provisions of s. 553.512.~~

25 ~~(f) The performance of life-cycle cost analyses on~~
26 ~~alternative architectural and engineering designs to evaluate~~
27 ~~their energy efficiencies.~~

28 ~~1. The life-cycle cost analysis must consist of the~~
29 ~~sum of:~~

30 ~~a. The reasonably expected fuel costs over the life of~~
31 ~~the building that are required to maintain illumination, water~~

1 ~~heating, temperature, humidity, ventilation, and all other~~
2 ~~energy-consuming equipment in a facility; and~~

3 ~~b. The reasonable costs of probable maintenance,~~
4 ~~including labor and materials, and operation of the building.~~

5 ~~2. For computation of the life-cycle costs, the~~
6 ~~department shall develop standards that must include, but need~~
7 ~~not be limited to:~~

8 ~~a. The orientation and integration of the facility~~
9 ~~with respect to its physical site.~~

10 ~~b. The amount and type of glass employed in the~~
11 ~~facility and the directions of exposure.~~

12 ~~c. The effect of insulation incorporated into the~~
13 ~~facility design and the effect on solar utilization of the~~
14 ~~properties of external surfaces.~~

15 ~~d. The variable occupancy and operating conditions of~~
16 ~~the facility and subportions of the facility.~~

17 ~~e. An energy consumption analysis of the major~~
18 ~~equipment of the facility's heating, ventilating, and cooling~~
19 ~~system; lighting system; and hot water system and all other~~
20 ~~major energy-consuming equipment and systems as appropriate.~~

21 ~~3. Such standards must be based on the best currently~~
22 ~~available methods of analysis, including such methods as those~~
23 ~~of the National Institute of Standards and Technology, the~~
24 ~~Department of Housing and Urban Development, and other federal~~
25 ~~agencies and professional societies and materials developed by~~
26 ~~the Department of Management Services and the department.~~
27 ~~Provisions must be made for an annual updating of standards as~~
28 ~~required.~~

29 ~~4. By July 1, 1998, the department shall establish~~
30 ~~life-cycle cost criteria in the State Requirements for~~
31 ~~Educational Facilities for use in evaluating projects.~~

1 5. ~~By July 1, 1999, the department shall establish~~
 2 ~~standards for construction materials and systems based on~~
 3 ~~life-cycle costs that consider initial costs, maintenance~~
 4 ~~costs, custodial costs, operating costs, and life expectancy.~~
 5 ~~The standards may include multiple acceptable materials. It is~~
 6 ~~the intent of the Legislature to require district school~~
 7 ~~boards to conform with these standards when expending funds~~
 8 ~~from the Public Education Capital Outlay and Debt Service~~
 9 ~~Trust Fund or the School District and Community College~~
 10 ~~District Capital Outlay and Debt Service Trust Fund and to~~
 11 ~~prohibit district school boards from expending local capital~~
 12 ~~outlay revenues for any project that includes materials or~~
 13 ~~systems that do not comply with these standards unless the~~
 14 ~~district school board submits evidence that alternative~~
 15 ~~materials or systems meet or exceed standards developed by the~~
 16 ~~department.~~

17 (3) ENFORCEMENT BY BOARD.--It is the responsibility of
 18 each district school board and community college district
 19 board of trustees to ensure that all plans and educational and
 20 ancillary plants meet the standards of the Florida Uniform
 21 Building Code and the Florida Fire Prevention Code and to
 22 provide for the enforcement of these codes ~~this code~~ in the
 23 areas of its jurisdiction. Each board shall provide for the
 24 proper supervision and inspection of the work. Each board may
 25 employ a chief building official or inspector and such other
 26 inspectors, who have been certified ~~by the department or~~
 27 ~~certified~~ pursuant to chapter 468, and such personnel as are
 28 necessary to administer and enforce the provisions of this
 29 code. Boards may also utilize local building department
 30 inspectors who are certified by the department to enforce this
 31 code. Plans or facilities that fail to meet the standards of

1 the Florida Uniform Building Code or the Florida Fire
 2 Prevention Code may not be approved. When planning for and
 3 constructing an educational, auxiliary, or ancillary facility,
 4 a district school board must use construction materials and
 5 systems that meet standards adopted pursuant to subparagraph
 6 (2)(f)5. If the planned or actual construction of a facility
 7 deviates from the adopted standards, the district school board
 8 must, at a public hearing, quantify and compare the costs of
 9 constructing the facility with the proposed deviations and in
 10 compliance with the adopted standards and the Florida Uniform
 11 Building Code. The board must explain the reason for the
 12 proposed deviations and compare how the total construction
 13 costs and projected life-cycle costs of the facility or
 14 component system of the facility would be affected by
 15 implementing the proposed deviations rather than using
 16 materials and systems that meet the adopted standards. The
 17 provisions of this subsection do apply to educational,
 18 auxiliary, and ancillary facility projects commenced on or
 19 after July 1, 1999.

20 (4) ENFORCEMENT BY DEPARTMENT.--As a further means of
 21 ensuring that all educational and ancillary facilities
 22 hereafter constructed or materially altered or added to
 23 conform to the Florida Uniform Building Code standards or
 24 Florida Fire Prevention Code standards, each district school
 25 board and community college district board of trustees that
 26 undertakes the construction, renovation, remodeling,
 27 purchasing, or lease-purchase of any educational plant or
 28 ancillary facility, the cost of which exceeds \$200,000, may
 29 submit plans to the department for approval.

30 (5) APPROVAL.--

31

1 (a) Before a contract has been let for the
2 construction, the department, the board, or the board's
3 authorized review agent must approve the phase III
4 construction documents. A board may reuse prototype plans on
5 another site, provided the facilities list and phase III
6 construction documents have been updated for the new site and
7 for compliance with the Florida ~~Uniform~~ Building Code and the
8 Florida Fire Prevention Code and any laws relating to
9 firesafety, health and sanitation, casualty safety, and
10 requirements for the physically handicapped which are in
11 effect at the time a construction contract is to be awarded.

12 (b) In reviewing plans for approval, the department,
13 the board, or its review agent as authorized in s. 235.017,
14 shall take into consideration:

- 15 1. The need for the new facility.
- 16 2. The educational and ancillary plant planning.
- 17 3. The architectural and engineering planning.
- 18 4. The location on the site.
- 19 5. Plans for future expansion.
- 20 6. The type of construction.
- 21 7. Sanitary provisions.
- 22 8. Conformity to Florida ~~Uniform~~ Building Code
23 standards.
- 24 9. The structural design and strength of materials
25 proposed to be used.
- 26 10. The mechanical design of any heating,
27 air-conditioning, plumbing, or ventilating system. Typical
28 heating, ventilating, and air-conditioning systems preapproved
29 by the department for specific applications may be used in the
30 design of educational facilities.
- 31 11. The electrical design of educational plants.

1 12. The energy efficiency and conservation of the
2 design.

3 13. Life-cycle cost considerations.

4 14. The design to accommodate physically handicapped
5 persons.

6 15. The ratio of net to gross square footage.

7 16. The proposed construction cost per gross square
8 foot.

9 17. Conformity with the Florida Fire Prevention Code.

10 (c) The board may not occupy a facility until the
11 project has been inspected to verify compliance with statutes,
12 rules, and codes affecting the health and safety of the
13 occupants. Verification of compliance with rules, statutes,
14 and codes for nonoccupancy projects such as roofing, paving,
15 site improvements, or replacement of equipment may be
16 certified by the architect or engineer of record and
17 verification of compliance for other projects may be made by
18 an inspector certified by the department or certified pursuant
19 to chapter 468 who is not the architect or engineer of record.
20 The board shall maintain a record of the project's completion
21 and permanent archive of phase III construction documents,
22 including any addenda and change orders to the project. The
23 boards shall provide project data to the department, as
24 requested, for purposes and reports needed by the Legislature.

25 (6) REVIEW PROCEDURE.--The Commissioner of Education
26 shall cooperate with the Florida Building Commission in
27 addressing ~~have final review of~~ all questions, disputes, or
28 interpretations involving the provisions of the Florida
29 ~~Uniform~~ Building Code which govern the construction of public
30 educational and ancillary facilities, and any objections to
31

1 decisions made by the inspectors or the department must be
2 submitted in writing.

3 (7) BIENNIAL REVIEW AND UPDATE; DISSEMINATION.--The
4 department shall biennially review and recommend to the
5 Florida Building Commission updates and revisions to the
6 provisions of the Florida, update, and revise the Uniform
7 Building Code which govern the construction of public
8 educational and ancillary facilities. The department shall
9 publish and make available to each district school board and
10 community college district board of trustees at no cost copies
11 of the state requirements for educational facilities code and
12 each amendment and revision thereto. The department shall make
13 additional copies available to all interested persons at a
14 price sufficient to recover costs.

15 ~~(8) LEGAL EFFECT OF CODE.--The State Uniform Building~~
16 ~~Code for Public Educational Facilities Construction has the~~
17 ~~force and effect of law and supersedes any other code adopted~~
18 ~~by a district school board or community college district board~~
19 ~~of trustees or any other building code or ordinance for the~~
20 ~~construction of educational and ancillary plants whether at~~
21 ~~the local, county, or state level and whether adopted by rule~~
22 ~~or legislative enactment. All special acts or general laws of~~
23 ~~local application are hereby repealed to the extent that they~~
24 ~~conflict with this section.~~

25 ~~(8)(9)~~ EDUCATION FACILITIES AS EMERGENCY SHELTERS.--

26 (a) The Department of Education shall, in consultation
27 with boards and county and state emergency management offices,
28 include within the standards to be developed under subsection
29 ~~(1) amend the State Uniform Building Code for Public~~
30 ~~Educational Facilities Construction to incorporate public~~
31 shelter design criteria that shall be incorporated into the

1 Florida ~~Uniform~~ Building Code. The new criteria must be
 2 designed to ensure that appropriate core facility areas in new
 3 educational facilities can serve as public shelters for
 4 emergency management purposes. ~~The Commissioner of Education~~
 5 ~~shall publish proposed amendments to the State Uniform~~
 6 ~~Building Code for Public Educational Facilities Construction~~
 7 ~~setting forth the public shelter criteria by July 1, 1995.~~A
 8 facility, or an appropriate core facility area within a
 9 facility, for which a design contract is entered into
 10 subsequent to the effective date of the inclusion of the
 11 public shelter criteria in the code must be built in
 12 compliance with the amended code unless the facility or a part
 13 thereof is exempted from using the new shelter criteria due to
 14 its location, size, or other characteristics by the applicable
 15 board with the concurrence of the applicable local emergency
 16 management agency or the Department of Community Affairs. Any
 17 educational facility located or proposed to be located in an
 18 identified category 1, 2, or 3 evacuation zone is not subject
 19 to the requirements of this subsection. If more than one
 20 educational facility is being constructed within any 3-mile
 21 radius, no more than one facility, which must be selected on
 22 the basis of cost-effectiveness and greatest provision of
 23 shelter space, is required to incorporate the public shelter
 24 criteria into its construction.

25 (b) By January 31, 1996, and by January 31 every
 26 even-numbered year thereafter, the Department of Community
 27 Affairs shall prepare and submit a statewide emergency shelter
 28 plan to the Governor and the Cabinet for approval. The plan
 29 must identify the general location and square footage of
 30 existing shelters, by county, and the general location and
 31 square footage of needed shelters, by county, in the next 5

1 years. Such plan must identify the types of public facilities
2 which should be constructed to comply with emergency shelter
3 criteria and must recommend an appropriate, adequate, and
4 dedicated source of funding for the additional cost of
5 constructing emergency shelters within these public
6 facilities. After the approval of the plan, a board may not be
7 required to build more emergency shelter space than identified
8 as needed in the plan, and decisions pertaining to exemptions
9 pursuant to paragraph (a) must be guided by the plan and by
10 this subsection.

11 (9)~~(10)~~ LOCAL LEGISLATION PROHIBITED.--After June 30,
12 1985, pursuant to s. 11(a)(21), Art. III of the State
13 Constitution, there shall not be enacted any special act or
14 general law of local application which proposes to amend,
15 alter, or contravene any provisions of the State Building Code
16 adopted under the authority of this section.

17 Section 12. Effective July 1, 2001, Section 240.2945,
18 Florida Statutes, is created to read:

19 240.2945 Building construction standards;
20 exemptions.--The state universities are exempt from local
21 amendments to the Florida Building Code and the Fire
22 Prevention Code.

23 Section 13. Effective July 1, 2001, subsection (2) of
24 section 253.033, Florida Statutes, is amended to read:

25 253.033 Inter-American Center property; transfer to
26 board; continued use for government purposes.--

27 (2) It is hereby recognized that certain governmental
28 entities have expended substantial public funds in acquiring,
29 planning for, or constructing public facilities for the
30 purpose of carrying out or undertaking governmental functions
31 on property formerly under the jurisdiction of the authority.

1 All property owned or controlled by any governmental entity
2 shall be exempt from the Florida Building Code and any local
3 amendments thereto and from local ~~building and~~ zoning
4 regulations which might otherwise be applicable in the absence
5 of this section in carrying out or undertaking any such
6 governmental function and purpose.

7 Section 14. Effective July 1, 2001, paragraph (a) of
8 subsection (1) of section 255.25, Florida Statutes, is amended
9 to read:

10 255.25 Approval required prior to construction or
11 lease of buildings.--

12 (1)(a) No state agency may ~~construct a building for~~
13 ~~state use or~~ lease space in a private building that is to be
14 constructed for state use unless prior approval of the
15 architectural design and preliminary construction plans is
16 first obtained from the Department of Management Services.

17 Section 15. Effective July 1, 2001, subsections (1)
18 and (2) of section 255.31, Florida Statutes, are amended to
19 read:

20 255.31 Authority to the Department of Management
21 Services to manage construction projects for state and local
22 governments.--

23 (1) The design, construction, erection, alteration,
24 modification, repair, and demolition of all public and private
25 buildings is governed by the Florida Building Code and the
26 Florida Fire Prevention Code, which are to be enforced by
27 local jurisdictions or local enforcement districts unless
28 specifically exempted as provided in s. 553.80. However, the
29 Department of Management Services shall provide the project
30 management and administration services for the construction,
31 renovation, repair, modification, or demolition of buildings,

1 utilities, parks, parking lots, or other facilities or
2 improvements for projects for which the funds are appropriated
3 to the department, provided that, with the exception of
4 facilities constructed under the authority of chapters 944,
5 945, and 985, the department may not conduct plans reviews or
6 inspection services for consistency with the Florida Building
7 Code. The department's fees for such services shall be paid
8 from such appropriations.

9 (2) The Department of Management Services may, upon
10 request, enter into contracts with other state agencies under
11 which the department may provide the project management,
12 administration services, or assistance for the construction,
13 renovation, repair, modification, or demolition of buildings,
14 utilities, parks, parking lots, or other facilities or
15 improvements for projects for which the funds are appropriated
16 to other state agencies, provided that the department does not
17 conduct plans reviews or inspection services for consistency
18 with the Florida Building Code. The contracts shall provide
19 for payment of fees to the department.

20 Section 16. Section 316.1955, Florida Statutes, is
21 amended to read:

22 316.1955 Enforcement of parking requirements ~~spaces~~
23 for persons who have disabilities.--

24 ~~(1) This section is not intended to expand or diminish~~
25 ~~the defenses available to a place of public accommodation~~
26 ~~under the Americans with Disabilities Act and the federal~~
27 ~~Americans with Disabilities Act Accessibility Guidelines,~~
28 ~~including, but not limited to, the readily achievable~~
29 ~~standard, and the standards applicable to alterations to~~
30 ~~places of public accommodation. Subject to the exceptions~~
31 ~~described in subsections (2), (4), (5), and (6), when the~~

1 ~~parking and loading zone requirements of the federal Americans~~
2 ~~with Disabilities Act Accessibility Guidelines (ADAAG), as~~
3 ~~adopted by reference in 28 C.F.R. part 36, subparts A and D,~~
4 ~~and Title II of Pub. L. No. 101-336, provide increased~~
5 ~~accessibility, those requirements are adopted and incorporated~~
6 ~~by reference as the law of this state.~~

7 ~~(2) State agencies and political subdivisions having~~
8 ~~jurisdiction over street parking or publicly owned or operated~~
9 ~~parking facilities are not required to provide a greater~~
10 ~~right-of-way width than would otherwise be planned under~~
11 ~~regulations, guidelines, or practices normally applied to new~~
12 ~~development.~~

13 ~~(3) If parking spaces are provided for self-parking by~~
14 ~~employees or visitors, or both, accessible spaces shall be~~
15 ~~provided in each such parking area. Such spaces shall be~~
16 ~~designed and marked for the exclusive use of those individuals~~
17 ~~who have a severe physical disability and have permanent or~~
18 ~~temporary mobility problems that substantially impair their~~
19 ~~ability to ambulate and who have been issued either a disabled~~
20 ~~parking permit under s. 316.1958 or s. 320.0848 or a license~~
21 ~~plate under s. 320.084, s. 320.0842, s. 320.0843, or s.~~
22 ~~320.0845.~~

23 ~~(4) The number of accessible parking spaces must~~
24 ~~comply with the parking requirements in ADAAG s. 4.1 and the~~
25 ~~following:~~

26 ~~(a) There must be one accessible parking space in the~~
27 ~~immediate vicinity of a publicly owned or leased building that~~
28 ~~houses a governmental entity or a political subdivision,~~
29 ~~including, but not limited to, state office buildings and~~
30 ~~courthouses, if no parking for the public is provided on the~~
31 ~~premises of the building.~~

1 ~~(b) There must be one accessible parking space for~~
2 ~~each 150 metered onstreet parking spaces provided by state~~
3 ~~agencies and political subdivisions.~~

4 ~~(c) The number of parking spaces for persons who have~~
5 ~~disabilities must be increased on the basis of demonstrated~~
6 ~~and documented need.~~

7 ~~(5) Accessible perpendicular and diagonal accessible~~
8 ~~parking spaces and loading zones must be designed and located~~
9 ~~in conformance with the guidelines set forth in ADAAG ss.~~
10 ~~4.1.2 and 4.6 and Appendix s. A4.6.3 "Universal Parking~~
11 ~~Design."~~

12 ~~(a) All spaces must be located on an accessible route~~
13 ~~no less than 44 inches wide so that users will not be~~
14 ~~compelled to walk or wheel behind parked vehicles.~~

15 ~~(b) Each space must be located on the shortest safely~~
16 ~~accessible route from the parking space to an accessible~~
17 ~~entrance. If there are multiple entrances or multiple retail~~
18 ~~stores, the parking spaces must be dispersed to provide~~
19 ~~parking at the nearest accessible entrance. If a theme park~~
20 ~~or an entertainment complex as defined in s. 509.013(9)~~
21 ~~provides parking in several lots or areas from which access to~~
22 ~~the theme park or entertainment complex is provided, a single~~
23 ~~lot or area may be designated for parking by persons who have~~
24 ~~disabilities, if the lot or area is located on the shortest~~
25 ~~safely accessible route to an accessible entrance to the theme~~
26 ~~park or entertainment complex or to transportation to such an~~
27 ~~accessible entrance.~~

28 ~~(c)1. Each parking space must be no less than 12 feet~~
29 ~~wide. Parking access aisles must be no less than 5 feet wide~~
30 ~~and must be part of an accessible route to the building or~~
31 ~~facility entrance. In accordance with ADAAG s. 4.6.3, access~~

1 ~~aisles must be placed adjacent to accessible parking spaces;~~
2 ~~however, two accessible parking spaces may share a common~~
3 ~~access aisle. The access aisle must be striped diagonally to~~
4 ~~designate it as a no-parking zone.~~

5 ~~2. The parking access aisles are reserved for the~~
6 ~~temporary exclusive use of persons who have disabled parking~~
7 ~~permits and who require extra space to deploy a mobility~~
8 ~~device, lift, or ramp in order to exit from or enter a~~
9 ~~vehicle. Parking is not allowed in an access aisle. Violators~~
10 ~~are subject to the same penalties that are imposed for~~
11 ~~illegally parking in parking spaces that are designated for~~
12 ~~persons who have disabilities. A vehicle may not be parked in~~
13 ~~an access aisle, even if the vehicle owner or passenger is~~
14 ~~disabled or owns a disabled parking permit.~~

15 ~~3. Any provision of this subsection to the contrary~~
16 ~~notwithstanding, a theme park or an entertainment complex as~~
17 ~~defined in s. 509.013(9) in which are provided continuous~~
18 ~~attendant services for directing individuals to marked~~
19 ~~accessible parking spaces or designated lots for parking by~~
20 ~~persons who have disabilities, may, in lieu of the required~~
21 ~~parking space design, provide parking spaces that comply with~~
22 ~~ss. 4.1 and 4.6 of the Americans with Disabilities Act~~
23 ~~Accessibility Guidelines.~~

24 ~~(d) On-street parallel parking spaces must be located~~
25 ~~either at the beginning or end of a block or adjacent to alley~~
26 ~~entrances. Such spaces must be designed in conformance with~~
27 ~~the guidelines set forth in ADAAG ss. 4.6.2 through 4.6.5.~~
28 ~~exception: access aisles are not required. Curbs adjacent to~~
29 ~~such spaces must be of a height that will not interfere with~~
30 ~~the opening and closing of motor vehicle doors. This~~

31

1 ~~subsection does not relieve the owner of the responsibility to~~
2 ~~comply with the parking requirements of ADAAG ss. 4.1 and 4.6.~~

3 ~~(e) Parallel parking spaces must be even with surface~~
4 ~~slopes, may match the grade of the adjacent travel lane, and~~
5 ~~must not exceed a cross slope of 1 to 50, where feasible.~~

6 ~~(f) Curb ramps must be located outside of the disabled~~
7 ~~parking spaces and access aisles.~~

