

**STORAGE NAME:** h0397s1.in

**DATE:** March 10, 2000

**HOUSE OF REPRESENTATIVES  
AS REVISED BY THE COMMITTEE ON  
INSURANCE  
ANALYSIS**

**BILL #:** CS/HB 397

**RELATING TO:** Health Insurance

**SPONSOR(S):** Committee on Health Care Services and Representative Patterson

**TIED BILL(S):**

**ORIGINATING COMMITTEE(S)/COMMITTEE(S) OF REFERENCE:**

- (1) HEALTH CARE SERVICES YEAS 11 NAYS 4
  - (2) INSURANCE
  - (3)
  - (4)
  - (5)
- 

**I. SUMMARY:**

CS/HB 397 removes the Department of Insurance's authority to promulgate rules setting standards for rate filing and approval, and sets out in statute, rather than administrative rule, standards to determine the reasonableness of rates.

The bill requires the department to disapprove or withdraw any previous approval of any individual accident and health insurance policy form if certain standards are met which establish that premium rates are not excessive or inadequate. Loss ratio standards to be satisfied for proof that premium rates are not excessive are set out in the bill. In addition, exceptions to these standards are established in statute.

In addition, the bill provides that premium rates qualify as not being inadequate if the insurer demonstrates, in accordance with generally accepted standards of actuarial practice, that the sum of premium income and investment income, minus the sum of benefit payments, expenses, taxes, and contingency margins is greater than zero.

The bill permits carriers to discontinue sales of a policy form and issue a new one with similar benefits without waiting a period of 5 years to file for approval.

The bill removes the requirement that the experience of all policy forms providing similar benefits shall be combined for all rating purposes. In place of this requirement, the bill requires the experience of an individual accident and health insurance policy form that is no longer being marketed in this state, except for policies rated pursuant to a loss ratio guarantee set in statute, to be combined with the experience of at least one other individual accident and health insurance policy form providing similar benefits, as determined by the insurer, which is still being marketed in the state by the same insurer, unless the insurer has no current policy form with similar benefits still being marketed in the state.

According to the Department of Insurance, this bill should have no fiscal impact on state and local government.

II. SUBSTANTIVE ANALYSIS:

A. DOES THE BILL SUPPORT THE FOLLOWING PRINCIPLES:

- |                                   |   |                             |   |
|-----------------------------------|---|-----------------------------|---|
| 1. <u>Less Government</u>         | Yes <input checked="" type="checkbox"/> | No <input type="checkbox"/> | N/A <input type="checkbox"/>            |
| 2. <u>Lower Taxes</u>             | Yes <input type="checkbox"/>            | No <input type="checkbox"/> | N/A <input checked="" type="checkbox"/> |
| 3. <u>Individual Freedom</u>      | Yes <input type="checkbox"/>            | No <input type="checkbox"/> | N/A <input checked="" type="checkbox"/> |
| 4. <u>Personal Responsibility</u> | Yes <input type="checkbox"/>            | No <input type="checkbox"/> | N/A <input checked="" type="checkbox"/> |
| 5. <u>Family Empowerment</u>      | Yes <input type="checkbox"/>            | No <input type="checkbox"/> | N/A <input checked="" type="checkbox"/> |

For any principle that received a "no" above, please explain:

B. PRESENT SITUATION:

The provisions of ch. 627, F.S., relate to insurance rates and contracts as part of the Florida Insurance Code. Part II of ch. 627, F.S., consisting of ss. 627.401-627.4301, F.S., relates to insurance contracts.

Section 627.410, F.S., provides, in subsection (1), that "no basic insurance policy or annuity contract form, or application form where written application is required and is to be made a part of the policy or contract, or group certificates issued under a master contract delivered in this state, or printed rider or endorsement form or form of renewal certificate, shall be delivered or issued for delivery in this state, unless the form has been filed with the Department of Insurance at its offices in Tallahassee by or in behalf of the insurer which proposes to use such form and has been approved by the department." This section further establishes requirements to be met by insurers for annual rate filing and rate change proposals. In addition, the department has the authority to establish by rule, for each type of health insurance form, procedures to be used in ascertaining the reasonableness of benefits in relation to premium rates.

Section 627.411, F.S., provides the circumstances in which the department may disapprove or withdraw approval of forms filed under s. 627.410, F.S. This section also includes factors to be considered when the department is determining whether the benefits are reasonable in relation to premiums charged.

