The Committee on Governmental Rules & Regulations offered the following:

Amendment

On page 47, lines 6-20,
remove from the bill: all of said lines

and insert in lieu thereof:

(3) The Board shall review continuing education requirements in other engineering licensure jurisdictions having such a requirement and report no later than January 1, 2001, the number of jurisdictions that require continuing education as a requirement of renewal of licensure, the number of hours of continuing education required, the cost to the registrant in fees and lost wages and any penalties for failure to meet continuing education requirements. In addition the report shall include the approximate number of regulating staff hours required to implement the requirement in each state, the estimated cost to each registrant, and the impact of the requirement on registrant compliance with engineering law and rules. In addition, the Board shall

Amendment No. 02 (for drafter's use only)

1 conduct a survey of a statistically valid number of
2 registrants in jurisdictions having a continuing education
3 requirement to determine registrant opinion as to the
4 availability and cost of the continuing education, and the
5 relevance of the continuing education requirement to the
6 improvement of their engineering practice. The Board shall
7 also evaluate the level of protection of the health, welfare
8 and safety of the public to see if there is any demonstrable
9 correlation between the imposition of continuing education
10 requirements and improvements to the level of protection of
11 the public.