8 ~~(g)1. The removal of architectural barriers from a~~
9 ~~parking facility in accordance with 28 C.F.R. s. 36.304 or~~
10 ~~with s. 553.508 must comply with this section unless~~
11 ~~compliance would cause the barrier removal not to be readily~~
12 ~~achievable. If compliance would cause the barrier removal not~~
13 ~~to be readily achievable, a facility may provide parking~~
14 ~~spaces at alternative locations for persons who have~~
15 ~~disabilities and provide appropriate signage directing persons~~
16 ~~who have disabilities to the alternative parking if readily~~
17 ~~achievable. The facility may not reduce the required number~~
18 ~~or dimensions of those spaces, nor may it unreasonably~~
19 ~~increase the length of the accessible route from a parking~~
20 ~~space to the facility. The removal of an architectural~~
21 ~~barrier must not create a significant risk to the health or~~
22 ~~safety of a person who has a disability or to that of others.~~

23 ~~2. A facility that is making alterations under s.~~
24 ~~553.507(2)(b) must comply with this section to the maximum~~
25 ~~extent feasible. If compliance with parking location~~
26 ~~requirements is not feasible, the facility may provide parking~~
27 ~~spaces at alternative locations for persons who have~~
28 ~~disabilities and provide appropriate signage directing persons~~
29 ~~who have a disability to alternative parking. The facility~~
30 ~~may not reduce the required number or dimensions of those~~
31 ~~spaces, nor may it unnecessarily increase the length of the~~

1 ~~accessible route from a parking space to the facility. The~~
 2 ~~alteration must not create a significant risk to the health or~~
 3 ~~safety of a person who has a disability or to that of others.~~

4 ~~(6) Each such parking space must be prominently~~
 5 ~~outlined with blue paint, and must be repainted when~~
 6 ~~necessary, to be clearly distinguishable as a parking space~~
 7 ~~designated for persons who have disabilities and must be~~
 8 ~~posted with a permanent above-grade sign of a color and design~~
 9 ~~approved by the Department of Transportation, which is placed~~
 10 ~~on or at a distance of 84 inches above the ground to the~~
 11 ~~bottom of the sign and which bears the international symbol of~~
 12 ~~accessibility meeting the requirements of ADAAG s. 4.30.7 and~~
 13 ~~the caption "PARKING BY DISABLED PERMIT ONLY." Such a sign~~
 14 ~~erected after October 1, 1996, must indicate the penalty for~~
 15 ~~illegal use of the space. Any provision of this section to the~~
 16 ~~contrary notwithstanding, in a theme park or an entertainment~~
 17 ~~complex as defined in s. 509.013(9) in which accessible~~
 18 ~~parking is located in designated lots or areas, the signage~~
 19 ~~indicating the lot as reserved for accessible parking may be~~
 20 ~~located at the entrances to the lot in lieu of a sign at each~~
 21 ~~parking place. This subsection does not relieve the owner of~~
 22 ~~the responsibility of complying with the signage requirements~~
 23 ~~of ADAAG s. 4.30.~~

24 ~~(1)(7)~~ It is unlawful for any person to stop, stand,
 25 or park a vehicle within, or to obstruct, any such specially
 26 designated and marked parking space provided in accordance
 27 with s. 553.5041 ~~this section~~, unless the vehicle displays a
 28 disabled parking permit issued under s. 316.1958 or s.
 29 320.0848 or a license plate issued under s. 320.084, s.
 30 320.0842, s. 320.0843, or s. 320.0845, and the vehicle is
 31 transporting the person to whom the displayed permit is

1 issued. The violation may not be dismissed for failure of the
2 marking on the parking space to comply with s. 553.5041 ~~this~~
3 ~~section~~ if the space is in general compliance and is clearly
4 distinguishable as a designated accessible parking space for
5 people who have disabilities. Only a warning may be issued for
6 unlawfully parking in a space designated for persons with
7 disabilities if there is no above-grade sign as provided in s.
8 553.5041 ~~subsection (6)~~.

9 (a) Whenever a law enforcement officer, a parking
10 enforcement specialist, or the owner or lessee of the space
11 finds a vehicle in violation of this subsection, that officer,
12 owner, or lessor shall have the vehicle in violation removed
13 to any lawful parking space or facility or require the
14 operator or other person in charge of the vehicle immediately
15 to remove the unauthorized vehicle from the parking space.
16 Whenever any vehicle is removed under this section to a
17 storage lot, garage, or other safe parking space, the cost of
18 the removal and parking constitutes a lien against the
19 vehicle.

20 (b) The officer or specialist shall charge the
21 operator or other person in charge of the vehicle in violation
22 with a noncriminal traffic infraction, punishable as provided
23 in s. 316.008(4) or s. 318.18(6).

24 (c) All convictions for violations of this section
25 must be reported to the Department of Highway Safety and Motor
26 Vehicles by the clerk of the court.

27 (d) A law enforcement officer or a parking enforcement
28 specialist has the right to demand to be shown the person's
29 disabled parking permit and driver's license or state
30 identification card when investigating the possibility of a
31 violation of this section. If such a request is refused, the

1 person in charge of the vehicle may be charged with resisting

4 certification fees and shall receive a limited certificate
5 qualifying such individuals to engage in building code
6 administration, plans examination, or inspection in the class,

9 Section 35. Section 468.617, Florida Statutes, is
10 amended to read:

11 468.617 Joint inspection department; other
12 arrangements.--

13 (1) Nothing in this part shall prohibit any local
14 jurisdiction, school board, community college board, state
15 university, or state agency from entering into and carrying
16 out contracts with any other local jurisdiction or educational
17 board under which the parties agree to create and support a
18 joint inspection department for conforming to the provisions
19 of this part. In lieu of a joint inspection department, any
20 local jurisdiction may designate an inspector from another
21 local jurisdiction to serve as an inspector for the purposes
22 of this part.

23 (2) Nothing in this part shall prohibit local
24 governments, school boards, community college boards, state
25 universities, or state agencies from contracting with persons
26 certified pursuant to this part to perform inspections or plan
27 reviews. An individual or entity may not inspect or examine
28 plans on projects in which the individual or entity designed
29 or permitted the projects.

30 (3) Nothing in this part shall prohibit any county or
31 municipal government, school board, community college board,

1 state university, or state agency from entering into any

7 subsection (1) of section 469.002, Florida Statutes, is
8 amended to read:

9 469.002 Exemptions.--

10 (1) This chapter does not apply to:

11 (d) Moving, removal, or disposal of
12 asbestos-containing materials on a residential building where
13 the owner occupies the building, the building is not for sale
14 or lease, and the work is performed according to the
15 owner-builder limitations provided in this paragraph. To
16 qualify for exemption under this paragraph, an owner must
17 personally appear and sign the building permit application.
18 The permitting agency shall provide the person with a
19 disclosure statement as provided in chapter 1 of the Florida
20 Building Code.~~in substantially the following form:~~

21
22 ~~Disclosure Statement~~

23
24 ~~State law requires asbestos abatement to be done by~~
25 ~~licensed contractors. You have applied for a permit under an~~
26 ~~exemption to that law. The exemption allows you, as the owner~~
27 ~~of your property, to act as your own asbestos abatement~~
28 ~~contractor even though you do not have a license. You must~~
29 ~~supervise the construction yourself. You may move, remove, or~~
30 ~~dispose of asbestos-containing materials on a residential~~
31 ~~building where you occupy the building and the building is not~~

1 ~~for sale or lease, or the building is a farm outbuilding on~~
2 ~~your property. If you sell or lease such building within 1~~
3 ~~year after the asbestos abatement is complete, the law will~~
4 ~~presume that you intended to sell or lease the property at the~~
5 ~~time the work was done, which is a violation of this~~
6 ~~exemption. You may not hire an unlicensed person as your~~
7 ~~contractor. Your work must be done according to all local,~~
8 ~~state, and federal laws and regulations which apply to~~
9 ~~asbestos abatement projects. It is your responsibility to make~~
10 ~~sure that people employed by you have licenses required by~~
11 ~~state law and by county or municipal licensing ordinances.~~

12 Section 37. Subsection (7) is added to section
13 471.015, Florida Statutes, to read:

14 471.015 Licensure.--

15 (7) The board shall, by rule, establish qualifications
16 for certification of licensees as special inspectors of
17 threshold buildings, as defined in ss. 553.71 and 553.79, and
18 shall compile a list of persons who are certified. A special
19 inspector is not required to meet standards for certification
20 other than those established by the board, and the fee owner
21 of a threshold building may not be prohibited from selecting
22 any person certified by the board to be a special inspector.
23 The board shall develop minimum qualifications for the
24 qualified representative of the special inspector who is
25 authorized to perform inspections of threshold buildings on
26 behalf of the special inspector under s. 553.79.

27 Section 38. Subsection (7) is added to section
28 481.213, Florida Statutes, to read:

29 481.213 Licensure.--

30 (7) For persons whose licensure requires satisfaction
31 of the requirements of ss. 481.209 and 481.211, the board

1 shall, by rule, establish qualifications for certification of
2 such persons as special inspectors of threshold buildings, as
3 defined in ss. 553.71 and 553.79, and shall compile a list of
4 persons who are certified. A special inspector is not required
5 to meet standards for certification other than those
6 established by the board, and the fee owner of a threshold
7 building may not be prohibited from selecting any person
8 certified by the board to be a special inspector. The board
9 shall develop minimum qualifications for the qualified
10 representative of the special inspector who is authorized
11 under s. 553.79 to perform inspections of threshold buildings
12 on behalf of the special inspector.

13 Section 39. Effective July 1, 2001, subsection (19) of
14 section 489.103, Florida Statutes, is amended to read:

15 489.103 Exemptions.--This part does not apply to:

16 (19) The sale, delivery, assembly, or tie-down of
17 prefabricated portable sheds that are not more than 250 square
18 feet in interior size and are not intended for use as a
19 residence or as living quarters. This exemption may not be
20 construed to interfere with the Florida Building Code or any
21 applicable local technical amendment to the Florida Building
22 Code ~~local building codes~~, local licensure requirements, or
23 other local ordinance provisions.

24 Section 40. Effective July 1, 2001, subsection (3) of
25 section 489.109, Florida Statutes, is amended to read:

26 489.109 Fees.--

27 (3) In addition to the fees provided in subsection (1)
28 for application and renewal for certification and
29 registration, all certificateholders and registrants must pay
30 a fee of \$4 to the department at the time of application or
31 renewal. The funds must be transferred at the end of each

1 licensing period to the Department of Community Affairs
 2 ~~Education~~ to fund projects relating to the building
 3 construction industry or continuing education programs offered
 4 to persons engaged in the building construction industry in
 5 Florida, to be selected by the Florida Building Commission.
 6 The board shall, at the time the funds are transferred, advise
 7 the Department of Community Affairs ~~Education~~ on the most
 8 needed areas of research or continuing education based on
 9 significant changes in the industry's practices or on changes
 10 in the state building code or on the most common types of
 11 consumer complaints or on problems costing the state or local
 12 governmental entities substantial waste. The board's advice is
 13 not binding on the Department of Community Affairs ~~Education~~.
 14 ~~The Department of Education must allocate 50 percent of the~~
 15 ~~funds to a graduate program in building construction in a~~
 16 ~~Florida university and 50 percent of the funds to all~~
 17 ~~accredited private and state universities and community~~
 18 ~~colleges within the state offering approved courses in~~
 19 ~~building construction, with each university or college~~
 20 ~~receiving a pro rata share of such funds based upon the number~~
 21 ~~of full-time building construction students enrolled at the~~
 22 ~~institution.~~The Department of Community Affairs ~~Education~~
 23 shall ensure the distribution of research reports and the
 24 availability of continuing education programs to all segments
 25 of the building construction industry to which they relate.
 26 The Department of Community Affairs ~~Education~~ shall report to
 27 the board in October of each year, summarizing the allocation
 28 of the funds by institution and summarizing the new projects
 29 funded and the status of previously funded projects.

30 Section 41. Paragraph (b) of subsection (4) of section
 31 489.115, Florida Statutes, is amended to read:

1 489.115 Certification and registration; endorsement;
2 reciprocity; renewals; continuing education.--

3 (4)

4 (b)1. Each certificateholder or registrant shall
5 provide proof, in a form established by rule of the board,
6 that the certificateholder or registrant has completed at
7 least 14 classroom hours of at least 50 minutes each of
8 continuing education courses during each biennium since the
9 issuance or renewal of the certificate or registration. The
10 board shall establish by rule that a portion of the required
11 14 hours must deal with the subject of workers' compensation,
12 business practices, and workplace safety. The board shall by
13 rule establish criteria for the approval of continuing
14 education courses and providers, including requirements
15 relating to the content of courses and standards for approval
16 of providers, and may by rule establish criteria for accepting
17 alternative nonclassroom continuing education on an
18 hour-for-hour basis. The board shall prescribe by rule the
19 continuing education, if any, which is required during the
20 first biennium of initial licensure. A person who has been
21 licensed for less than an entire biennium must not be required
22 to complete the full 14 hours of continuing education.

23 2. In addition, the board may approve specialized
24 continuing education courses on compliance with the wind
25 resistance provisions for one and two family dwellings
26 contained in the State Minimum Building Codes and any
27 alternate methodologies for providing such wind resistance
28 which have been approved for use by the Florida Building
29 Commission ~~Board of Building Codes and Standards~~. Division I
30 certificateholders or registrants who demonstrate proficiency
31 upon completion of such specialized courses may certify plans

1 and specifications for one and two family dwellings to be in
2 compliance with the code or alternate methodologies, as
3 appropriate, except for dwellings located in floodways or
4 coastal hazard areas as defined in ss. 60.3D and E of the
5 National Flood Insurance Program.

6 3. Each certificateholder or registrant shall provide
7 to the board proof of completion of the core curriculum
8 courses, or passing the equivalency test of the Building Code
9 Training Program established under s. 553.841, specific to the
10 licensing category sought, within 2 years after commencement
11 of the program or of initial certification or registration,
12 whichever is later. Classroom hours spent taking core
13 curriculum courses shall count toward the number required for
14 renewal of certificates or registration. A certificateholder
15 or registrant who passes the equivalency test in lieu of
16 taking the core curriculum courses shall receive full credit
17 for core curriculum course hours.

18 Section 42. Section 21 of chapter 98-287, Laws of
19 Florida, is amended to read:

20 Section 21. Effective July ~~January~~ 1, 2001, paragraph
21 (b) of subsection (4) of section 489.115, Florida Statutes, as
22 amended by this act, is amended to read:

23 489.115 Certification and registration; endorsement;
24 reciprocity; renewals; continuing education.--

25 (4)

26 (b)1. Each certificateholder or registrant shall
27 provide proof, in a form established by rule of the board,
28 that the certificateholder or registrant has completed at
29 least 14 classroom hours of at least 50 minutes each of
30 continuing education courses during each biennium since the
31 issuance or renewal of the certificate or registration. The

1 board shall establish by rule that a portion of the required
 2 14 hours must deal with the subject of workers' compensation
 3 and workplace safety. The board shall by rule establish
 4 criteria for the approval of continuing education courses and
 5 providers, including requirements relating to the content of
 6 courses and standards for approval of providers, and may by
 7 rule establish criteria for accepting alternative nonclassroom
 8 continuing education on an hour-for-hour basis.

9 2. In addition, the board may approve specialized
 10 continuing education courses on compliance with the wind
 11 resistance provisions for one and two family dwellings
 12 contained in the Florida State Minimum Building Code Codes and
 13 any alternate methodologies for providing such wind resistance
 14 which have been approved for use by the Florida Board of
 15 Building Commission Codes and Standards. Division I
 16 certificateholders or registrants who demonstrate proficiency
 17 upon completion of such specialized courses may certify plans
 18 and specifications for one and two family dwellings to be in
 19 compliance with the code or alternate methodologies, as
 20 appropriate, except for dwellings located in floodways or
 21 coastal hazard areas as defined in ss. 60.3D and E of the
 22 National Flood Insurance Program.

23 3. Each certificateholder or registrant shall provide
 24 to the board proof of completion of the core curriculum
 25 courses, or passing the equivalency test of the Building Code
 26 Training Program established under s. 553.841, specific to the
 27 licensing category sought, within 2 years after commencement
 28 of the program or of initial certification or registration,
 29 whichever is later. Classroom hours spent taking core
 30 curriculum courses shall count toward the number required for
 31 renewal of certificates or registration. A certificateholder

1 or registrant who passes the equivalency test in lieu of
2 taking the core curriculum courses shall receive full credit
3 for core curriculum course hours.

4 4. The board shall require, by rule adopted pursuant
5 to ss. 120.536(1) and 120.54, a specified number of hours in
6 specialized or advanced module courses, approved by the
7 Florida Building Commission, on any portion of the Florida
8 Building Code, adopted pursuant to part VII of chapter 553,
9 relating to the contractor's respective discipline.

10 Section 43. Section 497.255, Florida Statutes, is
11 amended to read:

12 497.255 Standards for construction and significant
13 alteration or renovation of mausoleums and columbaria.--

14 (1) All newly constructed and significantly altered or
15 renovated mausoleums and columbaria must, in addition to
16 complying with applicable building codes, conform to the
17 standards adopted under this section.

18 (2) The board shall adopt, by no later than July 1,
19 1999, rules establishing minimum standards for all newly
20 constructed and significantly altered or renovated mausoleums
21 and columbaria; however, in the case of significant
22 alterations or renovations to existing structures, the rules
23 shall apply only, when physically feasible, to the newly
24 altered or renovated portion of such structures, except as
25 specified in subsection (4). In developing and promulgating
26 said rules, the board may define different classes of
27 structures or construction standards, and may provide for
28 different rules to apply to each of said classes, if the
29 designation of classes and the application of different rules
30 is in the public interest and is supported by findings by the
31 board based on evidence of industry practices, economic and

1 physical feasibility, location, or intended uses; provided,
2 that the rules shall provide minimum standards applicable to
3 all construction. For example, and without limiting the
4 generality of the foregoing, the board may determine that a
5 small single-story ground level mausoleum does not require the
6 same level of construction standards that a large multistory
7 mausoleum might require; or that a mausoleum located in a
8 low-lying area subject to frequent flooding or hurricane
9 threats might require different standards than one located on
10 high ground in an area not subject to frequent severe weather
11 threats. The board shall develop the rules in cooperation
12 with, and with technical assistance from, the Florida Board of
13 Building Commission Codes and Standards of the Department of
14 Community Affairs, to ensure that the rules are in the proper
15 form and content to be included as part of the State Minimum
16 Building Codes under part VII of chapter 553. If the Florida
17 ~~Board of Building Commission Codes and Standards~~ advises that
18 some of the standards proposed by the board are not
19 appropriate for inclusion in such building codes, the board
20 may choose to include those standards in a distinct chapter of
21 its rules entitled "Non-Building-Code Standards for
22 Mausoleums" or "Additional Standards for Mausoleums," or other
23 terminology to that effect. If the board elects to divide the
24 standards into two or more chapters, all such rules shall be
25 binding on licensees and others subject to the jurisdiction of
26 the board, but only the chapter containing provisions
27 appropriate for building codes shall be transmitted to the
28 Florida Board of Building Commission Codes and Standards
29 pursuant to subsection (3). Such rules may be in the form of
30 standards for design and construction; methods, materials, and
31

1 specifications for construction; or other mechanisms. Such
2 rules shall encompass, at a minimum, the following standards:

3 (a) No structure may be built or significantly altered
4 for use for interment, entombment, or inurnment purposes
5 unless constructed of such material and workmanship as will
6 ensure its durability and permanence, as well as the safety,
7 convenience, comfort, and health of the community in which it
8 is located, as dictated and determined at the time by modern
9 mausoleum construction and engineering science.

10 (b) Such structure must be so arranged that the
11 exterior of any vault, niche, or crypt may be readily examined
12 at any time by any person authorized by law to do so.

13 (c) Such structure must contain adequate provision for
14 drainage and ventilation.

15 (d) Such structure must be of fire-resistant
16 construction. Notwithstanding the requirements of s. 553.895
17 and chapter 633, any mausoleum or columbarium constructed of
18 noncombustible materials, as defined in the Standard Building
19 Code, shall not require a sprinkler system.

20 (e) Such structure must be resistant to hurricane and
21 other storm damage to the highest degree provided under
22 applicable building codes for buildings of that class.

23 (f) Suitable provisions must be made for securely and
24 permanently sealing each crypt with durable materials after
25 the interment or entombment of human remains, so that no
26 effluvia or odors may escape therefrom except as provided by
27 design and sanitary engineering standards. Panels for
28 permanent seals must be solid and constructed of materials of
29 sufficient weight, permanence, density, imperviousness, and
30 strength as to ensure their durability and continued
31 functioning. Permanent crypt sealing panels must be securely

1 installed and set in with high quality fire-resistant,
 2 resilient, and durable materials after the interment or
 3 entombment of human remains. The outer or exposed covering of
 4 each crypt must be of a durable, permanent, fire-resistant
 5 material; however, plastic, fiberglass, and wood are not
 6 acceptable materials for such outer or exposed coverings.

7 (g) Interior and exterior fastenings for hangers,
 8 clips, doors, and other objects must be of copper, copper-base
 9 alloy, aluminum, or stainless steel of adequate gauges, or
 10 other materials established by rule which provide equivalent
 11 or better strength and durability, and must be properly
 12 installed.

13 (3) The board shall transmit the rules as adopted
 14 under subsection (2), hereinafter referred to as the
 15 "mausoleum standards," to the Florida Board of Building
 16 Commission Codes and Standards, which shall initiate
 17 rulemaking under chapter 120 to consider such mausoleum
 18 standards. If such mausoleum standards are not deemed
 19 acceptable, they shall be returned by the Florida Board of
 20 Building Commission Codes and Standards to the board with
 21 details of changes needed to make them acceptable. If such
 22 mausoleum standards are acceptable, the Florida Board of
 23 Building Commission Codes and Standards shall adopt a rule
 24 designating the mausoleum standards as an approved revision to
 25 the State Minimum Building Codes under part VII of chapter
 26 553. When so designated by the Florida Board of Building
 27 Commission Codes and Standards, such mausoleum standards shall
 28 become a required element of the State Minimum Building Codes
 29 under s. 553.73(2) and shall be transmitted to each local
 30 enforcement agency, as defined in s. 553.71(5). Such local
 31 enforcement agency shall consider and inspect for compliance

1 with such mausoleum standards as if they were part of the
 2 local building code, but shall have no continuing duty to
 3 inspect after final approval of the construction pursuant to
 4 the local building code. Any further amendments to the
 5 mausoleum standards shall be accomplished by the same
 6 procedure. Such designated mausoleum standards, as from time
 7 to time amended, shall be a part of the State Minimum Building
 8 Codes under s. 553.73 until the adoption and effective date of
 9 a new statewide uniform minimum building code, which may
 10 supersede the mausoleum standards as provided by the law
 11 enacting the new statewide uniform minimum building code.