Rule 4-149.005, F.A.C., sets requirements for determining the reasonableness of benefits in relation to premiums. This administrative rule states that "benefits will be determined to be reasonable in relation to the premium rates charged if the premium schedule is not excessive, not inadequate and not unfairly discriminatory. In determining whether a premium schedule satisfies these requirements, the Department will consider all items presented in the filing with special emphasis placed on the information included in the actuarial memorandum."

In addition, Rule 4-149.005, F.A.C., establishes the following loss ratio standards.

**Loss Ratio Table, Group Policies**

**Group Medical Expense:**

<u>Group Size</u>	<u>Loss Ratio</u>
Fewer than 51 certificates	65 percent
51 through 500 certificates	70 percent
All others	75 percent

**Group Medical Indemnity or Any Group Policy with an Average Annual Premium per Certificate of Less Than \$1,000:**

<u>Group Size</u>	<u>Loss Ratio</u>
Fewer than 51 certificates	57.5 percent
51 through 500 certificates	62.5 percent
All others	67.5 percent

**Loss Ratio Table, Individual Policies for the Line of Business Indicated**

**Medical Expenses:**

<u>Renewal Clause</u>	<u>Loss Ratio</u>
Noncancelable	55 percent
Nonrenewable	60 percent
Guaranteed Renewable	65 percent
All others	70 percent
Minimum Acceptable	55 percent

**Medical Indemnity, Loss of Income:**

<u>Renewal Clause</u>	<u>Loss Ratio</u>
Noncancelable	50 percent
Nonrenewable	55 percent
Guaranteed Renewable	60 percent
All others	65 percent
Minimum Acceptable	50 percent

According to the rule, blanket insurance is exempt from the loss ratios required above, and the minimum loss ratio for blanket insurance is 65 percent. The rule also establishes that "group conversion insurance, other than long-term care and Medicare supplement insurance, issued on either a group or an individual basis, is exempt from the loss ratios required above. The loss ratio for group conversion insurance shall not be less than 120 percent. The insurer may charge the excess of the group conversion loss ratio over that required for group insurance on active lives to the experience for insurance on active lives. The premium to be charged for group conversion insurance may not exceed the limits of s. 627.6675, F.S."

C. EFFECT OF PROPOSED CHANGES:

The bill would make various changes to the laws that apply to health insurance rates, ss. 627.410 and 627.411, F.S. In general, these changes would: allow insurers to utilize certain rating practices that are currently prohibited; specify certain loss ratio requirements in place of broader department discretion to disapprove a rate filing; provide greater freedom for an insurer to establish separate, segregated groups of policy forms on which claims experience and rates would be based, rather than being required to merge the experience of all similar policy forms.

More specifically:

- The bill would remove the department's authority to disapprove a health insurance policy form or rate filing based on the policy containing "provisions which are unfair or inequitable or contrary to the public policy of this state" or "which apply rating practices which result in premium escalations that are not viable for the policyholder market or result in unfair discrimination in sales practices." The bill would retain the requirement that benefits must be reasonable in relation to the premium charged. The bill would also specify loss ratio requirements that must be met, which are similar to the minimum loss ratio requirements that are established in the current rules adopted by the department.
- The bill would delete the current law that prohibits an insurer from filing a new policy form providing similar benefits for at least 5 years after the insurer provides notice to the department that it is discontinuing the availability of a policy form.
- The bill would delete the current requirement that the claims experience of all policy forms providing similar benefits be combined for all rating purposes. As revised, the insurer would be required to combine the experience of an individual health insurance policy form that is no longer being marketed in Florida with the experience of *at least one other* individual policy form, providing similar benefits, *as determined by the insurer*, which is still being marketed in the state.
- The bill would also amend the loss ratio guarantee provisions, under which the insurer guarantees that its policies will meet certain required minimum loss ratios and give policyholders a refund if the minimum loss ratio is not met. Under the bill, if the insurer has less than 500 policyholders in the state and less than 2,000 policyholders years nationwide, the insurer would be required to accumulate experience until the end of the calendar year in which 2,000 policyholder years are obtained.

D. SECTION-BY-SECTION ANALYSIS:

**Section 1.** Amends section 627.410, F.S., relating to filing and approval of insurance contract forms. The following subsections are amended:

Subsection (1) is amended to limit the applicability of form filing and approval under this section to *individual or small group* health insurance, rather than health insurance generally, and to delete reference to the inapplicability of this section to surety bonds.

Subsection (3) is amended to specify that Department of Insurance form and rate approval withdrawal be pursuant to s. 627.411(1), F.S., which is substantially amended by section 2 of the bill, and not "for cause," as current law specifies.

