**I. SUMMARY:**

The bill permits a person over the age of 16 years to ride unrestrained on the exterior of a vehicle, including the bed of a pickup truck.

The bill would make it unlawful for a person 16 years of age and younger to ride on any portion of a vehicle not designed or intended for the use of passengers, including the bed area of a pickup truck. This prohibition does not apply to employees while performing their duties or to a person riding within truck bodies in the space intended for merchandise. (This is the provision that authorizes persons to be transported in the bed area of a pickup truck.)

The bill exempts the following persons from this passenger seating restriction:

- An employee of a fire department and a volunteer firefighter;
- A governmentally operated solid waste disposal department and a waste disposal service operating pursuant to a contract with a governmental entity; and
- A person being transported in response to an emergency by a public agency or pursuant to the direction or authority of a public agency.

The bill specifies that no person 16 years of age or younger shall ride on the public roads of the state within the body of an open pickup truck or flatbed truck unless the minor is restrained within the back of a truck that has been modified to include secure seating and safety restraints. Furthermore, the bill stipulates that the Florida child restraint requirements for a minor 5 years of age or younger are applicable to persons riding in the body of an open pick-up truck. The seating and restraint requirement would not apply during a medical emergency if the child is accompanied within the truck by an adult or when the truck is being operated on a farm or off the public roads.

The bill authorizes counties and municipalities to adopt ordinances which would allow persons to ride in the body of an open pickup or flatbed truck.

The bill has no known fiscal impact to the state. Motor vehicle passengers would be responsible for complying with the bill's seating and restraint requirements.

II. SUBSTANTIVE ANALYSIS:

A. DOES THE BILL SUPPORT THE FOLLOWING PRINCIPLES:

Motor vehicle passengers 16 years of age or less are required to be properly restrained when riding in pickup truck beds.

B. PRESENT SITUATION:

Currently, it is unlawful for a driver of a passenger vehicle to permit someone to ride on the exterior of a vehicle, except when the passenger occupies a seat that is securely attached to the exterior of the vehicle (s. 316.2015(1), F.S.). A driver who violates this subsection is subject to a \$60 fine, plus court costs and add-ons.

It is also unlawful for a person to ride on any portion of a vehicle not designed or intended for the use of passengers (s. 316.2015(2), F.S.). This prohibition does not apply to an employee while performing their duties or to a person riding within the space of a truck that is intended for merchandise. (This is the provision that authorizes persons to be transported in the bed area of a pickup truck.) In addition, this section does not apply to a performer engaged in a professional exhibition, parade, or any person preparing to participate in such an activity. A person who rides on a vehicle in violation of this subsection is subject to a \$30 fine, plus court costs and add-ons.

C. EFFECT OF PROPOSED CHANGES:

The bill amends s. 316.2015, F.S., to make it unlawful for a person 16 years of age and younger to ride on any portion of a vehicle not designed or intended for the use of passengers, including the bed area of a pickup truck.

The bill exempts the following persons from the passenger seating restriction:

- An employee of a fire department and a volunteer firefighter;
- A governmentally operated solid waste disposal department and a waste disposal service operating pursuant to a contract with a governmental entity; and
- A person being transported in response to an emergency by a public agency or pursuant to the direction or authority of a public agency.

This bill specifies that no person 16 years of age or younger may ride on the public roads of the state within the body of an open pickup truck or flatbed truck unless the minor is restrained within the back of a truck which has been modified to include secure seating and safety restraints that would prevent the minor from being thrown, falling, or jumping from the truck. Furthermore, the bill stipulates that the Florida child restraint requirements for a minor 5 years of age or younger are applicable to persons riding in the body of an open

pick-up truck. The restraint restriction would not apply in a medical emergency if the child is accompanied within the truck by an adult or when the truck is being operated upon a farm or off public roads.

The bill further authorizes counties and municipalities to adopt ordinances to allow a person to ride in the body of an open pickup or flatbed truck.

VI. AMENDMENTS OR COMMITTEE SUBSTITUTE CHANGES:

The bill originally filed prohibited *all* persons from riding in the area of a vehicle which is not intended for passenger use unless otherwise exempted. Exemptions specified in the bill include, but are not limited to: an employee of a fire department; a governmentally operated solid waste disposal department; a waste disposal service operating pursuant to a contract with a governmental entity; a volunteer firefighter; a person who is being transported in response to an emergency by a public agency; or a person 16-years of age and younger if they meet applicable restraint requirements.

An amendment was offered that authorizes persons over 16 years of age to ride unrestrained in the back of a truck and makes it unlawful for a person 16 years of age and younger to ride in the bed of a pickup truck unless they are restrained. The amendment also maintained a current exemption which authorizes an employee to ride on a vehicle in a non-passenger space when in the discharge of duty. Furthermore, the amendment clarified that the Florida child restraint requirements for minors 5 years of age and younger were still applicable.

The bill was reported favorably as a committee substitute.