12 (4) In addition to the rules adopted under subsection
 13 (2), the board shall adopt rules providing that following all
 14 interments, inurnments, and entombments in mausoleums and
 15 columbaria occurring after the effective date of such rules,
 16 whether newly constructed or existing, suitable provision must
 17 be made, when physically feasible, for sealing each crypt in
 18 accordance with standards promulgated pursuant to paragraph
 19 (2)(f).

20 (5) For purposes of this section, "significant
 21 alteration or renovation" means any addition, renovation, or
 22 repair which results in the creation of new crypt or niche
 23 spaces.

24 Section 44. Effective July 1, 2001, subsection (8) is
 25 added to section 500.09, Florida Statutes, to read:

26 500.09 Rulemaking; analytical work.--

27 (8) The department may adopt rules necessary for the
 28 sanitary manufacture, processing, or handling of food, except
 29 for those governing the design, construction, erection,
 30 alteration, modification, repair, or demolition of any
 31 building, structure, or facility wherein food products are

1 manufactured, processed, handled, stored, sold, or
2 distributed. It is the intent of the Legislature to preempt
3 those functions to the Florida Building Commission through
4 adoption and maintenance of the Florida Building Code. The
5 department shall provide technical assistance to the
6 commission in updating the construction standards of the
7 Florida Building Code which relate to food safety. However,
8 the department is authorized to enforce the provisions of the
9 Florida Building Code which apply to food establishments in
10 conducting any inspections authorized by this chapter.

11 Section 45. Effective July 1, 2001, subsections (7)
12 and (8) are added to section 500.12, Florida Statutes, to
13 read:

14 500.12 Food permits; building permits.--

15 (7) In conducting any preoperational or other
16 inspection, the department may enforce provisions of the
17 Florida Building Code relating to food establishments.

18 (8) Any person who, after October 1, 2000, applies for
19 or renews a local occupational license to engage in business
20 as a food establishment must exhibit a current food permit or
21 an active letter of exemption from the department before the
22 local occupational license may be issued or renewed.

23 Section 46. Effective July 1, 2001, subsection (1) of
24 section 500.147, Florida Statutes, is amended to read:

25 500.147 Inspection of food establishments and
26 vehicles; food safety pilot program.--

27 (1) The department or its duly authorized agent shall
28 have free access at all reasonable hours to any food
29 establishment or any vehicle being used to transport or hold
30 food in commerce for the purpose of inspecting such
31 establishment or vehicle to determine if any provision of this

1 chapter or any rule adopted under the chapter is being
2 violated; to secure a sample or a specimen of any food after
3 paying or offering to pay for such sample; ~~or~~ to see that all
4 sanitary rules adopted by the department are complied with; or
5 to enforce the special-occupancy provisions of the Florida
6 Building Code which apply to food establishments.

7 Section 47. Effective July 1, 2001, paragraph (d) of
8 subsection (2) and subsection (7) of section 509.032, Florida
9 Statutes, are amended to read:

10 509.032 Duties.--

11 (2) INSPECTION OF PREMISES.--

12 (d) The division shall adopt and enforce sanitation
13 rules consistent with law to ensure the protection of the
14 public from food-borne illness in those establishments
15 licensed under this chapter. These rules shall provide the
16 standards and requirements for obtaining, storing, preparing,
17 processing, serving, or displaying food in public food service
18 establishments, approving public food service establishment
19 facility plans, conducting necessary public food service
20 establishment inspections for compliance with sanitation
21 regulations, cooperating and coordinating with the Department
22 of Health in epidemiological investigations, and initiating
23 enforcement actions, and for other such responsibilities
24 deemed necessary by the division. The division may not
25 establish by rule any regulation governing the design,
26 construction, erection, alteration, modification, repair, or
27 demolition of any public lodging or public food service
28 establishment. It is the intent of the Legislature to preempt
29 that function to the Florida Building Commission and the State
30 Fire Marshal through adoption and maintenance of the Florida
31 Building Code and the Florida Fire Prevention Code. The

1 division shall provide technical assistance to the commission
2 and the State Fire Marshal in updating the construction
3 standards of the Florida Building Code and the Florida Fire
4 Prevention Code which govern public lodging and public food
5 service establishments. Further, the division shall enforce
6 the provisions of the Florida Building Code and the Florida
7 Fire Prevention Code which apply to public lodging and public
8 food service establishments in conducting any inspections
9 authorized by this part.

10 (7) PREEMPTION AUTHORITY.--The regulation ~~and~~
11 ~~inspection~~ of public lodging establishments and public food
12 service establishments, the inspection of public lodging
13 establishments and public food service establishments for
14 compliance with the sanitation standards adopted under this
15 section, and the regulation of food safety protection
16 standards for required training and testing of food service
17 establishment personnel are preempted to the state. This
18 subsection does not preempt the authority of a local
19 government or local enforcement district to conduct
20 inspections of public lodging and public food service
21 establishments for compliance with the Florida Building Code
22 and the Florida Fire Prevention Code, pursuant to ss. 553.80
23 and 633.022.

24 Section 48. Effective July 1, 2001, subsection (1) of
25 section 509.221, Florida Statutes, is amended to read:

26 509.221 Sanitary regulations.--

27 (1) Each public lodging establishment and each public
28 food service establishment shall be supplied with potable
29 water and shall provide adequate sanitary facilities for the
30 accommodation of its employees and guests. Such facilities may
31 include, but are not limited to, showers, handwash basins,

1 toilets, and bidets. Such sanitary facilities shall be
2 connected to approved plumbing. Such plumbing shall be sized,
3 installed, and maintained in accordance with the Florida
4 Building Code ~~applicable state and local plumbing codes~~.
5 Wastewater or sewage shall be properly treated onsite or
6 discharged into an approved sewage collection and treatment
7 system.

8 Section 49. Effective July 1, 2001, section 514.021,
9 Florida Statutes, is amended to read:

10 514.021 Department authorization.--

11 (1) The department is authorized to adopt and enforce
12 rules to protect the health, safety, or welfare of persons
13 using public swimming pools and bathing places. The
14 department shall review and revise such rules as necessary,
15 but not less than biannually. Sanitation and safety standards
16 shall include, but not be limited to, matters relating to
17 structure; appurtenances; operation; source of water supply;
18 bacteriological, chemical, and physical quality of water in
19 the pool or bathing area; method of water purification,
20 treatment, and disinfection; lifesaving apparatus; measures to
21 ensure safety of bathers; and measures to ensure the personal
22 cleanliness of bathers.

23 (2) The department may not establish by rule any
24 regulation governing the design, alteration, modification, or
25 repair of public swimming pools and bathing places which has
26 no impact on the health, safety, and welfare of persons using
27 public swimming pools and bathing places. Further, the
28 department may not adopt by rule any regulation governing the
29 construction, erection, or demolition of public swimming pools
30 and bathing places. It is the intent of the Legislature to
31 preempt those functions to the Florida Building Commission

1 through adoption and maintenance of the Florida Building Code.
2 The department shall provide technical assistance to the
3 commission in updating the construction standards of the
4 Florida Building Code which govern public swimming pools and
5 bathing places. Further, the department is authorized to
6 conduct plan reviews, to issue approvals, and to enforce the
7 special-occupancy provisions of the Florida Building Code
8 which apply to public swimming pools and bathing places in
9 conducting any inspections authorized by this chapter. This
10 subsection does not abrogate the authority of the department
11 to adopt and enforce appropriate sanitary regulations and
12 requirements as authorized in subsection (1).

13 Section 50. Effective July 1, 2001, section 514.03,
14 Florida Statutes, is amended to read:

15 514.03 Construction plans approval necessary to
16 construct, develop, or modify public swimming pools or bathing
17 places.--It is unlawful for any person or public body to
18 construct, develop, or modify any public swimming pool or
19 bathing place without a valid construction plans approval from
20 the department. This section does not preempt the authority of
21 local governments or local enforcement districts to conduct
22 plan reviews and inspections of public swimming pools and
23 bathing places for compliance with the general construction
24 standards of the Florida Building Code, pursuant to s. 553.80.

25 (1) Any person or public body desiring to construct,
26 develop, or modify any public swimming pool or bathing place
27 shall file an application for a construction plans approval
28 with the department on application forms provided by the
29 department and shall accompany such application with:
30
31

1 (a) Engineering drawings, specifications,
2 descriptions, and detailed maps of the structure, its
3 appurtenances, and its intended operation.

4 (b) A description of the source or sources of water
5 supply and amount and quality of water available and intended
6 to be used.

7 (c) A description of the method and manner of water
8 purification, treatment, disinfection, and heating.

9 (d) Other applicable information deemed necessary by
10 the department to fulfill the requirements of this chapter.

11 (2) If the proposed construction of, development of,
12 or modification of a public swimming pool or bathing place
13 meets standards of public health and safety as defined in this
14 chapter and rules adopted hereunder, the department shall
15 grant the application for the construction plans approval
16 within 30 days after receipt of a complete submittal. If
17 engineering plans submitted are in substantial compliance with
18 the standards aforementioned, the department may approve the
19 plans with provisions for corrective action to be completed
20 prior to issuance of the operating permit.

21 (3) If the proposed construction, development, or
22 modification of a public swimming pool or bathing place fails
23 to meet standards of public health and safety as defined in
24 this chapter and rules adopted hereunder, the department shall
25 deny the application for construction plans approval pursuant
26 to the provisions of chapter 120. Such denial shall be issued
27 in writing within 30 days and shall list the circumstances for
28 denial. Upon correction of such circumstances, an applicant
29 previously denied permission to construct, develop, or modify
30 a public swimming pool or bathing place may reapply for
31 construction plans approval.

1 (4) An approval of construction plans issued by the
2 department under this section becomes void 1 year after the
3 date the approval was issued if the construction is not
4 commenced within 1 year after the date of issuance.

5 Section 51. Subsection (1) of section 553.06, Florida
6 Statutes, is amended to read:

7 553.06 State Plumbing Code.--

8 (1) The Florida Building Commission shall, in
9 accordance with the provisions of chapter 120 and ss.
10 553.70-553.895, adopt the Standard Plumbing Code, 1994
11 edition, as adopted at the October 1993 annual meeting of the
12 Southern Building Code Congress International, as the State
13 Plumbing Code which shall be the minimum requirements
14 statewide for all installations, repairs, and alterations to
15 plumbing. The commission ~~board~~ may, in accordance with the
16 requirements of chapter 120, adopt all or parts of updated or
17 revised editions of the State Plumbing Code to keep abreast of
18 latest technological advances in plumbing and installation
19 techniques. Local governments which have adopted the South
20 Florida, One and Two Family Dwelling or EPCOT Plumbing Codes
21 may continue their use provided the requirements contained
22 therein meet or exceed the requirements of the State Plumbing
23 Code. Provided, however, nothing in this section shall alter
24 or diminish the authority of the Department of Business and
25 Professional Regulation to conduct plan reviews, issue
26 variances, and adopt rules regarding sanitary facilities in
27 public lodging and public food service establishments pursuant
28 to chapter 509, providing that such actions do not conflict
29 with the requirements for public restrooms in s. 553.141.

30 Section 52. Effective July 1, 2001, section 553.141,
31 Florida Statutes, is amended to read:

1 553.141 Public restrooms; ratio of facilities for men
2 and women; application; incorporation into the Florida
3 Building Code rules.--The Florida Building Commission shall
4 incorporate into the Florida Building Code, to be adopted by

8 and that have restrooms open to the public.

9 ~~(1) A building that is newly constructed after~~
10 ~~September 30, 1992, and that is a publicly owned building or a~~
11 ~~privately owned building that has restrooms open to the public~~

14 ~~for men, unless there are two or fewer fixtures for men.~~

15 ~~(2) As used in this section, the term "newly~~
16 ~~constructed" means new construction, building, alteration,~~
17 ~~rehabilitation, or repair that equals or exceeds 50 percent of~~
18 ~~the replacement value existing on October 1, 1992, unless the~~
19 ~~same was under design or construction, or under construction~~
20 ~~contract before October 1, 1992.~~

21 ~~(3) This section does not apply to establishments~~
22 ~~licensed under chapter 509 if the establishment does not~~
23 ~~provide meeting or banquet rooms which accommodate more than~~
24 ~~150 persons and the establishment has at least the same number~~
25 ~~of water closets for women as the combined total of water~~
26 ~~closets and urinals for men.~~

27 ~~(4) The Board of Building Codes and Standards shall~~
28 ~~adopt rules to administer this section, pursuant to chapter~~
29 ~~120.~~

1 (d) Investigation of consumer complaints of
2 noncompliance of manufactured buildings with the requirements

31 manufactured building, module, or component at all times.

1 Section 59. Effective July 1, 2001, section 553.375,
2 Florida Statutes, is created to read:

3 553.375 Recertification of manufactured
4 buildings.--Prior to the relocation, modification, or change
5 of occupancy of a manufactured building within the state, the
6 manufacturer, dealer, or owner thereof may apply to the
7 department for recertification of that manufactured building.
8 The department shall, by rule, provide what information the
9 applicant must submit for recertification and for plan review
10 and inspection of such manufactured buildings and shall
11 establish fees for recertification. Upon a determination by
12 the department that the manufactured building complies with
13 the applicable building codes, the department shall issue a
14 recertification insignia. A manufactured building that bears
15 recertification insignia does not require any additional
16 approval by an enforcement jurisdiction in which the building
17 is sold or installed, and is considered to comply with all
18 applicable codes. As an alternative to recertification by the
19 department, the manufacturer, dealer, or owner of a
20 manufactured building may seek appropriate permitting and a
21 certificate of occupancy from the local jurisdiction in
22 accordance with procedures generally applicable under the
23 Florida Building Code.

24 Section 60. Effective July 1, 2001, section 553.38,
25 Florida Statutes, is amended to read:

26 553.38 Application and scope.--

27 ~~(1) The department shall promulgate rules which~~
28 ~~protect the health, safety, and property of the people of this~~
29 ~~state by assuring that each manufactured building is~~
30 ~~structurally sound and properly installed on site and that~~
31 ~~plumbing, heating, electrical, and other systems thereof are~~

1 ~~reasonably safe, and which interpret and make specific the~~
2 ~~provisions of this part.~~

3 (2) The department shall enforce every provision of
4 the Florida Building Code ~~this part and the rules~~ adopted
5 pursuant hereto, except that local land use and zoning
6 requirements, fire zones, building setback requirements, side
7 and rear yard requirements, site development requirements,
8 property line requirements, subdivision control, and onsite
9 installation requirements, as well as the review and
10 regulation of architectural and aesthetic requirements, are
11 specifically and entirely reserved to local authorities. Such
12 local requirements and rules which may be enacted by local
13 authorities must be reasonable and uniformly applied and
14 enforced without any distinction as to whether a building is a
15 conventionally constructed or manufactured building. A local
16 government shall require permit fees only for those
17 inspections actually performed by the local government for the
18 installation of a factory-built structure. Such fees shall be
19 equal to the amount charged for similar inspections on
20 conventionally built housing.

21 Section 61. Section 553.381, Florida Statutes, is
22 amended to read:

23 553.381 Manufacturer certification; ~~product liability~~
24 ~~insurance as prerequisite.--~~

25 (1) Before manufacturing buildings to be located
26 within this state or selling manufactured buildings within
27 this state, whichever occurs later, a manufacturer must be
28 certified by the department. The department shall certify a
29 manufacturer upon receipt from the manufacturer and approval
30 and verification by the department of the following:

1 (a) The manufacturer's internal quality-control
2 procedures and manuals, including any amendments;

3 ~~(b) As a prerequisite to obtaining approval to produce~~
4 ~~manufactured buildings for sale in the state, the manufacturer~~
5 ~~must submit~~ Evidence that the manufacturer ~~she or he~~ has
6 product liability insurance for the safety and welfare of the
7 public in amounts determined by rule of the department; ~~and-~~

8 (c) The fee established by the department under s.
9 553.37(7).

10 (2) The department may revoke any certification upon
11 the failure of the manufacturer to comply with the
12 construction standards adopted under this part or other
13 requirements of this part.

14 (3) Certification of manufacturers under this section
15 shall be for a period of 3 years, subject to renewal by the
16 manufacturer. Upon application for renewal, the manufacturer
17 must submit the information described in subsection (1) or a
18 sworn statement that there has been no change in the status or
19 content of that information since the manufacturer's last
20 submittal. Fees for renewal of manufacturers' certification
21 shall be established by the department by rule.

22 Section 62. Effective July 1, 2001, section 553.381,
23 Florida Statutes, as amended by this act, is amended to read:

9 (2) The department may revoke any certification upon
10 the failure of the manufacturer to comply with the Florida
11 Building Code ~~construction standards adopted under this part~~
12 or other requirements of this part.

13 (3) Certification of manufacturers under this section
14 shall be for a period of 3 years, subject to renewal by the
15 manufacturer. Upon application for renewal, the manufacturer
16 must submit the information described in subsection (2) or a
17 sworn statement that there has been no change in the status or
18 content of that information since the manufacturer's last
19 submittal. Fees for renewal of manufacturers' certification
20 shall be established by the commission ~~department~~ by rule.

21 Section 63. Effective July 1, 2001, section 553.39,
22 Florida Statutes, is amended to read:

23 553.39 Injunctive relief.--The department may seek
24 injunctive or other relief from the circuit court of
25 appropriate jurisdiction to compel compliance with the
26 requirements of this part or with the Florida Building Code
27 ~~rules issued pursuant thereto~~ or to enjoin the sale, delivery,
28 or installation of a manufactured building, upon an affidavit
29 specifying the manner in which the building does not conform
30 to the Florida Building Code or other requirements of this
31 part ~~or to rules issued pursuant thereto~~. Noncompliance with

1 the Florida Building Code or this part ~~or the rules~~
2 ~~promulgated under this part~~ shall be considered prima facie
3 evidence of irreparable damage in any cause of action brought
4 under the authority of this part.

5 Section 64. Section 553.41, Florida Statutes, is
6 created to read:

7 553.41 Factory-built school buildings.--

8 (1) It is the purpose of this section to provide an
9 alternative procedure for the construction and installation of
10 factory-built school buildings designed or intended for use as
11 school buildings. As used in this section, the term
12 "factory-built school building" means any building designed or
13 intended for use as a school building, which is in whole or in
14 part, manufactured at an off site facility in compliance with
15 the State Uniform Code for Public Educational Facilities and
16 Department of Education rule, effective on January 5, 2000.
17 After July 1, 2001, the Uniform Code for Public Educational
18 Facilities shall be incorporated into the Florida Building
19 Code, including specific requirements for Public Educational
20 Facilities and the Department of Education rule, effective on
21 January 5, 2000. For the purpose of this section,
22 factory-built school buildings include prefabricated
23 educational facilities, factory-built educational facilities,
24 and modular built educational facilities, that are designed to
25 be portable, relocatable, demountable, or reconstructible; are
26 used primarily as classrooms or the components of an entire
27 school; and do not fall under the provisions of ss.
28 320.822-320.862.

29 (2) A manufacturer of factory-built school buildings
30 shall be subject to the certification and enforcement
31

1 requirements in part IV of chapter 553 except as provided in
 2 this section.

3 (3) Within 90 days after the effective date of this
 4 section, the department shall adopt by emergency rule
 5 regulations to carry out the provisions of this section. Such
 6 rule shall ensure the safety of design, construction,
 7 accessibility, alterations, and inspections and shall also
 8 prescribe procedures for the plans, specifications, and
 9 methods of construction to be submitted to the department for
 10 approval.

11 (4) A manufacturer of factory-built school buildings
 12 designed or intended for use as school buildings shall submit
 13 to the department for approval the manufacturer's plans,
 14 specifications, alterations, and methods of construction. The
 15 department is authorized to charge manufacturers a fee which
 16 reflects the actual expenses incurred for the review of such
 17 plans and specifications.

18 (5) The department, in accordance with the standards
 19 and procedures adopted pursuant to this section and as such
 20 standards and procedures may thereafter be modified, shall
 21 approve or reject such plans, specifications, and methods of
 22 construction. Approval shall not be given unless such plans,
 23 specifications, and methods of construction are in compliance
 24 with the State Uniform Building Code for Public Educational
 25 Facilities and department rule. After July 1, 2001, the
 26 Uniform Code for Public Educational facilities shall be
 27 incorporated into the Florida Building Code, including
 28 specific requirements for public educational facilities and
 29 department rule.

30 (6) The department may delegate its plans review
 31 authority to a state agency or public or private entity;

1 however, the department shall ensure that any person
2 conducting plans reviews is a certified plans examiner,
3 pursuant to part XII of chapter 468.

4 (7) A standard plan approval may be obtained from the
5 department for factory-built school buildings and such
6 department-approved plans shall be accepted by the enforcement
7 agency as approved for the purpose of obtaining a construction
8 permit for the structure itself.

9 (8) Any amendment to the State Uniform Code for Public
10 Educational Facilities, and after July 1, 2001 the Florida
11 Building Code, shall become effective 180 days after the
12 amendment is filed with the Secretary of State.

13 Notwithstanding the 180-day delayed effective date, the
14 manufacturer shall submit and obtain a revised approved plan
15 within the 180 days. A revised plan submitted pursuant to
16 this subsection shall be processed as a renewal or revision
17 with appropriate fees. A plan submitted after the period of
18 time provided shall be processed as a new application with
19 appropriate fees.

20 (9) The school district or community college district
21 for which any factory-built school building is constructed or
22 altered shall provide for periodic inspection of the proposed
23 factory-built school building during each phase of
24 construction or alteration. The inspector shall act under the
25 direction of the governing board for employment purposes.

