ORIGINAL STAMP BELOW

11 The Committee on Local Government & Veterans Affairs offered  
12 the following:

14 **Amendment (with title amendment)**

15 Remove from the bill: Everything after the enacting clause

17 and insert in lieu thereof:

18 Section 1. Subsection (8) of section 6 of chapter  
19 99-395, Laws of Florida, is amended to read:

20 Section 6. Sewage requirements in Monroe County.--

21 (8) The requirements of subsections (2)-(7) do not  
22 apply to the following:

23 (a) Class 1 injection wells as defined by Department  
24 of Environmental Protection rule, including any authorized  
25 mechanical integrity tests.

26 (b) Authorized mechanical integrity tests associated  
27 with Class V wells as defined by Department of Environmental  
28 Protection rule.

29 (c) The following types of reuse systems authorized by  
30 Department of Environmental Protection domestic wastewater  
31 rules:

Amendment No. 01 (for drafter's use only)

- 1           1. Slow-rate land application systems;
- 2           2. Industrial uses of reclaimed water; and
- 3           3. Use of reclaimed water for toilet flushing, fire
- 4 protection, vehicle washing, construction dust control, and
- 5 decorative water features.

6  
7 However, disposal systems serving as backups to reuse systems  
8 shall be required to meet the following effluent water quality  
9 limitations ~~comply with the other provisions of this act.~~

10 Systems discharging less than 100,000 gallons per day based on  
11 the annual average daily flows to the backup system, including  
12 any other discharge of effluent to the backup system or other  
13 injection wells, shall provide a level of treatment that will  
14 produce an effluent that contains, on an annual average basis,  
15 not more than 10 milligrams per liter of biochemical oxygen  
16 demand, 10 milligrams per liter of suspended solids, 10  
17 milligrams per liter of total nitrogen, and 1 milligram per  
18 liter of total phosphorous. Systems discharging 100,000  
19 gallons per day or more based on the annual average daily  
20 flows to the backup system, including any other discharge of  
21 effluent to the backup system or other injection wells, shall  
22 provide a level of treatment that will produce an effluent  
23 that contains, on an annual average basis, not more than 5  
24 milligrams per liter of biochemical oxygen demand, 5  
25 milligrams per liter of suspended solids, 3 milligrams per  
26 liter of total nitrogen, and 1 milligram per liter of total  
27 phosphorous. Such systems shall comply with the Department of  
28 Environmental Protection's reuse rules.

29           (d) In areas that are scheduled to be served by a  
30 central sewage facility before July 1, 2010, interim  
31 construction standards for new, expanded or existing onsite

Amendment No. 01 (for drafter's use only)

1 sewage treatment and disposal systems shall be allowed.

2 1. Interim construction standards for undocumented  
3 systems, cesspit replacements, system modifications and new  
4 onsite sewage treatment and disposal systems in such areas  
5 shall be in compliance with interim standards in effect on  
6 March 3, 1998.

7 2. In such areas approved, existing onsite sewage  
8 treatment and disposal systems in failure may be repaired with  
9 in-kind replacements of the approved existing system. At a  
10 minimum, existing drainfields must be replaced with a  
11 drainfield in compliance with rules in effect on March 3,  
12 1998.

13 Section 2. This act shall take effect upon becoming a  
14 law.

17 ===== T I T L E A M E N D M E N T =====

18 And the title is amended as follows:

19 On page,  
20 remove from the bill: entire title

21  
22 and insert in lieu thereof:

23 A bill to be entitled  
24 An act relating to Monroe County; amending ch.  
25 99-395, Laws of Florida; establishing effluent  
26 water quality limitations for reuse systems;  
27 provides interim construction standards for  
28 new, expanded, or existing onsite sewage and  
29 disposal systems scheduled to be served by a  
30 central sewage facility before July 1, 2010;  
31 providing an effective date.