Subsection (6) is amended to specify that this provision does not apply to rating manuals, rating schedules, changes in rating manuals or schedules, or if rating manuals or schedules are not applicable, to premium rates or changes in such rates, relating to policies, riders, endorsements, or forms of unique character which are designed for and used with relation to insurance upon a particular subject or to benefits under group health insurance policies insuring 51 or more persons and are used at the request of the individual policyholder, contract holder, or certificate holder.

The Department of Insurance is authorized to establish, by rule, for each type of health insurance form, procedures to be used in ascertaining "that a form meets the standards in s. 627.411(2) for new rate filings and rate revisions in accordance with generally accepted standards of actuarial practice," rather than "the reasonableness of benefits in relation to premium rates," the current standard.

Provisions are removed that: require an insurer to continue to make available for purchase any individual policy form issued on or after October 1, 1993; provide that a policy form shall not be considered to be available for purchase unless the insurer has actively offered it for sale in the previous 12 months; and require an insurer that discontinues the availability of a policy form to wait 5 years after the insurer provides notice to the department of the discontinuance to file for approval a new policy form providing similar benefits as the discontinued form.

The requirement that the experience of all policy forms providing similar benefits shall be combined for all rating purposes is removed and replaced with language that requires the experience of an individual accident and health insurance policy form that is no longer being marketed in this state, except for policies rated pursuant to a loss ratio guarantee under subsection (8) to be combined with the experience of at least one other individual accident and health insurance policy form providing similar benefits, as determined by the insurer, which is still being marketed in the state by the same insurer, unless the insurer has no current policy form. Language is also added which specifies that, for purposes of this section, a form is considered active if the form has been marketed in this state in the past 6 months, as opposed to the current requirement which specifies a 12 month period.

Subsection (7), relating to form filing requirements, is amended to specify that insurance policy forms, excluding noncancellable policy forms, must establish compliance with the standards of s. 627.411(2), F.S., relating to the Department of Insurance's form approval, as substantially rewritten by section 2 of the bill.

This subsection also requires insurers to *establish*, rather than *demonstrate*, the reasonableness of benefits in relation to premium rates. The requirement that rate filings comply with laws and rules promulgated by the department is removed, and rate filing requirements are established providing that for premium rate changes, benefits shall be deemed reasonable in relation to premium charged if both of the following loss ratios meet or exceed the standards established in s. 627.411(2), F.S. Lifetime loss ratios must exceed the loss ratio standard for the form and the future loss ratio must exceed the loss ratio for the form. Interest shall be used in the calculation of the accumulated benefits and premiums and present values. Factors are specified which may be used in determining: the present value of benefits; the present value of premiums; anticipated loss ratios; coverage special considerations; and other factor special considerations.

The requirement that, if no rate change is proposed, a filing which consists of a certification by an actuary that benefits are reasonable in relation to premiums currently charged in accordance with applicable laws and rules promulgated by the department is removed, and

language is added to require such filing to be in accordance with the loss ratio established in this section and s. 627.411(2), F.S.

Language is added to specify that, for premium rate changes for group policy forms, benefits shall be reasonable in relation to premium charged if the anticipated loss ratio over the entire future period for which the revised rates are computed to provide coverage meets or exceeds the standards established in the revised s. 627.411(2), F.S.

Authorization is also added for an insurer to combine the experience of similar policy forms in the required filing.

In those instances in which an insurer fails to meet filing requirements and does not submit the filing within 60 days of the date the filing was due, the Department of Insurance may order the insurer to discontinue issuance of the policies for which the required filing was not made until such time as the required filing is submitted. Language is deleted which relates to the Department of Insurance determining that the required filing is properly submitted under such circumstances.

Subsection (8) is amended to: permit Medicare supplement policies to be filed pursuant to loss ratio guarantee; remove the Department of Insurance's authority to disapprove or withdraw approval of a form if filed under a loss ratio guarantee; and establish that compliance requirements for such forms are set in this section. For calculations of an "applicable loss ratio," authority is granted that, if there are less than 2,000 policyholder years nationwide, the experience must be accumulated until the end of the calendar year in which 2,000 policyholder years are obtained.

**Section 2.** Amends s. 627.411, F.S., relating to disapproval of forms, to remove the authority of the Department of Insurance to disapprove or withdraw any previous approval, if the form contains provisions which are unfair or inequitable or contrary to the public policy of this state or which apply rating practices which result in premium escalations that are not viable for the policyholder market or result in unfair discrimination in sales practices. Removes the department's authority to determine whether benefits are reasonable in relation to the premium charged through the use of reasonable actuarial techniques, and provides that benefits are deemed reasonable in relation to the premium charged if premium rates are neither excessive no inadequate, as specified in subsection (2).