26 (10) The department shall, by rule, develop forms and
27 reporting periods for the architect or structural engineer in
28 charge of the supervision of the work of construction in the
29 factory, the inspector on the work, and the manufacturer
30 verifying that based upon personal knowledge, the work during
31 the period covered by the report has been performed, and the

1 materials used and installed, in every particular, in
2 accordance with the approved plans and specifications, setting
3 forth such detailed statements of facts as required by the
4 department.

5 (11) The department shall develop a unique
6 identification label to be affixed to all newly constructed
7 factory-built school buildings and existing factory-built
8 school buildings which have been brought into compliance with
9 the standards for existing "satisfactory" buildings pursuant
10 to chapter 5 of the Uniform Code for Public Educational
11 Facilities, and after July 1, 2001 the Florida Building Code.
12 The department may charge a fee for issuing such labels. Such
13 labels, bearing the department's name and state seal, shall at
14 a minimum, contain:

15 (a) The name of the manufacturer.

16 (b) The standard plan approval number or alteration
17 number.

18 (c) The date of manufacture or alteration.

19 (d) The serial or other identification number.

20 (e) The following designed-for loads: lbs. per square
21 foot live load; lbs. per square foot floor live load; lbs. per
22 square foot horizontal wind load; and lbs. per square foot
23 wind uplift load.

24 (f) The designed-for flood zone usage.

25 (g) The designed-for wind zone usage.

26 (h) The designed-for enhanced hurricane protection
27 zone usage: yes or no.

28 (12) Such identification label shall be permanently
29 affixed by the manufacturer in the case of newly constructed
30 factory-built school buildings, or by the department or its
31

1 designee in the case of an existing factory-built building
2 altered to comply with provisions of s. 235.061.

3 (13) As of July 1, 2001, all existing and newly
4 constructed factory-built school buildings shall bear a label
5 pursuant to subsection (12). Existing factory-built school
6 buildings not bearing such label shall not be used as
7 classrooms pursuant to s. 235.061.

8 (14) Nothing in this section shall affect any
9 requirement for compliance with firesafety criteria.

10 Section 65. Section 553.503, Florida Statutes, is
11 amended to read:

12 553.503 Adoption of guidelines.--Subject to the
13 exceptions in s. 553.504, the federal Americans with
14 Disabilities Act Accessibility Guidelines, as adopted by
15 reference in 28 C.F.R., part 36, subparts A and D, and Title
16 II of Pub. L. No. 101-336, are hereby adopted and incorporated
17 by reference as the law of this state. The guidelines shall
18 establish the minimum standards for the accessibility of
19 buildings and facilities built or altered within this state.
20 The 1997 Florida Accessibility Code for Building Construction
21 must be adopted by the Florida Building Commission ~~Board of~~
22 ~~Building Codes and Standards~~ in accordance with chapter 120.

23 Section 66. Section 553.5041, Florida Statutes, is
24 created to read:

25 553.5041 Parking spaces for persons who have
26 disabilities.--

27 (1) This section is not intended to expand or diminish
28 the defenses available to a place of public accommodation
29 under the Americans with Disabilities Act and the federal
30 Americans with Disabilities Act Accessibility Guidelines,
31 including, but not limited to, the readily achievable

1 standard, and the standards applicable to alterations to
 2 places of public accommodation. Subject to the exceptions
 3 described in subsections (2), (4), (5), and (6), when the
 4 parking and loading zone requirements of the federal Americans
 5 with Disabilities Act Accessibility Guidelines (ADAAG), as
 6 adopted by reference in 28 C.F.R. part 36, subparts A and D,
 7 and Title II of Pub.L.No. 101-336, provide increased
 8 accessibility, those requirements are adopted and incorporated
 9 by reference as the law of this state.

10 (2) State agencies and political subdivisions having
 11 jurisdiction over street parking or publicly owned or operated
 12 parking facilities are not required to provide a greater
 13 right-of-way width than would otherwise be planned under
 14 regulations, guidelines, or practices normally applied to new
 15 development.

16 (3) If parking spaces are provided for self-parking by
 17 employees or visitors, or both, accessible spaces shall be
 18 provided in each such parking area. Such spaces shall be
 19 designed and marked for the exclusive use of those individuals
 20 who have a severe physical disability and have permanent or
 21 temporary mobility problems that substantially impair their
 22 ability to ambulate and who have been issued either a disabled
 23 parking permit under s. 316.1958 or s. 320.0848 or a license
 24 plate under s. 320.084, s. 320.0842, s. 320.0843, or s.
 25 320.0845.

26 (4) The number of accessible parking spaces must
 27 comply with the parking requirements in ADAAG s. 4.1 and the
 28 following:

29 (a) There must be one accessible parking space in the
 30 immediate vicinity of a publicly owned or leased building that
 31 houses a governmental entity or a political subdivision,

1 including, but not limited to, state office buildings and
2 courthouses, if no parking for the public is provided on the
3 premises of the building.

4 (b) There must be one accessible parking space for
5 each 150 metered onstreet parking spaces provided by state
6 agencies and political subdivisions.

7 (c) The number of parking spaces for persons who have
8 disabilities must be increased on the basis of demonstrated
9 and documented need.

10 (5) Accessible perpendicular and diagonal accessible
11 parking spaces and loading zones must be designed and located
12 in conformance with the guidelines set forth in ADAAG ss.
13 4.1.2 and 4.6 and Appendix s. A4.6.3 "Universal Parking
14 Design."

15 (a) All spaces must be located on an accessible route
16 no less than 44 inches wide so that users will not be
17 compelled to walk or wheel behind parked vehicles.

18 (b) Each space must be located on the shortest safely
19 accessible route from the parking space to an accessible
20 entrance. If there are multiple entrances or multiple retail
21 stores, the parking spaces must be dispersed to provide
22 parking at the nearest accessible entrance. If a theme park or
23 an entertainment complex as defined in s. 509.013(9) provides
24 parking in several lots or areas from which access to the
25 theme park or entertainment complex is provided, a single lot
26 or area may be designated for parking by persons who have
27 disabilities, if the lot or area is located on the shortest
28 safely accessible route to an accessible entrance to the theme
29 park or entertainment complex or to transportation to such an
30 accessible entrance.

31

1 (c)1. Each parking space must be no less than 12 feet
2 wide. Parking access aisles must be no less than 5 feet wide
3 and must be part of an accessible route to the building or
4 facility entrance. In accordance with ADAAG s. 4.6.3, access
5 aisles must be placed adjacent to accessible parking spaces;
6 however, two accessible parking spaces may share a common
7 access aisle. The access aisle must be striped diagonally to
8 designate it as a no-parking zone.

9 2. The parking access aisles are reserved for the
10 temporary exclusive use of persons who have disabled parking
11 permits and who require extra space to deploy a mobility
12 device, lift, or ramp in order to exit from or enter a
13 vehicle. Parking is not allowed in an access aisle. Violators
14 are subject to the same penalties that are imposed for
15 illegally parking in parking spaces that are designated for
16 persons who have disabilities. A vehicle may not be parked in
17 an access aisle, even if the vehicle owner or passenger is
18 disabled or owns a disabled parking permit.

19 3. Any provision of this subsection to the contrary
20 notwithstanding, a theme park or an entertainment complex as
21 defined in s. 509.013(9) in which are provided continuous
22 attendant services for directing individuals to marked
23 accessible parking spaces or designated lots for parking by
24 persons who have disabilities, may, in lieu of the required
25 parking space design, provide parking spaces that comply with
26 ss. 4.1 and 4.6 of the Americans with Disabilities Act
27 Accessibility Guidelines.

28 (d) On-street parallel parking spaces must be located
29 either at the beginning or end of a block or adjacent to alley
30 entrances. Such spaces must be designed in conformance with
31 the guidelines set forth in ADAAG ss. 4.6.2 through 4.6.5,

1 exception: access aisles are not required. Curbs adjacent to
2 such spaces must be of a height that will not interfere with
3 the opening and closing of motor vehicle doors. This
4 subsection does not relieve the owner of the responsibility to
5 comply with the parking requirements of ADAAG ss. 4.1 and 4.6.

6 (e) Parallel parking spaces must be even with surface
7 slopes, may match the grade of the adjacent travel lane, and
8 must not exceed a cross slope of 1 to 50, where feasible.

9 (f) Curb ramps must be located outside of the disabled
10 parking spaces and access aisles.

11 (g)1. The removal of architectural barriers from a
12 parking facility in accordance with 28 C.F.R. s. 36.304 or
13 with s. 553.508 must comply with this section unless
14 compliance would cause the barrier removal not to be readily
15 achievable. If compliance would cause the barrier removal not
16 to be readily achievable, a facility may provide parking
17 spaces at alternative locations for persons who have
18 disabilities and provide appropriate signage directing persons
19 who have disabilities to the alternative parking if readily
20 achievable. The facility may not reduce the required number or
21 dimensions of those spaces, nor may it unreasonably increase
22 the length of the accessible route from a parking space to the
23 facility. The removal of an architectural barrier must not
24 create a significant risk to the health or safety of a person
25 who has a disability or to that of others.

26 2. A facility that is making alterations under s.
27 553.507(2)(b) must comply with this section to the maximum
28 extent feasible. If compliance with parking location
29 requirements is not feasible, the facility may provide parking
30 spaces at alternative locations for persons who have
31 disabilities and provide appropriate signage directing persons

1 who have a disability to alternative parking. The facility may
 2 not reduce the required number or dimensions of those spaces,
 3 nor may it unnecessarily increase the length of the accessible
 4 route from a parking space to the facility. The alteration
 5 must not create a significant risk to the health or safety of
 6 a person who has a disability or to that of others.

7 (6) Each such parking space must be prominently
 8 outlined with blue paint, and must be repainted when
 9 necessary, to be clearly distinguishable as a parking space
 10 designated for persons who have disabilities and must be
 11 posted with a permanent above-grade sign of a color and design
 12 approved by the Department of Transportation, which is placed
 13 on or at a distance of 84 inches above the ground to the
 14 bottom of the sign and which bears the international symbol of
 15 accessibility meeting the requirements of ADAAG s. 4.30.7 and
 16 the caption "PARKING BY DISABLED PERMIT ONLY." Such a sign
 17 erected after October 1, 1996, must indicate the penalty for
 18 illegal use of the space. Any provision of this section to the
 19 contrary notwithstanding, in a theme park or an entertainment
 20 complex as defined in s. 509.013(9) in which accessible
 21 parking is located in designated lots or areas, the signage
 22 indicating the lot as reserved for accessible parking may be
 23 located at the entrances to the lot in lieu of a sign at each
 24 parking place. This subsection does not relieve the owner of
 25 the responsibility of complying with the signage requirements
 26 of ADAAG s. 4.30.

27 Section 67. Section 553.506, Florida Statutes, is
 28 amended to read:

29 553.506 Powers of the commission board.--In addition
 30 to any other authority vested in the Florida Building
 31 Commission board by law, the commission Board of Building

1 ~~Codes and Standards~~, in implementing ss. 553.501-553.513, may,
2 by rule, adopt revised and updated versions of the Americans
3 with Disabilities Act Accessibility Guidelines in accordance
4 with chapter 120.

5 Section 68. Section 553.512, Florida Statutes, is
6 amended to read:

7 553.512 Modifications and waivers; advisory council.--

8 (1) The Florida Building Commission ~~Board of Building~~
9 ~~Codes and Standards~~ shall provide by regulation criteria for
10 granting individual modifications of, or exceptions from, the
11 literal requirements of this part upon a determination of
12 unnecessary, unreasonable, or extreme hardship, provided such
13 waivers shall not violate federal accessibility laws and
14 regulations and shall be reviewed by the ~~Handicapped~~
15 Accessibility Advisory Council. The commission may not
16 consider waiving any of the requirements of s. 553.5041 unless
17 the applicant first demonstrates that she or he has applied
18 for and been denied waiver or variance from all local
19 government zoning, subdivision regulations, or other
20 ordinances that prevent compliance therewith. Further, the
21 commission may not waive the requirement of s. 553.5041(5)(a)
22 and (c)1. governing the minimum width of accessible routes and
23 minimum width of accessible parking spaces.

24 (2) The Accessibility Advisory Council shall consist
25 consisting of the following seven members, who shall be
26 knowledgeable in the area of ~~handicapped~~ accessibility for
27 persons with disabilities. The Secretary of Community Affairs
28 shall appoint the following: a representative from the
29 Advocacy Center for Persons with Disabilities, Inc.; a
30 representative from the Division of Blind Services; a
31 representative from the Division of Vocational Rehabilitation;

1 a representative from a statewide organization representing
 2 the physically handicapped; a representative from the hearing
 3 impaired; a representative from the President, Florida Council
 4 of Handicapped Organizations; and a representative of the
 5 Paralyzed Veterans of America. The terms for the first three
 6 council members appointed subsequent to October 1, 1991, shall
 7 be for 4 years, the terms for the next two council members
 8 appointed shall be for 3 years, and the terms for the next two
 9 members shall be for 2 years. Thereafter, all council member
 10 appointments shall be for terms of 4 years. No council member
 11 shall serve more than two 4-year terms subsequent to October
 12 1, 1991. Any member of the council may be replaced by the
 13 secretary upon three unexcused absences. Upon application
 14 made in the form provided, an individual waiver or
 15 modification may be granted by the commission ~~board~~ so long as
 16 such modification or waiver is not in conflict with more
 17 stringent standards provided in another chapter.

18 ~~(3)(2)~~ Members of the council shall serve without
 19 compensation, but shall be entitled to reimbursement for per
 20 diem and travel expenses as provided by s. 112.061.

21 ~~(4)(3)~~ Meetings of the advisory council shall be held
 22 in conjunction with the regular meetings of the commission.

8 enforcement of such laws and rules, except as otherwise
9 provided in this section.~~By October 1, 1984, local~~
10 ~~governments and state agencies with building construction~~
11 ~~regulation responsibilities shall adopt a building code which~~
12 ~~shall cover all types of construction. Such code shall~~
13 ~~include the provisions of parts I-V, VII, and VIII, relating~~
14 ~~to plumbing, electrical requirements, glass, manufactured~~
15 ~~buildings, accessibility by handicapped persons, and thermal~~
16 ~~efficiency, and shall be in addition to the requirements set~~
17 ~~forth in chapter 527, which pertains to liquefied petroleum~~
18 ~~gas.~~
19 (b) The technical portions of the Florida
20 Accessibility Code for Building Construction shall be
21 contained in its entirety in the Florida Building Code. The
22 civil rights portions and the technical portions of the
23 accessibility laws of this state shall remain as currently
24 provided by law. Any revision or amendments to the Florida
25 Accessibility Code for Building Construction pursuant to part
26 V shall be considered adopted by the commission as part of the
27 Florida Building Code. Neither the commission nor any local
28 government shall revise or amend any standard of the Florida
29 Accessibility Code for Building Construction except as
30 provided for in part V.
31

1 (c) The Florida Fire Prevention Code and the Life
 2 Safety Code shall be referenced in the Florida Building Code,
 3 but shall be adopted, modified, revised, or amended,
 4 interpreted, and maintained by the Department of Insurance by
 5 rule adopted pursuant to ss. 120.536(1) and 120.54. Nothing in
 6 the Florida Building Code shall affect the statutory powers,
 7 duties, and responsibilities of any fire official or the
 8 Department of Insurance.

9 (d) Conflicting requirements between the Florida
 10 Building Code and the Florida Fire Prevention Code and Life
 11 Safety Code of the state established pursuant to s. 633.022
 12 and s. 633.025 shall be resolved by agreement between the
 13 commission and the State Fire Marshal in favor of the
 14 requirement that offers the greatest degree of life safety or
 15 alternatives that would provide an equivalent degree of life
 16 safety and an equivalent method of construction. If the
 17 commission and State Fire Marshal are unable to agree on a
 18 resolution, the question shall be referred to a mediator,
 19 mutually agreeable to both parties, to resolve the conflict in
 20 favor of the provision that offers the greatest life safety,
 21 or alternatives that would provide an equivalent degree of
 22 life safety and an equivalent method of construction.

23 (e)(b) Subject to the provisions of this act, in the
 24 event that a special act of the Legislature, passed prior or
 25 subsequent to January 1, 1978, places responsibility for
 26 enforcement, interpretation, and building construction
 27 regulation of the Florida Building Code shall be vested in a
 28 specified local board or agency, and the words "local
 29 government" and "local governing body" as used in this part
 30 shall be construed to refer exclusively to such local board or
 31 agency.

1 (2) The Florida Building Code shall contain provisions
2 or requirements for public and private buildings, structures,
3 and facilities relative to structural, mechanical, electrical,
4 plumbing, energy, and gas systems, existing buildings,
5 historical buildings, manufactured buildings, elevators,
6 coastal construction, lodging facilities, food sales and food
7 service facilities, health care facilities, public or private
8 educational facilities, swimming pools, and correctional
9 facilities and enforcement of and compliance with such
10 provisions or requirements.~~There is created the State Minimum~~
11 ~~Building Codes which shall consist of the following nationally~~
12 ~~recognized model codes:~~
13 ~~(a) Standard Building Codes, 1988 edition, pertaining~~
14 ~~to building, plumbing, mechanical, and gas, and excluding fire~~
15 ~~prevention;~~
16 ~~(b) EPCOT Code, 1982 edition;~~
17 ~~(c) One and Two Family Dwelling Code, 1986 edition;~~
18 ~~and~~
19 ~~(d) The South Florida Building Code, 1988 edition.~~
20
21 ~~Each local government and state agency with building~~
22 ~~construction regulation responsibilities shall adopt one of~~
23 ~~the State Minimum Building Codes as its building code, which~~
24 ~~shall govern the construction, erection, alteration, repair,~~
25 ~~or demolition of any building for which the local government~~
26 ~~or state agency has building construction regulation~~
27 ~~responsibility. If the One and Two Family Dwelling Code is~~
28 ~~adopted for residential construction, then one of the other~~
29 ~~recognized model codes must be adopted for the regulation of~~
30 ~~other residential and nonresidential structures. Provisions to~~
31 ~~be contained within the Florida any State Minimum Building~~

1 Code are restricted to requirements related to the types of
2 materials used and construction methods and standards employed
3 in order to meet criteria specified in the Florida Building
4 Code ~~minimum building codes~~. Provisions relating to the
5 personnel, supervision or training of personnel, or any other
6 professional qualification requirements relating to
7 contractors or their workforce may not be included within the
8 Florida a State Minimum Building Code, and subsection (4) is
9 not to be construed to allow the inclusion of such provisions
10 within the Florida any State Minimum Building Code by
11 amendment. This restriction applies to both initial
12 development and amendment of the Florida Building Code.

13 (3) The commission shall select from available
14 national or international model building codes, or other
15 available building codes and standards currently recognized by
16 the laws of this state, to form the foundation for the Florida
17 Building Code. The commission may modify the selected model
18 codes and standards as needed to accommodate the specific
19 needs of this state. Standards or criteria referenced by the
20 selected model codes shall be similarly incorporated by
21 reference. If a referenced standard or criterion requires
22 amplification or modification to be appropriate for use in
23 this state, only the amplification or modification shall be
24 specifically set forth in the Florida Building Code. The
25 commission shall incorporate within sections of the Florida
26 Building Code provisions which address regional and local
27 concerns and variations. The commission shall make every
28 effort to minimize conflicts between the Florida Building
29 Code, the Florida Fire Prevention Code, and the Life Safety
30 Code. ~~The commission may, by rule adopted in accordance with~~
31 ~~the requirements of ss. 120.536(1) and 120.54, designate all~~

1 ~~or a part of an updated or revised version of a model code~~
 2 ~~listed in subsection (2) as a State Minimum Building Code.~~

3 (4)(a) Local governments shall comply with applicable
 4 standards for issuance of mandatory certificates of occupancy,
 5 minimum types of inspections, and procedures for plans review
 6 and inspections as established by the board by rule. Any
 7 amendments to standards established by the Florida Building
 8 Code pursuant to this paragraph shall be more stringent than
 9 such standards and shall be transmitted to the commission
 10 within 30 days after enactment. The local government shall
 11 make such amendments available to the general public in a
 12 usable format. The Department of Insurance is responsible for
 13 establishing the standards and procedures required in this
 14 paragraph for governmental entities with respect to applying
 15 the Florida Fire Prevention and the Life Safety Code.

16 (b) ~~Local governments and state agencies with building~~
 17 ~~construction regulation responsibilities~~ may, subject to the
 18 limitations of this section, adopt amendments to the technical
 19 provisions of the Florida Building Code which apply solely
 20 within the jurisdiction of such government and which provide
 21 for more stringent requirements than those specified in the
 22 Florida State Minimum Building Code, not more than once every
 23 6 months, Codes provided:

24 1.(a) The local governing body determines, following a
 25 public hearing which has been advertised in a newspaper of
 26 general circulation at least 10 days before the hearing, that
 27 there is a need to strengthen the requirements of the Florida
 28 State Minimum Building Code ~~Codes~~ adopted by such governing
 29 body. The determination must be based upon a review of local
 30 conditions by the local governing body, which review
 31 demonstrates that local conditions justify more stringent

1 requirements than those specified in the Florida State Minimum
2 Building Code Codes for the protection of life and property.

3 2.(b) Such additional requirements are not
4 discriminatory against materials, products, or construction
5 techniques of demonstrated capabilities.

6 3.(c) Such additional requirements may not introduce a
7 new subject not addressed in the Florida State Minimum
8 Building Code Codes.

9 4. The enforcing agency shall make readily available,
10 in a usable format, all amendments adopted pursuant to this
11 section.

12 5. Any amendment to the Florida Building Code shall be
13 transmitted within 30 days by the adopting local government to
14 the commission. The commission shall maintain copies of all
15 such amendments in a format that is usable and obtainable by
16 the public.

17 6. Any amendment to the Florida Building Code adopted
18 by a local government pursuant to this paragraph shall be
19 effective only until the adoption by the commission of the new
20 edition of the Florida Building Code every third year. At
21 such time, the commission shall adopt such amendment as part
22 of the Florida Building Code or rescind the amendment. The
23 commission shall immediately notify the respective local
24 government of the rescission of any amendment. After receiving
25 such notice, the respective local government may readopt the
26 rescinded amendment pursuant to the provisions of this
27 paragraph.

