Representative(s) Sorensen offered the following:

**Amendment to Substitute Amendment (832651)**

On page 2, line 8 through page 3, line 13,  
remove from the substitute amendment: all of said lines

and insert in lieu thereof:

However, disposal systems serving as backups to reuse systems shall be required to meet the following effluent water quality limitations ~~comply with the other provisions of this act.~~ Systems discharging for no more than 25 days per year and less than 100,000 gallons per day based on the annual average daily flows to the backup system, including any other discharge of effluent to the backup system or other injection wells, shall provide a level of treatment that will produce an effluent that contains, on an annual average basis, not more than 10 milligrams per liter of biochemical oxygen demand, 10 milligrams per liter of suspended solids, 10 milligrams per liter of total nitrogen, and 1 milligram per liter of total phosphorous. Systems discharging more than 25 days per year or more than 100,000 gallons per day based on the annual average

Amendment No. 01 (for drafter's use only)

1 daily flows to the backup system, including any other  
2 discharge of effluent to the backup system or other injection  
3 wells, shall provide a level of treatment that will produce an  
4 effluent that contains, on an annual average basis, not more  
5 than 5 milligrams per liter of biochemical oxygen demand, 5  
6 milligrams per liter of suspended solids, 3 milligrams per  
7 liter of total nitrogen, and 1 milligram per liter of total  
8 phosphorous. Such systems shall comply with the Department of  
9 Environmental Protection's reuse rules.

10 (d) In areas that are scheduled to be served by a  
11 central sewage facility before July 1, 2010, interim  
12 construction standards for new, expanded or existing onsite  
13 sewage treatment and disposal systems shall be allowed.

14 1. Interim system requirements shall be allowed  
15 through July 1, 2004, for onsite sewage treatment and disposal  
16 systems under the jurisdiction of the Department of Health, as  
17 defined in 381.0065, Florida Statutes, in areas that are  
18 scheduled to be served, according to an adopted local  
19 comprehensive plan determined to be in compliance by the  
20 Department of Community Affairs, by a central sewage facility  
21 before July 1, 2010. The interim system requirements shall be  
22 those interim standards for the Florida Keys contained in  
23 Department of Health rules effective on March 3, 1998.