Loss ratio standards for determining whether premiums are deemed to be not excessive are as follows:

**Loss Ratio Table, Individual Policies for the Line of Business Indicated**

**Medical Expenses:**

<u>Renewal Clause</u>	<u>Loss Ratio</u>
Noncancelable	55 percent
Nonrenewable	60 percent
Guaranteed Renewable	65 percent
All others	70 percent

**Medical Indemnity, Loss of Income:**

**STORAGE NAME:** h0397s1.in

**DATE:** March 10, 2000

**PAGE 7**

<u>Renewal Clause</u>	<u>Loss Ratio</u>
Noncancelable	50 percent
Nonrenewable	55 percent
Guaranteed Renewable	60 percent
All others	65 percent

**Loss Ratio Table, Group Policies**

**Group Medical Expense:**

<u>Group Size</u>	<u>Loss Ratio</u>
Fewer than 51 certificates	65 percent
51 through 500 certificates	70 percent
All others	75 percent

**Group Medical Indemnity or Any Group Policy with an Average Annual Premium per Certificate of Less Than \$1,000:**

<u>Group Size</u>	<u>Loss Ratio</u>
Fewer than 51 certificates	57.5 percent
51 through 500 certificates	62.5 percent
All others	67.5 percent

Exceptions to these standards include the following:

Group conversion insurance, other long-term care insurance and Medicare supplement insurance, issued on either a group or individual basis, shall have a loss ratio of not less than 120 percent, subject to the limits described in s. 627.6675, F.S.

Blanket insurance is exempt from the loss ratios described above, and the minimum loss ratio for blanket insurance is 65 percent.

Medicare supplement and long-term care insurance are exempt from the loss ratios described above. The minimum loss ratios for Medicare supplement insurance shall be established in accordance with s. 627.6745, F.S. The minimum loss ratios for long-term care insurance shall be at least 60 percent, based on specified criteria.

Methodologies are specified for the calculation of the anticipated future loss ratio and the lifetime loss ratio, including the use of interest.

For minimum loss ratios, the dates of June 1, 1994, and February 1, 1994, are made applicable to individual contracts and group certificate forms, providing a "grandfathering" of certain forms.

An insurer is required to justify an anticipated loss ratio lower than those otherwise specified, based on applicable special circumstances.

Premium rates are not inadequate if the insurer demonstrates, in accordance with generally accepted standards of actuarial practice, that the sum of premium income and investment

income, minus the sum of benefit payments, expenses, taxes, and contingency margins is greater than zero.

**Section 3.** Provides for an effective date of July 1, 2000.

III. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT:

A. FISCAL IMPACT ON STATE GOVERNMENT:

1. Revenues:

None.

2. Expenditures:

None.

B. FISCAL IMPACT ON LOCAL GOVERNMENTS:

1. Revenues:

None.

2. Expenditures:

None.

C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:

Unknown.

D. FISCAL COMMENTS:

None.

IV. CONSEQUENCES OF ARTICLE VII, SECTION 18 OF THE FLORIDA CONSTITUTION:

A. APPLICABILITY OF THE MANDATES PROVISION:

This bill does not require counties or municipalities to spend funds or to take action requiring the expenditure of funds.

B. REDUCTION OF REVENUE RAISING AUTHORITY:

The bill does not reduce the authority that counties or municipalities have to raise revenues in the aggregate.

C. REDUCTION OF STATE TAX SHARED WITH COUNTIES AND MUNICIPALITIES:

This bill does not reduce the percentage of a state tax shared with counties or municipalities.

V. COMMENTS:

A. CONSTITUTIONAL ISSUES:

None.

B. RULE-MAKING AUTHORITY:

The Department of Insurance's rule-making authority specific to rate form approval for health insurance policies written in this state are greatly curtailed by this bill.

C. OTHER COMMENTS:

General staff comment: It appears that the loss ratio standards that are incorporated into statutes by this bill are very similar to those standards in current Department of Insurance rules.

VI. AMENDMENTS OR COMMITTEE SUBSTITUTE CHANGES:

Five amendments, sponsored by Representative Patterson, were adopted. These amendments: deleted an exemption of long-term care policies from the prohibition against the use of attained age premium structures; clarified the applicability of filing requirements for certain guaranteed renewable policies; clarified the applicability of certain loss ratio thresholds; corrected a cross-reference relating to Medicare supplement policy loss ratios; and restored limited rule-making authority for the Department of Insurance for purposes of rate filing and review. The bill was approved as a committee substitute.