28 7. Each county and municipality desiring to make local
29 technical amendments to the Florida Building Code shall by
30 interlocal agreement establish a countywide compliance review
31 board to review any amendment to the Florida Building Code,

1 adopted by a local government within the county pursuant to
 2 this paragraph, that is challenged by any substantially
 3 affected party for purposes of determining the amendment's
 4 compliance with this paragraph. If the compliance review
 5 board determines such amendment is not in compliance with this
 6 paragraph, the compliance review board shall notify such local
 7 government of the noncompliance and that the amendment is
 8 invalid and unenforceable until the local government corrects
 9 the amendment to bring it into compliance. The local
 10 government may appeal the decision of the compliance review
 11 board to the commission. If the compliance review board
 12 determines such amendment to be in compliance with this
 13 paragraph, any substantially affected party may appeal such
 14 determination to the commission. Actions of the commission are
 15 subject to judicial review pursuant to s. 120.68. The
 16 compliance review board shall determine whether its decisions
 17 apply to a respective local jurisdiction or apply countywide.

18 8. An amendment adopted under this paragraph shall
 19 include a fiscal impact statement which documents the costs
 20 and benefits of the proposed amendment. Criteria for the
 21 fiscal impact statement shall include the impact to local
 22 government relative to enforcement, the impact to property and
 23 building owners, as well as to industry, relative to the cost
 24 of compliance. The fiscal impact statement may not be used as
 25 a basis for challenging the amendment for compliance.

26 9. In addition to subparagraphs 7. and 8., the
 27 commission may review any amendments adopted pursuant to this
 28 subsection and make nonbinding recommendations related to
 29 compliance of such amendments with this subsection.

30 (c) Any amendment adopted by a local enforcing agency
 31 pursuant to this subsection shall not apply to state or school

1 district owned buildings, manufactured buildings approved by
 2 the commission, or prototype buildings approved pursuant to s.
 3 553.77(6). The respective responsible entities shall consider
 4 the physical performance parameters substantiating such
 5 amendments when designing, specifying, and constructing such
 6 exempt buildings.

7 ~~(d) Paragraphs (a), (b), and (c) apply to the~~
 8 ~~enforcing agency's adoption of more stringent requirements~~
 9 ~~than those specified in the State Minimum Building Codes and~~
 10 ~~to the adoption of building construction-related codes that~~
 11 ~~have the effect of amending building construction standards~~
 12 ~~contained in the State Minimum Building Codes. Upon request,~~
 13 ~~the enforcing agency shall provide a person making application~~
 14 ~~for a building permit, or any state agency or board with~~
 15 ~~construction-related regulation responsibilities, a listing of~~
 16 ~~all such requirements and codes.~~

17 (5) The commission, by rule adopted pursuant to ss.
 18 120.536(1) and 120.54, shall update the Florida Building Code
 19 every 3 years. Once initially adopted and subsequently
 20 updated by the board, the Florida Building Code shall be
 21 deemed adopted for use statewide without adoptions by local
 22 government. When updating the Florida Building Code, the
 23 commission shall consider changes made by the adopting entity
 24 of any selected model code for any model code incorporated
 25 into the Florida Building Code by the commission, the
 26 commission's own interpretations, declaratory statements,
 27 appellate decisions, and approved statewide and local
 28 technical amendments.

29 ~~(6)(5)~~ It shall be the responsibility of each
 30 municipality and county in the state and of each state agency
 31 with statutory authority to regulate building construction to

1 enforce the provisions of the Florida ~~specific model code of~~
2 ~~the State Minimum Building Code Codes~~ adopted by that
3 municipality, county, or agency, in accordance with the
4 provisions of s. 553.80. If such responsibility has been
5 delegated to another unit of government pursuant to s.
6 553.79(9), the ~~specific model code~~ adopted by the delegate
7 shall apply and be enforced.

8 (7)(a)(6) The commission may approve technical
9 amendments to the Florida Building Code once each year for
10 statewide application upon a finding that delaying the
11 application of the amendment would be contrary to the health,
12 safety, and welfare of the public or the amendment provides an
13 economic advantage to the consumer and that the amendment:

14 1. Has a reasonable and substantial connection with
15 the health, safety, and welfare of the general public.

16 2. Strengthens or improves the Florida Building Code,
17 or in the case of innovation or new technology, will provide
18 equivalent or better products or methods or systems of
19 construction.

20 3. Does not discriminate against materials, products,
21 methods, or systems of construction of demonstrated
22 capabilities.

23 4. Does not degrade the effectiveness of the Florida
24 Building Code.

25
26 Amendments approved under this paragraph shall be adopted by
27 rule pursuant to ss. 120.536(1) and 120.54.

28 (b) A proposed amendment shall include a fiscal impact
29 statement which documents the costs and benefits of the
30 proposed amendment. Criteria for the fiscal impact statement
31 shall be established by rule by the commission and shall

1 include the impact to local government relative to
 2 enforcement, the impact to property and building owners, as
 3 well as to industry, relative to the cost of compliance.~~The~~
 4 ~~specific model code of the State Minimum Building Codes~~
 5 ~~adopted by a municipality, county, or state agency shall~~
 6 ~~regulate every type of building or structure, wherever it~~
 7 ~~might be situated in the code enforcement jurisdiction;~~
 8 ~~however, such regulations shall not apply to nonresidential~~
 9 ~~farm buildings on farms; to temporary buildings or sheds used~~
 10 ~~exclusively for construction purposes; to mobile homes used as~~
 11 ~~temporary offices, except that the provisions of part V~~
 12 ~~relating to accessibility by handicapped persons shall apply~~
 13 ~~to such mobile homes used as temporary offices; or to any~~
 14 ~~construction exempted under s. 553.80(3) by an enforcement~~
 15 ~~district or local enforcement agency. The codes may be divided~~
 16 ~~into a number of segments, as determined by the municipality,~~
 17 ~~county, or state agency. These segments may be identified as~~
 18 ~~building, mechanical, electrical, plumbing, or fire prevention~~
 19 ~~codes or by other titles as are deemed proper. However, the~~
 20 ~~State Minimum Building Codes shall not contain a housing code;~~
 21 ~~nor shall the state interpose in the area of local housing~~
 22 ~~codes, except upon request originating from an enforcement~~
 23 ~~district or local enforcement agency.~~

24 (8) The following buildings, structures, and
 25 facilities may be exempted from the Florida Building Code as
 26 provided by law and any further exemptions shall be as
 27 determined by the Legislature and provided by law:

28 (a) Buildings and structures specifically regulated
 29 and preempted by the Federal Government.

30 (b) Railroads and ancillary facilities associated with
 31 the railroad.

1 (c) Nonresidential farm buildings on farms.

2 (d) Temporary buildings or sheds used exclusively for
3 construction purposes.

4 (e) Mobile homes used as temporary offices, except
5 that the provisions of part V relating to accessibility by
6 persons with disabilities shall apply to such mobile homes.

7 (9)(7)(a) In the event of a conflict between the
8 Florida ~~applicable minimum~~ Building Code and the Florida Fire
9 Prevention Code and the Life Safety ~~applicable minimum~~
10 firesafety Code, the conflict it shall be resolved by
11 agreement between the local building code enforcement official
12 and the local fire code enforcement official in favor of the
13 requirement of the code which offers the greatest degree of
14 lifesafety or alternatives which would provide an equivalent
15 degree of lifesafety and an equivalent method of construction.

16 (b) Any decision made by the local fire official and
17 the local building official may be appealed to a local
18 administrative board designated by the municipality, county,
19 or special district having firesafety responsibilities. If the
20 decision of the local fire official and the local building
21 official is to apply the provisions of either the Florida
22 ~~applicable minimum~~ Building Code or the Florida Fire
23 Prevention Code and the Life Safety ~~applicable minimum~~
24 firesafety Code, the board may not alter the decision unless
25 the board determines that the application of such code is not
26 reasonable. If the decision of the local fire official and
27 the local building official is to adopt an alternative to the
28 codes, the local administrative board shall give due regard to
29 the decision rendered by the local officials and may modify
30 that decision if the administrative board adopts a better
31 alternative, taking into consideration all relevant

1 circumstances. In any case in which the local administrative
 2 board adopts alternatives to the decision rendered by the
 3 local fire official and the local building official, such
 4 alternatives shall provide an equivalent degree of lifesafety
 5 and an equivalent method of construction as the decision
 6 rendered by the local officials.

7 (c) ~~If in the event that~~ the local building official
 8 and the local fire official are unable to agree on a
 9 resolution of the conflict between the Florida Building Code
 10 and the Florida Fire Prevention Code and the Life Safety Code,
 11 the local administrative board shall resolve the conflict in
 12 favor of the code which offers the greatest degree of
 13 lifesafety or alternatives which would provide an equivalent
 14 degree of lifesafety and an equivalent method of construction.

15 (d) The local administrative board shall, to the
 16 greatest extent possible, be composed of members with
 17 expertise in building construction and firesafety standards.

18 (e) All decisions of the local building official and
 19 local fire official and all decisions of the administrative
 20 board shall be in writing and shall be binding upon all
 21 persons but shall not limit the authority of the State Fire
 22 Marshal or the Florida Building Commission pursuant to
 23 paragraph(1)(d) and ss. 663.01, and s-633.161. Decisions of
 24 general application shall be indexed by building and fire code
 25 sections and shall be available for inspection during normal
 26 business hours.

27 ~~(10)(8)~~ Except within coastal building zones as
 28 defined in s. 161.54, specification standards developed by
 29 nationally recognized code promulgation organizations to
 30 determine compliance with ~~s. 1606~~ and the engineering design
 31 criteria of ~~s. 1606~~ of the Florida Standard Building Code for

1 wind load design shall not apply to one or two family
2 dwellings which are two stories or less in height unless
3 approved by the board ~~of Building Codes and Standards~~ for use
4 or unless expressly made subject to said standards and
5 criteria by local ordinance adopted in accordance with the
6 provisions of subsection (4).

7 (11) The Florida Building Code does not apply to, and
8 no code enforcement action shall be brought with respect to,
9 zoning requirements, land use requirements, and owner
10 specifications or programmatic requirements which do not
11 pertain to and govern the design, construction, erection,
12 alteration, modification, repair, or demolition of public or
13 private buildings, structures, or facilities or to
14 programmatic requirements that do not pertain to enforcement
15 of the Florida Building Code. Additionally, a local code
16 enforcement agency may not administer or enforce the Florida
17 Building Code to prevent the siting of any publicly owned
18 facility, including, but not limited to, correctional
19 facilities, juvenile justice facilities, or state
20 universities, community colleges, or public education
21 facilities, as provided by law.

22 (12) In addition to the requirements of ss. 553.79 and
23 553.80, facilities subject to the provisions of chapter 395
24 and part II of chapter 400 shall have facility plans reviewed
25 and construction surveyed by the state agency authorized to do
26 so under the requirements of chapter 395 and part II of
27 chapter 400 and the certification requirements of the Federal
28 Government.

29 Section 74. Section 61 of chapter 98-419, Laws of
30 Florida, is amended to read:

1 Section 61. Effective ~~July~~ January 1, 2001, paragraph
2 (f) is added to subsection (8) of section 553.73, Florida

4 Session, to read:

5 553.73 Florida Building Code.--

6 (8) The following buildings, structures, and
7 facilities may be exempted from the Florida Building Code as
8 provided by law and any further exemptions shall be as
9 determined by the Legislature and provided by law:

10 (f) Those structures or facilities of electric
11 utilities, as defined in s. 366.02, which are directly
12 involved in the generation, transmission, or distribution of
13 electricity.

14 Section 75. Effective July 1, 2001, paragraph (c) of
15 subsection (1) and subsections (2), (4), (5), (6), (7), (8),
16 (9), (10), (11), and (12) of section 553.73, Florida Statutes,
17 as amended by section 40 of chapter 98-287, Laws of Florida,
18 as amended by section 61 of chapter 98-419, Laws of Florida,
19 are amended to read:

20 553.73 Florida Building Code.--

21 (1)

22 (c) The Florida Fire Prevention Code and the Life
23 Safety Code shall be referenced in the Florida Building Code,
24 but shall be adopted, modified, revised, or amended,
25 interpreted, and maintained by the Department of Insurance by
26 rule adopted pursuant to ss. 120.536(1) and 120.54. The
27 Florida Building Commission may not adopt a fire prevention or
28 life safety code and nothing in the Florida Building Code
29 shall affect the statutory powers, duties, and
30 responsibilities of any fire official or the Department of
31 Insurance.

1 (2) The Florida Building Code shall contain provisions
 2 or requirements for public and private buildings, structures,
 3 and facilities relative to structural, mechanical, electrical,
 4 plumbing, energy, and gas systems, existing buildings,
 5 historical buildings, manufactured buildings, elevators,
 6 coastal construction, lodging facilities, food sales and food
 7 service facilities, health care facilities, including assisted
 8 living facilities, adult day care facilities, and facilities
 9 for the control of radiation hazards, public or private
 10 educational facilities, swimming pools, and correctional
 11 facilities and enforcement of and compliance with such
 12 provisions or requirements. Technical provisions to be
 13 contained within the Florida Building Code are restricted to
 14 requirements related to the types of materials used and
 15 construction methods and standards employed in order to meet
 16 criteria specified in the Florida Building Code. Provisions
 17 relating to the personnel, supervision or training of
 18 personnel, or any other professional qualification
 19 requirements relating to contractors or their workforce may
 20 not be included within the Florida Building Code, and
 21 subsections (4), (5), and (6) are ~~subsection (4) is~~ not to be
 22 construed to allow the inclusion of such provisions within the
 23 Florida Building Code by amendment. This restriction applies
 24 to both initial development and amendment of the Florida
 25 Building Code.

26 (4)(a) All entities authorized to enforce the Florida
 27 Building Code pursuant to s. 553.80 ~~Local governments~~ shall
 28 comply with applicable standards for issuance of mandatory
 29 certificates of occupancy, minimum types of inspections, and
 30 procedures for plans review and inspections as established by
 31 the commission board ~~board~~ by rule. Local governments may adopt ~~Any~~

1 amendments to the administrative provisions of standards
2 ~~established by~~ the Florida Building Code, subject pursuant to
3 the limitations of this paragraph. Local amendments shall be
4 more stringent than the minimum such standards described
5 herein and shall be transmitted to the commission within 30
6 days after enactment. The local government shall make such
7 amendments available to the general public in a usable format.
8 The State Fire Marshal ~~The Department of Insurance~~ is
9 responsible for establishing the standards and procedures
10 required in this paragraph for governmental entities with
11 respect to applying the Florida Fire Prevention Code and the
12 Life Safety Code.

13 (b) Local governments may, subject to the limitations
14 of this section, adopt amendments to the technical provisions
15 of the Florida Building Code which apply solely within the
16 jurisdiction of such government and which provide for more
17 stringent requirements than those specified in the Florida
18 Building Code, not more than once every 6 months, provided:

19 1. The local governing body determines, following a
20 public hearing which has been advertised in a newspaper of
21 general circulation at least 10 days before the hearing, that
22 there is a need to strengthen the requirements of the Florida
23 Building Code. The determination must be based upon a review
24 of local conditions by the local governing body, which review
25 demonstrates that local conditions justify more stringent
26 requirements than those specified in the Florida Building Code
27 for the protection of life and property.

28 2. Such additional requirements are not discriminatory
29 against materials, products, or construction techniques of
30 demonstrated capabilities.

31

1 3. Such additional requirements may not introduce a
2 new subject not addressed in the Florida Building Code.

3 4. The enforcing agency shall make readily available,
4 in a usable format, all amendments adopted pursuant to this
5 section.

6 5. Any amendment to the Florida Building Code shall be
7 transmitted within 30 days by the adopting local government to
8 the commission. The commission shall maintain copies of all
9 such amendments in a format that is usable and obtainable by
10 the public.

11 6. Any amendment to the Florida Building Code adopted
12 by a local government pursuant to this paragraph shall be
13 effective only until the adoption by the commission of the new
14 edition of the Florida Building Code every third year. At
15 such time, the commission shall review such amendment for
16 consistency with the criteria in paragraph (6)(a) and adopt
17 such amendment as part of the Florida Building Code or rescind
18 the amendment. The commission shall immediately notify the
19 respective local government of the rescission of any
20 amendment. After receiving such notice, the respective local
21 government may readopt the rescinded amendment pursuant to the
22 provisions of this paragraph.

23 7. Each county and municipality desiring to make local
24 technical amendments to the Florida Building Code shall by
25 interlocal agreement establish a countywide compliance review
26 board to review any amendment to the Florida Building Code,
27 adopted by a local government within the county pursuant to
28 this paragraph, that is challenged by any substantially
29 affected party for purposes of determining the amendment's
30 compliance with this paragraph. If the compliance review board
31 determines such amendment is not in compliance with this

1 paragraph, the compliance review board shall notify such local
 2 government of the noncompliance and that the amendment is
 3 invalid and unenforceable until the local government corrects
 4 the amendment to bring it into compliance. The local
 5 government may appeal the decision of the compliance review
 6 board to the commission. If the compliance review board
 7 determines such amendment to be in compliance with this
 8 paragraph, any substantially affected party may appeal such
 9 determination to the commission. Actions of the commission are
 10 subject to judicial review pursuant to s. 120.68. The
 11 compliance review board shall determine whether its decisions
 12 apply to a respective local jurisdiction or apply countywide.

13 8. An amendment adopted under this paragraph shall
 14 include a fiscal impact statement which documents the costs
 15 and benefits of the proposed amendment. Criteria for the
 16 fiscal impact statement shall include the impact to local
 17 government relative to enforcement, the impact to property and
 18 building owners, as well as to industry, relative to the cost
 19 of compliance. The fiscal impact statement may not be used as

 23 subsection and make nonbinding recommendations related to
 24 compliance of such amendments with this subsection.

12 of any selected model code for any model code incorporated
13 into the Florida Building Code ~~by the commission, and may~~
14 subsequently adopt the new edition or successor of the model
15 code or any part of such code, which may then be modified for
16 this state as provided in this section, and shall further

3 ~~with statutory authority to regulate building construction to~~
4 ~~enforce the provisions of the Florida Building Code.~~

5 (6)(7)(a) The commission may approve technical
6 amendments to the Florida Building Code once each year for
7 statewide or regional application upon a finding that ~~delaying~~
8 ~~the application of the amendment would be contrary to the~~

13 the health, safety, and welfare of the general public.

14 2. Strengthens or improves the Florida Building Code,
15 or in the case of innovation or new technology, will provide
16 equivalent or better products or methods or systems of
17 construction.

18 3. Does not discriminate against materials, products,
19 methods, or systems of construction of demonstrated
20 capabilities.

21 4. Does not degrade the effectiveness of the Florida
22 Building Code.

23
24 Furthermore, the Florida Building Commission may approve
25 technical amendments to the code once each year to incorporate
26 into the Florida Building Code its own interpretations of the
27 code which are embodied in its opinions and declaratory

6 categories of buildings exempted in this section, including
7 exceptions for application of specific sections of the code or
8 standards adopted therein. The Department of Agriculture and
9 Consumer Services shall have exclusive authority to adopt by
10 rule, pursuant to chapter 120, exceptions to nonresidential

5 Safety Code, the board may not alter the decision unless the
6 board determines that the application of such code is not
7 reasonable. If the decision of the local fire official and
8 the local building official is to adopt an alternative to the
9 codes, the local administrative board shall give due regard to
10 the decision rendered by the local officials and may modify
11 that decision if the administrative board adopts a better
12 alternative, taking into consideration all relevant
13 circumstances. In any case in which the local administrative
14 board adopts alternatives to the decision rendered by the
15 local fire official and the local building official, such
16 alternatives shall provide an equivalent degree of lifesafety
17 and an equivalent method of construction as the decision
18 rendered by the local officials.

19 (c) If the local building official and the local fire
20 official are unable to agree on a resolution of the conflict
21 between the Florida Building Code and the Florida Fire
22 Prevention Code and the Life Safety Code, the local
23 administrative board shall resolve the conflict in favor of
24 the code which offers the greatest degree of lifesafety or
25 alternatives which would provide an equivalent degree of
26 lifesafety and an equivalent method of construction.

27 (d) All decisions of the local administrative board,
28 or if none exists, the decisions of the local building
29 official and the local fire official, are subject to review by
30 a joint committee composed of members of the Florida Building
31 Commission and the Fire Code Advisory Council. If the joint

1 committee is unable to resolve conflicts between the codes as
 2 applied to a specific project, the matter shall be resolved
 3 pursuant to the provisions of paragraph (1)(d).

 21 two family dwellings which are two stories or less in height
 22 unless approved by the commission for use or unless expressly
 23 made subject to said standards and criteria by local ordinance

 30 alteration, modification, repair, or demolition of public or
 31 private buildings, structures, or facilities or to

1 programmatic requirements that do not pertain to enforcement
2 of the Florida Building Code. Additionally, a local code
3 enforcement agency may not administer or enforce the Florida
4 Building Code to prevent the siting of any publicly owned
5 facility, including, but not limited to, correctional
6 facilities, juvenile justice facilities, or state
7 universities, community colleges, or public education
8 facilities, as provided by law.

9 ~~(12) In addition to the requirements of ss. 553.79 and~~
10 ~~553.80, facilities subject to the provisions of chapter 395~~
11 ~~and part II of chapter 400 shall have facility plans reviewed~~
12 ~~and construction surveyed by the state agency authorized to do~~
13 ~~so under the requirements of chapter 395 and part II of~~
14 ~~chapter 400 and the certification requirements of the Federal~~

27 3. Establishing contact with emergency management
28 personnel and other state and federal agencies.

29 (l) Maintain a list of interested parties for noticing
30 rulemaking workshops and hearings, disseminating information
31

1 on code adoption, revisions, amendments, and all other such
2 actions which are the responsibility of the commission.

3 (m) Coordinate with the state and local governments,
4 industry, and other affected stakeholders in the examination
5 of legislative provisions and make recommendations to fulfill
6 the responsibility to develop a consistent, single code.

7 (n) Provide technical assistance to local building
8 departments in order to implement policies, procedures, and
9 practices which would produce the most cost-effective property
10 insurance ratings.

11 (o) Develop recommendations for local governments to
12 use when pursuing partial or full privatization of building
13 department functions. The recommendations shall include, but
14 not be limited to, provisions relating to equivalency of
15 service, conflict of interest, requirements for competency,
16 liability, insurance, and long-term accountability.

17 (3) Upon written application by any substantially
18 affected person, the commission shall issue a declaratory
19 statement pursuant to s. 120.565 relating to a state agency's
20 interpretation and enforcement of the specific provisions of
21 the Florida Building Code the agency is authorized to enforce
22 ~~required under this section or relating to the conformity of~~
23 ~~new technologies, techniques, and materials to the objectives~~
24 ~~of the Florida Building Code.~~ The provisions of this
25 subsection shall not be construed to provide any powers, other
26 than advisory, to the commission with respect to any decision
27 of the State Fire Marshal made pursuant to the provisions of
28 chapter 633.

29 (6) The commission may provide by rule for plans
30 review and approval of prototype buildings owned by public and
31 private entities to be replicated throughout the state. Such

1 approved plans or prototype buildings shall be exempt from
2 further review required by s. 553.79(2), except changes to the
3 prototype design, site plans, and other site-related items, or
4 any local amendment to any part of the Florida Building Code.
5 Construction or erection of such prototype buildings is
6 subject to local permitting and inspections pursuant to this
7 part.

8 Section 80. Section 47 of chapter 98-287, Laws of
9 Florida, is amended to read:

10 Section 47. Effective July ~~January~~ 1, 2001, section
11 553.781, Florida Statutes, is created to read:

12 553.781 Licensee accountability.--

13 (1) The Legislature finds that accountability for work
14 performed by design professionals and contractors is the key
15 to strong and consistent compliance with the Florida Building
16 Code and, therefore, protection of the public health, safety,
17 and welfare. The purpose of this section is to provide such
18 accountability.

19 (2)(a) Upon a determination by a local jurisdiction
20 that a licensee, certificateholder, or registrant licensed
21 under chapters 455, 471, 481, or 489 has committed a material
22 violation of the Florida Building Code and failed to correct
23 the violation within a reasonable time, such local
24 jurisdiction shall impose a fine of no less than \$500 and no
25 more than \$5,000 per material violation.

26 (b) If the licensee, certificateholder, or registrant
27 disputes the violation within 30 days following notification
28 by the local jurisdiction, the fine is abated and the local
29 jurisdiction shall report the dispute to the appropriate
30 professional licensing board for disciplinary investigation
31 and final disposition. If an administrative complaint is filed

1 by the professional licensing board against the
 2 certificateholder or registrant, the commission may intervene
 3 in such proceeding. Any fine imposed by the professional
 4 licensing board, pursuant to matters reported by the local
 5 jurisdiction to the professional licensing board, shall be
 6 divided equally between the board and the local jurisdiction
 7 which reported the violation.

8 (3) The Department of Business and Professional
 9 Regulation, as an integral part of the automated information
 10 system provided under s. 455.2286, shall establish, and local
 11 jurisdictions and state licensing boards shall participate in,
 12 a system of reporting violations and disciplinary actions
 13 taken against all licensees, certificateholders, and
 14 registrants under this section that have been disciplined for
 15 a violation of the Florida Building Code. Such information
 16 shall be available electronically. Any fines collected by a
 17 local jurisdiction pursuant to subsection (2) shall be used
 18 initially to help set up the parts of the reporting system for
 19 which such local jurisdiction is responsible. Any remaining
 20 moneys shall be used solely for enforcing the Florida Building
 21 Code, licensing activities relating to the Florida Building
 22 Code, or education and training on the Florida Building Code.

23 (4) Local jurisdictions shall maintain records,
 24 readily accessible by the public, regarding material
 25 violations and shall report such violations to the Department
 26 of Business and Professional Regulation by means of the
 27 reporting system provided in s. 455.2286.

28
 29 For purposes of this section, a material code violation is a
 30 violation that exists within a completed building, structure,
 31 or facility which may reasonably result, or has resulted, in

1 physical harm to a person or significant damage to the
2 performance of a building or its systems. Except when the
3 fine is abated as provided in subsection (2), failure to pay
4 the fine within 30 days shall result in a suspension of the
5 licensee's, certificateholder's, or registrant's ability to
6 obtain permits within this state until such time as the fine
7 is paid. Such suspension shall be reflected on the automated
8 information system under s. 455.2286.

9 Section 81. Effective July 1, 2001, paragraph (b) of
10 subsection (2) of section 553.781, Florida Statutes, is
11 amended to read:

12 553.781 Licensee accountability.--

13 (2)

14 (b) If the licensee, certificateholder, or registrant
15 disputes the violation within 30 days following notification
16 by the local jurisdiction, the fine is abated and the local
17 jurisdiction shall report the dispute to the Department of
18 Business and Professional Regulation or the appropriate
19 professional licensing board for disciplinary investigation
20 and final disposition. If an administrative complaint is filed
21 by the department or the professional licensing board against
22 the certificateholder or registrant, the commission may
23 intervene in such proceeding. Any fine imposed by the
24 department or the professional licensing board, pursuant to
25 matters reported by the local jurisdiction to the department
26 or the professional licensing board, shall be divided equally
27 between the board and the local jurisdiction which reported
28 the violation.

29 Section 82. Subsections (3) and (5), paragraph (a) of
30 subsection (7), and subsections (10), (12), (14) and (16) of
31 section 553.79, Florida Statutes, are amended to read:

1 553.79 Permits; applications; issuance; inspections.--

2 (3) The State Minimum Building Codes, after the
 3 effective date of their adoption pursuant to the provisions of
 4 this part, shall supersede all other building construction
 5 codes or ordinances in the state, whether at the local or
 6 state level and whether adopted by administrative regulation
 7 or by legislative enactment, unless such building construction
 8 codes or ordinances are more stringent than the State Minimum
 9 Building Codes and the conditions of s. 553.73(4) are met.
 10 However, this subsection does not apply to manufactured ~~mobile~~
 11 homes as defined by chapter 320. Nothing contained in this
 12 subsection shall be construed as nullifying or divesting
 13 appropriate state or local agencies of authority to make
 14 inspections or to enforce the codes within their respective
 15 areas of jurisdiction.

16 (5)(a) The enforcing agency shall require a special
 17 inspector to perform structural inspections on a threshold
 18 building pursuant to a structural inspection plan prepared by
 19 the engineer or architect of record. The structural inspection
 20 plan must be submitted to and approved by the enforcing agency
 21 prior to the issuance of a building permit for the
 22 construction of a threshold building. The purpose of the
 23 structural inspection plan is to provide specific inspection
 24 procedures and schedules so that the building can be
 25 adequately inspected for compliance with the permitted
 26 documents. The special inspector may not serve as a surrogate
 27 in carrying out the responsibilities of the building official,
 28 the architect, or the engineer of record. The contractor's
 29 contractual or statutory obligations are not relieved by any
 30 action of the special inspector. The special inspector shall
 31 determine that a professional engineer who specializes in

1 shoring design has inspected ~~inspect~~ the shoring and reshoring
2 for conformance with the shoring and reshoring plans submitted
3 to the enforcing agency. A fee simple title owner of a
4 building, which does not meet the minimum size, height,
5 occupancy, occupancy classification, or number-of-stories
6 criteria which would result in classification as a threshold
7 building under s. 553.71(7), may designate such building as a
8 threshold building, subject to more than the minimum number of
9 inspections required by the Florida Building Code.

10 (b) The fee owner of a threshold building shall select
11 and pay all costs of employing a special inspector, but the
12 special inspector shall be responsible to the enforcement
13 agency. The inspector shall be a person certified, licensed,
14 or registered under chapter 471 as an engineer or under
15 chapter 481 as an architect.

16 (c) ~~The commission shall, by rule, establish a~~
17 ~~qualification program for special inspectors and shall compile~~
18 ~~a list of persons qualified to be special inspectors. Special~~
19 ~~inspectors shall not be required to meet standards for~~
20 ~~qualification other than those established by the commission,~~
21 ~~nor shall the fee owner of a threshold building be prohibited~~
22 ~~from selecting any person qualified by the commission to be a~~
23 ~~special inspector.~~The architect or engineer of record may act
24 as the special inspector provided she or he is on the Board of
25 Professional Engineers' or the Board of Architecture and
26 Interior Design's list of persons qualified to be special
27 inspectors. School boards may utilize employees as special
28 inspectors provided such employees are on one of the
29 professional licensing board's list of persons qualified to be
30 special inspectors.

31

1 (d) The licensed architect or registered engineer
2 serving as the special inspector shall be permitted to send
3 her or his duly authorized representative to the job site to
4 perform the necessary inspections provided all required
5 written reports are prepared by and bear the seal of the
6 special inspector and are submitted to the enforcement agency.

7 (7) Each enforcement agency shall require that, on
8 every threshold building:

9 (a) The special inspector, upon completion of the
10 building and prior to the issuance of a certificate of
11 occupancy, file a signed and sealed statement with the
12 enforcement agency in substantially the following form: To the
13 best of my knowledge and belief, the ~~above-described~~
14 construction of all structural load-bearing components
15 described in the threshold inspection plan complies with the
16 permitted documents, and the specialty shoring design
17 professional engineer has ascertained that the shoring and
18 reshoring conforms with the shoring and reshoring plans
19 submitted to the enforcement agency.

20 (10) An enforcing authority may not issue a building
21 permit for any building construction, erection, alteration,
22 repair, or addition unless the permit either includes on its
23 face or there is attached to the permit the following
24 statement: "NOTICE: In addition to the requirements of this
25 permit, there may be additional restrictions applicable to
26 this property that may be found in the public records of this
27 county, and there may be additional permits required from
28 other governmental entities such as water management
29 districts, state agencies, or federal agencies."
30
31

1 (12) Nothing in this section shall be construed to
2 alter or supplement the provisions of part IV of this chapter
3 relating to manufactured buildings ~~factory-built housing~~.

4 (14) A building permit for a single-family residential
5 dwelling must be issued within 30 working days of application
6 therefor unless unusual circumstances require a longer time
7 for processing the application or unless the permit
8 application fails to satisfy the enforcing agency's laws,
9 ordinances, or codes.

10 (16)(a) The Florida Building Commission shall
11 establish, within the Florida Building Code adopted by rule,
12 standards for permitting residential buildings or structures
13 moved into or within a county or municipality when such
14 structures do not or cannot comply with the code. However,
15 such buildings or structures shall not be required to be
16 brought into compliance with the ~~state minimum~~ building code
17 in force at the time the building or structure is moved,
18 provided:

19 1. The building or structure is structurally sound and
20 in occupiable condition for its intended use;

21 2. The occupancy use classification for the building
22 or structure is not changed as a result of the move;

23 3. The building is not substantially remodeled;

24 4. Current fire code requirements for ingress and
25 egress are met;

26 5. Electrical, gas, and plumbing systems meet the
27 codes in force at the time of construction and are operational
28 and safe for reconnection; and

29 6. Foundation plans are sealed by a professional
30 engineer or architect licensed to practice in this state, if
31

1 required by the building code for all residential buildings or
2 structures of the same occupancy class;

3 (b) The building official shall apply the same
4 standard to a moved residential building or structure as that
5 applied to the remodeling of any comparable residential
6 building or structure to determine whether the moved structure
7 is substantially remodeled. The cost of moving the building
8 and the cost of the foundation on which the moved building or
9 structure is placed shall not be included in the cost of
10 remodeling for purposes of determining whether a moved
11 building or structure has been substantially remodeled.

12 Section 83. Section 49 of chapter 98-287, Laws of
13 Florida, is amended to read:

14 Section 49. Effective July ~~January~~ 1, 2001,
15 subsections (1), (2), (3), (4), (6), (9), (10), and (14) of
16 section 553.79, Florida Statutes, are amended, and subsection
17 (17) is added to said section, to read:

18 553.79 Permits; applications; issuance; inspections.--

19 (1) After the effective date of the Florida State
20 ~~Minimum Building Code Codes~~ adopted as herein provided, it
21 shall be unlawful for any person, firm, ~~or~~ corporation, or
22 governmental entity to construct, erect, alter, modify,
23 repair, or demolish any building within this state without
24 first obtaining a permit therefor from the appropriate
25 enforcing agency or from such persons as may, by appropriate
26 resolution or regulation of the authorized state or local
27 enforcing agency, be delegated authority to issue such
28 permits, upon the payment of such reasonable fees adopted by
29 the enforcing agency. The enforcing agency is empowered to
30 revoke any such permit upon a determination by the agency that
31 the construction, erection, alteration, modification, repair,

1 or demolition of the building for which the permit was issued
 2 is in violation of, or not in conformity with, the provisions
 3 of the Florida State Minimum Building Code Codes.
 4 Installation, replacement, removal, or metering of any load
 5 management control device is exempt from and shall not be
 6 subject to the permit process and fees otherwise required by
 7 this section.

8 (2) ~~After January 1, 1988,~~No enforcing agency may
 9 issue any permit for construction, erection, alteration,
 10 modification, repair, or demolition until the local building
 11 code administrator or inspector, in conjunction with the
 12 appropriate firesafety inspector, has reviewed the plans and
 13 specifications for such proposal and both officials have found
 14 the plans to be in compliance with the Florida applicable
 15 ~~State Minimum Building Code Codes~~ and the Florida Fire
 16 Prevention Code and the Life Safety Code applicable firesafety
 17 ~~standards~~ as determined by the local authority in accordance
 18 with this chapter and chapter 633. Building plans approved
 19 pursuant to s. 553.77(6) and state-approved manufactured
 20 buildings are exempt from local codes enforcing agency plan
 21 reviews except for provisions of the code relating to
 22 erection, assembly, or construction at the site. Erection,
 23 assembly, and construction at the site are subject to local
 24 permitting and inspections.Any building or structure which is
 25 not subject to a firesafety code and any building or structure
 26 which is exempt from the local building permit process shall
 27 not be required to have its plans reviewed by the local
 28 officials. Industrial construction on sites where design,
 29 construction, and firesafety are supervised by appropriate
 30 design and inspection professionals and which contain adequate
 31 in-house fire departments and rescue squads is exempt, subject

1 to local government option, from review of plans and
 2 inspections, providing owners certify that applicable codes
 3 and standards have been met and supply appropriate approved
 4 drawings to local building and firesafety inspectors. The
 5 enforcing agency shall issue a permit to construct, erect,
 6 alter, modify, repair, or demolish any building when the plans
 7 and specifications for such proposal comply with the
 8 provisions of the Florida State Minimum Building Code Codes
 9 and the Florida Fire Prevention Code and the Life Safety Code
 10 ~~applicable firesafety standards~~ as determined by the local
 11 authority in accordance with this chapter and chapter 633.

12 (3) Except as provided in this chapter, the Florida
 13 ~~State Minimum Building Code Codes~~, after the effective date of
 14 ~~their~~ adoption pursuant to the provisions of this part, shall
 15 supersede all other building construction codes or ordinances
 16 in the state, whether at the local or state level and whether
 17 adopted by administrative regulation or by legislative
 18 enactment, ~~unless such building construction codes or~~
 19 ~~ordinances are more stringent than the State Minimum Building~~
 20 ~~Codes and the conditions of s. 553.73(4) are met.~~ However,
 21 this subsection does not apply to the manufacture of mobile
 22 homes as defined by federal law ~~chapter 320~~. Nothing
 23 contained in this subsection shall be construed as nullifying
 24 or divesting appropriate state or local agencies of authority
 25 to make inspections or to enforce the codes within their
 26 respective areas of jurisdiction.

27 (4) The Florida State Minimum Building Code Codes,
 28 after the effective date of ~~their~~ adoption pursuant to the
 29 provisions of this part, may be modified by local governments
 30 to require more stringent standards than those specified in
 31

1 the Florida State Minimum Building Code Codes, provided the
2 conditions of s. 553.73(4) are met.

3 (6) No permit may be issued for any building
4 construction, erection, alteration, modification, repair, or
5 addition unless the applicant for such permit provides to the
6 enforcing agency which issues the permit any of the following
7 documents which apply to the construction for which the permit
8 is to be issued and which shall be prepared by or under the
9 direction of an engineer registered under chapter 471:

10 (a) Electrical documents for any new building or
11 addition which requires an aggregate service capacity of 600
12 amperes (240 volts) or more on a residential electrical system
13 or 800 amperes (240 volts) or more on a commercial or
14 industrial electrical system and which costs more than
15 \$50,000.

16 (b) Plumbing documents for any new building or
17 addition which requires a plumbing system with more than 250
18 fixture units or which costs more than \$50,000.

19 (c) Fire sprinkler documents for any new building or
20 addition which includes a fire sprinkler system which contains
21 50 or more sprinkler heads. A Contractor I, Contractor II, or
22 Contractor IV, certified under s. 633.521, may design a fire
23 sprinkler system of 49 or fewer heads and may design the
24 alteration of an existing fire sprinkler system if the
25 alteration consists of the relocation, addition, or deletion
26 of not more than 49 heads, notwithstanding the size of the
27 existing fire sprinkler system.

28 (d) Heating, ventilation, and air-conditioning
29 documents for any new building or addition which requires more
30 than a 15-ton-per-system capacity which is designed to
31 accommodate 100 or more persons or for which the system costs

1 more than \$50,000. This paragraph does not include any
2 document for the replacement or repair of an existing system
3 in which the work does not require altering a structural part
4 of the building or for work on a residential one-family,
5 two-family, three-family, or four-family structure.

6 (e) Any specialized mechanical, electrical, or
7 plumbing document for any new building or addition which
8 includes a medical gas, oxygen, steam, vacuum, toxic air
9 filtration, halon, or fire detection and alarm system which
10 costs more than \$5,000.

11
12 Documents requiring an engineer seal by this part ~~No such~~
13 ~~document~~ shall not be valid unless a professional engineer who
14 possesses a valid certificate of registration has signed,
15 dated, and stamped such document as provided in s. 471.025.

16 (9) Any state agency with building construction
17 responsibility ~~may enter into an agreement with any other unit~~
18 ~~of government to delegate its responsibility to enforce the~~
19 ~~delegate's building code governing the construction, erection,~~
20 ~~alteration, repair, or demolition of any state building and is~~
21 authorized to expend public funds for permit and inspection
22 fees, which fees may be no greater than the fees charged
23 others.

24 (10) An enforcing authority may not issue a building
25 permit for any building construction, erection, alteration,
26 modification, repair, or addition unless the permit either
27 includes on its face or there is attached to the permit the
28 following statement: "NOTICE: In addition to the requirements
29 of this permit, there may be additional restrictions
30 applicable to this property that may be found in the public
31 records of this county, and there may be additional permits

1 required from other governmental entities such as water
2 management districts, state agencies, or federal agencies."

3 (14) A building permit for a single-family residential
4 dwelling must be issued within 30 working days of application
5 therefor unless unusual circumstances require a longer time
6 for processing the application or unless the permit
7 application fails to satisfy the Florida Building Code or the
8 enforcing agency's laws ~~or ordinances, or codes~~.

9 (17) Notwithstanding any other provision of law, state
10 agencies responsible for the construction, erection,
11 alteration, modification, repair, or demolition of public
12 buildings, or the regulation of public and private buildings,
13 structures, and facilities, shall be subject to enforcement of
14 the Florida Building Code by local jurisdictions. This
15 subsection applies in addition to the jurisdiction and
16 authority of the Department of Insurance to inspect
17 state-owned buildings. This subsection does not apply to the
18 jurisdiction and authority of the Department of Agriculture
19 and Consumer Services to inspect amusement rides or the
20 Department of Insurance to inspect state owned buildings and
21 boilers.

22 Section 84. Effective July 1, 2001, subsections (2),
23 (3), (6), and (9) of section 553.79, Florida Statutes, as
24 amended by section 49 of chapter 98-287, Laws of Florida, are
25 amended to read:

26 553.79 Permits; applications; issuance; inspections.--

27 (2) No enforcing agency may issue any permit for
28 construction, erection, alteration, modification, repair, or
29 demolition of any building or structure until the local
30 building code administrator or inspector, ~~in conjunction with~~
31 ~~the appropriate firesafety inspector,~~ has reviewed the plans

1 and specifications for such proposal and ~~both officials have~~
2 found the plans to be in compliance with the Florida Building
3 Code. In addition, an enforcing agency may not issue any
4 permit for construction, erection, alteration, modification,
5 repair, or demolition of any building until the appropriate
6 firesafety inspector certified pursuant to s. 633.081 has
7 reviewed the plans and specifications for such proposal and
8 found that the plans comply with ~~and~~ the Florida Fire
9 Prevention Code and the Life Safety Code ~~as determined by the~~
10 ~~local authority in accordance with this chapter and chapter~~
11 ~~633. Building plans approved pursuant to s. 553.77(6) and~~
12 ~~state-approved manufactured buildings are exempt from local~~
13 ~~codes enforcing agency plan reviews except for provisions of~~
14 ~~the code relating to erection, assembly, or construction at~~
15 ~~the site. Erection, assembly, and construction at the site~~
16 ~~are subject to local permitting and inspections.~~ Any building
17 or structure which is not subject to a firesafety code ~~and any~~
18 ~~building or structure which is exempt from the local building~~
19 ~~permit process~~ shall not be required to have its plans
20 reviewed by the firesafety inspector ~~local officials~~. Any
21 building or structure that is exempt from the local building
22 permit process may not be required to have its plans reviewed
23 by the local building code administrator. Industrial
24 construction on sites where design, construction, and
25 firesafety are supervised by appropriate design and inspection
26 professionals and which contain adequate in-house fire
27 departments and rescue squads is exempt, subject to local
28 government option, from review of plans and inspections,
29 providing owners certify that applicable codes and standards
30 have been met and supply appropriate approved drawings to
31 local building and firesafety inspectors. The enforcing

1 agency shall issue a permit to construct, erect, alter,
 2 modify, repair, or demolish any building or structure when the
 3 plans and specifications for such proposal comply with the
 4 provisions of the Florida Building Code and the Florida Fire
 5 Prevention Code and the Life Safety Code as determined by the
 6 local authority in accordance with this chapter and chapter
 7 633.

8 (3) Except as provided in this chapter, the Florida
 9 Building Code, after the effective date of adoption pursuant
 10 to the provisions of this part, shall supersede all other
 11 building construction codes or ordinances in the state,
 12 whether at the local or state level and whether adopted by
 13 administrative regulation or by legislative enactment.
 14 However, this subsection does not apply to the construction of
 15 manufactured ~~manufacture of mobile~~ homes as defined by federal
 16 law. Nothing contained in this subsection shall be construed
 17 as nullifying or divesting appropriate state or local agencies
 18 of authority to make inspections or to enforce the codes
 19 within their respective areas of jurisdiction.

20 (6) A ~~No~~ permit may not be issued for any building
 21 construction, erection, alteration, modification, repair, or
 22 addition unless the applicant for such permit complies with
 23 the requirements for plan review established by the Florida
 24 Building Commission within the Florida Building Code.~~provides~~
 25 ~~to the enforcing agency which issues the permit any of the~~
 26 ~~following documents which apply to the construction for which~~
 27 ~~the permit is to be issued and which shall be prepared by or~~
 28 ~~under the direction of an engineer registered under chapter~~
 29 ~~471+~~

30 (a) ~~Electrical documents for any new building or~~
 31 ~~addition which requires an aggregate service capacity of 600~~

1 ~~amperes (240 volts) or more on a residential electrical system~~
2 ~~or 800 amperes (240 volts) or more on a commercial or~~
3 ~~industrial electrical system and which costs more than~~
4 ~~\$50,000.~~

5 ~~(b) Plumbing documents for any new building or~~
6 ~~addition which requires a plumbing system with more than 250~~
7 ~~fixture units or which costs more than \$50,000.~~

8 ~~(c) Fire sprinkler documents for any new building or~~
9 ~~addition which includes a fire sprinkler system which contains~~
10 ~~50 or more sprinkler heads. A Contractor I, Contractor II, or~~
11 ~~Contractor IV, certified under s. 633.521, may design a fire~~
12 ~~sprinkler system of 49 or fewer heads and may design the~~
13 ~~alteration of an existing fire sprinkler system if the~~
14 ~~alteration consists of the relocation, addition, or deletion~~
15 ~~of not more than 49 heads, notwithstanding the size of the~~
16 ~~existing fire sprinkler system.~~

17 ~~(d) Heating, ventilation, and air-conditioning~~
18 ~~documents for any new building or addition which requires more~~
19 ~~than a 15-ton-per-system capacity which is designed to~~
20 ~~accommodate 100 or more persons or for which the system costs~~
21 ~~more than \$50,000. This paragraph does not include any~~
22 ~~document for the replacement or repair of an existing system~~
23 ~~in which the work does not require altering a structural part~~
24 ~~of the building or for work on a residential one-family,~~

19 (1) It shall be the responsibility of each local
20 government and ~~each~~ legally constituted enforcement district,
21 ~~and each state agency~~ with statutory authority to regulate
22 building construction to enforce the Florida Building Code
23 required by this part on all public or private buildings,
24 structures, and facilities ~~adopted by such body in accordance~~
25 ~~with s. 553.73~~, unless such responsibility has been delegated
26 to another unit of government pursuant to s. 553.79(9). The
27 governing bodies of local governments may provide a schedule
28 of fees, as authorized by s. 125.56(2) or s. 166.222 and this
29 section, for the enforcement of the provisions of this part.
30 Such fees shall be used solely for carrying out the
31 responsibilities of enforcing the Florida Building Code. The

1 authority of state enforcing agencies to set fees for
 2 enforcement shall be derived from authority existing on the
 3 effective date of this act. However, nothing contained in this
 4 subsection shall operate to limit such agencies from adjusting
 5 their fee schedule in conformance with existing authority.

6 (2)(a) Any two or more counties or municipalities, or
 7 any combination thereof, may, in accordance with the
 8 provisions of chapter 163, governing interlocal agreements,
 9 form an enforcement district for the purpose of ~~adopting,~~
 10 enforcing, and administering the provisions of the Florida
 11 ~~State Minimum Building Code Codes~~. Each district so formed
 12 shall be registered with the department on forms to be
 13 provided for that purpose. Nothing in this subsection shall be
 14 construed to supersede provisions of county charters which
 15 preempt municipal authorities respective to building codes.

16 (b) With respect to evaluation of design
 17 professionals' documents, if a local government finds it
 18 necessary, in order to enforce compliance with the Florida
 19 Building Code and issue a permit, to reject design documents
 20 required by the code three or more times for failure to
 21 correct a code violation specifically and continuously noted
 22 in each rejection, including, but not limited to, egress, fire
 23 protection, structural stability, energy, accessibility,
 24 lighting, ventilation, electrical, mechanical, plumbing, and
 25 gas systems, or other requirements identified by rule of the
 26 Florida Building Commission adopted pursuant to chapter 120,
 27 the local government shall impose, each time after the third
 28 such review the plans are rejected for that code violation, a
 29 fee of four times the amount of the proportion of the permit
 30 fee attributed to plans review.

31

1 (c) With respect to inspections, if a local government
2 finds it necessary, in order to enforce compliance with the
3 Florida Building Code, to conduct any inspection after an
4 initial inspection and one subsequent reinspection of any
5 project or activity for the same code violation specifically
6 and continuously noted in each rejection, including, but not
7 limited to, egress, fire protection, structural stability,
8 energy, accessibility, lighting, ventilation, electrical,
9 mechanical, plumbing, and gas systems, or other requirements
10 identified by rule of the Florida Building Commission adopted
11 pursuant to chapter 120, the local government shall impose a
12 fee of four times the amount of the fee imposed for the
13 initial inspection or first reinspection, whichever is
14 greater, for each such subsequent reinspection.

15 (3) Each enforcement district shall be governed by a
16 board, the composition of which shall be determined by the
17 affected localities. At its own option each enforcement
18 district or local enforcement agency may promulgate rules
19 granting to the owner of a single-family residence one or more
20 exemptions from the Florida State Minimum Building Code Codes
21 relating to:

22 (a) Addition, alteration, or repairs performed by the
23 property owner upon his or her own property, provided any
24 addition or alteration shall not exceed 1,000 square feet or
25 the square footage of the primary structure, whichever is
26 less.

27 (b) Addition, alteration, or repairs by a nonowner
28 within a specific cost limitation set by rule, provided the
29 total cost shall not exceed \$5,000 within any 12-month period.

30 (c) Building and inspection fees.

31

1 Each code exemption, as defined in paragraphs (a), (b), and
2 (c), shall be certified to the local board 10 days prior to
3 implementation and shall only be effective in the territorial
4 jurisdiction of the enforcement district or local enforcement
5 agency implementing it.

6 (4) When an enforcement district has been formed as
7 provided herein, upon its registration with the department, it
8 shall have the same authority and responsibility with respect
9 to building codes as provided by this part for local governing
10 bodies.

11 (5) State and regional agencies with special expertise
12 in building code standards and licensing of contractors and
13 design professionals shall provide support to local
14 governments upon request.

15 (6) Notwithstanding any other provision of law, state
16 universities, community colleges, and public school districts
17 shall be subject to enforcement of the Florida Building Code
18 pursuant to this part.

19 (a) State universities, state community colleges, or
20 public school districts shall conduct plan review and
21 construction inspections to enforce building code compliance
22 for their building projects that are subject to the Florida
23 Building Code. Such entities shall have personnel
24 appropriately certified under part XII of chapter 468 perform
25 the plan reviews and inspections required by the code. Under
26 such arrangements, such entities shall not be subject to local
27 government permitting requirements, plans review, and
28 inspection fees. State universities, state community colleges,
29 and public school districts shall be liable and responsible
30 for all of their buildings, structures, and facilities.
31 Nothing in this paragraph shall be construed to limit the

1 authority of the county, municipality, or code enforcement
2 district to ensure that buildings, structures, and facilities
3 owned by such entities comply with the Florida Building Code
4 or to limit the authority and responsibility of the fire
5 official to conduct firesafety inspections pursuant to chapter
6 633.

7 (b) If a state university, state community college, or
8 public school district elects to use a local government's code
9 enforcement offices:

10 1. Fees charged by counties and municipalities for
11 enforcement of the Florida Building Code on buildings,
12 structures, and facilities of state universities, state
13 colleges, and public school districts shall not be more than
14 the actual labor and administrative costs incurred for plans
15 review and inspections to ensure compliance with the code.

16 2. Counties and municipalities shall expedite building
17 construction permitting, building plans review, and
18 inspections of projects of state universities, state community
19 colleges, and public school districts which are subject to the
20 Florida Building Code according to guidelines established by
21 the Florida Building Commission.

22 (c) The Florida Building Commission and code
23 enforcement jurisdictions shall consider balancing code
24 criteria and enforcement to unique functions, where they
25 occur, of research institutions by application of performance
26 criteria in lieu of prescriptive criteria.

27
28 Nothing in this part shall be construed to authorize counties,
29 municipalities, or code enforcement districts to conduct any
30 permitting, plans review, or inspections not covered by the
31 Florida Building Code. Any actions by counties or

1 municipalities not in compliance with this part may be
 2 appealed to the Florida Building Commission. The commission,
 3 upon a determination that actions not in compliance with this
 4 part have delayed permitting or construction, may suspend the
 5 authority of a county, municipality, or code enforcement
 6 district to enforce the Florida Building Code on the
 7 buildings, structures, or facilities of a state university,
 8 state community college, or public school district and provide
 9 for code enforcement at the expense of the state university,
 10 state community college, or public school district.

11 Section 86. Effective July 1, 2001, subsection (1) and
 12 paragraph (a) of subsection (6) of section 553.80, Florida
 13 Statutes, as amended by section 51 of chapter 98-287, Laws of
 14 Florida, are amended, and paragraph (d) is added to subsection
 15 (6) of said section, to read:

 21 authorized in the state agency's enabling legislation, each
 22 state agency shall ~~to~~ enforce the Florida Building Code
 23 required by this part on all public or private buildings,
 24 structures, and facilities, unless such responsibility has
 25 been delegated to another unit of government pursuant to s.
 26 553.79(9).

27 (a) Construction regulations relating to correctional
 28 facilities under the jurisdiction of the Department of
 29 Corrections and the Department of Juvenile Justice are to be
 30 enforced exclusively by those departments.

2 equipment under the jurisdiction of the Bureau of Elevators of
3 the Department of Business and Professional Regulation shall
4 be enforced exclusively by that department.

5 (c) In addition to the requirements of s. 553.79 and
6 this section, facilities subject to the provisions of chapter
7 395 and part II of chapter 400 shall have facility plans
8 reviewed and construction surveyed by the state agency
9 authorized to do so under the requirements of chapter 395 and
10 part II of chapter 400 and the certification requirements of
11 the Federal Government.

12 (d) Building plans approved pursuant to s. 553.77(6)
13 and state-approved manufactured buildings, including buildings
14 manufactured and assembled offsite and not intended for
15 habitation, such as lawn storage buildings and storage sheds,
16 are exempt from local code enforcing agency plan reviews
17 except for provisions of the code relating to erection,
18 assembly, or construction at the site. Erection, assembly, and
19 construction at the site are subject to local permitting and
20 inspections.

21 (e) Construction regulations governing public schools,
22 state universities, and community colleges shall be enforced
23 as provided in subsection (6).

24
25 The governing bodies of local governments may provide a
26 schedule of fees, as authorized by s. 125.56(2) or s. 166.222
27 and this section, for the enforcement of the provisions of
28 this part. Such fees shall be used solely for carrying out
29 the local government's responsibilities in enforcing the
30 Florida Building Code. The authority of state enforcing
31 agencies to set fees for enforcement shall be derived from

1 authority existing on July 1, 1998 ~~the effective date of this~~
 2 ~~act~~. However, nothing contained in this subsection shall
 3 operate to limit such agencies from adjusting their fee
 4 schedule in conformance with existing authority.

 7 shall be subject to enforcement of the Florida Building Code
 8 pursuant to this part.

 19 universities, state community colleges, and public school
 20 districts shall be liable and responsible for all of their
 21 buildings, structures, and facilities. Nothing in this
 22 paragraph shall be construed to limit the authority of the
 23 county, municipality, or code enforcement district to ensure
 24 that buildings, structures, and facilities owned by such
 25 entities comply with the Florida Building Code or to limit the
 26 authority and responsibility of the fire official to conduct
 27 firesafety inspections pursuant to chapter 633.

28 (d) School boards, community college boards, and state
 29 universities may use annual facility maintenance permits to
 30 facilitate routine maintenance, emergency repairs, building
 31 refurbishment, and minor renovations of systems or equipment.

1 The amount expended for maintenance projects may not exceed
 2 \$200,000 per project. A facility maintenance permit is valid
 3 for 1 year. A detailed log of alterations and inspections must
 4 be maintained and annually submitted to the building official.
 5 The building official retains the right to make inspections at
 6 the facility site as he or she considers necessary. Code
 7 compliance must be provided upon notification by the building
 8 official. If a pattern of code violations is found, the
 9 building official may withhold the issuance of future annual
 10 facility maintenance permits.

11
 12 Nothing in this part shall be construed to authorize counties,
 13 municipalities, or code enforcement districts to conduct any
 14 permitting, plans review, or inspections not covered by the
 15 Florida Building Code. Any actions by counties or
 16 municipalities not in compliance with this part may be
 17 appealed to the Florida Building Commission. The commission,
 18 upon a determination that actions not in compliance with this
 19 part have delayed permitting or construction, may suspend the
 20 authority of a county, municipality, or code enforcement
 21 district to enforce the Florida Building Code on the
 22 buildings, structures, or facilities of a state university,
 23 state community college, or public school district and provide

 5 and the Life Safety Code ~~minimum firesafety standards, except~~
 6 ~~to the extent required by s. 394.879.~~

7 (7) It is the intent of the Legislature that there are
 8 to be no conflicting requirements between the Florida Fire

 10 chapter and the provisions of the Florida Building Code or
 11 conflicts in their enforcement and interpretation. Potential
 12 conflicts shall be resolved through coordination and
 13 cooperation of the State Fire Marshal and the Florida Building
 14 Commission as provided by this chapter and part VII of chapter
 15 553.

16 (8) The Department of Insurance shall issue, when
 17 requested in writing by any substantially affected person or a
 18 local enforcing agency, declaratory statements pursuant to s.
 19 120.565 relating to the Florida Fire Prevention Code and the

24 Section 101. Effective July 1, 2001, subsection (6) of
 25 section 633.01, Florida Statutes, as amended by section 57 of
 26 chapter 98-287, Laws of Florida, is amended to read:

8 Florida, is amended to read:

9 Section 58. Effective July ~~January~~ 1, 2001, section
10 633.0215, Florida Statutes, is created to read:

11 633.0215 Florida Fire Prevention Code.--

12 (1) The department shall adopt, by rule pursuant to
13 ss. 120.536(1) and 120.54, the Florida Fire Prevention Code
14 which shall contain or incorporate by reference all firesafety
15 laws and rules that pertain to and govern the design,
16 construction, erection, alteration, modification, repair, and
17 demolition of public and private buildings, structures, and
18 facilities and the enforcement of such firesafety laws and
19 rules.

20 (2) The department shall adopt the National Fire
21 Protection Association's Standard 1, Fire Prevention Code.
22 The department shall adopt the Life Safety Code, Pamphlet 101,
23 current editions, by reference. The department may modify the
24 selected codes and standards as needed to accommodate the
25 specific needs of the state. Standards or criteria in the
26 selected codes shall be similarly incorporated by reference.
27 The department shall incorporate within sections of the
28 Florida Fire Prevention Code provisions that address uniform
29 fire safety standards as established in s. 633.022. The
30 department shall incorporate within sections of the Florida

1 Fire Prevention Code provisions addressing regional and local
2 concerns and variations.

3 (3) Any local amendment to the Florida Fire Prevention
4 Code adopted by a local government shall be effective only
5 until the adoption by the department of the new edition of the
6 Florida Fire Prevention Code, which shall be every third year.
7 At such time, the department shall adopt such amendment as
8 part of the Florida Fire Prevention Code or rescind the
9 amendment. The department shall immediately notify the
10 respective local government of the rescission of the
11 amendment. After receiving such notice, the respective local
12 government may readopt the rescinded amendment. Incorporation
13 of local amendments as regional and local concerns and
14 variations shall be considered as adoption of an amendment
15 pursuant to this part. Notwithstanding other state or local
16 building and construction code laws to the contrary, locally
17 adopted fire code requirements that were in existence on the
18 effective date of this section shall be deemed local
19 variations of the Florida Fire Prevention Code until the
20 department takes action to adopt or rescind such requirements
21 as provided herein and such action shall take place no later
22 than January 1, 2001.

23 (4) The department shall update, by rule adopted
24 pursuant to ss. 120.536(1) and 120.54, the Florida Fire
25 Prevention Code every 3 years. Once initially adopted and
26 subsequently updated by the department, the Florida Fire
27 Prevention Code and the Life Safety Code shall be adopted for
28 use statewide without adoptions by local governments. When
29 updating the Florida Fire Prevention Code and the most recent
30 edition of the Life Safety Code, the department shall consider
31 changes made by the national model fire codes incorporated

1 into the Florida Fire Prevention Code, the department's own
2 interpretations, declaratory statements, appellate decisions,
3 and approved statewide and local technical amendments.

4 (5) The department may approve technical amendments
5 notwithstanding the 3-year update cycle of the Florida Fire
6 Prevention Code upon finding that a threat to life exists that
7 would warrant such action, subject to chapter 120.

8 (6) The Florida Fire Prevention Code does not apply
9 to, and no code enforcement action shall be brought with
10 respect to, zoning requirements or land use requirements.
11 Additionally, a local code enforcement agency may not
12 administer or enforce the Florida Fire Prevention Code to
13 prevent the siting of any publicly owned facility, including,
14 but not limited to, correctional facilities, juvenile justice
15 facilities, or state universities, community colleges, or
16 public education facilities. This section shall not be
17 construed to prohibit local government from imposing built-in
18 fire protection systems or fire-related infrastructure
19 requirements needed to properly protect the intended facility.

20 Section 103. Effective July 1, 2001, subsections (1),
21 (2), (3), (4), and (5) of section 633.0215, Florida Statutes,
22 as created by section 58 of chapter 98-287, Laws of Florida,
23 are amended, and subsections (7), (8), and (9) are added to
24 said section, to read:

25 633.0215 Florida Fire Prevention Code.--

26 (1) The State Fire Marshal ~~department~~ shall adopt, by
27 rule pursuant to ss. 120.536(1) and 120.54, the Florida Fire
28 Prevention Code which shall contain or incorporate by
29 reference all firesafety laws and rules that pertain to and
30 govern the design, construction, erection, alteration,
31 modification, repair, and demolition of public and private

1 buildings, structures, and facilities and the enforcement of
 2 such firesafety laws and rules. The State Fire Marshal shall
 3 adopt a new edition of the Florida Fire Prevention Code every
 4 third year.

5 (2) The State Fire Marshal ~~department~~ shall adopt the
 6 National Fire Protection Association's Standard 1, Fire
 7 Prevention Code but shall not adopt a building, mechanical, or
 8 plumbing code. The State Fire Marshal ~~department~~ shall adopt
 9 the Life Safety Code, Pamphlet 101, current editions, by
 10 reference. The State Fire Marshal ~~department~~ may modify the
 11 selected codes and standards as needed to accommodate the
 12 specific needs of the state. Standards or criteria in the
 13 selected codes shall be similarly incorporated by reference.
 14 The State Fire Marshal ~~department~~ shall incorporate within
 15 sections of the Florida Fire Prevention Code provisions that
 16 address uniform firesafety standards as established in s.
 17 633.022. The State Fire Marshal ~~department~~ shall incorporate
 18 within sections of the Florida Fire Prevention Code provisions
 19 addressing regional and local concerns and variations.

20 (3) No later than 180 days before the triennial
 21 adoption of the Florida Fire Prevention Code, the State Fire
 22 Marshal shall notify each municipal, county, and special
 23 district fire department of the triennial code adoption and
 24 steps necessary for local amendments to be included within the
 25 code. No later than 120 days before the triennial adoption of
 26 the Florida Fire Prevention Code, each local jurisdiction
 27 shall provide the State Fire Marshal with copies of its local
 28 fire code amendments. The State Fire Marshal has the option to
 29 process local fire code amendments that are received less than
 30 120 days before the adoption date of the Florida Fire
 31 Prevention Code.

1 (a) The State Fire Marshal shall review or cause the
2 review of local amendments to determine:

3 1. If the local amendment should be adopted as a
4 statewide provision;

5 2. That the local amendment does not provide a lesser
6 degree of life safety than the code otherwise provides; and

7 3. That the local amendment does not reference a
8 different edition of the national fire codes or other national
9 standard than the edition provided or referenced in the
10 uniform or minimum firesafety codes adopted by the State Fire
11 Marshal or prescribed by statute.

12 (b) Any local amendment to the Florida Fire Prevention
13 Code adopted by a local government shall be effective only
14 until the adoption by the department of the new edition of the
15 Florida Fire Prevention Code, which shall be every third year.
16 At such time, the State Fire Marshal department shall adopt
17 such amendment as part of the Florida Fire Prevention Code or
18 rescind the amendment. The State Fire Marshal department
19 shall immediately notify the respective local government of
20 the rescission of the amendment and the reason for the
21 rescission. After receiving such notice, the respective local
22 government may readopt the rescinded amendment. Incorporation
23 of local amendments as regional and local concerns and
24 variations shall be considered as adoption of an amendment
25 pursuant to this part.

26 (c) Notwithstanding other state or local building and
27 construction code laws to the contrary, locally adopted fire
28 code requirements that were in existence on the effective date
29 of this section shall be deemed local variations of the
30 Florida Fire Prevention Code until the State Fire Marshal
31 department takes action to adopt as a statewide firesafety

1 code requirement or rescind such requirements as provided
2 herein, and such action shall take place no later than July
3 January 1, 2001.

4 (4) The State Fire Marshal ~~department~~ shall update, by
5 rule adopted pursuant to ss. 120.536(1) and 120.54, the
6 Florida Fire Prevention Code every 3 years. Once initially
7 adopted and subsequently updated ~~by the department~~, the
8 Florida Fire Prevention Code and the Life Safety Code shall be
9 adopted for use statewide without adoptions by local
10 governments. When updating the Florida Fire Prevention Code
11 and the most recent edition of the Life Safety Code, the State
12 Fire Marshal ~~department~~ shall consider changes made by the
13 national model fire codes incorporated into the Florida Fire
14 Prevention Code, the State Fire Marshal's ~~department's~~ own
15 interpretations, declaratory statements, appellate decisions,
16 and approved statewide and local technical amendments.

17 (5) The State Fire Marshal ~~department~~ may approve
18 technical amendments notwithstanding the 3-year update cycle
19 of the Florida Fire Prevention Code upon finding that a threat
20 to life exists that would warrant such action, subject to
21 chapter 120.

22 (7) Any local amendment adopted by a local government
23 must strengthen the requirements of the minimum firesafety
24 code.

25 (8) Within 30 days after a local government adopts a
26 local amendment, the local government must transmit the
27 amendment to the Florida Building Commission and the State
28 Fire Marshal.

29 (9) The State Fire Marshal shall make rules that
30 implement this section and ss. 633.01 and 633.025 for the
31

1 purpose of accomplishing the objectives set forth in those
2 sections.

3 (10) Notwithstanding other provisions of this chapter,
4 if a county or a municipality within that county adopts an
5 ordinance providing for a local amendment to the Florida Fire
6 Prevention Code and that amendment provides a higher level of
7 protection to the public than the level specified in the
8 Florida Fire Prevention Code, the local amendment becomes
9 effective without approval of the State Fire Marshal and is
10 not rescinded pursuant to the provisions of this section,
11 provided that the ordinance meets one or more of the following
12 criteria:

13 (a) The local authority has adopted, by ordinance, a
14 fire service facilities and operation plan that outlines goals
15 and objectives for related equipment, personnel, and capital
16 improvement needs of the local authority related to the
17 specific amendment for the next 5 years;

18 (b) The local authority has adopted, by ordinance, a
19 provision requiring proportionate reduction in, or rebate or
20 waivers of, impact or other fees or assessments levied on
21 buildings that are built or modified in compliance with the
22 more stringent firesafety standards required by the local
23 amendment; or

24 (c) The local authority has adopted, by ordinance, a
25 growth management plan that requires buildings and structures
26 to be equipped with more stringent firesafety requirements
27 required by the local amendment when these firesafety
28 requirements are used as the basis for planning infrastructure
29 development, uses, or housing densities.

30
31

1 Except as provided in s. 633.022, the local appeals process
 2 shall be the venue if there is a dispute between parties
 3 affected by the provisions of the more stringent local
 4 firesafety amendment adopted as part of the Florida Fire
 5 Prevention Code pursuant to the authority in this subsection.
 6 Local amendments adopted pursuant to this subsection shall be
 7 deemed local or regional variations and published as such in
 8 the Florida Fire Prevention Code. The act of publishing
 9 locally adopted firesafety amendments to the Florida Fire
 10 Prevention Code shall not be construed to mean that the State
 11 Fire Marshal approves or denies the authenticity or
 12 appropriateness of the locally adopted firesafety provision,
 13 and the burden of protecting the local fire safety amendment
 14 remains solely with the adopting local governmental authority.

15 Section 104. Section 59 of chapter 98-287, Laws of
 16 Florida, is amended to read:

17 Section 59. Effective ~~July~~ January 1, 2001, section
 18 633.025, Florida Statutes, is amended to read:

19 633.025 Minimum firesafety standards.--

20 (1) The Florida Fire Prevention Code and the Life
 21 Safety Code adopted by the Department of Insurance, Each
 22 ~~municipality, county, and special district with firesafety~~
 23 ~~responsibilities shall adopt minimum firesafety standards~~
 24 ~~which shall operate in conjunction with the Florida state~~
 25 ~~minimum Building Code, shall be deemed adopted by each~~
 26 municipality, county, and special district with firesafety
 27 responsibilities such local jurisdiction as required by s.
 28 553.73. The minimum firesafety codes standards shall not
 29 apply to buildings and structures subject to the uniform
 30 firesafety standards under s. 633.022 and buildings and
 31

1 structures subject to the minimum firesafety standards adopted
2 pursuant to s. 394.879.

3 (2) Pursuant to subsection (1), each municipality,
4 county, and special district with firesafety responsibilities
5 shall ~~adopt and~~ enforce the Florida Fire Prevention Code and
6 the Life Safety Code ~~codes specified in paragraph (a),~~
7 ~~paragraph (b), paragraph (c), or paragraph (d)~~ as the minimum
8 firesafety code required by this section+

9 (a) ~~The Standard Fire Prevention Code, 1985 edition or~~
10 ~~subsequent edition, as adopted by the Southern Building Code~~
11 ~~Congress International.~~

12 (b) ~~The EPCOT Fire Prevention Code.~~

13 (c) ~~The National Fire Protection Association (NFPA)~~
14 ~~Pamphlet 1, 1985 edition or subsequent edition.~~

15 (d) ~~The South Florida Fire Prevention Code, subject to~~
16 ~~the provisions of subsection (4).~~

17 (3) The most current edition of the ~~In addition, each~~
18 ~~municipality, county, and special district with firesafety~~
19 ~~responsibilities shall adopt~~ National Fire Protection
20 Association (NFPA) 101, Life Safety Code, adopted by the
21 Department of Insurance, shall be deemed to be adopted by each
22 municipality, county, and special district with firesafety
23 responsibilities, 1985 edition or subsequent edition, as part
24 of the minimum firesafety code.

25 (4) ~~It is the intent of the Legislature that a South~~
26 ~~Florida Fire Prevention Code be promulgated as a further~~
27 ~~option to counties, municipalities, and special districts with~~
28 ~~firesafety responsibilities as an alternative to the~~
29 ~~firesafety codes specified in paragraphs (2)(a), (b), and (c).~~
30 ~~In the event that an appropriate South Florida Fire Prevention~~
31 ~~Code is submitted by the Broward County Board of Rules and~~

1 ~~Appeals or the Dade County Board of Rules and Appeals to the~~
 2 ~~Legislature by March 1, 1988, such code or codes shall be~~
 3 ~~deemed to be an alternative to the firesafety codes specified~~
 4 ~~in paragraphs (2)(a), (b), and (c) as of July 1, 1988, unless~~
 5 ~~the Legislature expressly prohibits the use of such code.~~
 6 ~~Until July 1, 1988, Dade and Broward Counties may use the~~
 7 ~~firesafety standards within their current Fire Prevention Code~~
 8 ~~as an alternative. In the event Dade or Broward County fails~~
 9 ~~to adopt a South Florida Fire Prevention Code as of July 1,~~
 10 ~~1988, then such county shall be subject to subsections (2),~~
 11 ~~(3), and (6).~~

12 ~~(4)(5)~~ Such codes shall be minimum codes and a
 13 municipality, county, or special district with firesafety
 14 responsibilities may adopt more stringent firesafety
 15 standards, subject to the requirements of this subsection.
 16 Such county, municipality, or special district may establish
 17 alternative requirements to those requirements which are
 18 required under the minimum firesafety standards on a
 19 case-by-case basis, in order to meet special situations
 20 arising from historic, geographic, or unusual conditions, if
 21 the alternative requirements result in a level of protection
 22 to life, safety, or property equal to or greater than the
 23 applicable minimum firesafety standards. For the purpose of
 24 this subsection, the term "historic" means that the building
 25 or structure is listed on the National Register of Historic
 26 Places of the United States Department of the Interior.

27 (a) The local governing body shall determine,
 28 following a public hearing which has been advertised in a
 29 newspaper of general circulation at least 10 days before the
 30 hearing, if there is a need to strengthen the requirements of
 31 the minimum firesafety code adopted by such governing body.

1 The determination must be based upon a review of local
2 conditions by the local governing body, which review
3 demonstrates that local conditions justify more stringent
4 requirements than those specified in the minimum firesafety
5 code for the protection of life and property or justify
6 requirements that meet special situations arising from
7 historic, geographic, or unusual conditions.

8 (b) Such additional requirements shall not be
9 discriminatory as to materials, products, or construction
10 techniques of demonstrated capabilities.

11 (c) Paragraphs (a) and (b) apply solely to the local
12 enforcing agency's adoption of requirements more stringent
13 than those specified in the Florida Fire Prevention Code and
14 the Life Safety Code that have the effect of amending building
15 construction standards. Upon request, the enforcing agency
16 shall provide a person making application for a building
17 permit, or any state agency or board with construction-related
18 regulation responsibilities, a listing of all such
19 requirements and codes.

20 (d) A local government which adopts amendments to the
21 minimum firesafety code must provide a procedure by which the
22 validity of such amendments may be challenged by any
23 substantially affected party to test the amendment's
24 compliance with the provisions of this section.

25 1. Unless the local government agrees to stay
26 enforcement of the amendment, or other good cause is shown,
27 the challenging party shall be entitled to a hearing on the
28 challenge within 45 days.

29 2. For purposes of such challenge, the burden of proof
30 shall be on the challenging party, but the amendment shall not
31 be presumed to be valid or invalid.

1
 2 A substantially affected person may appeal, to the Department
 3 of Insurance, the local government's resolution of the
 4 challenge and the department shall determine if the amendment
 5 complies with this section. Actions of the department are
 6 subject to judicial review pursuant to s. 120.68. The
 7 department shall consider reports of the Florida Building
 8 Commission, pursuant to part VII of chapter 533, when
 9 evaluating building code enforcement.

10 ~~(6) The minimum firesafety standards that counties,~~
 11 ~~municipalities, and special districts are required to adopt~~
 12 ~~pursuant to this section shall be adopted by January 1, 1988.~~
 13 ~~No municipality or county or special district shall be~~
 14 ~~required to amend an ordinance which presently complies with~~
 15 ~~this section. In the event that any such local governmental~~
 16 ~~entity fails to adopt minimum firesafety standards by January~~
 17 ~~1, 1988, the minimum firesafety standards shall consist of the~~
 18 ~~Standard Fire Prevention Code, 1985 edition, and National Fire~~
 19 ~~Protection Association (NFPA) 101, Life Safety Code, 1985~~
 20 ~~edition.~~

21 (5)(7) The new building or structure provisions
 22 enumerated within the firesafety code adopted pursuant to this
 23 section shall apply only to buildings or structures for which
 24 the building permit is issued on or after the effective date
 25 of this act January 1, 1988. Subject to the provisions of
 26 subsection~~(6)(8)~~, the existing building or structure
 27 provisions enumerated within the firesafety code adopted
 28 pursuant to this section shall apply to buildings or
 29 structures for which the building permit was issued or the
 30 building or structure was constructed prior to the effective
 31 date of this act January 1, 1988.

1 (6)~~(8)~~ With regard to existing buildings, the
 2 Legislature recognizes that it is not always practical to
 3 apply any or all of the provisions of the minimum firesafety
 4 code and that physical limitations may require
 5 disproportionate effort or expense with little increase in
 6 lifesafety. Prior to applying the minimum firesafety code to
 7 an existing building, the local fire official shall determine
 8 that a threat to lifesafety or property exists. If a threat to
 9 lifesafety or property exists, the fire official shall apply
 10 the applicable firesafety code for existing buildings to the
 11 extent practical to assure a reasonable degree of lifesafety
 12 and safety of property or the fire official shall fashion a
 13 reasonable alternative which affords an equivalent degree of
 14 lifesafety and safety of property. The decision of the local
 15 fire official may be appealed to the local administrative
 16 board described in s. 553.73.

17 (7)~~(9)~~ Nothing herein shall preclude a municipality,
 18 county, or special district from requiring a structure to be
 19 maintained in accordance with the applicable firesafety code.

20 ~~(10) With respect to standards established by the
 21 National Fire Protection Association (NFPA) 101, Life Safety
 22 Code, 1985 edition, s. 19-3.4.2.1, those standards shall not
 23 apply to structures having direct access to the outside from
 24 each living unit and having three stories or less.~~

25 (8)~~(11)~~ ~~With respect to standards established by the
 26 National Fire Protection Association (NFPA) 101, Life Safety
 27 Code, 1985 edition, s. 19-3.4.4.1, Battery operated smoke
 28 detectors shall be considered as an approved detection device
 29 for residential buildings having direct access to the outside
 30 from each living unit and having three stories or less.~~

31

1 (9) The provisions of the Life Safety Code shall not
2 apply to newly constructed one-family and two-family
3 dwellings. However, fire sprinkler protection may be
4 permitted by local government in lieu of other fire protection
5 related development requirements in such structures.

6 Section 105. Effective July 1, 2001, subsections (1),
7 (3), (4), (8), and (9) of section 633.025, Florida Statutes,
8 as amended by section 59 of chapter 98-287, Laws of Florida,
9 are amended to read:

10 633.025 Minimum firesafety standards.--

11 (1) The Florida Fire Prevention Code and the Life
12 Safety Code adopted by the State Fire Marshal ~~Department of~~
13 ~~Insurance~~, which shall operate in conjunction with the Florida
14 Building Code, shall be deemed adopted by each municipality,
15 county, and special district with firesafety responsibilities.
16 The minimum firesafety codes shall not apply to buildings and
17 structures subject to the uniform firesafety standards under
18 s. 633.022 and buildings and structures subject to the minimum
19 firesafety standards adopted pursuant to s. 394.879.

20 (3) The most current edition of the National Fire
21 Protection Association (NFPA) 101, Life Safety Code, adopted
22 by the State Fire Marshal ~~Department of Insurance~~, shall be
23 deemed to be adopted by each municipality, county, and special
24 district with firesafety responsibilities as part of the
25 minimum firesafety code.

26 (4) Such codes shall be minimum codes and a
27 municipality, county, or special district with firesafety
28 responsibilities may adopt more stringent firesafety
29 standards, subject to the requirements of this subsection.
30 Such county, municipality, or special district may establish
31 alternative requirements to those requirements which are

1 required under the minimum firesafety standards on a
2 case-by-case basis, in order to meet special situations
3 arising from historic, geographic, or unusual conditions, if
4 the alternative requirements result in a level of protection
5 to life, safety, or property equal to or greater than the
6 applicable minimum firesafety standards. For the purpose of
7 this subsection, the term "historic" means that the building
8 or structure is listed on the National Register of Historic
9 Places of the United States Department of the Interior.

10 (a) The local governing body shall determine,
11 following a public hearing which has been advertised in a
12 newspaper of general circulation at least 10 days before the
13 hearing, if there is a need to strengthen the requirements of
14 the minimum firesafety code adopted by such governing body.
15 The determination must be based upon a review of local
16 conditions by the local governing body, which review
17 demonstrates that local conditions justify more stringent
18 requirements than those specified in the minimum firesafety
19 code for the protection of life and property or justify
20 requirements that meet special situations arising from
21 historic, geographic, or unusual conditions.

22 (b) Such additional requirements shall not be
23 discriminatory as to materials, products, or construction
24 techniques of demonstrated capabilities.

25 (c) Paragraphs (a) and (b) apply solely to the local
26 enforcing agency's adoption of requirements more stringent
27 than those specified in the Florida Fire Prevention Code and
28 the Life Safety Code that have the effect of amending building
29 construction standards. Upon request, the enforcing agency
30 shall provide a person making application for a building
31 permit, or any state agency or board with construction-related

1 regulation responsibilities, a listing of all such
2 requirements and codes.

3 (d) A local government which adopts amendments to the
4 minimum firesafety code must provide a procedure by which the
5 validity of such amendments may be challenged by any
6 substantially affected party to test the amendment's
7 compliance with the provisions of this section.

8 1. Unless the local government agrees to stay
9 enforcement of the amendment, or other good cause is shown,
10 the challenging party shall be entitled to a hearing on the
11 challenge within 45 days.

12 2. For purposes of such challenge, the burden of proof
13 shall be on the challenging party, but the amendment shall not
14 be presumed to be valid or invalid.

15

16 This subsection gives local government the authority to
17 establish firesafety codes that exceed the minimum firesafety
18 codes and standards adopted by the State Fire Marshal. The
19 Legislature intends that local government give proper public
20 notice and hold public hearings before adopting more stringent
21 firesafety codes and standards.A substantially affected
22 person may appeal, to the Department of Insurance, the local
23 government's resolution of the challenge, and the department
24 shall determine if the amendment complies with this section.
25 Actions of the department are subject to judicial review
26 pursuant to s. 120.68. The department shall consider reports
27 of the Florida Building Commission, pursuant to part VII of
28 chapter 533, when evaluating building code enforcement.

29 (8) Electrically ~~Battery~~ operated single station smoke
30 detectors required ~~shall be considered as an approved~~
31 ~~detection device~~ for residential buildings are not required to

1 be interconnected within individual living units in all
2 buildings having direct access to the outside from each living
3 unit and having three stories or less. This subsection does
4 not apply to any residential building required to have a
5 manual or an automatic fire alarm system.

6 (9) The provisions of the Life Safety Code shall not
7 apply to newly constructed one-family and two-family
8 dwellings. However, fire sprinkler protection may be
9 permitted by local government in lieu of other fire
10 protection-related development requirements for ~~in~~ such
11 structures.

19 for rule adoption by reference in Rule 9B-3.047, F.A.C., on
20 February 18, 2000, in the Florida Administrative Weekly on

27 by section 40 of chapter 98-287, Laws of Florida, and section
28 553.73(6)(c), Florida Statutes, as created by this act, for

2 Reverse Osmosis Drinking Water Treatment Systems.

3 (d) Waste or discharge from reverse osmosis or other
4 types of water treatment units must enter the drainage system
5 through an air gap or be equipped with an equivalent
6 backflow-prevention device.

7 (5) The Florida Building Commission is directed to
8 reinsert into the Florida Building Code Sections 104.3.2 and
9 104.6.2 of the Florida Building Code, Third Draft, related to
10 a building official's authority to elect to issue a permit

29 chapter 481, Florida Statutes.

30 (7) The Florida Building Commission is directed to
31 amend Section 127.5.9.8.5 of the Florida Building Code to make

1 clear that the building official may allow a special inspector
 2 to conduct all mandatory inspections in accordance with
 3 section 127.3 of the Code, without duplicative inspection by
 4 the building official. The building official is responsible
 5 for ensuring that any person conducting inspections is
 6 qualified as a building inspector under part XII of chapter
 7 468, Florida Statutes, or certified as a special inspector
 8 under chapter 471, Florida Statutes, or chapter 481, Florida
 9 Statutes.

10
 11 The Legislature declares that changes made to the proposed
 12 Rule 9B-3.047, Florida Administrative Code, to implement the
 13 requirements of this act prior to October 1, 2000, are not
 14 subject to rule challenges under section 120.56, Florida
 15 Statutes. However, the entire rule, adopted pursuant to s.
 16 120.54(3), Florida Statutes, as amended after October 1, 2000,
 17 is subject to rule challenges under s. 120.56, Florida
 18 Statutes.

19 Section 110. (1)(a) The Department of Community
 20 Affairs shall undertake a demonstration and education project
 21 to demonstrate the true cost associated with the
 22 implementation of the Florida Building Code. The project
 23 shall consist of the construction of 12 residential
 24 single-family homes in various regions of the state to the
 25 standards of the Florida Building Code. These project homes
 26 shall be used to determine the material and labor cost
 27 differential between the Florida Building Code and the current
 28 state minimum building code. The cost differential data shall
 29 be determined by two categories: those costs associated with
 30 compliance with ASCE-7-98 and those costs associated with
 31 other incremental costs associated with other compliance

1 provisions of the Florida Building Code. The department shall
2 provide the resources to offset any increased cost of building
3 to the Florida Building Code, and shall provide an analysis
4 and accounting of such additional costs prepared by an
5 appropriate engineering firm and accounting firm. These homes
6 shall be used for educational purposes in the local community,
7 and shall be utilized as a demonstration project available for
8 inspection and education training as determined by the
9 Residential Mitigation Construction Advisory Council.

10 (b) The results of the accounting and analysis shall
11 be forwarded by the department to the Florida Building
12 Commission for use in reviewing the Florida Building Code and
13 to the Department of Insurance.

14 (c) The department shall implement this project
15 following the effective date of this act.

16 (d) The Residential Mitigation Construction Advisory

23 findings to the Governor, the President of the Senate, and the
24 Speaker of the House of Representatives upon completion of the
25 construction and data collection.

26 Section 111. (1) The select committee to investigate
27 the feasibility of establishing performance-based criteria for
28 the cost-effective application of fire codes and fire code
29 alternatives for existing educational facilities established
30 by chapter 98-287, Laws of Florida, is authorized to continue
31 its investigation. Committee appointment authority

1 established by chapter 98-287, Laws of Florida, shall continue
 2 should any position on the select committee become vacant.
 3 Members of the committee shall serve at their own expense
 4 except that state employees shall be reimbursed for travel
 5 costs incurred from existing budgets in accordance with s.
 6 112.061, Florida Statutes.

7 (2) Funds in the amount of \$35,000 are appropriated to
 8 the State Fire Marshal from the Insurance Commissioner's
 9 Regulatory Trust Fund for the purposes of providing training
 10 and education to those impacted by its use on the application
 11 of the alternative fire safety standards for educational
 12 facilities. The Division of State Fire Marshal shall review
 13 the alternative code for existing educational facilities and
 14 may adopt such alternative code by rule as part of the Florida
 15 Fire Prevention Code as an acceptable alternative for code
 16 compliance.

17 Section 112. The Florida Building Commission shall
 18 examine the applicability of the full proposed Florida
 19 Building Code to buildings manufactured and assembled offsite
 20 but not intended for human habitation, including, but not
 21 limited to, storage sheds and lawn storage buildings. The
 22 commission shall consider whether such buildings should be
 23 subject to the same standards applicable to buildings intended
 24 for human habitation; the additional financial costs
 25 associated with compliance with such standards; the risk
 26 reduction effects associated with such compliance; and the
 27 long term economic and practical consequences attendant to
 28 such compliance. The commission shall report its findings and
 29 recommendations for statutory changes, if any, to the
 30 President of the Senate and the Speaker of the House of

31
